FIFTY MILLION MORE

TO BE ISSUED IN STOCK BY THE C. P. R.

Total Stock Will Then Amount to Two Hundred Million—August Canal Shipments Show Big Wheat Increase.

Montreal, Sept. 2.—The most important item of business to come before the shareholders of the Canadian Pacific railway at the annual meeting to be held on October 7th, will be the consideration of the request of the directors to authorize the issue of $50,000,000 additional common stock. This will bring the total authorized issue up to $200,000,000 of common stock, the $150,000,000 previously authorized having been about used up. It is not stated in the official announcement that it is the intention to issue any part of the additional fifty millions at the present time, but the issue will be made from time to time as the directors deem the circumstances necessary.

Canal shipments for August show a remarkable increase in wheat shipments over the same month last year. A large percentage of the increase is United States grain from western states through Chicago and Duluth. Other grains show a large decrease. Corn particularly has dropped off the figures. The records show wheat shipments of 3,671,820 bushels compared with 1,841,019 in August last year. Oats, however, fell from 647,389 to 158,000 and corn from 375,000 to nil, and other grains in proportion.

Judge Cassells convened his court in this city, this morning, for the purpose of resuming the enquiry into the department of marine and fisheries which was interrupted some months ago.

Harold Garside, who married Emeie G. Peck, in Ottawa, on January 13th, 1908, has been arrested on a charge of vagrancy preferred by the charity organization, but it is probable that bigamy will be the eventual crime charged. Garside is said to have a wife and family in Yorkshire, Eng.

OUSTED FROM SECOND PLACE.

Beaten By St. Louis, Cubs Yield Position.

Baseball interest was again at white heat, Tuesday, with all three clubs fighting for the National League leadership in action, and two of them playing double-headers.

With less than a game separating first and third positions, a decided shake-up was easily possible.

As it was, the important change was the fall of Chicago, beaten by St. Louis, from second to third place, Pittsburg winning a double-header from Cincinnati and gaining the second position.

New York's two victories ove. Boston slightly lengthened the lead of the former club.

The standing of the three leading clubs, this morning, is:

Club.	Won.	Lost.	P.C.
New York	71	45	.612
Pittsburg	72	47	.605
Chicago	71	48	.597

Eastern League—Montreal, 2; Baltimore, 1. Providence, 4; Buffalo, 0. Rochester, 2; Jersey City, 0. Newark, 6; Toronto, 4.

American League—Cleveland, 1; Detroit, 0. New York, 4-0; Philadelphia, 3-4. Washington, 6; Boston, 0. Chicago, 13; St. Louis, 3.

National League—New York, 4-8; Boston, 1-0. Philadelphia, 4-9; Brooklyn, 2-9. St. Louis, 5; Chicago, 4. Pittsburg, 10-9; Cincinnati, 2-2.

SMELTING WORKS.

The Building at Deseronto Totally Destroyed.

Deseronto, Sept. 2.—During an electric storm, last night, the smelting works, owned by the Deseronto Iron company, were struck by lightning and totally destroyed. The fire broke out in a shed which was being built for the purpose of storing a large supply of charcoal. The iron works, which had been closed down for five months past, were being fitted out and were expected to start again very soon. Their destruction is a great loss to the town, as they were the only works which were expected to run steadily the year round. It is not known whether the works will be rebuilt, but it is thought to be doubtful.

Fell And Cut His Face.

John Morgan, deck hand on the Montreal Transportation company's steamer Rosemount, met with a severe accident, while the boat was in port. During the night the men were putting down the hatches when Morgan slipped and fell, inflicting a nasty gash over his right eye. The boat was ready to pull out, but was held until Morgan was removed to Dr. Hanley's office, where seven stitches were required to close the wound. The injured man was able to leave on the boat as soon as his wound was dressed.

Noon Stock Letter.

New York, Sept. 2.—The satisfactory result of the Vermont elections very favorably affected the prices in the stock market this morning. The railroads, especially those identified with the Harriman interests, were especially active and strong. The industrials, however, showed a disposition to lag behind. Interest just now centres on Southern Pacific and Erie with reference to Harriman's intentions, which at present show the speculative mystery. The Hills showed a better tone than for some time past. At noon the market was a little reactionary, but dullness prevailed on the weak spots which is not a bearish sign.

