WINER'S CANADIAN VERMIFUGE.

Grand View Cottage, T. R.
September 25, 1847.

Sir,—I feel it a duty incumbent upon me to testify to the value of your Vermifuge, and return you thanks for the service it has rendered me, by preserving the life of a dear child, a little girl of three years old. I do this the more readily from being persuaded that three-fourths of the medicines now vended as all-healing specifics are spurious, and also from my being of this opinion in regard to your's, when I was, after much solicitation, induced to try it. The facts connected with the case are simply these.

About five weeks since, my little daughter took what is commonly called chills, succeeded with a high fever. Thinking it nothing more than the result of a cold, I gave her some aperient medicines &c. A week elapsed, when I got much alarmed from her pale and languid appearance and general debility. I brought her to one of the most skilful physicians in Kingston, who gave her some powders and a quinine mixture. At the end of a fortnight she seemed a little better, but subject to frequent and violent fits. I had again recourse to the physicians who gave me a worm powder and another bottle. A week transpired which completely prostrated any remaining strength she had had, and left her pale and emaciated. Her eyes were sunken and glazed; her stomach hard and swelled, she had violent vomiting, and cramps in her hands and feet, and exhibited every indication of approaching dissolution. I finally had recourse to your Vermifuge, a bottle of which I procured at the Atheneum Book Store, Kingston. About six o'clock, P. M., I gave her a teaspoonful, and in *half an hour* she passed seven worms. She took the contents of the bottle in three days, and I procured another. The result was, that in five days she passed *eighty-six worms, none of them less than six inches long!* but many of them 16 to 20 inches. She is now perfectly recovered.

I am fully persuaded that, under God, your invaluable medicine has been the means of saving my child's life, and I beg leave to return you, thus publicly, my grateful acknowledgements for such.

And am, Sir, your obedient servant,
G. W. P. DE L'A.

To J. Winer, Esq., Chemist, Hamilton.

ST. LAWRENCE & ATLANTIC RAILROAD COMPANY.

From the Montreal Herald.

Proceedings of a Special General Meeting of Proprietors in the Capital Stock of the St. Lawrence and Atlantic Railroad Company, held at the Company's Office, on 20th instant, pursuant to notice, for the purpose of determining the rate of interest that shall be payable on the paid up Capital, pursuant to the 10th and 11th Victoria, cap. 65.

PRESENT:—The Hon. Geo. Moffatt, John Frothingham, William Edmonstone, William Molson, A. Larocque, John Glennon, Thos. Tait, John Boston, A. M. Delisle, C. S. Cherrier, J. A. Berthelet, J. F. Pelletier, Andre Ouimet, Robert Mackay, Alexander Murphy, John Eadie, G. E. Cartier, Esqrs., and many other Stockholders.

Moved by ROBT. MACKAY, Esq., seconded by A. LAROCQUE, Esq.,

Resolved, 1.—That this meeting being a Special meeting of the proprietors of the St. Lawrence and Atlantic Railroad Company, convened under the 15th Section of the Act of the last Session, 10 and 11 Vic., chapter 65, with the view of deciding on the propriety of allowing interest on monies vested in shares and paid up, decide and resolve, that interest at the rate of six per cent. per annum, be allowed to stockholders upon all monies that are, or shall be vested in shares of the capital stock of this Company, and duly paid up, reckoning from the time of the respective payments; the first payment of which interest, shall be computed to, and payable, on the 1st day of January next, and thence continue payable semi-annually.

Moved by GEO. E. CARTIER, Esq., seconded by ALEX. MURPHY, Esq.,

Resolved, 2.—That all stockholders to whom any amount of said interest may hereafter be declared payable, and who, at any time when they may require payment thereof, shall be indebted in capital or interest for other instalments due, shall not be allowed to draw and receive the said interest, until such arrears have been fully paid.

Moved by WILLIAM EDMONSTONE, Esq., seconded by THOMAS TAIT, Esq.,

Resolved, 3.—That all proprietors of shares who have now made, or may hereafter make, default in the payment of calls declared, and advertised, be requested to pay at the Company's Office, in the City of Montreal, interest on the sums due by them, at the legal rate of interest (six per cent per annum,) in the manner provided by the fifth section of the before mentioned act, and that the interest on instalments now called, whether the capital amount thereof has not been paid, or has been paid at a later date than it ought to have been, is declared to be now payable.

