APOCALYPTIC SKETCHES;

OR

Lectures on the Book of Revelation,

Delivered in Exeter Hall, and at Crown Court Church.

NEW EDITIONS,

Revised & corrected by the Author with Index &c.

These Lectures were begun in Exeter Hall, during the period occupied in the enlargement of the Church of which the Lecturer is the Minister. Not a few were then afraid that the Author might be led into rash and questionable theories in investigating a subject confessedly beset with difficulties, but, by the blessing of God, and the order of caution and prayerful study, all contrived more than satisfactorily. The congregation; large masses of persons of every rank flowed thither to demonstration at all to be delivered, and spacious hall in which they met the minds of the growing attention flying and very striking these audiences, and the rivetted minds by the impressions made on those they heard, are all means of the celebrated for humble gratitude sions and tokens.

Requests were made for their publication. Numerous friends wrote was therefore created, took a *verbatim* report of every Lecture; these reports the Author has now corrected and trusts that the work will be found a faithful summary of his Discourses on the Apocalypse. It is his earnest prayer that the end all his labours may redound to the glory of God and to the good of souls.

"The fervent piety, subdued and reverence reasoning, careful thought and expansive charity which prompt, guide, control, and verify the whole, prove its author one of those gifted teachers whom it is, indeed, a privilege to hear.—*Morning Advertiser.*

Uniform with the above, in one handsome volume, Prophetic Studies; or, lectures on the Book of Daniel.

Extracts from Report by the Board of Directors to the Sixth Annual General Meeting of the Company, held 1st November, 1851.

"THE COLONIAL LIFE ASSURANCE COMPANY had been in operation nearly six years at the date of the last periodical balance, on 25th May, and the Directors have the pleasure of congratulating their Co-proprietors on the success which, year by year, has characterized the results of the business, and which has brought the Company to the very satisfactory position which it occupies.

"The new Assurances effected from 25th May 1851, to 25th May, 1852, amounted to £205,111 17s, selected from Proposals made to the amount of £47 281 1s. The Annual Premiums on the new Assurances effected amounted to £8,713 1s 8d, and the number of Policies was 51.

"The meeting will observe more particularly from the following Table, that the number of Policies, as well as the amount Assured, is greater than in any previous year:—

ANNUAL RESULTS.

Period	New Policies Issued.	New Sums Assured.	New Annual Premiums.
2nd Aug. 1846 to May 25th 1847	112	£ 74 11 0	£ s d 1 4
1847 1848	125	65 15 0	1 9
1848 1849	141	75 [illegible]	1 [illegible]
1849 1850	45	23 [illegible]	[illegible]
1850 1851	187	98 [illegible]	[illegible]
1851 1852	51	29 [illegible]	[illegible]
	661	£ 347 11 0	£ 16 [illegible]

"On the other hand, the sums claimed under the Policies emerged by death during the year have been small, viz £3949 19s, being less than during the year ending 25th May 1851 by upwards of £1000. The Claims by Death in each year since the commencement of the business, amount in all to £14,570 10s 3d, which the Directors are happy to state has all been paid, with the exception of £200 not as yet applied for.

"The progress and extension of the business has been an anxious attention of the Board. In Canada North America, and in the West Indies, the Company's arrangements are, it may be said, nearly perfect, and their chief attention is now directed to the East. An influential connection has been formed at the Cape, and at the Mauritius; and since the establishment of steam communication with Australia, the Directors have taken preliminary steps to form a Board at Sydney, in connection with a branch of business in that important quarter. Last year the Directors mentioned that the Secretary would proceed to India to establish Boards in Calcutta, Madras, Bombay, and Ceylon; and the Directors are happy to be able to mention, that very satisfactory arrangements are in progress, by which they hope to open up with every prospect of success the extensive field of business of the East.—Boards have been formed at Calcutta and Ceylon; and in a few weeks similar arrangements will be completed at Bombay and Madras. The development of this extensive branch of business will take time and will require much attention. There are other offices, British and Native, transacting business there, and to compete with these, and suit the terms and conditions of Assurance to the practice of the country, it has been found necessary to reconstruct the class of risks in which India was included, founding, as it were, an Eastern branch on the experience of those offices which have gone before.

