PROSPECTUS,
NEW WEEKLY PAPER.
"OUR JOURNAL."

A Family Newspaper, and Compendium of Useful Information for the people.

THE first number of this New Weekly will appear on SATURDAY, the 4th of SEPTEMBER NEXT. It will consist of Eight Pages, Demy Folio, and be printed in clear, bold type, on superior paper.—TERMS of Subscription, $3 00 per annum, payable yearly or half-yearly, in advance.

In proposing to establish a new weekly journal, the Proprietors have no intention of its entering the lists in opposition to any portion of the existing Canada Press, as a political or party paper.

While they admit the vast importance of a free and independent political press, to review and analyze Government policy, whether of the Town, the Province, or the Empire—to watch over and protect the rights and interests of society, of trade and commerce—and powerful in the arrangement of international relationships (to which class the Canada press almost exclusively belongs,) yet they recognize no less importance in that class of periodicals which seek to improve the mind, cultivate refined and elegant tastes, add a charm and a zest to social and domestic intercourse, extend the sources of useful information and agreeable reflection, aid moral culture, and present important truths and principles in such forms as to be attractive, both from their intrinsic worth and by an exhibition of their consequences. In a word, devoted to the advocacy of principles, which, as they have a wider basis, and enter more generally into the affairs of every-day life and of every-day people, are connected with interests not less important than the other, and of at least equal moment in the affairs of society and of mankind. And it is remarkable that the Canadian reader who possesses all the acquisiveness after general information, which marks the thoughtful character, should be almost entirely dependent upon foreigners for any share in that order of periodical which occupies so large a space in modern literature.

It is in accordance with these views that the present Journal has been projected and will be conducted, in a firm belief of its requirement, and under a profound conviction of its utility; and no exertion will be spared to render it of general interest in every department of literature and to all classes of readers.

The principal features of "Our Journal" will be—

First.—To present in a clear and condensed form the abounding excellencies in every department of intellectual effort, which contemporary English and American periodicals contain, and to embody not only the choicest extracts and most valuable treasures from the great leading journals, and from the general literature of past and present times, but also to include the continuous writings of general interest which are daily flowing from the pens of the great literary magicians of the age.

Second.—Each issue will contain a general notice of the current events of our own country and of foreign states; and especial care will be given to supply early and correct information of events of general interest occuring in any portion of the British Empire, and to keep its friends from the "old country" well posted up in the principal local events which may transpire in any of the Three Kingdoms, as well as occasionally to note the progress, success, or failure of the chief movements on foot there.

Third.—As a family Journal, it is believed that "Our Journal" will excel. While everything of an unsound tendency, calculated to give distorted or false views of life, to impart false sentiments or to centralize principles of good morals and right conduct; will be carefully excluded, its pages will ever be open to entertaining, instructive, and useful Stories (selected and original), Biographies, Sketches, interesting passages from History, Essays, Poetry, &c., and whatever is calculated to enforce the best and most important lessons of morality and practical life.

Fourth.—A considerable space will be devoted to Correspondence, and Promiscuous Original Contributions from all parts of the World; and the Proprietors invite the co-operation of friends, on every variety of subject. 'Local Information; Observations on Men, Manners, and Things; Descriptions of Towns, Cities, and Scenery; News from the Habitations of Art, Science, and Manufacture; Instances of Natural Phenomena; and whatever may justly command interest and attention, will find a welcome in its pages, whenever space will permit.

Fifth.—Although the Proprietors deprecate any application of the terms "Political" or "Party" to "Our Journal," yet opinions will be from time to time expressed upon the Leading Questions of the day, and upon the conduct and principles of Public Men of every denomination.

In short, it will be earnestly endeavored to make "Our Journal" a work of universal utility and interest; and to adapt it to every class of readers. While it will seek to acquire the approbation of the Great and Learned, it will strive no less earnestly to penetrate the sympathies of those engaged in the various departments of productive activity. "Our Journal" will expect to take its place in them in the universal Domestic Circle, in the Study, and by the Fireside. A place in the Family Heart—a share in the Family Conversation—a social position, and a social welcome, are the extent of its ambition; and, while it is confidently believed that the hospitality of its friends will be warmly dispensed, it is believed, with equal confidence, that it will prove neither a dull, uninteresting, or disagreeable companion.

