FRUIT JUICES CLEAR THE SKIN

The skin mirrors faithfully the state of the blood, and the blood shows how well—or how badly—the liver, bowels, kidneys and the millions of tiny glands in the skin are doing their work. If these organs are not properly clearing out the waste matter, the blood will be poisoned and the skin sallow, "muddy" and sprinkled with pimples.

Plenty of ripe fruit helps more than any other food to cure this condition, but even more effective, as well as less expensive, are "Fruit-a-tives." These are little tablets of concentrated fruit juices, combined in such a way as to many times increase their action on those organs that eliminate impurities. One or two "Fruit-a-tives" a day will keep the blood pure and give the skin the clear glow of health. 25c for trial size box—50c for regular size—6 for $2.50. Dealers everywhere should have both sizes. If you are unable to obtain "Fruit-a-tives" in your neighborhood, they will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

The Meanest Of Steals.

Ottawa Journal.

Adulterating milk with water is illegal as well as dishonest, yet according to Superintendent G. G. Publow it is being practised in several parts of Eastern Ontario by patrons of cheese factories. Sixty cases of adulteration have been dealt with already this year by the public prosecutors and this week he handed over to one of them twenty-one more cases. Last week five cases were settled at an average fine of $25. No district is seemingly exempt from this evil. There have been several cases in the Cornwall district, two in Instructor Dool's syndicate, ten or twelve in Instructor Charbonneau's district and two in Instructor Villenevue's. On one factory in Russell county there were five cases this season. Five cases in the Kemptville district have to be settled yet and three found in the Cornwall district. Last week three patrons in the Iroquois district were fined $20 each, three in the Alexandria district, $5 each and one $15. In another district a patron was fined $50. In most instances the defendants have acknowledged to adding the water or skimming off the cream. Half of the money levied is returned to the cheese factory and the other half goes to the Eastern Ontario Dairymen's Association.

After he has hammered his thumb nail a few times it is easy for a man to feel that he really has not the time to nail down the hall carpet.

WOLFE ISLAND NEWS.

There Have Been Many Property Exchanges.

Wolfe Island, Oct. 19.—There was a five-cent concert held in the Presbyterian church in the village on Friday evening, and was largely attended. Those who took part acted their parts exceedingly well. The ferry steamer made a special trip to the city on Saturday evening for the play at the Grand, and a great many took advantage of the trip. Dr. Edwards will hold his meeting in the C.M.B.A. hall on Thursday evening. W. T. Woodman, of the foot, has delivered coal enough to supply that section of the island. He had the boat to land along the shore wherever the largest quantity was to be delivered. Dr. Tyner, killed in an auto accident near Picton, was a nephew of John Abbott. Patrick Hawkins has taken over the syndicate horse to take charge of him for the coming year. F. Fawcett has resigned that position. Mrs. Thomas Getts and Miss Liza Allinson have return from New York, where they spent a week.

Robert Horne has moved to the brick house by the canal and has sold his farm at the foot to John McDonald, son of D. McDonald. Daniel McLaren has finished his fine new residence situated on the banks of Big Bay. It has all the modern improvements and had the finishing coats of paint put on last week. J. S. Briceland did the work. John Ryan, Rosiere, N.Y., was taken suddenly ill last week and his sister, Mrs. Flood, was called over to see him. Mrs. H. D. Hinckley was the guest of some of her friends in Cape Vincent last week. There has been so much moving and buying of places on the island this fall that it would be necessary to put a card on one's gate post to tell where one lives.

Duncan McLaren has moved to his farm and Louis Fargo will work Trot's point. There were three dances and a social last week, a dance at R. Halliday's, a box social in aid of the English church, and dances at C. Halliday's and John Abbott's. Mrs. Gray of Ferguson Falls, and her sister, Mrs. McDonough, have left for home after a two weeks' visit with their mother here. George Whitmarsh has moved into the brick house of Mrs. Robert Boyd. Robert Boyd has bought the Hennessy place for the sum of $4,100. Frank Walker has bought Miss Mary Laird's place for $5,500. Job Watts has sold his farm to his son David, and James Grant has bought David Watts' fifty acres. Richard Laughlin's scow got water-logged route for Kingston on Wednesday last and lost twenty ton of hay belonging to Mr. Garrison. James Keegan broke a bone in his arm while plowing one day last week. Mrs. Thomas Briceland and Mrs. Peter Ward of Watertown, are visiting friends here. Oscar Fawcett has purchased the fifty acres that Mr. Solomon lived on.

Judge Between Them.

Do the conservatives tell the people that in eighteen years they only gave 9,952,840 acres to homesteaders, and that in twelve years the liberal government has given 35,501,600 acres free to actual homesteaders settled upon the land?

How about the land for the settler? The conservatives gave the land to the corporation, the monopolist, and the land was kept vacant until the hard-working farmer had to pay big prices out of his hard-earned savings to acquire from a grasping corporation what the government should have given him free.

Do the conservatives tell the people that the odd numbered sections were reserved by them for eighteen years, as land grants for railway corporations, who were in no hurry to select their land, because after selection they became liable to provincial and municipal taxation.

The per capita circulation of the United States is exceeded by only one other country of importance—France.

EAT WHAT YOU WANT,

But Find the Way to Digest What You Do Eat.

The first thing to do in the case of indigestion or stomach weakness is to strengthen the muscular walls of the stomach and intestines, so that they will care for the food that is eaten. In no other way can this be done as well as by taking a mi-o-na tablet before each meal. This restores strength to the stomach muscles and stimulates the pouring out of gastric juices, then the food digests readily and you begin to get the full benefit from what you eat.

Use Mi-o-na whenever you have sick headache, heartburn, bad taste in the mouth, coated tongue, spots before the eyes, sleeplessness and the many other symptoms that are the direct result of indigestion.

G. W. Mahood gives with every 50 cent box of Mi-o-na a guarantee to refund the money unless the remedy cures.

A BALD NEWSPAPER MAN.

Getting a New Crop of Hair, and Has No More Dandruff.

Everybody in the North-West knows Col. Daniel Searles, the veteran journalist and publicist, of Butte. January 10th, 1900, the colonel writes: "I used a couple of bottles of Newbro's Herpicide with marvellous results. The dandruff disappeared, a new crop of hair has taken root, and the bald spot is rapidly being covered." Herpicide is the only hair preparation that kills the dandruff germ that digs up the scalp in scales as it burrows its way to the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out. Kill the dandruff germ, with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and $1. G. W. Mahood, special agent.
