BY TELEGRAPH.

CABLE NEWS.

London, Nov. 10.—The Lord Mayor of London gave a banquet at Guildhall, last night. Among the guests present were Mr Disraeli and Reverdy Johnson. In the course of reply to a toast Mr Johnson said; I have been greatly criticized for the manner in which I have received and offered civilities while in this country, but such strictures on my conduct have not affected the negotiations which are in progress. However dissatisfied people here or at home may be, they will find that there is no ground for such feeling. The questions at issue between my government and that of Her Majesty are now settled without touching the honour of either nation. If diplomatic negotiations in the future are carried on in the same spirit, war between England and the United States will be impossible.

Mr Disraeli alluded to the subject introduced by Mr Johnson, and said the removal of our difficulties with the United States gave good ground for hope that no future misconception will occur. He reviewed the state of affairs in Europe, and admitted that the superficial aspect was threatening, but declared that the Ministry could see no apparent pretext for the outbreak of war.

London, Nov. 10.—The *Times* of to-day has an editorial article giving the settlement and the present status of the questions at issue between the United States and Great Britain. A mixed commission, consisting of two members from each nation, will be appointed to adjudge all questions arising since 1853, the date of the last commission. England's responsibility in the matter of the *Alabama* claims will be referred to Russia for arbitration. If the decision is in favour of America, the commission will then investigate the claims. America has withdrawn the question of the recognition of the southern States by Great Britain during the war; and the San Juan business will be referred to the President of Switzerland for arbitration.

The Marquis of Hastings died to-day, aged 26 years.

Madrid, Nov. 10.—The *Correspondencia* says there is reason to expect that the Spanish Government will, at an early day, conclude treaties of peace with Chili and Peru. It attributes the happy result to the mediation of the United States, and to the sympathy aroused in Spain in consequence of the recent earthquakes.

Bremen, Nov. 10.—The American ship James F. Baxter, from Akyab, was driven ashore this evening at the mouth of the Weser. The captain, mate, and nine of the crew are still on board the wreck, and a life-boat has gone out to rescue them. The remainder of the crew are safe on shore.

Brest, Nov. 10.—The steamer Pereire arrived at this port to-day *en route* for Havre

London, Nov. 10.—There is the highest reason to believe that the statement of the settlement of the Alabama claims published in the *Times* this morning is incorrect. The fourth article of the convention, to which the *Times* particularly refers, reads in fact as follows:—"The commissioners shall have power to adjudicate the class of claims referred to in the official correspondence between the two governments on the Alabama claims, but before any of such claims are taken into consideration by them, the two high contracting parties shall fix upon some sovereign or head of a friendly State as an arbitrator in respect of such claims, to whom such class of claims shall be referred in case the commissioners shall be unable to come to a unanimous decision upon the same." This opens every question involved in these claims, whether that of the right of the English Government to acknowledgment of the South as belligerents or any other.

Queenstown, Nov. 11.—The steamer Tripoli, from New York, has arrived.

New York, Nov. 11.—The steamer Java, from Europe, has arrived.

FINANCIAL AND COMMERCIAL.

London, Nov. 11, 1:20 p.m.—Consols 94¾ for money and account; Bonds 73¾.

Liverpool, Nov. 11, 1:20 p.m.—Cotton flat. Uplands 10¼d. Provisions firm.

New York Press Despatches.

New York, Nov. 9.—The latest understanding concerning the Alabama claims matter, is, that the United States have waived the point regarding the recognition of the belligerency of the South by England, but that the State Department does not accept the proposals of the British Ministry, which are to refer to an arbiter the question of the lawful responsibility of England for the Alabama depredations—in the event of the arbiter deciding that England is responsible, then the whole subject to be referred to a Joint Commission. The State Department insists on the contrary, that arbitration is not necessary, and that England and the United States should agree, and at once appoint a Commission, and that the appointment of this Commission on the part of England should be equivalent to an acknowledgment of the wrong that was inflicted upon the United States by the hasty recognition of the Southern belligerency.

New York, Nov. 11.—The *Herald's* Havana special says the provisional government of Spain has conferred on Count Balmozeda the full power to pardon all persons engaged in the present insurrections, except the leaders.

New York, Nov. 11.—The steamer Cella, from Europe, arrived this morning.

It is an extraordinary fact that the guard locks of both the Cornwall and Lachine Canals are left open, allowing boats to pass through without change of level, in consequence of the lowness of the water in the river above. We do not think such an occurrence has ever before happened.

The *Witness* is pleased to learn that, as a result of the increased school taxation to which we are to be subjected, we are to see soon a magnificent model school established in the vicinity of the glass works. We do not suppose this institution will surpass some in the Upper Canadian towns, but it will be a great change for Montreal.—*Montreal News.*

"MUCH ADO ABOUT NOTHING."—We observe that some of our exchanges are affecting a good deal of indignation about an order from the Clerk of the Ontario Assembly for three months of their respective journals. One journal thus discourses:—"We very much mistake the spirit of our brethren of the quill throughout Ontario, if they do not treat such two-penny dealing in a manner becoming the freedom and independence of an untrammelled press." We have no doubt they will, and the best way to show their "spirit" is to reject or accept the offer in the same manner that they would if made by a private person, and not by writing a quarter of a column about it.—*Belleville Intelligencer.*

The Sherbrooke *Gazette* says: We understand that our Town Council, on Monday last, passed an unanimous resolution to the effect that should the proposed Wooden Railway, running easterly from the Grand Trunk Railway, start from Sherbrooke, the Council are in favour of subscribing $25,000 in stock towards the enterprise. We also understand that steps are being taken to ascertain whether a favourable route can be obtained from the east side of the St. Francis in this town in a direct line to Ascot Corner, and following up the St Francis river to such a point as may best accommodate the Townships south and east of the river, and also on the northerly and westerly side."
