MONTREAL Oct. 12, 7 P. M.

FLOUR.—This morning about 5 o'clock a fire broke out in the stable in rear of Kearn's tavern, King st. which building and two other were destroyed; also, Titan's Bakery, Ganer Cooperage and McArthur's Grocery. At the commencement of the fire the wind was along from the North West, but suddenly changed to the East; it saved the whole range of buildings, Most of the property was insured.

FLOUR.—The only transaction we hear of to-day is a sale of 700 bbls Superfine at 28s 6d. In Wheat very little doing. In other articles no change to note.

NEW YORK, Oct. 12 2½ p. m.

We have no mails to-day south of Richmond.

The Steamer Pinnywood was lost on Lake Ponchartrain. 15 lives lost, 8 only being rescued.

NEW YORK, 6½ P. M.

Captain Bertrand, of the ship *Alhombria*, has been arrested for murder, and the second mate for manslaughter, for jointly causing the death of one of the crew, on a lake voyage, by actuel whipping while he was sick.

A planter of Spartanburg, Georgia, was shot dead by his overseer, Joseph Glenn, out of a motive which instigated the crime.

A woman was murdered yesterday, at Brooklyn, by a drunken husband.

A man named Gallagher cut the throat of a Mr. Hunter last night, at an apothecary's shop in Eden Street, killing him instantly.

MARKETS.

Ashes firm at $6 12½ a $6 18¾. Cotton as before.

Moderate demand for flour to-day; market for mixed brands rather heavy. For mixed Genesee the market was steady. Transactions for export not exceeding 2 or 3000 bbls. Aggregate sales 6 or 7000 bbls., at $5 25 a $5 50. A sale of 1000 bbls. for next week at $5 62½, and 1000 bbls for November at $5 50. A sale of 800 bbls fancy Ohio at $5 62½. Meal $3 37½ and dull. The sales went off at full prices.

☞ JOHN S. MACDONALD, Esq., M. P.—The suit in Chancery, instituted by the Government to procure the repeal of a Patent obtained by this gentleman for the Cornwall Market Lots, has been pressed to a conclusion by Mr. Solicitor General Blake, who declared, on his coming into office, with reference to this suit, that no man in his time should escape justice by reason of his having a vote in the Commons House of Assembly.—On the 3rd instant the Vice Chancellor formally pronounced a decree, that the Patent, be repealed, with costs, to be paid by Mr. Macdonald. A full report will be found in another column.

## CAPE VINCENT AND ROME RAILROAD.

We find the annexed notice of the progress made in the prosecution of this work, in the columns of the *N. Y. Courier & Enquirer*:—

"This road, we are happy to learn, is likely to be made forthwith. The whole line was put under contract on the 26th ult., to a New England company, and $100,000 Eastern subscription for stock made at the same time.

"A subscription for stock in the Watertown and Rome road was started in this city last fall, but owing to the growing stringency of the money market, and the uncertainty of legislative action with respect to railroad corporations, the effort was abandoned for a "better time coming."—This has come.

"We hope and trust our Black River country friends did not shake the dust from their feet at the time of their retreat, but will yet return and give New York business men and capitalists a chance in an enterprise fraught with so much advantage.

"We have seen the report of the chief engineer of mid road, and are agreeably surprised at the anticipated dividend and cheapness of construction, the whole 96 miles costing no more than $1,250,000 to be put in running order.

We judge from the Director's circular, accompanying the report, that but comparatively a trifling addition to their stock subscription will place the company in safe and easy circumstances to proceed with the utmost speed to the completion of the road."

## THE GORE ASSIZES.

The sittings of this Court for the District of Gore terminated on Thursday evening last; His Honor Mr. Justice McLean having to open the Court at Cornwall this morning. The large number of cases on the docket, and the short space of time allotted for the trials, has left between thirty-five and forty remanets. There were but few cases of interest, and none involving any great principle, legal or otherwise. Before the Court closed, His Lordship proceeded to pass the following sentences, addressing appropriate remarks on each prisoner:

George Doughty—Sheep-stealing, 1 week common Gaol and 3 years in P. Penitentiary.

Charles McDonald—Stealing a Rifle, 4 months common Gaol.

Alexander Evens—Stealing, 2 months common Gaol.

John Sanford—Forgery, 6 months common Gaol.

John Russel—Assault, and attempt at Rape 6 months common Gaol.

Walter Manley—Stealing, 2 months, do.
R. H. Thomas—Stealing, 2 months do.
William Green—Stealing sheep, 4 months do. do.

