The following reply was returned by the Officers of the "Lucan" and "Pallas" to the Address presented to the Municipal authorities on Saturday last, according to the resolution passed in the Municipal Council:

TO THE MAYOR, ALDERMEN, AND CITIZENS OF MONTREAL.

Gentlemen,—The undersigned Captains of the United States Revenue Marine, charged with the duty of transporting the Postal State Steamers *Lucan* and *Pallas* from the waters of Lakes Erie and Ontario to the Atlantic Ocean, acknowledge with feelings which we may fail to express, the sentiments presented by the Address received from the Municipal authorities of Montreal.

The sole object of this expedition, was to place in possession of the officers charged with the survey of the Atlantic coast, the means necessary to carry out this great enterprise, one which, from the growing interests of Great Britain and the United States—particularly in steam navigation—is of the most vital importance to both.

It was our expectation, under the permission granted by the Government of Great Britain, with the acquiescence of the Colonial Council, to have passed through the river without any demonstration on your part; but we have found that an interest has been excited among all classes of your citizens, for which we were wholly unprepared.

From the tenor of your Address, this simple enterprise is looked as the harbinger of that free and untrammelled trade, when the true source of wealth, the products of the soil, shall find their way through all the natural channels created by an all wise Providence, and those artificial ones which have been formed by the liberality of the British Government and the enterprise of your own citizens.

It is not our design to touch upon those subjects of national or of political wealth, which are so wisely governed by the proper officers of both governments; but to express the desire, that whatever may conduce to the interest of both, may be fully consummated.

We feel with great gratification the coming of that period, when the Meteor Flag of Great Britain and the Star-spangled Banner shall carry the blessings of civilization and of political and religious liberty to the extremities of the earth; and wherever their influence is felt, tyranny and oppression shall be known no more.

Closing our brief reply—as the chief characteristic of a sailor is brevity in speech and promptness in action—we return our grateful acknowledgements for the overwhelming kindness and attention which we have received from all classes of your citizens, as well as from the officers of Her Majesty's Government; and, trusting that all vessels which may in future descend this noble river may come laden, not with the opprobrious epithets of war, but with the products of agricultural labor,

We have the honor to be very respectfully,
Your obedient servants,
ALEXR. V. FRASER,
W. A. HOWARD,
D. OFFINGER,
Captains U. S. Rev. Marine.

Montreal, July 8 1848.

MEXICO.

Conspiracy against the Government—Departure of the troops.

The steamship Palmetto arrived at New Orleans on the 22nd June, from Vera Cruz. Our advices from that city are to the 19th, her day of sailing.

A formidable conspiracy has broken out in the city of Mexico, having for its object the overthrow of the Government, and the extermination of the peace party—or the party in favor of the late treaty. The work of assassination has already commenced, five of the prominent advocates of peace, friends of the United States have been murdered.

The conspiracy is headed by Gen. Paredes, Ex-President, and Padre Jarauta, the guerilla leader.

All the United States troops were expected to leave the Capitol on the 21st June.

The Palmetto brought four companies Michigan Volunteers.

Mr. Sevier left the Capitol on the 12th, and was expected to arrive at Vera Cruz on the 19th. On his arrival at Vera Cruz the Custom House at that place would be given up to the Mexican authorities.

LACHINE CANAL.

From and after the 10th July, current, no steam vessel shall be allowed to pass any of the locks of the Lachine Canal, which shall not have fixed at the top of each of her chimneys or smoke-pipes a wire screen, through which the smoke from the fires of the steam vessel are to pass, with meshes or interstices not more than one quarter inch in width; and any lock keeper who shall permit the passage of any steam vessel or craft propelled by steam, after that date, without such wire screen on such of the chimneys or smoke-pipes, shall be subject to a fine of five pounds for each offence; and every master or person in charge of any such steam vessel, or other craft propelled by steam, who shall proceed with the vessel under his charge into or in any part of the said canal, or shall permit such vessel to enter or to proceed through any portion of it without such wire screen on each of the chimneys of the vessel or craft, shall be subject to a like fine of Five Pounds for each offence: the fines to be recovered and paid under the provisions of the Act of the Provincial Parliament, intituled, "An Act to amend the laws constituting the Board of Works."

