N.B.—There is a slight upward tendency in prices, regulated by the Western markets, which are higher, caused by the presence of the Montreal. The depression in the Montreal is owing to large quantities of old wheat which is considered an unsafe investment. Flour—no alteration in the markets; parties have contracted for small supplies of Spring Wheat to arrive this week to supply millers, which will keep prices remain as last week and not anything to supply demand; buyers should be before arrival in market.

EFFECT OF ADVERTISING.—It is amusing at times to observe the stores of the merchants who don't advertise; to see the anxious proprietors looking into the streets and see the people go by, wondering why they don't come in, while the stores of their neighbours who do advertise are thronged with customers. Some people will learn by observation, others will not.—*Daily Palladium.*
