CARLING'S LIQUID MALT EXTRACT

A Strengthening and Stimulating Tonic for invalids and convalescents. Indispensable for nursing mothers.

NATIONAL DRUG AND CHEMICAL CO. SOLE AGENTS

If Sick

Don't risk even one single penny!

And I will tell you why I say this.

It is because every package of Dr. Shoop' medicine *is absolutely free if it fails.*

No one need risk even one single penny.

Just think what this means to the suffering sick!

No risk, no expense, nothing whatever unless health first returns. For 30 full days, and without the risk of a single penny, you can use either of my two famous remedies—Dr. Shoop's Restorative or Dr. Shoop's Rheumatic Remedy.

Then why take any chance whatever?

Why purchase any medicine whose maker dare not back it just as I do by this remarkable offer?

And besides, I am no stranger to you.

My "No pay if pain has made Dr. Shoop's Restorative a favorite in every drug store in the land. The sick have written and said, 'We take no chance whatever here.'"

For twenty years Dr. Shoop's medicines have become thoroughly standardized all over America.

And I have appointed honest and responsible druggists in every city and village everywhere to act as my agents and yours. These selected druggists are placing my medicines with the sick—and the entire risk is mine alone.

But write me first for an order.

I have an agent in almost every community—but all druggists are not authorized to grant the 30 day test.

So drop me a line, please—and thus save all disappointments and delays.

Besides, you are free to consult me by letter as you would your home physician. Do so freely and fully—if you desire. My advice and the book below are yours—and without cost. Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private prescription or personal advice plan.

Besides, the books will open up new and helpful ideas to you. They tell of my 30 years experience at the bedside in homes and in Hospitals. All phases of sickness and relief are told of here. They tell of the Organ "inside nerve" no larger than a silken thread that gives to the Heart its impulse. How the Stomach and Kidney each have their inside or power nerve. How these organs surely falter when these controlling or master nerves begin to fail. How Dr. Shoop's Restorative goes directly to these failing nerves, and rebuilds, and fortifies, and restores the lost tone and power. I call such a help you—if it is within the power of medicine to do so. My best effort is surely worth your simple request. So write now, while it is fresh in mind, for tomorrow never comes. Dr. Shoop, Box 12, Racine, Wis.

DEFY THE WORLD

JAPAN IS PREPARING FOR THIS CHALLENGE.

Secret Experiments Are Being Made With a Great War Balloon Fleet.

Tokio, July 16.—While less splurge has been made here, and less has been heard from Japan on the subject than perhaps any other country, it is a mistake to suppose that the progressive little nation is not taking a practical interesting aeronautics. So practical is she, indeed, that it is intimated that she has decided upon the course of letting other countries spend their money in preliminaries, waiting about without getting actively in the game herself until such time as the invention is past the experimental stage, and its possibilities become positively known.

As a matter of fact, however, considerable progress has already been made here. Japan apparently isn't wasting the time, though, in figuring out how the air dreams of pleasure-seeking nobility can be realized. All the experiments thus far have been along the line of military manoeuvres. In this branch, it is asserted, that more has been done by Japan than by all of the other countries combined. It is because of the nature of the investigations that such an air of secrecy is being maintained.

No practical work is being done with the aeroplane, the usefulness of which is doubted in comparison with the possibilities of the dirigible type. A corps of translators is employed by the Japanese government, however, and every important article on the subject of aviation appearing in European and American journals is duly translated and docketed for future use.

The principal inventor for the government is a private citizen, a civilian, of whom a good deal may be heard in the future. He has just patented the Yamada Kikiu, an airship for which advantages are claimed.

In a small, Dirigensonian sort of house in Tokio, crowded in among others, with a tramway in front and a railway at the rear, in the midst of all sorts of noises, Yamada works out his intricate calculations untroubled, with the plans in blue and white of his airship and airship destroyer before him, together with a third invention of which he talks little.

The leading idea in Yamada's invention seems simple enough. It has an ordinary deep-bellied balloon, length 184 feet, and holding 2,000 cubic feet of gas, towed by a gasoline motor of fifty horse power suspended from the bow or head of the balloon.

The inventor claims that the shape of the balloon gives it an advantage over the Zeppelin type in navigating a strong wind. It is better able to resist a wind abeam, and can always keep its head to the wind and yet go in any direction by means of the motor, suspended fifty feet below, the propeller of which is capable of 600 revolutions a minute.