The foregoing regulations have been made by the Governor in Council, in consequence of its having been represented that serious damages have arisen to inhabitants of lands and houses, in the vicinity of the line of the Lachine Canal, from the setting fire to barns and other buildings by means of the sparks proceeding from the pipes of Steam vessels passing the canal; and because great danger exists of such mischiefs being continued, unless some regulation be made for their prevention.

DEATH OF DR. DONLOP.—We have received the July number of the British North American *Journal* of Medical Science—as usual, varied in contents, and interesting to the scientific practitioners. In the obituary we regret to learn the death, "on the 29th ult., at Cote St. Paul, of Dr. William Donlop, aged 57, late M. P. P. for Huron, C. W. Dr. D. was the first lecturer on Medical Jurisprudence in Great Britain." A further biography is promised. The political career of Dr. Donlop, in this province, is well known, and he closed a varied and eventful life by accepting the office of Superintendent of the Lachine Canal, in the possession of which he died. In Britain he is known as the "Tiger" of Blackwood's Magazine; and in the palmiest days of that periodical, was the intimate of Professor Wilson, Mr. Lockhart, and other luminaries of the famous "Nodes Ambrosianæ." Dr. Donlop was a man of high spirit of loyal and personal independence; of much learning as well as social brilliancy; with a spirit of vigorous sarcasm, and so discreetly that we do not believe he had an enemy in the world. Like many other very able and desultory men, the works he leaves behind him convey a very inadequate idea of his talents. His remains will be removed, to be interred on some property he had acquired on the shores of Lake Huron.

Montreal Gazette.

BODY STEALING.—On the night of Thursday last, the body of a young man, named John McClement, was taken from the graveyard of St. Andrews' Church, in this town; and as soon as information reached the Police Office, different members of the Board, with clerk and High Bailiff, proceeded to the hospital and such other places as they supposed the corpse might be concealed, but in vain. A watch was stationed at different points during the night of Friday, for the purpose of observing any suspicious movement that might take place. Nothing however occurred; and on Saturday there was an immense excitement in town. The Board of Police offered a reward of $50 for the recovery of the body and such information as would lead to the conviction of the thieves: and a public meeting was called to take place on the same day, at four o'clock in the Town Hall, at which a committee was appointed, for the purpose of making diligent search throughout every ward. Nothing was elicited by this procedure, calculated to throw light on the subject, except that at the residence of the person supposed to be the principal perpetrator of the diabolical deed, there was a shirt discovered, having mould on the sleeves and shoulders, as if the wearer had been working in a grave with his coat off. On Saturday night, the body was returned to the churchyard, and again buried.—*Niagara Mail.*

☞ FIRE PROOF WORKS.—We regret to learn that the Government, owing to the present depressed state of the money market, have entirely failed in their efforts to raise the sum of money, voted during the last Session of Parliament, to carry on the public works. The late Government, with the hope of creating a little popularity, entered recklessly on the execution of works, without making any provision for the means of payment, and the consequence is, that operations on some portion of these works must cease for a time. The Government desire that the stoppage should take place only in those works, the parts of which already completed will not suffer by it, and to examine how many were in this position, and how many were otherwise, was one object of Colonel Tache's visit to Upper Canada in company with Mr Killaly.—*Globe.*

☞ ON DIT.—We have been informed that the Commissioners appointed to examine into and report upon the late Treasurer's accounts with the District, have now concluded their investigations, and that many startling facts have come to their knowledge. It is not deemed prudent just now to say more than that a deficiency of some £1100, appears in the Court House and Jail fund alone, and that sums varying from £10 to £60 have been charged twice and we believe in some in some instances, even three times, in all amounting to some £700.—*Victoria Chron.*

We have been instructed to contradict the "*on dit*," published in the last *Victoria Chronicle*. The Commissioners have not yet closed their investigations, consequently no just conclusion can be come to with respect to the late Treasurer's accounts. So much for the *Chronicle's* love of truth.

Belleville Intelligencer.

EMIGRATION TO NEW YORK.

NUMBER OF EMIGRANTS SINCE 1st JAN.—There arrived in New York in the last six months 85,781 passengers, of which 55,921 were in May and June.

The Commissioners of Emigration at New York have now under their care about 1250 persons, of which 801 are at the Hospital, Staten Island, more or less sick, and 150 destitute, well or convalescent at Ward's Island.

