CABLE NEWS.

Queenstown, Oct. 25.—Arrived, the steamship Java, from New York, and Siberia, from Boston.

London, Oct. 26.—A meeting was held at Blackheath to-day in favour of an amnesty to the Fenian convicts. 6,000 persons were present. The affair passed off quietly.

The Cambria, from Southampton to New York, to-day took $285,000 in specie.

NEW YORK DESPATCHES.

New York, Oct. 25.—A Washington special reports that Secretary Richardson said the amount of silver to be put out next week will be between two and three hundred thousand dollars. Should the demand exceed this more will be furnished.

New York, Oct. 72.—A Memphis special of last evening says: The situation to-night is greatly improved, and a better feeling prevails among all classes. Rain has fallen almost constantly for nearly twenty-four hours, and is doing a good work in cleansing the streets and gutters.

The *Times* financially says the Union Trust Company, is, we fear, ruined beyond redemption. The creditors will get, we hope, the whole of their money, certainly the most of it. The concern for future use or usefulness is at an end. The Lake Shore Road has great vitality. Its credit was badly gambled with last spring, and ruined in the house of its friends and we apprehend from what we hear on the street was thus imperilled because its late President and his colleagues of the executive management feared the transfer of the control to other speculators.

New Haven, Oct. 26.—The excursion steamer, Isaac P. Smith, was burned to the waters edge on Saturday night, while lying at her dock. Loss $30,000.

New York, Oct. 27.—Ten thousand pounds in foreign gold was received at Assay office to-day, making a total since Oct. 6th of 1,547,000 pounds.

FROM OTTAWA.

Ottawa, Oct. 26.—Mr Simpson, Collector of Customs at Kingston, has been appointed Collector at the port of Montreal. Mr Simpson is the oldest collector in the service, and a gentleman of very great ability. His appointment is highly satisfactory to all concerned.

The *Canada Gazette* contains the appointment of Captain Ward, R.N., as aide-de-camp to the Governor General, *vice* Lieut. Colson, who returns to his regiment.

A magnificent harbour, capable of admitting vessels of the heaviest draught, has been discovered on Nepigon Bay. This is a very important discovery in view of the construction of the eastern end of the Pacific Railway.

The Russell Hotel and other centres are crowded with politicians, discussing the chances of the coming week. Some of the more sanguine Grits were betting at evens on the defeat of the Government on Wednesday, but they now confine themselves to wagering on the Government majority. The more rational among them place the Opposition figures as follows:—Ontario, 51; Quebec, 27; Nova Scotia, 8; New Brunswick, 8, and adding one loose fish which they intend to get somewhere, they bring the total of their noses to 95. The house now contains 206 members, but deducting the Speaker and the members for Provencher and North York, there remain 203 representatives. The vacancy in Laval County will be filled up before the division is taken. Thus, by their own estimate, the Opposition will be beaten by thirteen votes. The friends of the Government are confident of a majority of eighteen or twenty at the least. Several members who may vote against the Government on the first division as to the privilege question will support them should Mr Mackenzie attempt to push a vote of want of confidence.

It is believed that the party who stole the letter addressed to the Hon. J. H. Pope from the post office has been discovered.

The Orangemen of the vicinity are just bringing to completion a commodious hall for the benefit of the order and of sufficient dimensions to seat between 200 and 300 persons.

Middlings Separator.

WE have lately obtained Letters Patent for Canada on our Middlings Separator (known in the States as Jones' Middlings Separator). This machine is the most popular and perfect yet invented. Hundreds of them have been sold in the States in the past two years, and are now running and giving satisfaction to the purchasers.

The patent claim is a very broad and strong one. We desire to lease the territory of Canada on a royalty fee, subdivided to suit the lessors. A Millwright who can associate with himself a machine carpenter, firm, or *vice versa*, would make a suitable party to take the lease, and will find it profitable beyond any ordinary business.

THE ROYAL CANADIAN INSURANCE COMPANY.

Authorized Capital $5,000,000.

THE present rates for Fire Insurance throughout the Dominion (the result of combination among the various Insurance Companies) are, it is believed, not only excessive, but unnecessary; and however severe the losses to those Companies may have been in the late calamitous fires in Chicago, Boston and other cities in the United States, the losses in the business of Insurance throughout the Dominion, does not warrant the great increase which has lately taken place in the rates.

Such being the case, this Company represented by the wealthiest merchants of the Dominion obtained a charter during last session of Parliament, and are now prepared to do business at moderate rates. The promoters can with full confidence rely on the citizens of Kingston, giving this Company a liberal support, the directors pledge themselves that in the event of loss claims will be settled in the most liberal manner, and risks will be taken on their merit irrespective of any Company.
