☞ Longevity Hospitals. "Total cases under active Medical treatment, 190; total in a Convalescing state, 96; total 216. Total in Convalescent Hospital, 109; Grand total, 325. The whole of the patients in both Hospitals are visited daily by the Medical officers, and although only 130 of the 216 in the Sick Hospital are under active treatment, the remaining 86 are in that critical state, which every medical practitioner will know, demands the utmost attention, and the most careful management on the part of the Physicians to prevent the occurrence of relapses. The present Medical Staff, of which you complain as much too numerous, consists of two Physician and two clerical clerks. The number of patients in the Hospitals has decreased, within the past month, to the extent of about 100. The Medical Staff has been reduced, from time to time, according to the decrease of patients. The last reduction took place early in March. A further reduction is now contemplated, and will be carried into effect as soon as the state of the Hospitals appears to warrant."

☞ The Penitentiary.—We have several letters on the subject of the Kingston Penitentiary, and the mismanagement of its affairs. We are indebted to our correspondents, and would gladly have given their communications publicity; but we learn that the Government are about to institute an immediate inquiry into the management of this Institution, and with the obtaining of such an investigation, we think the legitimate duty of the Press ceases for the present. All we desire to see the National Penitentiary conducted in a humane and efficient manner, but the conductors of the present system are entitled to a patient and impartial hearing. We hope the powers of the Commissioners about to be appointed, will extend to the general management and disciplinary system of the Institution.—*Toronto Globe.*

Father Mathew.—As will be seen by the following extract from a letter addressed by Father Mathew to the New-York Temperance Society, his visit to America is deferred for the present:—

"By command of my superiors, I am obliged to go to Rome, prior to my departure for the States; and having lately suffered from a severe attack of influenza, I have not been able to leave Ireland as soon as I intended.—It will therefore be out of my power to return from Italy in time to take passage in the 'New World.' About the end of August, or early in September, I promise myself, God willing, the pleasure of crossing the Atlantic."

☞ Steam Ferry.—The Kingston and Wolfe Island Ferry Company have just placed upon the route their new boat built here for the purpose. The ferry-boat is propelled by a low-pressure engine of 20 horse power, manufactured at Honeyman's Foundry. We understand that this is the first low-pressure engine constructed in this city, and we have been very much pleased in noticing its easy and correct working. A proof of the latter may be observed in the fact that it has accomplished thirty strokes per minute—a rapidity of execution which speaks well for the excellency of the workmanship.—*Chronicle & News.*

☞ It was currently rumored yesterday, and we believe the rumor is correct, that a vacancy is made in the Judicial Bench of Montreal, by the retirement of Judge Gale, and that it will be filled up by the removal of Judge Bedard from Quebec. Mr. Aylwin will succeed Mr. Bedard; and we hear, has already started for Quebec, to take possession of his new post. Mr. Drummond, it is stated, will succeed Mr. Aylwin as Solicitor General East.—*Gazette.*

☞ The Niagara District Assizes.—The Assizes are still in progress. The cases which have excited the greatest amount of interest were those of *Gount* for the murder of Mrs. Bell, at Port Robinson; and *Barnes*, and the woman who resides with him, for causing the death of Barnes' son by inhuman treatment. The former has been found guilty, and sentenced to be executed on the 6th May.—*Niagara Mail.*

☞ The *Gazette* contains a proclamation "creating, erecting and constituting" a new township, to be called Price,—so named after the Hon. James Harvey Price, Commissioner of Crown Lands. This township is situated in the county of Megantic, bounded on the east and north-east by the lake St. Francis, on the north-west by the River St. Francis, and on the south-west—*i. e.* from the river St. Francis to the lake again—by the county of Sherbrooke. It contains 17,680 acres.

☞ *Dr. Telfer has been removed by the* Government, from his situation, as First Physician in the Provincial Lunatic Asylum.—*Globe.*

☞ One of the trains of cars of the Albany and Buffalo Railway ran off the track near Canandaigua, on Thursday morning. We have not yet received the particulars, but we regret to learn that several lives were reported to have been lost.—*Ib.*

☞ A fire broke out on Wednesday afternoon last, in a small frame house, on King st., near the Don, occupied by John Kingston as a shop and dwelling-house, which was consumed with nearly all its contents. The building was owned by Henry Lewis—no insurance.—*Ib.*

☞ We regret to learn that the dwelling-house of Mr. W. P. Howland, at the Humber Bridge on Dundas-street, was burnt down on Monday morning. The fire broke out in the roof and was with difficulty prevented from spreading to the neighboring property. Mr. Howland's furniture was partly saved although considerably injured. We are sorry to say there was no insurance.—*Ib.*

☞ Sir William Colebrooke has been appointed Governor of British Guiana, but will visit England before repairing to his new Government.

☞ The Liberal Cause in England.—Mr. Herries, in the House of Commons, on the 17th ultimo, admitted the whole loss sustained by the 220 important British failures of business firms, last year, at $150,000,000.

☞ The Pope has requested that the sums subscribed for the erection of monuments to him throughout his states, shall be applied to the more useful purposes of erecting an asylum for aged persons at Rome, each Province having certain rights of presentation.

☞ Louis Philippe.—The N. Y. *Courier des Etats Unis* states on the authority of a letter received by the steamship *Washington*, that the ex-King of the French is about to visit the United States for the purpose of fixing his residence in that country.

☞ Parisian Printers.—The printers of Paris took an active part in the late revolution. They were foremost in the fighting ranks every where—leading on and encouraging the people to achieve the glorious victory which at length crowned their efforts. We cannot but feel proud of our craft, when we find the majority of them ever fighting with pen or sword, as the case may be, for the liberties of the down-trodden masses. Our readers may guess the part the printers of Paris took when we tell them that *twenty-seven* of their number were killed.

There is rather a better feeling in Beef, but prices are without marked change. Sales reach 400 or 500 barrels at $8 for country Mess, and $8,56 *a* $8,69 for city. There is a good enquiry for Prime Mess, of which there is a very small supply.

THE undersigned offers for sale a number of very eligible BUILDING LOTS in the Village of Elgin, in the Township of Montague, immediately adjoining the thriving Village of Smyth's Falls. These Lots have been laid out in a very judicious manner, and with a view to accommodate Mechanics and others. They have been made much larger than those of Smyth's Falls—the rapid increase of that place, from its contiguity to the Rideau Canal, offers a fair guarantee for the future prosperity of the Village of Elgin. Tradesmen and others would do well to immediately avail themselves of the advantages the subscriber holds out.

The Lots are offered at less than one third of the price asked for Lots in the Village of Smyth's Falls.
