BY TELEGRAPH.

CABLE NEWS.

London, September 8.—Telegrams have been received here, announcing the complete success of the expedition of the Germans who went to Asia to make observations on the recent total eclipse of the sun. They chose the best possible place for their instruments, namely, Aden in Arabia, and were supplied with photographic instruments and other scientific apparatus. The dispatches mention that six photographic views of the eclipse were obtained, four of which were perfect.

The *Times* this morning has an editorial on Indian affairs in the United States. It speaks of the policy toward the red men as of consideration and forbearance between contending races, but so costly as not to longer to be pursued.

Liverpool, Sept. 8.—The ship R. H. Gray, of and for Boston, is ashore on the Arklow bank, off Ireland. Sea running high and crew still aboard.

Dublin, Sept. 8.—The boy McKay, 19 years of age, was hanged to-day at Newry. The execution took place within the walls of the prison. He was hanged for the murder of his mistress in this city. Only persons present were the officers of the jail, and a few members of the press. This is the first private execution which has taken place in London under the new act concerning capital punishment.

The strike of the cabmen continues and is a great inconvenience to the public. The press strongly denounces the action of the drivers, whose proceedings, however, have so far been orderly.

Paris, Sept. 8.—A temporary depression in stocks was caused on the Bourse to-day by rumour that the Emperor had made a warlike speech to the troops at Chalons. The report was soon denied and proved to be without foundation.

Brussels, Sept. 8.—The Duke of Brabant, heir to the Crown, is growing worse, and it is said he cannot live through the night.

Melbourne, August 16, via London, Sept. 8.—Maori prisoners have escaped, and the natives of New Zealand have again risen in insurrection. The extent of the rising is unknown. Troops are being hurried to the scene.

Vienna, Sept. 8.—The *Times* to-day publishes a letter from Mr Roebuck, M. P., in which that gentleman justifies and reaffirms the language used by him in regard to the Austrians, at the Sheffield cutlers' dinner. The *Times* replies to Mr Roebuck, and in the course of its article administers a stinging rebuke:—In the public regards given to the representative of the United States, when it was the object of the government to cultivate a feeling of good will, it was an injury to both countries for such as Mr Roebuck's position to use the language of vehement disparagement. We hope that Mr Johnson will not fail to see that the insult has been repudiated by the English public opinion with entire unanimity. He may form an idea of the value in which we hold his country by the prompt recoil from Mr Roebuck's language everywhere witnessed.

Berlin, September. 8.—King William of Prussia, with a large staff of officers, has left the city on a tour of military inspection through the North German States. He arrived to-day at Cretden, where he was met by the King of Saxony, and conducted to the Royal palace.

London, September 8.—The Doncaster September meeting commenced to-day. Weather rainy. Fitzwilliam stakes won by Gladiator; Champagne stakes by Sister to Rosicrucian: Glasgow stakes by Achievement. Yorkshire handicap by Romp. Cup by Girl, and Clumber plate by Vespa.

FINANCIAL AND COMMERCIAL.

London, Sept. 9, 1.20 p.m.—Money easier. Consols 94; account 94¼; Bonds 72; Illinois Central 91½; Erie 30¼.

Liverpool, Sept. 9, 1.20—Cotton heavy; shipments from Bombay to 8th instant, were 50,000 bales. Flour 27s 6d. Tallow 45s 9d. Sugar 35s 6d. Petroleum firmer.

Advices from Foo Choo to 20th ult., state the market is heavy. Export of new tea is 81 thousands.

New York Press Despatches.

New York, September 9.—The weekly report of the Registrar of vital statistics declares the condition of the public health in New York and Brooklyn very favourable.

Washington, September 9.—Official despatches from General Sheridan, regarding the recent attack by Indians on Fort Dodge, state the fact that after the assault on the fort, in which the Indians were repulsed, several bands made their way into the fort with flags of truce, and surrendered themselves to that officer. They stated that they had not taken any part in the recent outbreaks on the plains, and professed a desire to remain at peace. An outbreak is considered to be inevitable in Tennessee, if what is known as the Militia bill becomes law. The trouble in the counties of Lafayette and Wilson (Kentucky), have not been settled, and the outrages are likely to occasion much serious reflection on the part of the Attorney General and Secretary of War as to the proper course to be pursued. The disturbances are likely to become even more serious than was at first intended, the outlaws being determined to resist all execution of the law at all hazard.

New York, Sept. 9.—The steamship Scotia, which arrived to-day, brought $200,000 sterling in gold on freight.

Minnesota is one vast granary. A local paper says: "Mr Tolles, of Freedom township, informs us that several fields of wheat in his neighbourhood have been threshed, yielding from 25 to 28 bushels to the acre. From other localities in this country we hear of equally good yields. Oats turn out about 40 bushels to the acre."

The principal shipbuilding firms in the kingdom having been called upon to send in their terms to the Admiralty for constructing two ships of the Audacious class, to be called the Triumph and Swiftsure, tenders were received in consequence at Whitehall last week, but owing, we presume, to the absence of their lordships on their annual tour of inspection, no decision was arrived at until yesterday as to the parties to whom the important work should be entrusted, when it was resolved that Messrs Palmer, of the Jarrow Works, should be the builders of both vessels. The ships are each to mount fourteen very heavy guns on the broadside system; they are to have double screws, are to be of 3,774 tons, and are to have a nominal power of 800 horses.—*Army and Navy Gazette.*

THE DEFEAT OF THE FRENCH GOVERNMENT.—It would be difficult to exaggerate the importance of the recent election in the Department of the Jura, whether as a symptom or as an example. The semi-official papers which had denounced M. Grevey as an enemy to the dynasty and to the institutions of the Empire, as a Republican, and what not, are now silent or reduced to the most pitiful apologies for the result. The official organ of the Prefect of the Department in which the election took place accounts for the victory of the Opposition candidate as a "triumph of esteem" for his personal character; M. Grevey being, in fact, a native of the Jura, and having in 1848 administered the department as an extraordinary Commissary of the republic. A more pliant and sagacious journal, *La France*, takes the bull by the horns and fairly calls M Grevey's spade a spade. It bears witness that the candidate who has achieved so astonishing a victory presented himself to the electors without disguising his disaffection to the Empire. His victory is consequently one of the whole opposition voting as one man against the official candidate. Hence the *France* concludes that the days of easy electoral victories for the Government are over: that the public mind is awake, and that the electors are not satisfied with the conduct of public affairs.

EFFECT OF ADVERTISING.—It is amusing at times to observe the stores of the merchants who don't advertise; to see the anxious proprietors looking into the streets and see the people go by, wondering why they don't come in, while the stores of their neighbours who do advertise are thronged with customers.
