The terrible effects of absinthe, as used by the officers of the French army, has incited the Government to place an interdict upon it. The results of its use are more fearful than those arising from opium. The strongest kind is made in Switzerland, which sends two millions of gallons to Paris annually.

The Dean of Canterbury has explained, in a letter to the *Guardian*, his idea of a "comprehensive church." We cannot, he says, hope to reabsorb the Nonconformists. But we can lay aside jealousies. "We may lower ourselves by exclusiveness and uncharitableness, so as to become a mere sect among sects; but we may also so lift in our esteem our Christian brethren, as to find ourselves, when deprived of the aid of the State, a church among churches."

The Caucasian Alps have been the scene of a new climbing adventure by Englishmen. Three gentlemen have made the ascent of the Kasbek Mountain, which rises to a height of 16,500 feet, considerably above the level of the highest of the Swiss range, and beside which the "Monarch" of European mountains itself is dwarfed. On the second day they reached the extreme summit, and it is said to be the first time that the ascent wa ever attempted.

COAGULINE.—This is a new transparent cement, it appears, the production of operative chemists in Stockport. Its adhesiveness and tenacity are said to be extraordinary. Glass, leather, wood, stone, ivory, bone, or minerals, can be pieced or joined by it; and so tenacious is it, that, when thus used, it will resist a strain of 224 pounds or more. Heat and cold, fire and water, are successfully resisted by it. In piecing glass or crystal with it, its transparency renders the junction imperceptible, and its adhesiveness, says the *Builder*, in fact, makes the broken glass or crystal as good as new. Its usefulness has led to the introduction of a leather line for window cords, the splices of the cord being joined by the cement, and thus an endless, smooth, and regular band is produced. Its uses are described as being innumerable. The producers (and discoverers, we presume) of this new cement are said to be Messrs. Kay Brothers, of Stockport, operative chemists.—*English paper.*

The planters of Jamaica are much alarmed owing to the violent speeches made by Judge Mashedor in the parish of St. Thomas, the inhabitants of which proved themselves the most dangerous during previous rebellions. The Judge declared that he did not come to administer any planters' law, but English justice. He also exposed the system of jurisprudence in such a way that the negroes misinterpreted his remarks and commenced to insult the whites and demand satisfaction of their employers for past alleged grievances. Highwaymen abound on the island.

A letter from Kissingen of the 30th July says:—The Emperor of Russia in coming here travelled under the name of Count de Borodinski. The King of Prussia was expected, but the projected interview is to take place at Darmstadt, King William declining to go to Bavaria, and especially to Kissingen, which place reminds him of the obstinate resistance opposed to his troops on the 10th July, 1866. The Bavarians continue to be hostile to Prussia, and a large number have gone to the rifle competition at Vienna. The campagin of 1866 is not yet forgotten. The greater part of the houses here are marked with Prussian balls, but the inhabitants refuse to repair the facades of their residences, which still display to tourists the damage they suffered. The Emperor Alexander goes every morning to the Pump room with the Empress and walks for an hour in the environs of the establishment. At eleven their Majesties are driven to Salt Springs, the Empress returning in the carriage and the Emperor on foot. Both are remarked for their extreme simplicity.

## THE BISHOP STRACHAN SCHOOL

FOR THE

### HIGHER EDUCATION OF GIRLS.

**Founded 1867-Incorporated 1868.**

PRESIDENT—The Right Rev. the Lord Bishop of Toronto.

VICE-PRESIDENTS—The Venerable the Archdeacon of Toronto; the Rev. the Provost of Trinity College.

THIS Corporation having secured possession of the Residence of the late Bishop, on Front Street, Toronto, and the adjoining premises formerly occupied by Captain Strachan, the Institution is enabled to afford largely increased accommodation for both Boarders and Day Pupils. It is hoped that many of those who were necessarily excluded in consequence of the smaller number of rooms at Pinehurst, may now enjoy the advantages of the School; to prevent disappointment, however, an early application is recommended.

Michaelmas Term will commence on Wednesday, the 2nd of September, when the School will (D.V.) be re-opened, with a full and competent staff of Teachers, at the place above mentioned. Punctual attendance on the first day of term is regarded as essential.

It is especially desired that Parents who may wish to send their daughters to the School will previously read the Prospectus containing the General Regulations, the Course of Studies, the Terms, and the List of Instructors, which may be obtained on application to the Secretary,

REV. J. LANGTRY,
No. 380 Church Street, Toronto.

Toronto, Aug. 5, 1868.

NEW STYLES OF TYPE HAVE been added to the DAILY NEWS JOB PRINTING OFFICE. Our two Steam Presses and Automatic Platen Printing Machinery enable us to turn out work in good style, with quick despatch, and at cheap rates. Inquiry solicited.

ART OF ADVERTISING.—Horace Greeley, of New York, says:—The most successful business men in this city are those who have advertised liberally and constantly. A small advertisement constantly appearing is better than a display column occasionally.

TO A YOUNG MERCHANT—When you pay more for the rent of your business house than for advertising your business, you are pursuing a false policy. If you can do business, let it be known."—FRANKLIN.

EFFECT OF ADVERTISING.—It is amusing at times to observe the stores of the merchants who don't advertise; to see the anxious proprietors looking into the streets and see the people go by, wondering why they don't come in, while the stores of their neighbours who do advertise are thronged with customers. Some people will learn by observation, others will not.—*Daily Palladium.*

ADVERTISEMENTS for the DAILY NEWS, intended to appear the same evening, should be sent in at as early an hour in the day as possible.

J. J. LINTON,
Auctioneer.

Kingston, Aug. 19, 1868.

## Upper Canada College

WILL RE-ASSEMBLE ON

**TUESDAY, SEPTEMBER 1st,**

AT NINE O'CLOCK A.M.,

WHEN all Pupils, resident and non-resident, are particularly requested to be present. New Pupils will then be enrolled, and those who failed to pass the midsummer examination will be re-examined between 10 and 12:30 o'clock.

Additional facilities are now offered to those Pupils who do not desire a high classical training to join the English and Modern Departments, in which they are thoroughly prepared for Mercantile pursuits, and for the Civil and Military service.

A special class will also be formed adapted to the requirements of junior boys of from 7 to 8 years of age and upwards.

The fact that during the last six years "old College boys" have carried off three out of every four Scholarships offered at the Matriculation Examination of the University of Toronto, and a large proportion of those offered at Trinity College, is a sufficient guarantee that Scholarship has not declined.

Very material changes have been made in the internal arrangements of the boarding-house, to increase the comfort and secure the general well-being of the resident Pupils.

Every boarder is required to bring with him a certificate of good conduct from the master or tutor under whom he has been previously educated.

Tuition fee, $10 per term; tuition and board, including washing, seat in church, and ordinary medical attendance, $45.

The commencement of the next session on September 1st is the best time to enter College.

For prospectus, apply to the Principal, U. C. College, Toronto.

Toronto, August 20.
