☞ It will be recollected that sometime since, a man of the name of McKeon committedly and brutally assaulted the Editor of the *Pilot* in the Streets of Montreal. The man was tried and convicted of the offence, and rewarded by the Hon. Dominic Daly with an office of £100. Mr. Hinckes, on resuming office, found McKeon in possession. Under these circumstances, how would any man act? Why, of course, turn the fellow out, which was "done accordingly." Tories have made this another case of proscription. They must be sadly in want of matter for abuse when they pick up such small crumbs as McKeon's dismissal from an office which he received for doing the dirty work of the tory administration.—*Journal and Express.*

☞ The Oxford Election.—The Parliamentary election for the County of Oxford took place on Tuesday last, at Woodstock, when the Inspector General was elected without opposition.

☞ The Steamer St. George has returned from below, whither she went to lay down the buoys. The Captain reports the river to be clear of ice. He did not see any upward-bound craft.—*Quebec Mercury.*

☞ We have been favoured with a splendid specimen of copper from Inverness, in the county of Megantic, which is said to be superior as a sample, to the specimens brought from Lake Huron and infinitely richer than those from the Australian mines.—*Ib.*

The *Inverness Courier* calls attention to an agricultural advertisement, from which it appears that Canada Oats have shewn themselves very profitable for seed in Scotland—From some seed imported three years ago, have proceeded the *Piperhill Prolific Oats*, said to yield three times the return obtained from any other in the country.

☞ New Brunswick.—The *Loyalist* of St. John's, New Brunswick, say that an Organized club exists in that city, whose avowed object is annexation to the United States.

☞ The United service Gazette, of the 1st ult., states that two Battalions of the Guards are under orders to proceed to Ireland at a moment's notice.

☞ Prince Edward.—We understand that a change is about to take place in the manner of carrying the Mails through this District. They will no longer be carried on horseback, but by stage. Not only therefore will letters and papers be transmitted in a more safe condition, but the District will reap the advantage of having a daily stage passing and repassing through it.—*Picton Sun.*

☞ We learn from the "Melanges Religieux," that His Excellency the Governor-General has made a donation of twenty pounds in aid of the projected Canadian settlement in the Eastern Townships.—*Gazette.*

☞ Weekly Mails to Europe.—It will be seen by the Post Office Notice, in our present issue, that from and after Thursday next, a weekly mail for England will leave Montreal, on Wednesdays and Thursdays of alternate weeks.—*Ib.*

☞ Very Important.—About 100,000 bushels of Canadian Wheat will be received at Rochester, this spring—25,000 bushels have already been received. As large a quantity, we believe, may be put down for Oswego. The wheat we understand, pays a duty of about 15 cts., per bushel, is floured, and sold in the Eastern Markets. The price of wheat in Canada averaged about 80 cents per bushel. Those who understand the trade say this will yield a fair profit at the price.

☞ The Liverpool *Albion* states that two Irish vessels, on the point of leaving that port a short time since, hoisted the Irish national flag. Upon this being perceived, they were immediately pursued by a Government vessel, whereupon they promptly lowered the obnoxious emblem. *Punch* says the emblem for the Irish standard ought to be a Hyena, the creature, according to Wombwell's natural history, "wot kindness cannot conciliate, nor hunger tame."