One man is seated in the motor-boat, in telephonic communication with the commander and others, while in the basket immediately below the balloon is the man in charge of ammunition, who drops his shells through a hole in the bottom of the basket.

There are two compartments in the balloon, the top containing hydrogen and the bottom compartment air.

The safety valve is on the right, while the one to the left is the escape valve to enable the balloon to descend.

The projection at the rear is the rudder, such as was used in the balloon which did effective reconnaisance work at Port Arthur. In a few months it is hoped the first trial in the air will be made.

Minister Asks Inquiry.

Niagara Falls, Ont., July 16.—A committee of the Hamilton Presbytery are investigating into conditions at Drummond Hill Presbyterian church, and into charges affecting the conduct of the pastor, Rev. F. C. Harper. The name of a rich society woman is involved in the allegations, but the matter seems to have had its source in an unhealthy mind. From reliable quarters, it is said that the charges are groundless. Mr. Harper himself was instrumental in bringing the matter to the notice of the presbytery.

Left One Wife For Another.

Windsor, July 16.—William Lawson, aged twenty-eight, was arrested on a charge of bigamy, preferred by his wife in Utica, N.Y. She married Lawson nine years ago, and is the mother of three children. Some time ago Lawson began to pay attentions to Miss Gladys Fay, of Schenectady, N.Y., and three weeks ago eloped with her to this city, where they were married by Rev. Mr. Manning.

Rolls Bacon, 12½c.

Saturday only, J. Crawford.

No Tuberculosis Found.

Lanark, July 15.—A Perth veterinary examined a herd of cows, the property R. W. Dunlop, Drummond, for tuberculosis. A daughter of Mr. Dunlop's recently had died with tubercular meningitis, another little girl is just recovering from tubercular peritonitis, and doctors had intimated that infection came from the milk. A searching test, however, failed to discover any trace of disease.

Shanghai Consul For Vienna.

San Francisco, July 16.—Charles Denby, for two years United States consul-general in Shanghai, arrived here, yesterday, on the steamer Mongolia. He was recently appointed to a similar post in Vienna and after reporting to the state department in Washington he will proceed to Europe to assume the duties of his new post.

Four Persons Killed.

Royal, Ill., July 16.—Four persons were killed in a head-on collision on the Chicago and Eastern railway near here early this morning.

Big Cut In Watermelons.

Fifty melons to be cut up Saturday night at Carnovsky's.

Try Bibby's 50c. French underwear.

STEAMSHIP MOVEMENTS

As Reported From Montreal and Father Point.

Montreal, July 16.—The Allan line steamer Tunisian, from Montreal and Quebec for Liverpool, sailed hence 3 a.m., on July 16th.

The Allan line Royal Mail turbine steamer Virginia, from Montreal and Quebec, for Liverpool, was reported 160 miles west of Eastnet at 8 p.m., July 15th.

The Allan line steamer Hesperian, from Glasgow, for Quebec and Montreal, was reported 150 miles northeast of Cape Race at 8:30 a.m., on the 16th of July.

The Allan line Royal Mail turbine steamer Victorian, from Liverpool for Quebec and Montreal, was reported eighty miles south-east of Fame Point at 8:20 a.m., July 16th.

The Allan line steamer Numidian, from Glasgow for Boston, was reported 150 miles north-east of Cape Race at 8:30 a.m., on 16th of July.

Father Point, Que., July 16.—SS. Laurentic, White Star-Dominion line, from Liverpool, inward, 4:50 a.m., She has 102 first cabin, 238 second, and 329 steerage passengers.

WHO'LL BE ARCHBISHOP?

Rev. Father Whalen Said to Be Mgr. Sbaretti's Choice.

Montreal, July 16.—Le Canada contributes the following despatch from Ottawa, touching the question as to whether the next archbishop of Ottawa will be an English or a French-speaking prelate:

"The French-speaking priests are at last under the impression that Mgr. Sbaretti's candidate is the Rev. Father Whelan, an Irish priest of distinction. I am told, however, that Mgr. Begin, archbishop of Quebec, has been informed as to what is taking place in our archdiocese, and that his grace will see that the interests and aspirations of the French-Canadian clergy in the diocese of Ottawa are looked after."

A WOMAN IN COURT.

Charged With Obstruction at Socialistic Meeting.