Moved by JOHN BOSTON, Esq., seconded by JOHN EADIE, Esq.,

Resolved, 4.—That such lists and statements be immediately prepared under the supervision of the Board of Directors, as will facilitate the settlement of interest so payable by or to this Company.

The thanks of the meeting were moved to the Chairman, and the Meeting adjourned.

THOS. SEKERS,
Secretary.

We understand that the stockholders at this meeting were desirous of expressing, by resolution, their unanimous opinion in favor of the guage adopted by the convention with the sister company of Maine; being 5 feet 6 inches, but were prevented, by the meeting being special, from recording the same. It is, however, expected that a meeting will be called for the purpose, when the guage question will be discussed as relates to the Atlantic and St. Lawrence Railroad.

ENGLISH MAIL THROUGH THE STATES.

We regret to learn that the transmission of letters and papers from Europe to Canada, through the United States, will stop on the 4th of November, and after that date the mails will be received via Halifax, as formerly—We believe that this originates in a demand on the part of the American Government for increased postage on newspapers from Boston to the Canadian frontier. The present postage is a halfpenny, and a penny is required. It will yet be possible to leave this route uninterrupted. While the British Government is breaking down all the unnatural barriers they have conceded what has ever been the great desideratum with our neighbors, *free trade in corn*, to the great European market, it is in bad taste to interpose fresh obstacles in the very transmission of intelligence. A stronger reason could not be given than this why uninterruption of a communication so obviously for the interest of all parties, for a fresh and vigorous movement for a rail-road from Halifax to Quebec, with a continuation through the principal roads of the Provinces. The means of communication must be brought up to the level of the present day, or the provinces will sink into insignificance alongside of their powerful neighbors. Perhaps it may be wished to create dissatisfaction by imposing restrictions on our intercourse with the old world, not created by natural position and only arising from a difference of Governments. A perseverance in this course, and other serious restrictions, such as the shutting out of Canadian Wheat from the American market by the enormous duty of 25 cents per bushel, will certainly lead to this conclusion. But this policy cannot possibly be continued, for it is behind the age, and a new country ought to set the example to old ones in liberality and not lag in the rear.—*Toronto Globe.*

As the days appropriated for the Provincial Exhibition are fast approaching, we have made enquiries and are much pleased to inform our readers that the arrangements are steadily and quickly progressing to their completion. The necessary sheds and buildings on the Race Course are under contract to be completed by the 30th inst., one of which will be 172 feet long, 20 wide, with side windows and folding doors at each end. The ground in the Court House Square for the Dinner Pavilion has been levelled, and it will be immediately erected. The Ploughing Match on the 6th will be close to the Race Course; on ground cordially granted by —— Mills, Esq. The Chairman of the Local Committee is indefatigable in his superintendence, and doubtless the Show will do credit to all concerned.

The City is to be honored by the presence of His Excellency the Governor General, and as every one will vie in giving a cordial reception to the worthy representative of our Gracious Queen, it also behoves our Agriculturists, Manufacturers, &c., to lay before him the many valuable products of this rising Province. An opening is offered to every one, as a rule of the Society admits all extra articles not enumerated to be entered, and premiums to be granted to those deemed worthy. Under every circumstance we anticipate the pleasure of beholding at this Exhibition a numerous display of good husbandry, arts, and manufactures, which will give a lasting impression to the many strangers that may be expected, of the capabilities and the actual wealth of this section of the Province.

Hamilton Gazette.

Facts and Scraps, original and select.

☞ VISIT OF THE GOVERNOR GENERAL.—On Tuesday next his Excellency, Lord Elgin, is expected to arrive at Kingston, on his first visit to Western Canada. He will travel unostentatiously in the regular Mail Boat, which will be the Passport, Captain Bowen, and will probably proceed upwards the same evening in the regular Lake Mail Steamer of the day. It is not known whether the Countess of Elgin will accompany her husband on this occasion.