Elizabeth Briggs—Assault and battery on Division Court Bailiff, when in execution of his duty, 1 month common Gaol.

William Briggs—do. do. 2 months, do.

James Briggs—Assault, 9 months common Gaol, hard labor.

Robert Hunter—Stealing, 3 months, common Gaol.

Ellen Doyle—Larceny, 2 months do.
Catharine Anderson—Stealing, 2 do.
Mary Ann Barker—Stealing, 3 do.
Mary Woodgate—Receiving stolen goods, 4 months common Gaol.

One circumstance strikes us as singular;—The Grand Jury were not dismissed by the Judge, and some of them actually met on the morning of His Lordship's departure from this for the purpose of transacting business.

☞ THE STEAMBOATS AND THE PROVINCIAL EXHIBITION.—We learn by our contemporary of the *Argus*, that the Captains of the Lake steamers, with the exception of Captain Sutherland, of the Magnet, have asserted that no arrangement was made with them to carry passengers and stock to and from the Exhibition at half price. The steamboat captains are quite right, because the arrangements were made with their master, at his office in Toronto, by no less than three gentlemen of the Executive Committee. The proprietor of these boats is a gentleman who will keep his word, and if through any neglect of the officials under him, passengers have paid more than half price, their money will be returned to them on application to the Secretary of the Committee, H. Jones Ruttan, Esq., of this town.—*Coburg Star.*

☞ MILL CREEK FAIR.—The annual Fair will be held at Mill Creek on Friday and Saturday, the 20th and 21st days of October inst. We trust our farmers will make an effort to bring their best stock to the ground, and thus take a step in preparing to compete with the farmers of other Districts at the Provincial Show next year.

MURDER IN THE CHEROKEE NATION.—The *Arkansas Intelligencer* reports that Martin Benge, son of Captain John Benge, murdered George Fields, both Cherokees, in the Cherokee nation, on the 21st ult. It was a cold-blooded, desperate affair. The father and friends of Benge held Fields while Benge plunged a bowie knife into him; he died on the spot. The difficulty grew up at a horse race. The Fort Smith *Herald* gives a fuller account of his murder, which makes it even more heated than the foregoing. Young Benge is said to be a perfect desperado, who has often been screened by his father's influence from punishment. The old man has been arrested.

THE CATASTROPHE AT THE FALLS.—It has been very satisfactorily ascertained that the unfortunate man who met so sudden and awful a fate at the Falls, on Sunday afternoon was Richard Loedom, of this city. We understand that he owned a boat on the river, answering the description of the one which went over the Falls, which he frequently used in fishing and sailing. He has not been seen or heard from since Saturday, on which day he borrowed a rifle, and said he was going down river hunting, and there is every reason to belive that it was him who was seen to go over the Falls. He was shoemaker by trade—about 35 years of age, without a family.

*Journal and Express.*

☞ ACCIDENT AND ROCHESTER RAILROAD.—We learn from the Rochester American that this Road is now entirely supplied with a heavy rail. We congratulate the public upon the comfort they will experience hereafter, in riding over this road. The railroad companies between Buffalo and Albany are making very commendable exertions to increase the speed and comfort of travelling.—They are introducing night cars, which are one of the greatest improvements of the day. They enable one to take very comfortable sleep while rattling along at the rate of 25 miles an hour.

*Oswego Com. Times.*

☞ MEDICINAL SWEET POTATOES.—This popular vegetable has been supposed to belong exclusively to the south and New Jersey, being the most northern point where they are cultivated. A load of very fine ones has been seen in Michigan, from the farm of Mr. Cathcartt, who has little less than an acre. They are of excellent quality, and superior to any that we have seen in our market from Ohio. There was no difficulty in selling them at $1 12 a bushel, by the load. The retail price is $1 50. We learn another man at Royal Oak has about half an acre. Even at half the price they are now selling for, there is no crop that will do as well. The sweet potato seldom has the rot, and can be cooked in various agreeable and palatable ways, and ought to be extensively cultivated.

MONSTER PUMPKIN.—There is now on view at the Store of Joseph Aumond, Esq., of this town, Pumpkin, which may certainly be termed the Pumpkin of the season—it is 27 inches high, measures seven feet in circumference, and is 160 lbs weight. It was raised in the open air, without any forcing whatever, in the Garden of L. M. Crofte, Esq., of Pembroke, on the Upper Ottawa.