Montreal, July 16.—Mrs. Whitewright, evidently a refined English-woman, who has several times of late allowed her socialistic feelings to get the better of her breeding, appeared in the police court to answer a charge of obstruction in connection with a socialist meeting a few nights ago. Her fulmination against society, as at present constituted, in public and private, has been so excessive that it was not a matter of surprise, to-day, that she should be sent down, pending an examination into her sanity.

TOY TOP BURST.

Lyn Lady Got Spring in Her Face.

Brockville, Ont., July 16. — Last night Mrs. C. W. Bullock, of Lyn, met with a painful and peculiar accident. She had during the day purchased in Brockville a child's top, and in the evening was demonstrating its workings, when the wire coil which formed the spring broke loose. The momentum of the top forced a large portion of the wire into the flesh of the right side of her face, inflicting such an injury that the services of a physician and the use of anaesthetics were required to remove it.

RUMORS OF MURDER

And Death of Man Will Be Investigated.

Ottawa, July 16.—Deep mystery surrounds death of Andre Bastien, of Trout Lake, Quebec, who disappeared eight months ago, and whose body was recovered from the lake a week ago. Murder rumors were about when he disappeared and in spite of the fact that Sheriff Wright, of Hull, left instructions to be notified, when any clue was gained, the man was buried before he was informed. Now the sheriff will investigate.

Near Clayton, N.Y., the body of Gordon Emmett, the Fair View, carpenter drowned near Round Island, on June 25th, was found on Thursday, by John Longway.

THREATENED TO KILL HER.

Evelyn Thaw Weeping Tells of Husband's Threat.

White Plains, N.Y., July 16.—Harry K. Thaw's pretty wife, formerly the chorus girl, Evelyn Nesbitt, went on the stand here to-day and gave damaging testimony against him. It was the strongest point scored so far by the state in its fight to keep Thaw in the asylum for the criminal insane at Matteawan. He demands his release on the ground that he is a sane man. Adjournment was taken until July 26th.

When Evelyn Thaw took the witness stand she told, as if in fear, what Thaw's lawyer has sought most to keep back.

Deputy Attorney Clark asked her: "Did Harry K. Thaw at any time say this to you, or this in substance, 'I shall have to kill you when I get out of here?'"

Mrs. Thaw appealed to the court and begged Justice Mills not to make her answer the question. With tears in her eyes Mrs. Thaw said: "I do not want to answer that question. It places me in a terrible position. My husband will refuse to support me the minute I answer it, and I will incur his everlasting enmity; I know it. I am very much afraid to answer it.

"I do not care how he has treated me. I am still married to him and I do not want to answer it."

Justice Mills instructed the witness to answer, and she said with a long-drawn sigh, "Yes, he did. He said, 'When I get out of here I suppose I will have to kill you.' We were discussing his mental condition. I had asked him what he meant and he said, 'You know I was not crazy the night that I shot White.' I asked him again and he said, 'You know that I missed White by two minutes on the day before."

Harry K. Thaw, when asked about his wife's testimony after court, said: "It is very plain to everyone that her story is not true. I never threatened to kill her. First she says one thing and then another."

It has been decided to do away with a physical examination of Thaw by the state's alienists and confine the insanity tests by the experts to the mental examination of Thaw as a witness.

Before leaving for New York Evelyn Thaw discussed her testimony somewhat at variance to the attitude on the stand.

"If the Thaw family had done the right thing to me I would never have taken the stand to testify against my husband," she said. "But they would not guarantee me the allowance I asked for when the annulment proceedings were begun. If they had done that I would have been far away from here to-day and Harry would have a better chance of getting his liberty.

"I can't go back to the stage. My notoriety would prohibit that. I may try to get work as a model. I can do it, too, I am sure."

Nationalists Rule Persia.

Teheran, Persia, July 16.—The shah has taken refuge in the Russian legation. The terms of the surrender of Liakhoff and his cossacks are now being negotiated. The nationalists, after capturing south gates, which the shah's troops held on the outskirts of the city, are now in full possession.

Bodies Not Found

Ottawa, July 16.—There have been no developments in the drowning of the Green sisters in Lake Deschenes, yesterday morning. Though incessant search has been maintained the bodies have not been recovered.

KILLED IN A DUEL.

State Senator O. Bayles, of Alabama, Shot Dead.