☞ COUNTRY FAIRS.—Our paper of to-day contains three Notices from the Sheriff of the District, setting forth the days appointed for the holding of three new new Country Fairs, in various villages near Kingston. One to be held at Waterloo, on the second Wednesday in October, viz the 13th; another to be held at Bath, on the first Tuesday in October, viz, the 5th; and the third at Lambton or Mill Creek, twelve miles on the Toronto Road, on the third Wednesday in October—the 20th. The Governor General in Council, has the power of establishing these Fairs, on petition of the inhabitants of any place desiring them; and it has long been a matter of surprise to many, that he should be so rarely called upon to exercise his prerogative. Napanee seems to be the only village in this vicinity which has had a Semi-Annual Fair for any length of time established; and so indifferent are the people even there, that the Fair Day often passes by unnoticed by any but the villager. This is not as it ought to be. Public Fairs or Marts for the sale or barter of Agricultural Produce, Horses, Cattle and Merchandize, have been found of the utmost service in Great Britain; and we see no reason why they should not be equally serviceable in Canada, peopled as it is with old country folks. We hope the establishment of these three new Fairs will give an impetus to the farmers round and induce them to bring their stuff to market. If persons who want to purchase could be assured of a supply, they would attend in numbers, and make it worth the while of the vendors to be equally punctual.

☞ MILITARY CHANGES.—Yesterday morning the new steamer *Magnet*, Capt. Sutherland, brought down from Hamilton, the Right Wing of the 82nd Regt., late from London; and the same morning the Mail Steamer *Canada*, Capt. Lawless, took the detachment on to Montreal. On Thursday evening the *Canada* brought up from Lachine the Right Wing of the Reserve Battalion of the 20th Regt; and yesterday the detachment went upwards in the *Magnet*. One of the Band was unfortunately drowned while the *Canada* was leaving the harbor. The Left Wing of the Rifle Brigade, now in Fort Henry, we are sorry to say, leaves Kingston on Thursday next, to be relieved by three Companies of the Canadian Rifles. The 46th Regt., in Tête de Pont Barracks are daily expecting the route to Quebec, to be relieved by the 1st Battalion of the 20th Regt., expected daily from Halifax.

☞ LAMENTABLE ACCIDENT.—An inquest was held on Wednesday last, by George Baxter, Esq., on the body of Miss Eliza Franklin, one of the daughters of Mr. Wm. Franklin, residing in Pittsburgh, who met her death the preceding night, in a very calamitous way. The young girl was about paying a visit to a neighbor, on horseback, when the horse took fright, threw her off, and her foot catching in the stirup, she was killed in a very shocking manner. The Jury returned a verdict in accordance with the circumstances.

☞ SAD ACCIDENT.—Yesterday morning, at Hooker & Henderson's Wharf, the body of Mr. James Noble, jun., who assisted his father, Mr. James Noble, in the duties of Clerk of the Market, was picked up. The deceased had been missing from his family since Saturday night last, and it was generally supposed that some accident must have befallen him, as he was always very punctual in his attendance at the Market. A Coroner's Inquest was held on the body yesterday, and the verdict of "Found Drowned" returned.

☞ MCKENZIE'S ACCOUNT OF HIS ESCAPE.—William Lyon McKenzie has favored the public with a narrative of his adventures by flood or field, in making his escape to Yankee land after the route of the Rebels near Gallows Hill. What the object of the little agitator is, is difficult to understand. Apparently he is very anxious to return to Canada, but rubbing up old sores is not the sure way to obtain a pardon. It certainly seems hard to except Mackenzie, when all the other rebels are pardoned.

☞ COLONEL GUGY'S ACTION AGAINST THE HERALD.—A Telegraph despatch yesterday morning made us acquainted with the result of the long trial in the Court of Queen's Bench, at Montreal. A verdict has been rendered for the Colonel, with £250 damages. The law is always uncertain, and this verdict may hereafter be set aside. The libel complained of was certainly a most atrocious one.

☞ ECCENTRICITIES OF THE TELEGRAPH.—A Watertown paper, published in the State of New York, acknowledges the receipt of the news by the Britannia, via Kingston, Western Canada.

WEEKLY REPORT of Interments in the city of Montreal, from 12th to 18th September, 1847. 19 Men, 18 Women, 17 Boys, 22 Girls; total 77.

About six weeks since Mr. Taggart, of the firm of Howdon & Taggart, left this city on board the Pioneer steamer, intending to visit Chambly, St. Johns, or one of the villages in that part of the country, and has not since been heard of. A short search and inquiry having been made without success, the friends of Mr. T. concluded that something of a serious nature had happened, and since, we are informed, done everything to trace his mysterious absence, but without success.