"The Directors have now to mention, that they have made a satisfactory arrangement with the Directors of the Eastern Scotland Life Assurance Company, by which the business of that Company has been transferred to The Colonial. It will add about £3500 per annum to the Company's revenue, and will increase their funds by about £10,000. With this addition to the revenue, The Colonial have commenced the present year with an income of upwards of £40,000, and an accumulated fund of £70 000.

"Looking to the period at which The Colonial Company started, and the fact of its being one of the successes of Assurance institutions out of the many established of late years, the Directors cannot refrain from referring to the recent agitation on the subject of Life Assurance Companies; not however, for the purpose of condemning any, as it would be out of place for them to do so, but for the purpose of pointing with some pride to The Colonial; for it is allowed by those who know the characteristics of success in such matters, that The Colonial is the most prosperous office of the day among the younger institutions.

"In conclusion, the Directors having already expressed their congratulations, now beg to thank the Co-proprietors, and all interested in the institution, for the support they have all so often given them. To the boards of Direction in London, Dublin, and Glasgow their thanks are peculiarly due. The efficient direction and management to the Company in Montreal require special notice, and with their esteemed connections in New Brunswick, Nova Scotia, and Newfoundland, have their best thanks. In the West Indies, the Company have received warm support. The Jamaica and Demerara Boards perform their duties in the most satisfactory manner, and have established in Antigua, Trinidad, Grenada, Dominica, and St. Lucia, their duty with no less efficiency. The Directors hope they will be called on next year to propose a similar vote of thanks to their friends in the East; for in the meantime, the progress already made in Ceylon, and the influential connection formed, there must not be passed over, and must be included in the expression of obligation which the Directors now wish to convey to the supporters of the Company throughout Great Britain and its dependencies.

Applications for Assurance will receive every information regarding the Company from

SHERIFF'S CHOLERA SYRUP IN CALIFORNIA.

THE following extract of a letter from a gentleman of respectability, who has thoroughly tested the virtues of the above medicine, not only in this, but in other climates, also, and which goes to show its value to persons intending to journey through the various climates and sickly regions, where epidemic diseases cut off the Inhabitants by thousands:

Bath, March 1st 1852.

DEAR SIR—As we owe a debt of gratitude to those who have been the agents in saving our lives, I trust you will accept my most unqualified acknowledgement of the benefit which I have personally received from the use of your medicines. In 1849, I commenced to use your medicines, and I have tested their efficiency under every vicissitude of circumstance and climate, both with myself and others, and must say I have known them to fail in producing the desired effect. Twice I had the Cholera, once the Cholera in Mexico, once the Typhus Fever, and seven times the Chronic and Dysentery, of the most malignant kind. And whilst others were dying all around me, by the use of your medicine I have come safely through, and am happy to state that I am now in as sound health as ever I was in my life. And I would most sincerely recommend all those who intend going to the same country to procure a good supply of your Cholera Syrup as I know it to be the most valuable medicine extant, for a majority of the diseases of that climate. In the summer of 1850 when the Cholera was raging in Sacramento, I have no doubt but that I could have sold one thousand bottles at ten dollars each.

Yours Respectfully,
B. S. BOOTH

HEALTH FOR A SHILLING.

Holloway's Pills.

EXTRAORDINARY CURE OF LOSS OF HEALTH DISORDERED STOMACH, INDIGESTION AND BETTER MINATION OF BLOOD TO THE HEAD.

Copy of a Letter from [illegible] Lord, of Erwin, near Harlow, Gloucestershire.

To Professor Holloway.

SIR,—I avail myself of the first opportunity in coming you of for a very long period I have suffered with dangerous giddiness and frequent swimming of the head, attended by loss of appetite, disordered stomach, and generally in poor health. Every means had failed to give me any permanent relief, and at length it became so at times that I was really afraid of going about without an attendant. In the melancholy condition I waited personally upon Mr. Hughes, Chemist, Harlow, for the purpose of consulting him as to what I had better do; he kindly recommended your Pills. I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health, and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper.

