In addition to the melancholy list we find in the morning papers the following:—

On Saturday, a man was taken to the 10th ward station-house, labouring under the effects of a stroke. Another, the driver of an ice cart, fell dead at the foot of Hoboken street. A sailor, George Cornell, who had just been paid off, died at his boarding-house, 138½ Cherry street. Henry Lewis was found in a lumber yard, No. 608 Washington street. Mr. Peter McGlynn, a respectable citizen, and for many years an extensive contractor under the corporation, was struck down on Saturday. At Port Richmond, on Staten Island, three persons were struck down, all of whom died within an hour. One was a laborer employed at Mr. Jewett's white-lead factory,—the others were a man and woman employed by Dr. Harrison.

Also, about noon on Saturday a German named Cristopher Copperes, after drinking plentifully of cold water died shortly after.

Also, Michael Moore, who was employed in the Chemical works of Tyson, on the City Block, died in the same manner.

Also, on the following persons,—Eliza Thomas, James McCafferty, aged 45 years; a stranger, name unknown; a laborer, name unknown; George McGee, aged 30, who died after coming from market. Joseph R. Cox, aged 57. Bridget Wing, aged 22, a native of Ireland, complained of weakness by heat, bathed her head, was bled, and died in 15 minutes. Also, on John Strong, Susan Dempsey, and Patrick Kelly, natives of Ireland.

In all these cases death was attributed to the effect of heat.

MONTREAL MARKETS.

Saturday Evening, July 11.

Since the sailing of the last steamer our market has continued in the same inactive state. Holders have declined selling at current prices, and large quantities of produce have been stored, and shipped on owner's account. The arrivals are still heavy, and we should place the stock of flour in Montreal at over 15,000 barrels. Our accounts of the crops from the Western Province are [illegible] London District cutting has commenced, and, excepting a few complaints of rust, the quality of the grain is said to be very fine. In all the Western States the Wheat crop is very large, and much above an average in quality. In Lower Canada also our crops promise well.

ASHES.—Prices are rather lower for both sorts. Pots may be quoted 21s 6d a 21s 9d. Pearls 20s 9d a 21s per cwt.

FLOUR.—We have hardly a transaction to quote for a week past, as nearly all the large holders have withdrawn their stocks. The best brands of "fine" are nominally worth 21s, while anything second rate cannot be placed over 20s to 20s 6d.

GRAIN.—A considerable quantity of prime samples of white Wheat have been taken for shipment lately at 4s 6d to 4s 8d per 50 lbs. ex barge—there have been no sales for a few days.

PROVISIONS.—We have to note a decline in Pork to $9 for Prime, $10 for Prime Mess, and $13 to $13½ for Mess.

FREIGHTS continue at the same rate, 6s per bbl for Flour, and 10s per quarter for Wheat. To-day 10s 6d was paid for Peas to Liverpool, and to London 5s 9d for Flour.

EXCHANGE has slightly advanced for this packet. Private Bills, 90 days, on London are worth 7¾ to 8½ per cent. premium.—[Montreal Gazette.

The functions of [illegible] are manifested when life is reduced, as to the plant to its simplest condition; and these must therefore, be its essential actions. Between the apparatus by which these necessary physical processes are carried on, there is a reciprocal action, and if one portion of the animal machinery is out of order, the harmony of the whole system is deranged. The great desideratum in medicine therefore, is a preparation that shall act with equal certainty and force upon each one of these tribes of functions—which shall, as the case may require, restore health and vigor to the circulation, give tone to the stomach, or remove obstructions from the bowels. It is confidently averred that Sands's Sarsaparilla possesses this threefold power, and that by thus acting on the primary causes of disease, it eradicates thoroughly and permanently its various painful, dangerous and disgusting manifestations. From a simple eruption of the skin, to hereditary scrofula, and from dispepsia to gout and inflammatory rheumatism, it will be found equally efficacious.

MARRIED.

On Tuesday, at St. George's Church, by the Ven. Archdeacon Stuart, Mr. JOHN MIDGALE, of Kingston, to Miss GLADWISE B. MATTHEWS, youngest daughter of the late Mr. John Matthews, of Stockland, Devon., England.

On Tuesday last, by the Rev. Mr. Dollard, WM. H. LEMOINE, Esq., of Montreal, to ANNE GERTRUDE, daughter of Anthony Manahan, Esq.

DIED.

At New Glasgow, on the 21st June last, after a lingering illness of four years, which he bore with Christian fortitude, THOMAS HENDERSON, a native of Berwickshire, Scotland, aged 56 years.

On the 15th June, at his residence, Middleton, near Arbroath, Forfarshire, much and deservedly regretted, Major WILLIAM BRUCE GREFYNE, late 37th Regiment.

At Quebec, on the 11th instant, Mr. JAMES WILLIAM MILLER, in his 57th year, for many years a resident of Quebec.