All Business Letters must be addressed to the Publishers of "Our Journal," Box 16, Post Office, Montreal, C. E.

Letters and Communications intended for publication, must be addressed to the Editor, Box 16, P. O., Montreal.

No Communications of this kind will be received from the P. O. unless prepaid.

Immediate steps will be taken to appoint Local Agents in all the Districts of Upper and Lower Canada. In the mean time, parties wishing to become Subscribers, will please send their names address, and subscriptions to the Publishers.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lyn Advertiser, who can vouch for the following statement.—August 2nd, 1851.

To Professor HOLLOWAY,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me that I am desirous that others should be made acquainted with their virtues. I am now rendered by their means, comparatively, active, and can take exercise without inconvenience or pain, which I could not do before.

HOLLOWAY'S OINTMENT!

A WONDERFUL CURE OF A DANGEROUS SWELLING OF THE KNEE.

Copy of a Letter from John Forfar, an Agriculturist residing at Newborough, near Hexham dated May 15th, 1850.

To Professor HOLLOWAY,

SIR,—I was afflicted with a swelling on each side of the leg, rather above the knee, for nearly two years, which increased to a great size. I had the advice of three eminent Surgeons here, and was an inmate of the Newcastle Infirmary for four weeks. After various modes of treatment had been tried, I was discharged as incurable. Having heard so much of your Pills and Ointment I determined to try them, and in less than a month I was completely cured. What is more remarkable I was engaged twelve hou s daily in the Hay Harvest, and although I have followed my laborious occupation throughout the winter I have had no return whatever of my complaint.

SHERIFFS CHOLERA SYRUP
IN CALIFORNIA.

THE following extract of a letter is from a gentleman of respectability, who has thoroughly tested the virtues of the above medicine, not only in this, but in other climates, also, and which goes to show its value to persons intending to journey through the various climates and sickly regions, where epidemic diseases cut off the inhabitants by thousands:

Bath, March 1st, 1852.

DEAR SIR—As we owe a debt of gratitude to those who have been the agents in saving or prolonging our lives, I hope you will accept my most unqualified acknowledgments of the benefit which I have personally received from the use of your medicines. In 1849, before starting on the overland route to California, I purchased a stock of your medicines, and I have tested their efficiency under every vicissitude of circumstance and climate, both with myself and others, and not once have I known them to fail in producing the desired effect. Twice I had the Cholera, once the Cholera Morbus, once the Typhus Fever, and several times the Diarrhœa and Dysentery, of the most malignant kind. And whilst others were dying all around me, by the use of your medicines I have come safely through, and am happy to state that I am now in as sound health as ever I was in my life. And I would most sincerely recommend all those who intend going to the same country to procure a good supply of your Cholera Syrup, as I know it to be the most useful medicine ever taken for a majority of the diseases of that climate. In the summer of 1850, when the Cholera was raging in Sacramento, I have no doubt but that I could have sold one thousand bottles at ten dollars each.

Yours Respectfully,
B. S. BOOTH.

SECOND EDITION NOW READY.
Miss Fuller's New Work:

FRESH Leaves from Western Woods—being the Prose Works of Miss Metta Victoria Fuller, the gifted Western Poetess—containing over 315 12mo. pages. Illustrated.

[Extracts from Reviews.]

Graceful, spirited, and brilliant poetess.—[New York Tribune.

She evidently writes with great facility, with a fine command of poetical language, and a fancy singularly rich in apt and various illustration.—[R. W. Griswold.

Her contributions to the "Home Journal" prove her to be a real poet—BORN POET—of the unmistakable stamp.—[N. O. Delta.

In the department of literature, the West is yielding not only fair fresh leaves and blossoms, but also some choice fruit. The poetical effusions of the Misses Fuller have met with marked favor at the hands of the critics. We think these selections from the prose writings of one of them have a richness of foliage and fragrance which do credit to the soil and climate wherein they grew. The authoress being a Western lady, of course the book will find many Western readers. In typography and mechanical execution, also, the book is a gem of art.—[Detroit Paper.

Notable instance of what a gifted mind can accomplish in winning distinction, without the advantages of wealth, literary friends, or patrons, to give her a favorable introduction to the reading world.—[Cleveland Herald.