I am, Sir, your faithful Servant,

June 6th 1852. [Signed] JOHN LLOYD.

MIRACULOUS CURE OF DROPSY.

Extract from a Letter from Edward Rowley, Esq. of Hill Walk, Tiverton, dated April 8th, 1852.

To Professor Holloway.

DEAR SIR,—I deem it a duty I owe to you and the cause of humanity to make known a most miraculous recovery from the direful disease dropsy, and which, under God, was effected by your invaluable Pills. I was tapped five times, the eighteen months I underwent treatment, and should certainly have sunk under it, but for your invaluable medicine, which I continued to use, and which, in conjunction with your directions, wrought a perfect cure in spite of the doctors, who had given me up, and considering the dreadful state I was in, I consider my life to be the gift of God, and your Pills the means of my good health.

I remain, dear Sir, yours faithfully,
[Signed] WM. BO TOT

HEALTH FOR A SHILLING.

Holloway's Pills.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING.

Copy of a Letter from [illegible] Hird, Draper, of Keighley, near Gainsborough, dated March 1st, 1852.

To Professor Holloway.

SIR—Some time since, one of my children was afflicted with dreadful ulcerations over the body and limbs. I obtained the advice of several eminent Surgeons and Physicians, by all of whom the case was said to be hopeless. At length I tried your Ointment and Pills, and without exaggeration, the effect was marvellous, for by persevering in their use, all the ulcerations quickly disappeared, and the child was restored to perfect health.

I previously lost a child from a similar complaint, and I firmly believe, had his case adopted your medicines she would have been saved also. I shall be happy to testify the truth of this to any enquirer.

[Signed] J. HIRD, Draper.

ANOTHER SUR RISING CURE OF ULCERATED BAD LEGS, INFLEXIBILITY AND GENERAL ILL HEALTH.

Copy of a Letter from Mr. J. M'Clennell, of Newcastle-on-Tyne, dated Sept 20, 1852.

To Professor Holloway.

DEAR SIR—I am authorised by Mrs. Gibson, of 3 Bailey Street in this town, to inform you that for a considerable period she had been a sufferer from debility and general ill health, accompanied with a disordered stomach, and great derangement of the system. In addition to this she was terribly afflicted with ulcerous wounds, or running sores in both legs, so that she was totally incapable of doing her usual work. In this distressing condition she adopted the use of your Pills and Ointment, and she states, that in a wonderfully short time, they effected a perfect cure of her legs, and restored her constitution to health and strength; and that she is now enabled to walk about with ease and comfort. Several other persons in this neighbourhood have also received extraordinary benefit from the use of your invaluable medicines.

I remain, Dear Sir, yours faithfully,
[Signed] J. M. CLENNELL.

CERTAIN REMEDY FOR SCROFULOUS HUMOUR.—AND AN ASTONISHING CURE OF A OLD LADY SIXTY YEARS OF AGE CURED.

Copy of a Letter from Messrs. Wilker and Co., Chemists, Bath.

To Professor Holloway.

DEAR SIR—Among the numerous cures effected by the use of your valuable medicines in this neighbourhood, we may mention that an old lady residing in the Village of Peasedown, about five miles from this city, had ulcerated wounds on her legs for many years, and latterly they increased to such an alarming extent as to defy all the usual remedies: her health was rapidly sinking under the effects of the disease. In this distressing condition she had recourse to your Ointment and Pills, and by the assistance of her friends, was enabled to reach their use, until she received a perfect cure. We have ourselves been astonished at the effect upon so aged a person, she being above 70 years of age. We feel we have to satisfy any inquiries as to the authenticity of this really wonderful cure, either personally or by letter.

A private Bath Pipe Force, also has been the means of an old scorbutic affection in the leg, after all else had failed. We state that entirely by the use of your Ointment, and we speak loudly in its favor.

We remain, Dear Sir,
Your's faithfully,
[Signed] ALLER & Co
