THE LOCOMOTIVE WORKS

ANCHORED IN KINGSTON FOR GOOD AND FOREVER.

Hon William Harty Writes to the Whig Praising Staff for Zeal, Energy and Capability.

Kingston, May 30.—(To the Editor): Whilst I do not in any way desire to detract from or depreciate the credit which the directors of the Canadian Locomotive company deserve for the work they have done in connection with the management of the company during the past ten years, I desire to avail myself of the use of your columns to say that the prosperity of the business has been due and owing to the zeal, energy and capability of the staff as a whole rather than to any one particular branch thereof.

From my experience I can testify that from the superintendent and assistant superintendent, draughtsmen and foreman of each department, down to the humble, but nimble, rivet boys, each and every one has contributed, by his individual effort, to the production of an output that has proven to be eminently satisfactory to the patrons of the company—and here let me add that every word of praise which I have written upon behalf of the mechanical branch may be extended in as full and complete a manner to the office, stores, and general labor branches of the undertaking.

To-day, and for years back, the organization is one of which the company may well be proud, and every member of the force can hold up his head and justly say that he has contributed his share to make it what it is. No one knows this better than I do, and no one can more honestly and readily bear testimony to the great merit which is due to the company's employees as a whole.

The men employed at the works, and the citizens of Kingston generally, may accept my assurance that the change of proprietorship will not in any manner militate against the future of the company, but, on the contrary, its efficiency should be increased, its output enlarged and the number of employees who may find work within its walls be largely added to.

The locomotive works is anchored in Kingston for good and for ever, and that its prosperity may be all that the people of this good old city desire and deserve is the foremost wish of one who has, in an humble way, endeavored in the past to the best of his imperfect health and ability to contribute his share to the prosperity and success of the Canadian Locomotive company.—Yours very sincerely,
WILLIAM HARTY.

Thirty Years Married.

On Monday evening, a dozen friends gathered at the home of Mr. and Mrs. James Craig, 79 Clergy street west, to celebrate the thirtieth anniversary of their wedding. After supper, William McCammon was called upon to act as toastmaster, and proposed the health of Mr. and Mrs. Craig, who were wished many more years of happy wedded life. A very pleasant evening was spent by the company.

A very unfortunate and painful accident befel E. J. Kyle, Merrickville, on Friday afternoon last, when he had his left hand crushed in the rolls in the roller mill. He had put his hand too close to the rolls to see that everything was working all right when the ends of his fingers were nipped, and before he could pull them out the second, third and fourth fingers were crushed, while the end of the second finger was taken off at the first joint.

The marriage of Miss Beatrice I. Armour to Gordon R. Thomas, of Deseronto, took place on May 17th, at the home of Mr. and Mrs. H. W. Aunger, Smith's Falls.

J. A. Boyce, formerly of Lombardy, has just cleaned up $15,000 in property at Saskatoon. A year ago he bought it for $3,000 and has sold for $18,000.

GEORGE BERNARD SHAW.

Makes Extraordinary and Blasphemous Statements.

London, May 30.—In addressing a gathering of undergraduates at Cambridge, to-day, George Bernard Shaw said: "The man who says that Christ was the highest possible being is not worth working with. Christ was a failure."

Mr. Shaw's subject was "The Future of Religion."

Among other things he said in the matter besides that already quoted was: "The mention of God has gone out of fashion. You never hears about God now in parliament, and only occasionally in the law courts. The people are governed by a system of idolatry. The clergymen, the judges and the kings are idols, who generally have to be given enough money to dress better than other people. The king cannot impose upon me. I know that the king is merely a man, but scarcely anyone else in England seems to know it. When Darwin came along with the theory of natural selection people jumped at it and kicked God out of the window."

FAMINE IS FEARED.

Parral, Mex., May 30.—Word has reached here that scores of people have been killed and stores looted by bandits and insurrectos, who heard nothing of the peace agreement. A famine threatens the interior, as all railway communication is cut off. The entire state of Durango, with its capital, is at the mercy of roving bands.

TO STOP NEGRO IMMIGRATION.

Conditions in Oklahoma, Their Home, Have Been Changed.

Winnipeg, May 30.—W. J. White, who has charge of the immigration offices as representative of the Canadian government in the United States, said in an interview here that the influx of negroes from Oklahoma was likely to terminate soon. Discrimination against colored men in that state has been partially removed by decision of the supreme court at Washington on questions relating to franchise. Churches are opposed to the movement, and the dominion government similarly regards it. It is recognized that the climate of western Canada is unsuitable for negroes, and every effort will be made by organizations interested in keeping them in the south to show the folly of their attempting to make a livelihood in this country.

WILL PLEAD INSANITY.

The Mother of Toronto Murderer Was Insane.

Toronto, May 30.—Jessiman, who shot Lougheed, yesterday, did not appear in court this morning. The inquest on Lougheed's death takes place this afternoon and will probably be short and formal. Jessiman's defence will no doubt be insanity. The report that his father died insane is denied. His mother was insane.

KILLED IN AUTO RACE.

Indianapolis, May 30.—In a big auto race here today a tire on the car driven by Arthur Grefner, Chicago, blew out. The car left the track. S. B. Dickson was killed, and Greiner was seriously injured.

C.P.R. Makes High Record.

Toronto, May 30.—Canadian Pacific made a new high record for all time, yesterday, when it sold at the close to 237¾. The best price ever attained before was 237½. Saturday's close was 235. In January, Canadian Pacific sold at 190¾, and in December at 191. In 1901, ten years ago, the stock was quoted at 87, and paid a five per cent. dividend. With double dividends has come triple value.

May Go to Supreme Court.