NUMBER OF EMIGRANTS ARRIVED IN JUNE.—There arrived at New York from abroad, the last month, 27,043 passengers, of which were from Ireland 11,210; Germany, 7,289; England, 2,311; Scotland, 612; France, 216; Holland, 317; Switzerland, 236; Spain, 17; Wales, 125; South America, 4; Italy, 66; West Indies, 60; Denmark, 7; Norway, 163; Sweden, 11; Poland, 9.

SHIP FEVER.—The British ship *Speed* arrived at New York on Monday afternoon last from Liverpool with 320 passengers on board; five have died, and thirty or forty are sick of the ship fever. There have been two births on board during her passage.

☞ We are glad to learn that the very needless panic which prevailed for some days with regard to the solvency of the Montreal Provident and Savings Bank, has entirely subsided, and that perfect confidence in the Institution has been once more restored. Not only has the run on the Bank ceased, but many of the deposits withdrawn have been replaced, and the notices of withdrawal recalled.—*Montreal Pilot.*

☞ MELANCHOLY ACCIDENT.—We regret to say that a private of the 93rd Highlanders, William Barber, was yesterday evening killed by falling from Cape Diamond into a yard in rear of Champlain Street,—a height of about 300 feet. We heard it supposed that looking down from the cliff he became giddy and fell. No cause has been assigned for his presence at the spot from which the fall took place.

Quebec Mercury.

☞ THE HANGING OF JOSEPH FORBES.—From the manner in which the rope was affixed, or some other cause, instead of pressing on the jugular vein and wind pipe, the rope merely caught the unhappy man by the chin, and there he hung in the utmost torture for many minutes, groaning fearfully and so loud that he was distinctly audible at the Wellington Hotel. His struggles were furious. Sometimes his knees would be gathered up to his breast and then suddenly relaxed—every muscle being in motion and a deep groan following each operation. Every gasp of breath appeared to have, that the head would slip through, and drop him to the ground; but after fully nine minutes had elapsed of this awful scene, his muscular efforts became weaker, his struggles less vehement, and he gave up the ghost by a death of torture such as we believe, was never before exhibited even from the gallows.

☞ MASSACRE OF THREE MISSIONARIES.—The Sydney papers of the 31st of January received by the last mail, announce the murder of three English Missionaries at the island of St. Christoval, by the natives in the month of September last. The bodies were afterwards cut up and devoured by the savages. The English attendants on them contrived to make their escape, and had reached New Granada in the ship Anonyme, which vessel brought the news to Sydney.

☞ THE QUEEN AND REPEAL.—The following is a copy of Her Majesty's answer to the address which was presented to her by the Lord Mayor of Dublin, on Thursday, in favor of repeal:—"I thank you cordially for your address of congratulation, and for the interest you express in my domestic happiness. It is my constant aim to promote the peace, comfort, and constitutional liberty of all classes of my people, and my greatest satisfaction is derived from the assurance of their loyal and affectionate attachment. I have felt deep sympathy for the suffering of many of my subjects in Ireland. I have given my cordial sanction to the various acts passed by the Legislature for the mitigation of that suffering, and I trust that by means of those acts, aided by private charity and local efforts, the pressure of severe distress has been materially relieved. I am fully persuaded that measures calculated to advance the interests and promote the welfare of that portion of my united kingdom will continue to receive from the Imperial Parliament the most careful and attentive consideration."

☞ TAKE CARE.—A man died in Pittsburgh last week, from eating four hard-boiled eggs, before going to bed at night. A hard egg is about as nutritive and digestible as a paving stone.—*Democratic Union.*

☞ A young man named Hosea Holenbrook leaped over the Genesee Falls on the 15th ult., near where the celebrated Sam Patch performed the same fool-hardy feat. He was seen to rise in the water, but immediately lost sight of. His body had not been recovered at last accounts. The motives seems to have been fame, and making a spec by a like feat on the 4th July.—*Ib.*

☞ THEATRE.—Mr. Charles Hill and family, gave Theatrical exhibitions at Washington Hall in this village on Monday and Tuesday evenings, to crowded houses, and with very general satisfaction.—*Ib.*

☞ FEMALE EMIGRATION.—A body of nearly 200 young women took their departure from this port on Thursday in the Royal George, for Sydney New South Wales. They go not free of expense under the auspices of the Australian Land and Emigration Commissioners, and have been selected by them from the Orphans of Ireland. The want of domestic servants, and the great disparity of the sexes in these colonies, which has long been a subject of remark and regret, has led to this novel freight. Half a dozen matrons have the charge of the girls; and as the Royal George is well fitted up and provided, there is little doubt but that they will have a prosperous voyage, as well as a hearty welcome at their destination in the other hemisphere. The ship Oriental is expected to sail to-day (Saturday), for the Cape of Good Hope, with 200 emigrants on board. She is likewise chartered by the Emigration Commissioners.

