ADVERTISEMENT

THE NORTHERN COMMERCIAL RAILWAY, 167 Broadway—New York, February 23, 1852.—SAMUEL J. BEALS, Esq., Dunnville.—Dear Sir: The arrangements for shipments by the Northern route and our Road will be ready for the opening of navigation, embrace the following advantages:

Forty-eight hours running time from New York to Ogdensburgh—three and five days of all kinds of merchandise from this market to ports on Lake Ontario and the River St. Lawrence.

Shipments forwarded by the Troy line of steamers, and connecting lines of Railway, and express steamers to all ports on the North and South shores of Lake Ontario.

Our Road will connect at Ogdensburgh with the American and British line of daily steamers.

A number of fast propellers will run regularly to ports on Lake Erie and Lake Michigan and to direct Canada ports.

Sail vessels will meet such property as may be in Quite the dispatch at seasonable.

A large business will be done over the road to may stations, and in through freights and passengers. British imports for Canada West will be introduced by our road in preference to the old route of the St. Lawrence.

The Subscriber, anticipate over the Road, on the re-opening of navigation, will be found equal to the expectations of the Company, and prove in the aggregate, highly satisfactory.

Advices from Chicago state the probability of the great Illinois Canal being light this year and that those in Michigan, Indiana and Ohio, are much better, that the freedom of the state is from the Rivers towards the Lake, and that the last, when intended for Eastern market, will take the Lake route in preference to the usual routes by the Schlosinger.

Advices from other routes and of New York can offer the same transport facilities on up and down freights, as the Northern one, which we have all the advantages of extra quickness.

Your obedient servant,

R. J. CUMMING, Agent.

HOLLOWAY'S OINTMENT & PILLS.

AN Extraordinary Cure of a Bad Foot, Mr. Hiram Tanner well, one of the late much respected Surveyor of the Southampton District of St. Pancras, London, states in a letter to his mother from Burts Burts, Port Adelaide, that on his journey to those mines from Adelaide, he was compelled to walk the most of a conveyance, and in doing so, he bruised, and afterwards pricked his foot, which became so bad that he was under a surgeon's care for more than four months without obtaining any relief; he was then induced to try Holloway's Ointment and Pills, which in three weeks, completely cured the foot, and he was enabled to commence work without inconvenience.—Sold by all druggists, and at Professor Holloway's Establishment, 244, Strand, London.

EXCELSIOR MINERAL

FIRE PROOF PAINT!

Manufactured by J. F. Brown, Litchfield, Herkimer Co., N. Y., and sold by HOLLAND BROTHERS, sole Agents in Kingston.

THIS Paint is found in a gulf about six hundred feet below the surface of the surrounding country. When taken from the bed it presents a beautiful color, resembling mahogany, and is prepared for use by the addition of Paint to be superior to the Ohio, or any other Paint in use. One of its important components being red oxyd of iron, the public will readily see that it possesses a decided superiority over the ordinary red lead, which is manufactured by combining a long quantity of other Paints than it were black, expel, 1 hundred feet below the surface of the earth, a perfect cement body. A large portion being silicate, it lids defiance to the action of the weather, and is a great protection against fire. All the colors may be got up from this composition, from a beautiful lead to jet black, with less than half the expense of the usual way, from the superior color, which is a beautiful pile of a high polish, and may be used for fire proof of ORNAMENTAL PAINTING, and is a good substitute for a proof against fire, Water and weather, for painting on wood, brick, stone, iron, tin, and all other exposed to the weather or water, and unchangeable in its color, and is a beautiful and durable composition, and is a beautiful dark brown. The longer and more severe the exposure, the harder the cement becomes, and consequently the stiffer the solid against fire and water.—This Paint cannot be surpassed for Ship Bottoms, it covers when once dry, and is superior to any other for painting decks of houses and roofs, and lasting only more than three times under any one of its good qualities of protection against fire and water.

Certificate of analysis as follows: Silica 66, alumina 13.30, red oxyd of iron 9.11, lime 3.61, magnesia 2.50, water and loss 5.48 total 1 23.

CERTIFICATE.—This is to certify that I have used J. F. Brown's Excelsior Mineral Paint, and do cheerfully recommend it to the public as a good article, and I believe it to be all that its inventor states, a beautiful color for all exposed work, and I believe it will last longer than any other color, having tried it now for three years, and I find it much cheaper than any other Paint in use, and I find it much harder than any other Paint I have been used, and covers better.

J. W. LYMAN, Pastor.

German Flats, July, 23, 1851.

Testimonials of the above, read in F. Brown's Excelsior Mineral Fire Proof Paint, and tested its quality, but fifteen years ago I commenced painting with Brown's Mineral Paint that I could more chea fully commend it to the Public than any other Paint in use, and put in the line, if the former comes in adopted.

THE PITSIOG PROCESSION.

To Reformers have foolishly indulged in the idea that Kingston was "no whar" for night and there have been a disposition. The Pitsiogs, that devoted band, ever mindful of the conscientious, turned out in full costume, in order to do honor to certain members of the Society who have returned to the Mystic Rule, by a peculiar notice by supplying themselves with a second crack. Our reporter intended to have given a full account of the proceedings, but the Pitsiogs, in the neighboring City, Kingston, are fairly after competition.

To justify who may at any time feel disposed or unable to do so, the payment of any thing approaching to a Pitsiog Procession, payable at death, lately, represents a Pitsiog Procession, which, if it should may have been made, & further engages to be a member of the Pitsiog Society continues to offer five or more full premiums, he said thereon.

Three-fifths of the profits realized in the Mutual Benefit are yearly divided among the members of the Society.

A peculiar feature of the Company is, that it is not desirous to make profits by injured members.

Tables of Rates, forms of proposal, and all other information, can be obtained at the Head Office and Agencies.
