CAMDEN EAST AGRICULTURAL SOCIETY.

The Camden Annual Cattle Show for 1847, was held at Whalen's Corners, on Saturday, the 9th October last. W. H. CLARK, *Secretary.*

☞ GROWTH OF WHEAT.—Mr. Phillips, a gardener at Hastings, sowed last autumn 410 grains of red wheat on one rod of ground, in drills 12 inches apart, and by single grains near eight inches asunder. This produced within a few days past the enormous quantity of five gallons, being at the rate of 100 bushels per acre; the quality of grain is good, and it weighs 60lbs. per bushel. The weight of straw was 68lbs. The ground had been previously planted with potatoes, which being blighted were dug in. Sixty-two straws and 1,744 grains were counted as proceeding from one grain. The ground had been manured in the winter of 1845-6, with a quarter of a load of rough dung, and the wheat, when young, dressed with one gallon of soot.

☞ KING HUDSON AND HER MAJESTY'S ENGLISH.—We have received a lithographic circular letter this week, in which the Lord Mayor of York has perpetrated a most atrocious and cruel assault upon her Majesty's English. The first, second, and third persons danced, and mingled throughout the circular in all the mazes of a "dinner" confusion.—"The Lord Mayor presents his compliments" to Mr. A. B., and "would be glad if *he*" would "avail *themselves*" of a train "which leaves the station at ten o'clock." The Lord Mayor requests an "early answer so as to know by what train you propose to come."—But the happiest announcement is, that "the Lord Mayor is sorry he is unable to offer a bed to all members of the corporation." Oh! Mr. Hudson, what a flogging your schoolmaster deserves!—*Yorkshireman.*

☞ DEATH OF A CENTENARIAN.—A remarkable character, who had some years ago, been well known throughout the Midland Counties as a vender of tracts, named "Billy Alley," died in Maryborough on Monday sen., at the advanced age of 112 years. He was a native of the Liberty, in Dublin; about the age of 22 or 23, he was present at Lord George Gordon's riots in London, being then a drummer; during the troubles of 'Ninety-Eight' he travelled through the North of Ireland, and subsequently filled up the vacancies between these periods, and up to his sojourn in the Midland Counties, he maintained a profound secret. Billy cannot be numbered amongst the victims of the famine, for his food consisted chiefly of tea; and from the number of persons who contributed regularly to his support, he was enabled to indulge freely in this luxury, as well as in a quantum of ardent spirits and tobacco.—*Leinster Express.*

Facts and Scraps, original and select.

The Sheriff having kindly consented to arrange the Procession on the arrival of His Excellency the Governor General, it would be well for the various public Societies and Companies to put themselves in communication with him without delay.

☞ THE PROGRESS OF TIME AND EVENTS.—It is now the middle of October, and, as yet, few upper country merchants have left their homes to make their Fall and Winter purchases. Ten years ago the same merchants were at their homes, with most of their goods in their own stores. The Fall Business of the Forwarders which used to be nearly over by this time of the year, is now but only commenced; and the flour which is to feed Montreal and Quebec all the winter, is scarcely yet threshed out. The truth is, the year is gradually lengthening, and instead of looking for the close of navigation at the beginning of November, a full month has been gained to Canada; and it would not be presuming to prognosticate, that in another twenty years or so, the close of navigation will be at Christmas.

☞ THE PRESCOTT TELEGRAPH.—Two numbers of this exceedingly well printed and well got up newspaper have reached this office. This addition to the Reform Press of Upper Canada is under the editorship of Mr. Stephen B. Merrill, late of the Kingston *Herald*, who has been induced to establish a Press at Prescott under the belief, that this town will soon become the seat of the Forwarding Trade, and so become a place of commercial importance. Although we cannot wish the expectation of Mr. Merrill realised, still we wish him much success in his new undertaking, for he is a man fully deserving of support.

☞ "AND HE WASN'T FAITHFUL TO HIS CLASS."—Before the District Council adjourned, that body thought proper to change its Clerk. Mr. Samuel McGowan, the former incumbent, has been sick for some time, and, therefore, unable to execute the duties of his office, which devolved upon Mr. G. H. Detlor, his temporary Assistant; and the Council was so much pleased with its new Clerk, that it thought proper to supercede Mr. Samuel McGowan entirely and appoint his Assistant permanently in his place. In justice to the late Clerk, all must admit that the duties of his office, until the time of his falling ill, were diligently and faithfully performed; and his removal must, therefore, be considered somewhat of a personal affair.