NOTE.—The Township of Pembroke is one hundred miles above Bytown, about one hundred and fifty miles North of Kingston. It is one of the most fertile places in Canada.

☞ The great fire at Constantinople on the 16th of August, to which we have already alluded, was nearly as destructive as the fire of 1845 in New York. The estimate of buildings destroyed is 3000, of which 2500 were shops, and 500 houses. Of the latter a number were fine buildings and palaces, besides several khans and mosques, four baths and two noble granaries. About thirty vessels of different descriptions, laden with corn, wood, charcoal, &c., were burnt, as likewise the extensive Government wax manufactory and wood yards, and a quantity of produce belonging to the Pacha of Egypt. The total loss is variously estimated, from ten to fifteen millions of dollars. Many lives were lost.—Wealthy people have been reduced to poverty, in common with their humblest neighbors.

*New York Weekly Sun.*

## NAPLES.

We stated on Saturday that the British and French commanders remonstrated against the mode of proceeding adopted by the Neapolitans, and urged that as General Filangieri had ample powers and forces at his command to carry the town at the point of the bayonet, and that to destroy it by fire was cruel, and a violation of the principles of all warfare. When the intelligence of what was going on reached Naples, Admiral Baudin wrote to Admiral Parker, expressing his indignation at what had been done inviting Admiral Parker to co-operate with him in enforcing a stoppage of hostilities with rebels, and instructions could be obtained from their respective governments. Admiral Parker cheerfully agreed to this, and the two admirals dispatched orders to the respective captains, in accordance with this, and commanding them immediately to fire upon the citadel if any further hostilities should be entered on. At the date of our last advices, Naples was quiet. The Queen Mother died on the 12th of Sept.

THE CHOLERA.—We learn, by the last accounts from Europe, that this dreadful scourge of the human race had reached Trieste and Hamburg, and that all doubt of its reaching England, in due course of time, was at an end. The corporate authorities of London, and other cities in that country were prudently adopting measures to lessen the extent of its ravages to as great an extent as possible. We do not wish to excite alarm in the public mind, but we must candidly say, that there is every probability of this plague being in our midst within six months, or perhaps within three. It is full time, therefore, that sanitary measures were adopted here too; and when we consider that precautionary measures exercise a great influence on the prevention of all plagues, as well as in the mitigation of their ravages, the sooner they are adopted the better.—*N. Y. Herald.*

HAMILTON MARKET, OCTOBER 9TH.

The transactions since our last have been of an unimportant character, and prices are almost without change. Wheat is brought in in small parcels, but the supply has been contracted from the circumstance that the farmers were thrown back in their sending operations by the few spectators by the few wet days, which drawback they are now seeking to remedy while blessed with the genial weather enjoyed during the past week. Good samples now command 4s. 6d., but 4s may be taken to be as high a figure as that obtained in Toronto. With us a large quantity of inferior Spring Wheat has been offered, and in some instances has not found a purchaser. We noticed in the market on Friday, one party begging of two produce dealers to name their own price, but they declined to touch it. It were well that our farmers would pay more attention to the harvesting, and we may say the housing;—for such samples as that of which we speak can never pay for seed, labor in harvesting, and the dragging from a distance to this market.

*Flour.*—In this article a large supply has reached Hamilton, principally for shipment. In bags, 15s. currency per 196 lbs. is the ruling price. In barrels, Farmers' 23s. 9d. to 24s. 6d; Millers' superfine and extra superfine 25s. and 27s. 3d.—In *barley Oats* and *Pulse*, we have no alteration to note. *Hay* is scarce, although there is for the moment a full supply; prices range between $12 and $14, the latter being obtained for clean Timothy. *Fire Wood* brings $24. *Butter* is scarce, and fetches 9d. to 10d. per lb. The *Meat* market is well supplied, and at moderate prices.

That we were accurate in recommending farmers to accept current rates, is proven by the *Colonist's* report (which we subjoin) of the

TORONTO MARKET.

THURSDAY, P. M. 5th Oct. 1848.

Since our last report, prices have receded, as we hinted would be the case. The daily arrivals have been large. Several buyers have in the meantime ceased purchasing, either from having got the quantities required for their immediate purposes, or on account of the ruling price in this market having been so much higher than that paid at ports to the eastward of this, in Upper Canada, and too high in proportion to the current rates in Montreal. Since Monday last the price of wheat went down every day, and to-day the highest price paid for the best samples of Fall wheat was 4s. 6d. per bushel of 60lbs; while a very considerable proportion of wheat is offered of inferior quality, fetching from 3s. 9d. to 4s. per bushel. Millers' extra superfine flour, by retail, in bags, brings £1 5s. per 196 lbs.; and farmers' fine from £1 to £1 2s. 6d. Yesterday a sale of 100 bbls superfine was made, deliverable in Whitby for £1 1s. 6d. 200 bbls. superfine in this city, changed hands yesterday at £1 4s. In other articles of produce, no change to note.