Plymouth Time

NEW INVENTION.—We understand that a machine has been recently invented in this town for folding newspapers and other printed matter. It is to be connected with a cylinder or improved Adams press, so that the sheets come forth from the press folded in the required form. The inventors warrant it to fold 3000 papers per hour, of any size, with the greatest accuracy. As we have not yet seen it applied to any press, we must say with Esther Ritchie, *neut cersuns.*—*Springfield Repub.*

☞ EXTRAORDINARY OCCURRENCE. The following extraordinary scene, we are informed, took place the other day at the Clarence Dock: A deserter, in charge of two armed soldiers, had just disembarked from Ireland, and was being marched into town, when, taking advantage of the crowded thoroughfare, he separated himself from his guardians, and as they advanced to enclose him, he pushed on one of them, whom he struck on the face with his whole force; being handcuffed, the blow was given with the unit of force of both arms. The unfortunate soldier fell to the ground, and it was afterwards found his jaw bone was broken. His comrade immediately ran his bayonet into the body of the deserter. A policeman interfered, and was about taking the soldier into custody, when he received a hint that if he did not keep his distance, he would also be treated to several inches of cold steel—a threat which he appreciated.

ALEX. MAIR.

Kingston, June 27, 1848. 53-tf

The Colonial

LIFE ASSURANCE COMPANY.

(Registered and Empowered under Act of Parliament, 7 and 8 Vic., Cap. 110.)

GOVERNOR:

THE RT. HON. THE EARL OF ELGIN AND KINCARDINE,
Governor General of Canada.

HEAD OFFICE, MONTREAL, 19 GREAT ST. JAMES STREET.

BOARD OF DIRECTORS.

The Hon. PETER M'GILL, President of the Bank of Montreal.
DAVID DAVIDSON, Esq., Manager of the Bank of British North America.
ALEXANDER STEVENS, Esq., Cashier of the Bank of Montreal.
HUGH RAMSAY, Esq., of the firm of Armour & Ramsay.
CHARLES DUNKIN, Esq., Advocate.
The Hon. Justice M'LEOD.
The Hon. W. B. ROBINSON.
The Hon. A. N. MORIN, Speaker of the Legislative Assembly.
B. H. LEMOINE, Esq., Cashier of the Peoples' Bank.
Medical Adviser, GEORGE W. CAMPBELL, M. D.
Law Agent, JOHN ROSS, Q. C.
Manager, ALEXANDER DAVIDSON PARKER.

THE CAPITAL of the Company is £100,000. All the Directors are Shareholders of the Company.

THE RATES have been formed on the most correct observations which exist as to the value of life, and will be found as moderate, in many instances more so, than those of most other Companies.

HALF CREDIT SYSTEM.

The Company will grant Assurances on the following plans:—Half of the Annual Premium will be required for the first two or seven years, the remaining half, with interest, being chargeable as a debt on the Policy, to be paid off when convenient, or, at the option of the assured, to be deducted at settlement of the claim.

Copies of the Company's Prospectus—Tables of Rates for Assurance—with examples—without profits—on Single Lives—Joint Lives and Survivorships for the whole term of Life, or for a limited period—together with every other information, may be obtained on application at the office of the Company.

Medical Adviser for Kingston,
JAMES SAMPSON, M. D.
Agent for Kingston,
WILLIAM GRANT.

Office, Princess Street.

Messrs. McDonald & Campbell, Agents, Toronto.

June 30, 1848.

SPECIAL NOTICE.

THE COLONIAL LIFE ASSURANCE COMPANY is now prepared to effect TEMPORARY INSURANCE AT REDUCED RATES, on the lives of parties being SHAREHOLDERS in any BUILDING SOCIETY, so as to prevent forfeiture of Shares, or loss of mortgaged property, through non-payment of the instalments, in case of death, during the existence of such Society.

Tables of Rates and every further information may be obtained at the Company's Office.

WM. GRANT,
Agent.

Princess Street,
Kingston, June 22, 1848.

IN THE COURT OF BANKRUPTCY FOR THE MIDLAND DISTRICT.
