FROM HALIFAX

Halifax, Aug. 4.—The Earl and Countess of Dufferin were present at the promenade concert on Friday evening. A ball will be given in their honor by the Provincial Government on Friday next.

George Brown has agreed to row Biglin for $250 a side, allowing the latter $250 for expenses. The place of the match is not yet known.

Mr. J. C. Abbott writes to the *Courtenay Guardian*, under date of Boisbriant, Montreal, Canada, July 23rd,—"I am sorry I shall be able to report to you the safe arrival in Canada of two Ayrshire cows and three pureed mares, which I hope will prove to be a valuable addition to our stock in this country. The cows are the winners of the first and second prizes in the great Derby competition at the Ayr Annual Spring Show on the 29th April last, and of a number of other first and second prizes at the same show. The mares are two of the finest animals I could find in Yorkshire; one is a bay with black points; one three-year old 15 hands high, the other six-year old 16 hands. Both are served by one of the most celebrated horses of the same breed that could be got in Yorkshire."

The Toronto, Grey and Bruce Railway Company have decided to open their line for freight forward on Saturday, the 9th inst., running one train per day each way for two weeks, until the contractor gets through with his work. When the whole line is finally ballasted, it must prove a great convenience to the people of Owen Sound and vicinity.

GENERAL REPORT.

Washington, August 5, 10.30 a.m.—Probabilities:—For New England and Middle States clear cool weather to-night and northeast winds.

Newcastle, Aug. 4.—Great preparations are being made here for the coming base-ball match for the championship of Canada, which takes place here on Thursday, 7th inst., between the St. Lawrence Club, of Kingston, and the Beavers of this place. A good game is looked for.

The Montreal *Witness* gives a "portrait" of the Hon. Mr Huntington, which is as much like him as any other man one may happen to meet. And Mr Huntington is not only unlike himself in the so-called portrait, but in the Pacific Scandal altogether. He has been made the tool of others, and allowed himself to be put forward in a matter which will do him little credit when it is sifted. It is a notable fact, however, that in all the discussions that have taken place on this subject, he has not been assailed. And this arises from the fact that he has hitherto been regarded as a fair, high-minded man, and that on this occasion he has been led astray by cunning people, and made to believe that evidence against the Government could be produced which was never in existence.

It is positively asserted that the fortune of the Astors of New York has swollen to two hundred millions of dollars, and yet that no family in that great city has done less with their money to help others and improve the metropolis. The whole property is left in trust for the benefit of the heirs of old John Jacob. After the expiration of the trusteeship, which will occur at the end of the third generation—that is, after all the grandchildren have passed away—the estate is to be divided among all the descendants, the law not allowing a trusteeship of that kind to extend for a longer period of time.

A fine subject for speculative inquiry or for a poem is afforded by an incident mentioned by the Shetland *Times*:—"On Saturday week a fishing-boat's crew brought to land a large draft of fish at the deep-sea fishing station called Fathaland, in Shetland. Among the fish brought on shore was a large ling, which, on being opened, was found to contain a human left hand, perfectly entire. Decomposition had not set in, and it is, therefore thought that the hand cannot have been long swallowed by the fish, and, from its rather small size and the absence of all traces of hard work, it is supposed to be that of a lady. The hand has been carefully buried, and the fish, it is stated was destroyed."