On the 6th instant, at the residence of Ruggles Wright, Esq., Hull, opposite Eytown, Mr. HENRY YILET WRIGHT, aged 48 years.

Lately, aged 94, the Rev. LACHLAN M INTOSH, the oldest Catholic priest in Scotland. Deceased passed sixty-four years in the ministry of the Roman Catholic Church, at Gairnside.

THE PROGRESS OF OUR ARMS. THE ANGLO-AMERICAN RACE UNCONQUERABLE.

WE point with pride and pleasure, to the deeds which have marked the past month. On the fields of Mexico, on her very towers and battlements of strength, the banner of the free is planted, waving in the breeze, winning new advocates of liberty with every fold the breeze creates, and imparting increased enthusiasm to the brave hearts who have fought the enemies of their country, and won the admiration and affection of their fellow-citizens by their valor, while it has taught the world the American race are in the pride of their strength and patriotism, unsurpassed, and that a bright page has been added to their history for the perusal of posterity. And even while the smoke of the cannon has not been dispersed by the breeze, the two prominent nations of the earth, in all that regards the high attainments which distinguish civilized man with mutual forbearance, sign treaties for the settlement of the dispute which threatened to convulse the world, which should and do reign paramount, prevent the shedding of blood, which must have resulted from the world being in arms; and to crown the whole, Sylvester, with unexampled success, disposed of TWO GRAND CAPITAL PRIZES, one in the state of New York, the other in Ohio—besides others which have been distributed throughout the [illegible] the various events which impress its flight, it adds new energy to his exertions. June is a month which will be cherished in his remembrance, July shall form another era of brilliant operations, while August presents itself to the notice of his correspondents. No other commendation do they need, than his assurance of the brilliant success which await all who adventure. Be early and careful to address

CURE FOR WORMS.

WINER'S **Canadian Vermifuge,** warranted in all cases, the best remedy ever yet discovered for Worms; it not only destroys them but invigorates the whole system, and carries off the superabundant slime or mucus so prevalent in the stomach and bowels, especially of those in bad health. It is harmless in its effects on the system, and the health of the patient is always improving by its use, even when no worms are discovered. The medicine being palatable, no child will refuse to take it, not even the most delicate. Plain and practical observations upon diseases resulting from worms, accompany each bottle. Prepared and sold wholesale and retail by

J. WINER, *Chemist.*

CERTIFICATES.

J. WINER, would particularly call public attention to the following testimonials from some of the most eminent Medical Gentlemen in Hamilton, as well as other respectable and influential persons, of the wonderful cures effected by the use of his Vermifuge.

We, the undersigned, having frequently administered a Medicine prepared by MR. JOHN WINER of this Town, designated "*J. Winer's Canadian Vermifuge,*" and being fully satisfied with its efficacy, confidently recommend it as a safe and efficient remedy for the expulsion of Worms from the intestinal canal.

W. G. DICKINSON,
Member of the Royal College of Surgeons, London, &c. &c.

Hamilton, C. W., 11th Oct., 1843.

I Certify that, in all cases in which I have administered J. WINER'S Canadian Vermifuge, I have invariably found it a safe and effectual remedy for the expulsion of Worms from the alimentary canal. And would recommend it to the public as such.

"Amicus humani generis."
THE INDUSTRIAL SCHOOL.

IS NOW in operation near Thornhill, established for the benefit of Orphans or other destitute children, where they will receive a good education, and be taught to provide for themselves by honourable industry. They are boarded, clothed, and lodged, in a house called the "Pavilion," 13 miles from Toronto.

The Children are treated with great Paternal kindness and whether in the *Field, Garden, Workshop, Schoolroom or Refectory*, are in presence of the Teacher, *who is their Companion, Fellow-laborer and Instructor*, leading them by example, rather than compelling them by fear.

Destitution is the principal recommendation to this Asylum for the poor child. No fees are required—no reference for any Sect, Party, Class, Country or Colour.

Application may be made to Mr. James Beaty, Alderman, Treasurer, or to William Lewell, Secretary. Either of these gentlemen will receive subscriptions or Donations, in money or useful articles for the Institution.

This Institution, if successful, will prove that every child may be educated, in the best and most useful manner, without expence to the parents or the public.

Summer Importations.

A. & D. SHAW,

RESPECTFULLY announce to their Customers and the Public generally, the arrival in Kingston, of their

First Shipment of British Goods,

for this season, per the "ALBION," from

Glasgow to Montreal;

Comprising a general assortment of the newest styles and descriptions of British Manufactures.

A. & D. S. will also continue to receive from time to time, as the different ships arrive from London, Liverpool and the Clyde, fresh additions to their stock; and from the advantages possessed by them as buyers in the British Markets, they are confident no house in the Trade can hold out greater inducements to purchasers generally.
