Ashes.—Pots have improved considerably. In our last, we quoted them at 25s @ 25s 6d, from which they gradually advanced, and 50 bls were sold a few days since at 27s 6d. Pearls, which gave way when the demand for the Boston Market had subsided, have recovered, and are now held at 32s; the last accounts from Britain have given a tone to the Market, and prices are firm with an upward tendency.

Pork—Nominal at $17 for Mess, $16½ Prime Mess, and $15 Prime.

Beef very dull. Prices nominal at $12 for Prime Mess, and $9½ for Prime; of Mess there is none.

Butter is selling for local consumption at 6½d @ 7d for good quality, but for inferior sorts there is no demand: the prices ruling in England are encouraging, and if due attention be paid to the packing, we have no doubt it will shortly become a valuable article of export.

Lard very scarce and 7½d has been given for it.

Money continues tight, and the Banks are stringent.

Exchange has somewhat declined. The Banks drew last packet day at 13 per cent, and a further reduction is expected.

The stock of Flour in this city is now reduced to about 15,000 barrels, and being in few hands, there is less disposition to sell than has been exhibited, and the market is somewhat firmer; still it is difficult to say whether any advance will really be established as there is no demand except for local consumption, and there is every prospect of the supplies coming forward to prevent any great advance; still as 24s has been paid for May delivery, we do not apprehend prices will go below that figure during the next two months.

Toronto Market, April 4.—We have to notice a slight rise in the Toronto Markets in every thing. Flour and Wheat slightly on the rise, the former 21s 3d, the latter 4s to 4s 2d. The price of the Bread has increased one half-penny per loaf. Poultry enormously dear. The market has been in general very dull.—*Tor. Herald*