☞ OMNIBUS TO WATERLOO.—A very handsome Carriage, driven a la Unicorn, has been established on the road between Kingston and Waterloo. It makes several trips in the course of the day, and is exceedingly well worthy of support. Mr. Sparks, the well known Dairyman, is its proprietor.

☞ HIGHLY IMPORTANT.—The *New York Herald* states:—"In view of the momentous position of affairs in Mexico, an extraordinary meeting of the Cabinet was held to-day. It was resolved to re-call Mr. Trist, and to abandon all further attempts of reconciliation. The condition of the President's health precluded the possibility of arriving at any definite conclusion as to the future course to be pursued. But one thing is certain, that all that remains o' the old government is to be prostrated, and one of our own erected in its stead."

It goes on to say that the U. S. Government have determined to erect a despotism; that the people are to be kept down by the bayonet. "Eternal Liberty, &c."

☞ The *Official Gazette* of Saturday last contains the following appointments:—Bernard Turquand, Esq., to be Deputy Receiver General; the Rev. Joseph LaRoche, to be a member of the Catholic Board of Examiners for the District of Montreal, in the room of the Rev. H. Hudon, deceased; the Rev. G. T. Simpson, to be a member of the Protestant Board of Examiners for the same District, in the room and stead of F. Griffin Esq.; and Joseph Lenoit, Esq., to be a Barrister, Advocate, &c., in Lower Canada.

☞ Five Trustees have just been appointed in Woodstock, Brock District, under the provisions of an Act of the Parliament of this Province, to confer limited corporate powers on the towns and villages of Canada West not specially incorporated. The following gentlemen were elected:—Messrs. Henry Finkle, Nathaniel Hill, James Laycock, Thomas S. Shenstone and Wm. Grey. *Toronto Globe.*

☞ TROY AND CANADA JUNCTION TELEGRAPH CO.—We learn from the *Whitehall Chronicle* that 173 shares of this company have been sold for $33,650. The original plan which contemplated a straight line through Rutland, Brandon and Middlebury to Burlington, has been changed. It is now determined to diverge at Rutland and run the line through Castleton to Whitehall, and from thence via Otwell to Middlebury. The stock of the company has been taken up, and it is officially announced that the whole line will be put into operation by the 1st of December.

☞ DESTRUCTION OF THE LARGEST MILLS IN THE UNITED STATES.—The extensive Gallego Flouring Mills in Richmond, Va. were entirely destroyed by fire on Sunday morning, about 5 o'clock. The loss was very heavy. The mills were owned by Messrs. Warwick & Burksdale. A large number of other houses were destroyed. The whole loss was estimated at $250,000.—*N. Y. Tribune.*

☞ The number of emigrants arrived at Quebec up to Saturday last was 91,891,—being an increase of 60,889 over the corresponding period last year. Of these there were, from England, 30,157; from Ireland, 51,392; from Scotland, 3,304; from Germany, 7,129.

☞ Number of Emigrants arrived at the Port of Toronto, up to the 12th October, 1847,—35,652.

☞ TORONTO EMIGRANT HOSPITAL.—Admitted during the week ending 11th inst., 177; Died, 31; Sent to Convalescent Hospital, 94; Discharged, 50; Remaining in Hospital, 538.

☞ It is said that the Governor General, during his visit to Toronto, will take his seat at the College Council Board.

☞ Col. Dynley, succeeds Col. Campbell (who is about to return to England) in command of the Royal Artillery in Canada.

☞ At the Long Island (N. Y.) Fall Race meeting which commenced Tuesday last, 15th instant, the celebrated *Fashion* was beaten, at 4 mile heats, by *Passenger.*

A POINT OF ECONOMY.—The *Liverpool Albion* of yesterday says—"During the time the case was proceeding against Barrett and Quinn for highway robbery, the prosecutor (John Ashworth) in the case previously tried presented himself before the Judge, and said, 'My Lord, that coat?' The Judge, in surprise, 'The coat! What coat?' Prosecutor, 'That coat the prisoner had on, my Lord, was my property, and I want it back.' The governor of the gaol said it was a fact that the coat belonged to the prosecutor. The Judge, to the prosecutor, 'Well, do you think, after the manner he has worn it, it is worth the application?' Prosecutor, 'Oh, yes, my Lord, it will do rarely for my mon.' (Laughter.) The Judge (soliloquizingly,) 'Well, it's a shocking bad one.' (Loud laughter.) To the gaoler: 'Oh. if it be his coat, and he demands it, give it him by all means.'"