Noon Cotton Letter.

New York, Sept. 2.—Interests who were bearish at higher prices and who took profits on October are selling again on hard spots and these are the people whose information on spot and trade conditions are of best. We do not expect any change in sentiment while southern spot markets continue to show a declining tendency and while the weather in the south continues as favorable as it has been since the heavy rains of last week.

RAILWAYS HAMPERED

BY THE STRINGENT LORD'S DAY ACT.

Argument Before Railway Commission on Toronto Case—International Machinist Officer Fined at Montreal.

Ottawa, Sept. 2.—Argument over the Lord's Day act in respect to its hampering the operation of railways, was continued before the Dominion railway commission this morning. H. L. Drayton explained that in Toronto there were two freight yards and Sunday was occupied in necessary transfers of cars from one to another. The work was not "originated" there but rather sent on to its destination. He had not pressed for conviction at the police court there, leaving the matter to be settled by the commission. It was the railway company's business to provide facilities to conform with the law and arrange to handle its business in six days of the week as provided as law. W. R. Tiffin, superintendent of the G.T.R. northern division, spoke of the delay and hardships involved unless a certain amount of forwarding and making up were allowed the railways. Other evidence was given showing the loss to the companies and that the bill operated in favor of United States lines.

The railway board at the end of the enquiry into Sunday labor indicated that a relaying order will be granted to the railways conditionally.

James Somerville, second vice-president of the international association of machinists, and who represented the men in the arbitration proceedings, previous to the present mechanics strike, was fined $3 and $2 costs in the police court this morning on the charge of using insulting language. It was shown that he had called one of the present employees a "scab." Somerville denied the charge but the magistrate held the weight of evidence was against him and so imposed a fine which was practically nominal. A charge of trespassing was dismissed as it was not clear just what part of the C.P.R. yards the public had a right to be in. Somerville was arrested yesterday afternoon by a special constable but was allowed out on bail.

Yesterday a dispute arose while unloading coal at a Hull dock, and Elias Duguay, Pasbelrac, Que., threatened to shoot the foreman. He fired a gun several times, but the shots were wide. He was, to-day, fined $20 for carrying fire-arms without license, $2 for being drunk, and will be tried by a judge for attempting to kill.

SPEAKS WELL OF HIM.

The Opinion of Mackenzie King of Ottawa.

Special to the Whig.

Ottawa, Sept. 2.—"I do not think any better man could have been secured if they had searched throughout Canada," said Mackenzie King, deputy minister of labor, when asked, to-day, what he thought of the appointment of Prof. Shortt, of Queen's university, as one of the civil service commissioners.

"He is a man absolutely fearless and who is an authority on banking and financial matters," continued Mr. King, "and I believe his appointment will meet with the approval of the members of the civil service. His experience with students for the last twenty years and on cases he has worked on for the department will also be of value to him."

BICYCLISTS BEWARE.

Police After Those Who Ride on Sidewalk.

The police are out with a big stick after all bicyclists who ride on the sidewalk. A large number of complaints have been made about people going on the walks and causing citizens a great deal of inconvenience, and the police have decided to make a crusade against all the offenders. A fine in the police court will be the result. It is some time since anyone was before the court on such a charge, but there is every chance of the magistrate having a case very shortly, unless the nuisance complained of is stopped.

BLINDED BY GASOLINE.

New York Broker Victim of Explosion.

Fredericton, N.B., Sept. 2.—Arthur Robinson, a wealthy New York stock broker, who owns sporting camps at Holmes Lake, in the wilds of Miramichi, was seriously injured at the place, on Saturday, by the explosion of a gasoline tank on a motor boat. His hands were terribly lacerated and he was badly injured about the head and face. The accident happened fifty miles from civilization, and one of the guides travelled that distance on foot and returned with a doctor and two nurses. Robinson was blinded by the explosion, and it is feared that his sight cannot be restored.