Ottawa, May 30.—The report is revived that Hon. L. P. Brodeur will go to the supreme court. It is said to be possible but not immediately probable. If the government is forced to go to the country, cabinet changes are considered likely. Brodeur's successor would be Lemieux, who would be succeeded by H. S. Beland, of Beauce.

At Express Rates.

Ottawa, May 30.—The railway commission orders that sour cream for butter-making may be carried at express instead baggage rates. Railways have offered to file a uniform tariff for all cream. The views of the milk company will be heard before the order is made.

Captured Nolan.

Sault Ste. Marie, Ont., May 30.—After an exciting chase, Provincial Constable Connor, succeeded in catching William Nolan, who escaped from arrest at the Michigan Soo four days ago.

Has Been Sworn In.

Toronto, May 30.—Hon. Charles Moss was sworn in, to-day, as administrator of the province during the absence, in England, of Hon. J. M. Gibson, lieutenant-governor.

The marriage of Miss Elma Kennedy, daughter of Mr. and Mrs. William Kennedy, Westport, and J. Kerr Brown, Ph.m. B., of Winnipeg, was quietly celebrated, Thursday, at the home of the bride's brother, W. Walker Kennedy, Winnipeg.

James Phippen, Point Ann, was a week ago, the victim of a paralytic stroke, which proved fatal. He passed away, on Friday afternoon. Deceased was sixty-five years of age.

At the Methodist parsonage, Athens, on May 24th, Rev. E. A. Read united in marriage Wesley Wellington Love and Miss Myrtle Victoria McFrattey, both of Elizabethtown.

At London, Ont., twenty thousand dollars damage was done by fire in the London cold storage company plant building. The cause is a mystery.

RETURNED TO WORK

STONEMASONS ARE AGAIN ON THE JOB.

They Were Ordered Back to Their Work by Thomas Izzard on Tuesday Morning—Laborers Still Holding Out For an Increase.

The strike in Kingston, so far as the stone cutters and the masons are concerned, is off.

Thomas Izzard, the officer from international headquarters, who has been in the city a couple of weeks, endeavoring to bring about a settlement, ordered the stonemasons back to work, and they all returned to work on Tuesday morning. They are all on their regular work, with the exception of those who had been employed on the new building at Queen's university, and they have secured other work. The stonecutters are all back at work, too.

The laborers, however, are still on strike, and according to what the Whig could learn to-day, they intend to stay out until they get an increase from $2 to $2.25 per day. On the other hand, the contractors declare they will not give the increase, and the matter is at a deadlock.

It is believed by some, however, that the laborers will return to work in the course of a few days.

Asked by the Whig, how matters stood, Mr. Izzard stated that the stonemasons had been holding off, in sympathy with the laborers. He had sized up the situation, found that no settlement could be reached, and he therefore came to the conclusion that, the best thing to be done, was to order the stonemasons back to work again. He had been given to understand however, that the laborers would not return unless the increase they asked for was forthcoming.

The general opinion appears to be that Mr. Izzard acted wisely in taking the step he did, in ordering the stonemasons back to work.

The contractors will likely be able to get all the laboring men they require to do the work, and it is not likely that there will be any further drawback in the work. Work has been delayed for nearly a month now, and the contractors are very anxious to push things along.

GLASS EYE EXPLODED

As the Man Sat Chatting With a Friend.

Allentown, Pa., May 30.—With a report like a gun, Building Inspector F. R. Minner's glass eye exploded, yesterday, as he sat chatting with a friend. Minner fell to the floor and sank into unconsciousness.

A physician was called and Minner was rushed to the hospital, where he is in a serious condition. It is feared that particles of the eye penetrated his brain.

He had worn the eye twelve years. Local physicians say this is the first accident of the kind in history. They advance the theory that celluloid was substituted for glass in the eye, and that the heat of the sun's rays focussed on it by the mirror, unfelt by Minner, caused it to explode.

WAS TOO ROUGH.

Magistrate Decides That Violent Ejectment is Unlawful.

Chatham, May 30.—A man may not throw his mother-in-law from his premises in a rough manner that is calculated to do her bodily harm. This was the decision reached by Magistrate Houston when he fined Bertram Avery $1 and costs for ejecting his mother-in-law, Mrs. Lydia Turner, from his house, doing actual bodily harm.

The physician called gave evidence as to the injuries which the woman sustained. There were bruises on her arms, which seemed to indicate that she had been used rather roughly.

The magistrate held that while Avery had a right to order her off the premises, and use reasonable force to put her off he was bound by law not to do her bodily harm in removing her. He, therefore, imposed the fine.

King Pays Tribute to Labor.

London, May 30.—The king has paid an unprecedented honor to the labor movement by a "command" invitation to two representatives of the trades union to attend the coronation ceremony.

After the concert on Monday night the king and queen and the royal party attended Lady Farquahar's ball, which was given in honor of the Duke of Fife's daughters, the Princesses Alexandra and Maud.

The king and some of the royal princes will attend the Epsom race meeting daily until Friday.

A 10,000 Mile Bicycle Trip.

Toronto, May 30.—Mr. and Mrs. Henry Miller start to-morrow on a ten thousand mile bicycle trip. They are taking no money, and expect to support themselves by selling photographs on the way.

The article on "Britain and Her Offspring," with which the Living Age for June 3rd opens, is by Andrew Carnegie, and is reprinted from the Nineteenth Century and After. It is a brief but effective comparison of the political institutions of Great Britain and her colonies.

George Baker, who claimed Kingston as his home, was found lying near a fence in London, Ont., suffering from tuberculosis. He is in a serious condition, and is being cared for at an hospital.