Birmingham Ala., July 16.—State Senator Oscar O. Bayles, a prominent lawyer of Monroeville, and a man well-known over the state, was shot twice and instantly killed at about five o'clock, yesterday afternoon, in Monroeville, by David K. Smith, in a duel resulting from alleged sensational remarks made by Bayles in a hearing before the pardon board in the case of Isaac and Jessie Shirley, at Montgomery, during the present week.

The Shirleys shot "Jim" Smith, a brother of D. K. Smith, eighteen months ago. One year later "Jim" Smith died from the wound, and the Shirleys were each sentenced to four years in the penitentiary, mainly upon the evidence of Mrs. James Smith, the wife of the dead man, and a sister of the Shirleys.

Bayles, representing the Shirleys in their petition for a pardon, asked questions of a sensational nature during the hearing before the board that angered Smith and embarrassed Mrs. Smith, his sister-in-law. These called for ill-feeling between Bayles and Smith.

The shooting occurred at the first meeting of the men after their return from Montgomery. It is understood that Bayles walked up to Smith on a platform in front of a drug store and asked:

"You are looking for me, are you not?"

Bystanders did not hear Smith's reply, but it is said Bayles suddenly struck Smith with his fist, knocking him from the platform to the sidewalk. Smith came up with a pistol in his hand and began shooting. Bayles returned the fire, and each fired four shots.

Bayles was struck by two bullets from the thirty-eight calibre used by Smith, and died in a few minutes. Smith was untouched, and, on being arrested, was locked up in jail. It is understood that his plea will be self-defence.

Senator Bayles represented the twenty-first senatorial district, and was distinguished in the senate during the last three sessions. He practised law at Monroeville and was popular with the people of that county.

STRIKE AT LONGUE POINT.

Locomotive Workmen Refuse New Timing System.

Montreal, July 16.—Two hundred and fifty boilermakers and blacksmiths employed at the locomotive and machine works at Longue Pointe, a branch of the American Locomotive company, have gone out on strike on account of the new timing system which has been adopted and which the men claim reduces their pay. This system has been introduced in some departments, but the boilermakers and blacksmiths rebelled against working under it.

Briefly stated the system is one by which clerks compute the time, a certain piece of work should take, and the workman is credited with that much time where as it might take him an additional hour to do the job. The clerks are supposed to be experts in most cases. The men claim it takes more to pay the clerks than any amount the company might lose under the old system.

Visitor Here From Gowganda.

C. W. Austin, Buffalo, was in the city, to-day, on his return from Gowganda, the new silver fields. Mr. Austin went into the new fields on April 1st last, and while not altogether stuck on the country, says there are a great many plums and a great many lemons to be picked there. When the Buffalo gentleman went in the way was long and weary, and it cost a great deal to make the trip. The only men making money were those that had teams and sleighs, getting over a hundred dollars for a two-day trip.

Mr. Austin says that at the present time some things are away up in price, while some are away down. Hay is worth $135 a ton, gasoline about the same a barrel, and eggs $1.50 a dozen. One can secure a bed or part of a bed for fifty cents, and a meal at the same price. As to his personal properties, Mr. Austin did not care to say anything.

New York Chinese In Kingston.

They appear in a drama called "Lost in Chinatown," at the Bijou Theatre. The drama shows how white girls are decoyed to Chinatown and sold as wives to the yellow men, and the beholder immediately wants to see the laundry tax raised to a thousand dollars a minute. In this story a sailor returning from a voyage sends word to his country sweetheart to meet him in the great city. They miss each other. The girl is decoyed to Chinatown, dragged into a Pell street den and put up at auction to the yellow men. There is another fine drama, "Driven from Home," or "Jim the Forger," and James Douglas Bankier appears in illustrated songs.

Dam Contract Awarded.

Toronto, July 16.—The provincial government have awarded the contract for the erection of the dam at the head of Dog Lake to William White, of Burlington. Power will be produced as soon as the work is completed, which will be next January.

Indecent Conduct With Boys.

Toronto, July 16.—Prof. Carlo Cattapani, as he calls himself, is in custody, here, charged with indecent conduct with some boys. He was remanded, this morning, without bail. He claims to be a Italian marquis and to have a wealthy wife in New York.

Offered The Position.

Ottawa, July 16.—It is stated on good authority that W. F. Tye, at one time chief construction engineer of the C.P.R., has been offered the position of chief engineer of the N.T.R., in succession to Hugh Lumsden, and may accept.