On Saturday last, a body, supposed to be that of the above gentleman, was found in a wood near St. Athanase, with the head severed from the body with an axe or other sharp instrument. The body was much mangled. An inquest was held over the deceased, and a verdict of murder against some person or persons unknown returned.—*Montreal Herald.*

☞ A New Paper is about to be published at Prescott, to be called the *Telegraph*. It is to be published by Messrs. Merrill and Miles.—The former has been for some time the publisher of the Kingston *Herald*, and we believe the Father of the last named, was formerly connected with the Press at Prescott. Some half-dozen attempts have been made to establish a Reform Newspaper at Prescott, but hitherto without success; whether the present effort will be successful, a short time will tell. It may however, answer all the purposes of Messrs. Crane and Burritt, till after the election.—*Statesman.*

☞ The left wing of the 81st Regiment, and the invalids from the several regiments in Canada, embarked on Monday, the 20th inst., on board the Maria Somers, transport. She will sail to-morrow morning for England.

Quebec Mercury.

☞ The celebrated inventors of the disinfecting fluid, about which so much fuss has been made in England, are now in Montreal, making trial of the efficacy of their discovery. We allude to M. Ledayen and Colonel Calvert.—*Ib.*

☞ The Belleisle arrived at Quebec on Tuesday morning with the two Battalions of the 20th Regiment. The 1st Battalion landed to-day. The Reserve Battalion will go on to London, C. W. One Wing in to-night's steamer, and the remainder to-morrow.

☞ EMIGRATION.—To the 4th inst., 86,297 emigrants arrived at Quebec during the present season, being an excess of 56,133 over 1846.

☞ Number of Emigrants arrived at the Port of Toronto ending 17th instant, 32,035.

☞ The Yellow Fever continues to rage with unabated fury at New Orleans. It is alarmingly difficult to procure physicians at the proper moment. The National has only two compositors to set up the whole paper.

Arrivals at the British American Hotel.

Sep. 20th.—W H White, Kingston; Mr and Mrs Hooker, Prescott; Mr Merrirn, Miss Merrirn, Preescott; Mr and Mrs Hilwell, and child, Toronto; Mrs J C West, New York, Mrs G G Strong, Albany; Mr Harvie, Bond; R J Brand, Demerara; W A Fraser, Leitch England; Robert and J Jones, Coburg; James Cook, Picton; James Tyson, Quebec; B McF[illegible], Wellington; Charles O Benson, Belleville; Mrs Hare, Belleville; Mr Carter, Montreal.

Wistar's Balsam of Wild Cherry

It is impossible for us to compress into narrow limits even a brief allusion to all of numerous cures that have been effected by Wistar's Balsam. We can only refer to a few, as specimens of its general efficacy.

A few days ago, a lady called at the office health and looking as robust as though she or know what sickness was. To our surprise stated that until recently, she had been sick between three and four years with what was posed to be consumption—that she had a vio cough, night sweats, with alternate chills fever, and every usual symptom of confirmed sumption. The result was, that she became emaciated as to present more the appearance skeleton than a living being. Providentially, at this time heard of the wonderful cures perfo ed by Dr. Wistar's Balsam of Wild Cherry, commenced using it herself. The effect that she began to get better at once. By degr the cough left her, the chills and fever disappe and in two months she again found herself in feet health.

None genuine unless signed I. BUTTS on wrapper.

SAMUEL ANGLIN.

Kingston, August 27, 1847. 49-1m.

REMOVAL.

THE Subscriber begs leave to return Public Thanks to all those persons whose prompt and willing Assistance at the late Fire, enabled him to remove, without much loss, his Stock in Trade and Household Furniture.

He takes advantage of the present opportunity to inform his Friends and Customers, that he has removed his

BOOT AND SHOE MANUFACTORY
TO KING STREET,

to the House three doors from the Market Square, formerly occupied by Mr. Dickson, as a China and Earthenware Establishment, where he hopes still to receive the encouragement and patronage of the Public.

JOHN GEORGE.

Sept. 1, 1847. 70-1m

NOTICE.

ALL persons are forbidden to purchase from LEWIS FRALICK, or any other person, the West-half of Lot No, TWO, in the 5th Concession of the Township of Ernestown, containing one hundred Acres; for a Deed of which Land, I hold the Bond of his Father, LEWIS FRALICK, deceased, who conveyed to him without consideration, and with full knowledge of my claim—and I am about filing a Bill in Chancery, to recover the same.

Dated Trent Port, 23rd August, 1847.

THOMAS KILMER.
