It considers the Geneva decision a diplomatic defeat, the Treaty of Washington a blunder, and the arbitration a failure.

NEW YORK DESPATCHES.

Little Rock, Ark., Feb. 19.—An accident occurred on the Port Smith Railroad, this a.m., to the eastward bound mail train. As the train was rounding the curve, two miles east of the station, the rear car containing 32 passengers, left the track, turned over and went down the embankment. The car was thrown as a box and closed on both sides, giving no chance for the passengers to escape. There was no bell rope from the cars to the engine to give the alarm, and the car was dragged nine hundred yards before it went down the embankment and the train could be stopped. Twenty-four of the passengers were wounded, one reported killed. Several ladies and children are among the wounded.

Little Rock, Ark., Feb. 20.—Troubles broke out a fresh in Pope County yesterday. Captain Herriot of the militia, was shot and killed, at Dover by Percy West or some of his friends, on account of some words spoken by Herriot derogatory to West after the shooting Sheriff Dodson and a number of others left for here. This morning, as Dodson stepped from the platform at Perry station on to the cars some one shot, and, it is thought, fatally wounded him. In the Senate to-day the militia committee was instructed to enquire into matters and report whether or not the Governor should be asked to declare martial law in Pope County. A majority of the members seemed to favour such a course at once.

No tidings yet in New York of the three missing ships, Lincoln, Sterling Castle and American Congress.

It is pleasant to hear that a pension has been promptly granted to Mrs Knowles, the wife of Capt. Knowles, "in recognition of the heroic conduct of her husband on the occasion of the loss of the Northfleet." This pension is on the civil list, but Mrs Knowles will benefit further by large individual subscriptions, to which, by last accounts, additions were daily being made. In relation to the Northfleet, it has been discovered that the Murillo steamer was the vessel that caused the mischief, and she has been libelled for damages at Cadiz, and suits begun against her owners at London. Meanwhile, the captain and his officers are prisoners on board a man-of-war. The Northfleet lies with her upper works out of water, and a day or two after the calamity, another ship, the American clipper Imogene, bound for New York, ran into the wreck at night, and suffered and bestowed some damage, unattended, fortunately, with loss of life. Another illustration of the adage that misfortunes seldom come singly.

We are pleased to learn that the deficiency in hotel accommodation which has sometimes been charged against Montreal is in a fair way to be supplied. An announcement which appears in our advertising columns states that a joint stock company has been formed for the purpose of erecting an "up-town hotel," designed to be in every respect suited to the rapidly enlarging proportions of our city. The project is in the hands of gentlemen of capital, and will, no doubt, be carried out energetically. We are also informed that improvements on a large scale are about to be made to the St. Lawrence Hall, the hotel as reconstructed to extend to St. Francois Xavier street, with stores, &c., on that street. Mr Hogan, we learn, will probably be associated with Mr Gerikea in the new enterprise. The site being immediately opposite the Post Office and in the vicinity of the principal banks, &c., cannot be excelled in the city.—*Gazette.*
