MEETING OF GRAND DIVISION SONS OF TEMPERANCE.

Mr Thomas Webster, Grand Scribe of the Grand Division Sons of Temperance has issued a circular addressed to the subordinate divisions of the order in Ontario, notifying them that the twenty-fourth annual session of the order will be held in the city of London on Tuesday the third day of December next at 2 o'clock p.m. Business of great importance will be brought before the representatives for discussion; a part of which will be "The renewal of the application, for a charter, for a national division for the British Province;"—"The permanent location of the annual session in the city of Toronto," "The admission of worthy associates, as members of this Grand Division," &c.

The Pioneer Division of London wish to see a good representation, and will do their best to make all their friends comfortable and happy.

A public temperance meeting will be held on Tuesday evening, and addresses will be delivered by distinguished members in the order. The Hon. S. L. Tilley, C. B. Ministers of Customs of Canada and P. M. W. P. of the order, expected to be present at the session. Arrangements have been made with the several railway companies for a reduction of fare's to and from the session. But those who wish to reap the benefit of this arrangement will have to be provided with a certificate, signed by the Grand Scribe before proceeding on their journey.

An Australian *dejeuner* was given at Southampton on Wednesday, under the presidency of the Mayor. About 300 guests, many of them ladies, were present, and were entertained with a series of dishes made exclusively from Australian food-products.

It is announced that Mr Edward De La Poer, who was returned for Waterford in January, 1867, has retired from the representation of that county. The other Irish seat vacant is Cork city, through the death of Mr Maguire.

The Shah of Persia will arrive in Europe next spring. He will first visit the Russian Court at St. Petersburg, from thence pass on to Berlin, after which he will proceed to London. He will pay a visit to France also, and will go to Vienna at the time of the Universal Exhibition there. The Emperor of Austria has invited him to be present, and a special envoy will start from Vienna to Teheran shortly bearing the official invitation.

In the suit brought by Mrs Ellen L. Putnam, the widow of Avery D. Putnam, who was killed by William Foster on a Seventh Avenue railroad car, to recover $5,000 damages from the railroad company for the negligence of the conductor and driver of the car in not doing all in their power to prevent the possibility of the murderous assault, the jury, after about three minutes deliberation, gave a verdict for the widow for the full amount claimed—$5,000.

Sir Frederick Henry Vane brings a suit against his nephew, Sir Henry Ralph Vane, to recover the family estate, on the ground that Sir Francis Fletcher Vane, brother of the plaintiff, and father of the defendant, was illegitimate, having had the misfortune to be born a few weeks prior to the marriage of his father and mother, in 1797. Fraud is alleged in altering parish records, so that the plaintiff was legitimate. An extensive display of cupboard skeletons is anticipated. The plaintiff has been forty years an officer in the Twelfth Lancers. The annual rentals of the Vane estate are stated to exceed fifty thousand dollars, so the lawyers will have something to work for.

In spite of his age and the loss of much of his power Mario is still a favourite. His work has been enormous, as will be seen from a calculation recently made, by which it appears that he has appeared on the stage in 935 performances:—In operas by Donizetti, 225 times; Meyerbeer, 170; Rossini, 143; Verdi, 122; Bellini, 82; Gounod, 70; Mozart, 68; Flotow, 30; Cimarosa, 12; Auber, 12; Costa, 5; Halevy, 4; Ricci, 1; Mercadante, 1.

At a meeting of the members of the Gananoque Presbyterian Church it was unanimously agreed that a call be given the Rev. Mr Coultherd, of Valleyfield, to become minister of the congregation at a salary of $1,000 per annum.

The *Globe* has interviewed the Hon. Mr McKellar to learn what he knows about assisting emigrants. The scheme has been developed as follows:—Employers requiring labour deposit $12 per hand wanted. Instructions are sent to agents in Europe to select suitable emigrants. They are forwarded passage free, the Dominion grant of $10 and this deposit covering the amount. The employer draws the six dollars referred to, which emigrants are entitled to, and the latter works out the balance. The scheme has one little drawback How are employers to feel confident that their deposits are safe in McKellar's hands?—*Ottawa Free Press.*

Farmers and stock raisers have frequently told us that they have seen very good results from giving Sheridan's Cavalry Condition Powders to cows and swine before and after they drop their young. The powders put them in good condition, and give them strength to care and provide for their sucklings.—*Adv.*

Anæmia, or depravity of blood, is a disease known by extreme paleness or waxy appearance of the skin, lips and nails. Persons so afflicted always have dyspepsia, and are liable to hysteria, consumption, disease of the heart, convulsions, etc., consequently upon the withdrawal of material in the blood for nutrition of nerve. As Fellows' Compound Syrup of Hypophosphites will supply the healthy constituents to the blood and endow it with vitality, patients need not suffer from these diseases.—*Adv.*

We have often wondered whether there is a person in all New England, who does not know and appreciate the value of Johnson's Anodyne Liniment as a family medicine? It is adapted to most all purposes, and is the best pain killer that can be used.—*Adv.*

Delicious with every known dish. Its habitual use increases the appetite and promotes digestion. "It is much esteemed for its digestive properties."

As an assurance of its purity and salutary properties, it is only necessary to point to the name of the celebrated and philanthropic Physician from whose prescription it is compounded. The entire life of that distinguished man was spent in promoting the health of his fellow-creatures, and his death, to December, 1861, was mourned as a national loss.

"S. SIDNEY, Sec. and Manager.

"Capt. Jackson, R.N., 90, Cannon street."

This fluid acts on the essential cause of disease by destroying the local conditions of the atmosphere under which cholera is most frequently developed and propagated. For instance: "In a house in St. Andrew's street Plymouth, occupied by fifty-two persons, it was sprinkled in every room except four; in these the occupants would not permit it to be applied; the result of which was, that in those parts of the house where it had been used, not a single case of cholera subsequently occurred; while in the four rooms above alluded to, the disease still exists and some deaths have taken place. Two houses immediately opposite were supplied with a quantity, in neither of which had there been a single case, although the disease is raging in the neighbourhood."

N.B.—This fluid is a certain cure for reasage horses and the scaband rot n sheep