☞ THE CAMDEN FAIR will be held at the Village of Camden on Thursday and Friday, Nov. 2nd and 3rd.

THE PORPOISE EXPRESS.—We stated some weeks since, that the news which mysteriously made its appearance in Boston, and which proved to be the result of speculators in collusion with the crews of the English steamers, was conveyed by means of carrier pigeons, which had been taken some time in advance of transport for the purpose. The plan has been fully consummated in the arrival at Boston of a porpoise, with a small bag of pigeons, and a hand-spike. Having been taken, it has been set upon in this state, mouth and pectoral fin sewed, then pierced, and a cavity in which pigeons are well taken in, to escape the office; these pigeons have been detached for the pigeons, which were let loose from the wood's of the state house. The captains of the English steamers have had their suspicions aroused as to the news's spreading, for some time, and had received instructions from the Consul Boston to break up the monopoly, and secure to themselves a vantage for the passage of the pigeons. On the passage of the Cambria from Halifax the crew of Captain Hewson were searched by the discovery of a box of pigeons, which were brought on board at Halifax, and which were secreted on behalf of the person having charge in charge to pay the price demanded of for their passage.

*Boston Traveller, O. 6.*

MELANCHOLY ACCIDENT.—We regret to learn that Mr. W. F. Carter formerly of this city, committed suicide on Thursday night last, by leaping from the Steamer *Concord*, about three miles from Rochester, on his way from Lewiston. Mr. C. had been in a depressed state of mind for some days previous to the melancholy occurrence. His body has not been found at the latest accounts; and we are authorized to state, that any expense incurred in its recovery will be paid by Mr. J. F. Carter, of this city.

ANOTHER IMPORTANT LETTER FROM GEORGIA. READ IT.

We are daily receiving testimony like the following, from the North, South, East, and West:

Gentlemen—I was afflicted with Asthma for fourteen years and had tried every remedy in the country; I had also been to several physicians, and found no relief whatever. I was affected at times so severely, that the blood would gush from my nose, and my breathing was difficult. Indeed the disease had gained so much on me that I despaired of ever getting well, when I determined to get a bottle of "WISTAR'S BALSAM OF WILD CHERRY," which effected a perfect cure, and I now consider myself perfectly sound. This can be proved by numbers of men in Franklin County and vicinity and I think it my duty to let it be known.

TEMPLETON'S ST. ANTHONY'S FIRE.—Wright's Indian Vegetable Pills are an easy, safe and certain cure for Erysipelas, because they purge from the body those poisonous humors which are the cause of St. Anthony's Fire and every other malady. From four to six of said Indian Vegetable Pills, taken once in twenty four hours, at night on going to bed, will in a short time make a perfect cure of the most obstinate attack of Erysipelas; at the same time the digestion will be improved, and the blood so completely purified that all attacks of inflammation any part will be driven from the body, and health and vigor will be given to the whole frame.

The above Pills are for sale in Kingston, and Chas. Brent, Princess Street, and Henry Martin, Market Square.

B. & P. MALE'S PHOTOGRAPHIC PORTRAIT GALLERY.

B. H. MACE has much pleasure in announcing to his friends in Kingston, that he has in compliance with the request of many admirers of the true and beautiful in art, returned to his STUDIO in the

LAMBTON HOUSE,

Where he would be happy to receive calls and exhibit his *vast collection of Portraits*, which he has executed of the *principal Citizens of Toronto*, as well as the *most interesting views* of that *beautiful* and *picturesque* place.

During his absence he has made great improvements in his profession, which impart all the *colors of life* to the *boldness* and *distinctness* of his finer productions, the *lustre* of the eye, the *activity* and *animation* of thought, which give the Painter's pencil and the Sculptor's chisel, which the pencil of the Sun alone can give!

Anxious of procuring these

MEMENTOS OF LIFE,

Are requested to give us an early call, as we have made arrangements to leave the Province before the close of navigation.

N. B.—Gentlemen can receive full instruction in this *wonderful art*, and be furnished with every description of apparatus upon the most reasonable terms, by applying soon.
