## ... Lend Me Your Ears

### GETTING USED TO NEW HEARING INSTRUMENTS! PART 1

A patient who has never worn hearing instruments before, or is wearing a new type or circuit may go through a period of adjustment. The following are suggestions to help you through that adjustment period:

\* Don't get discouraged. It may take time to realize the benefit of your hearing instruments. You have been hearing through a damaged system that has delivered distorted signals to your brain. Now the sounds you are being exposed to are louder and different than what you are used to. In time, your brain will adjust to the new signals it is receiving.

\* When you first start wearing the hearing instruments, you will suddenly hear sounds you were previously unaware of. Many you will recognize as sounds you used to hear before you had a hearing loss, and others will have to be identified for you. These sounds will seem bothersome at first because you are not used to hearing them. In time, like those with normal hearing, you will unconsciously block out these daily sounds.

### ARE DENTAL IMPLANTS RIGHT FOR YOU?

Dental implants have been called the "next best thing to natural teeth" because they act as a secure anchor for artificial replacement teeth and eliminate the instability associated with surface adhesives and removable partials and dentures.

**Dental implants may be the solution if you:**

- Have lost some or all of your natural teeth
- Are unable to chew properly with conventional dentures
- Are unable to wear dentures for physical or personal reasons

**Implants can provide distinct advantages:**

- Improved appearance
- Better chewing, digestion and enjoyment of food
- Reduction or elimination of denture movement
- Increased comfort, confidence and self-esteem

Implants are a thoroughly tested, safe approved alternative to traditional removable dentures and partials. Perhaps they are right for you? Call us for a free consultation.

## IN MEMORIAM

**Gay "Tellier" Roshier**  
June 23rd, 1951 - January 6th, 2002

We seem to see in the soft dim light,  
A face we love the best;  
Recalling her as the sun's last rays,  
Go down in the far off west.  
We miss her more as time goes on,  
We can never close our hearts;  
And the lamp of our love still burns.  
Her heart the truest in all the world,  
Her love the best to recall;  
None on earth could take her place,  
She is still the dearest of all.

Love always, Glenn