REMARKS.

We have by the last Steamer a continuation of the same disastrous intelligence that has for some months been brought from England, and such is the distrust and want of confidence, that business is generally much affected.

In White Pine, some extensive sales have been made within the last week, but in all other articles above enumerated great inactivity is apparent. Added to the tightness of the money market, the fall fleet is late and comparatively small, and altogether, we see little prospect of improvement for some time to come.

FLOUR.—Owing to the last accounts received per Hibernia from England, holders have succeeded in obtaining advanced rates—the bulk of the sales being at 28s @ 29s per barrel, for good fine, although as high as 30s has been paid in several instances, for fresh ground Flour from Spring Wheat.

MINING SHARES.—Montreal Mining Company's Scrip was sold in quantity some days since, at 3s 9d per share, but it has since continued gradually to advance, 6s 3d being to day offered and refused.

Quebec Mining Company—Immediately after the date of our last circular, sales were made at 17s 6d per share, at which price all offering was at once taken, and the market advanced to 20s, at which rate 1400 Shares changed hands—but demand to-day is languid.

In other Scrips, nothing worthy of notice has been done during the fortnight.

In Railways, no transaction.—*Mont. Herald.*

DIED.

On the 28th ult. at his residence in Elizabethtown, in his 61st year, after a lingering illness, Lieut. Col. Zibe M. Phillips, 4th Battalion Grenville Militia. Dr. Phillips was a man of extensive acquaintance in this District, and known to many in other parts of this Province. In him the long established and respectable residents in the front of the County of Leeds and Grenville have lost an early and most intimate friend; of social habits, kind feelings, and a well-informed mind: although denied the advantages of erudition, his society was particularly agreeable. Inheriting the devotion to Britain of a U. E. Loyalist, he maintained throughout a uniform, inflexible, and zealous loyalty to his Sovereign and his Country, a character which his surviving sons are determined to preserve. The well fought battle of Queenston Heights, and other trying scenes of the late war with the insidious and grasping enemy of Britain, bear testimony of his devotion to the cause. The ancient and benevolent Masonic Order claimed him as one of its brightest ornaments. His rank was high, and his zeal and labors great in that Institution, his heart was given to its prosperity in this Province, and his last request being that he might be buried as a Mason, a very respectable band of the fraternity, his early and attached friends, accompanied his remains to their resting place in Augusta, where they were interred with the rites and honors of Masonry, after a handsome tribute paid to his memory by his Masonic brother, Rev. Johnston Neilson.

STOVES! STOVES!!
CHEAPER THAN THE CHEAPEST.

THE SUBSCRIBER returns his grateful acknowledgments for the liberal patronage heretofore extended to him, and begs leave to inform the public that he is now manufacturing
STOVES
on an extensive scale, which enables him to sell much below the usual prices. From experience in the business, and personal selection of
IRON AND MATERIALS,
also, having a number of first-rate Workmen, the undersigned hesitates not to say, that he can turn out an article equal to any manufactured in the United States. If you don't believe it, *call and see.* The Subscriber is manufacturing the
Buck Hot Air Cooking Stoves,
which, in the estimation of all who have used them, are found *right* as a Cooking Apparatus. No Stoves have been made yet which gave such uniform and perfect satisfaction, wherever they have been well put up and fairly used. There is so perfect a combination of points essential to a good Cooking Stove, that he wishes particularly to call attention thereto. The capacity of this Stove is so great, that he has no hesitation in asserting that no other Stove which has yet been constructed is capable of doing an equal amount of work so perfectly with an expenditure of so little labor and trouble.

The undersigned having used those Stoves for nine months, believe them to be superior to any Stoves they have ever seen or used, and recommend them as an article that cannot fail to give perfect satisfaction.
DAVID SHIBLEY, *Bath.*
JAMES SHAW, *Napanee.*
ROBERT HOPE, *Newburg.*
N. B.—All orders thankfully received and punctually attended to.
