MARRIAGE.

HAPPINESS AND COMPETENCE.

WHY IS IT?

That we behold many females, scarce in the meridian of life, under to be the subjects with a complication of diseases and adiments depriving them of the power for the enjoyment of life in an age when physical health, buoyancy of spirits and happy serenity of mind, arising from a condition of health, should be predominant?

Many of the causes of her sufferings at first—perhaps years before, in hopeless ignorance, she enters into the first years of marriage—prior to their entire or high state has passed unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What should we not often give to possess, in early life, the knowledge we obtain in after years. And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or happy still, never imparted, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (with in the reach of all) which would spare so much

YEARS OF MISERY.

And to see husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of enjoying that comfort which her exertions would be sufficient, if the necessary knowledge which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge the want of which has caused the ruin, misery and poverty of thousands. Is it any of such consequence, a wife or mother is rationable if she neglect to avail herself of that knowledge in respect to herself, which would save her from much suffering, the premature loss of her husband's property to her husband, and confer upon her child every that blessing above all price—healthy bodies, with health minds. This knowledge is contained in a little work entitled

THE MARRIED WOMAN'S

Private Medical Companion.

BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN.

*One Hundredth Edition.* 18mo. pp. 250. *Price, 50 cts.*

(FOR FIRST CLASS, EXTRA BINDING, $1 00.)

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impossible to convey fully the various subjects treated of, as they are of a nature strictly private, but to the married, or those contemplating marriage, but no female desirous of enjoying health, and the happiness consequent upon it, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own prospective improvement.

**PIANO FORTES.**

THE Subscribers beg to inform their Friends and the Public generally, that they have received, and are in possession of their Fall Stock of Piano Fortes, from the celebrated Manufactures of

STODART & DUNHAM, IN NEW YORK, AND

CHICKERING, IN BOSTON,

Which comprises all classes of Six, Six-and-a-half and Seven Octave Pianos, from the plainest to the most highly finished. The superiority of these instruments has been proved during ten years' trial in Canada, and as the undersigned offer them at the lowest manufacturing prices in New York and Boston, they are confident that the public will favour them with that liberal custom which they have hitherto enjoyed.

Inorder to meet the wishes of those also who may desire of procuring Pianos at the lowest prices, the subscribers have added to their stock, a very large assortment of INSTRUMENTS, of other good makers, as also SECOND-HAND PIANOS, which they keep constantly on hand, from £40 to £50.

Intending purchasers residing at a distance, by specifying their wishes by letter, in respect to style, quality of Tone, &c., may depend upon a tasteful selection being made, with the privilege of exchanging if not perfectly satisfied.

A liberal allowance made for Old Piano Fortes in exchange.

Having engaged a good Piano-Forte tuner lately from Collard's establishment, London, Messrs. S. are always prepared to tune instruments at the shortest notice.

CHILSON'S PATENT

WORLD'S FAIR PRIZE MEDAL

FURNACE.

WE are happy to announce that CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented, is declared by high and reliable authority, to be the

*BEST FURNACE IN THE WORLD.*

Not only is this Furnace, and our system of ventilation, proved unrivalled the best mode of Warming and Ventilating Dwelling, Churches, School Houses, Academies, Court and Town Houses, Hospitals, Stores, &c. in many of the cities and towns in the United States, but is meeting with equal favor in the Canadas, England, Russia, and other Foreign Countries. It was awarded the recent Prizes in this country, Gold Silver Medals, First Premiums, and lastly, the Great Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best. (See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable end, the inventor of this Furnace first analyzed the mechanism of the common Air Tight Furnaces seven years since, and these under vention, that did not burn furnaces burn the oxygen out of the air, producing an unhealthy, scorching, disagreeable odor, unfit to be inhaled by human beings; besides the constant burning out of the pots, which permits the poisonous gases to escape and mingle with the air; and then the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his effort to secure a healthful, economical, and durable Apparatus, for thoroughly warming and ventilating buildings, has been entirely successful. They possess the following advantages, purity of air, powerful heaters, economical in fuel, burning with little, ignorant of coals, all equally well, flues easily cleaned out—great durability of furnace, liable to last for a lifetime; perfect safety against setting buildings on fire in which they are located; simple setting, few cements. Sizes for all classes of buildings. Also, 4 sizes of new and superior

*Portable Parlour Stoves.—Dr. Clark's Improved Boston School Stove.*

Registers of all descriptions; Hot-air Grates; Room Ventilators, &c.

Emerson's celebrated Ventilators for Roofs of Buildings and Smoky Chimneys, &c. Cooking Ranges, with or without Boilers, and Hot-air Fixtures. All sizes and styles of these beautiful

of each European and American styles. Also a superior article of Liverpool Soft coal Grates, for Parlours, &c.

VALUABLE MUSICAL WORKS,

RECENTLY PUBLISHED BY

Mason & Law, New York.

The Theory of Musical Composition. By Dr. A. B. Marx. Translated from the German by H. S. Saroni.

AMONG the theorists and critics of Germany, Holland, Denmark, and France, there is but one opinion as to the superiority of this work over any upon the same subject that has ever issued from the press, either with regard to its perspicuity, completeness, or a masterly display of the most profound knowledge of Musical Science. There is scarcely a Music School of any note in Germany in which it is not referred to as a Text Book.

Price of the American edition, $2 50.

*The Musical Vade Mecum. By H. S. Saroni*

This is a compendium of information of Musical Subjects which it is difficult to find in any other shape. It is a sort of skeleton treatise, beginning at the begining, with the Scale or Tone-system; then Melody; Rhythms; Organisings, or the various descriptions of Instruments; Harmony; Modulation; the Æsthetic forms; the Artistic Execution, and finally a condensed History of Music. Price $1 25.

*The Academy Vocalist.*

A collection of Vocal Music, designed as a Text Book for Academies, Seminaries, High Schools, &c. By George F. Root, with a complete course of Elementary Instructions, Solfeggios, &c. By Lowel Mason. Price 62 cts.

*Cantica Laudis.*

A very comprehensive and complete collection of Church Music, by the Authors of "Carmina Sacra," "The Boston Academy's Collection," &c. This latest work of Lowell Mason and George James Webb, has elicited an amount of approbation from the intelligent musical public, vastly greater than was ever bestowed upon any similar work. It is now two years since its first publication, and those who have used it longest are most enthusiastic in its praise. A distinguished teacher writes of it as follows:

"For my own part, I must say I am more than gratified—I am delighted, I am charmed with it! It is, in my estimation, a most invaluable treasure; every leaf sparkles with gems, every page is adorned with beauty and grace! I find nothing in it which may be styled commonplace; nothing which appears to have been inserted merely for the sake of making up a new collection. Every piece, whether of complicated or more simple texture, whether adorned with artistic ornaments or chaste in plainer habiliments, is in itself, according to its proper character and design, a finished specimen of the art. The entire work, indeed, not only bears indisputable testimony to, but is itself a gratifying as it will be an enduring monument of the extensive reading, mature judgment, exquisite skill, classic taste, and untiring industry of its eminent compilers. The great variety of subjects and of styles which it embraces, the beauty and freshness of its melodies, the richness and glowing fervor of its harmonies, the logical precision and yet courtly ease of its modulations, the incomparable grace and exquisite finish which are so apparent in every part, ought and merely must render it a universal favorite."

Hundreds of teachers of music have expressed to the publishers the opinion that it is "the best collection of Church Music ever published in this country." Price 75 cents.

EXTENSIVE WATER POWER

LACHINE CANAL.

NOTICE IS HEREBY GIVEN, that the extensive water power of the LACHINE CANAL, at COTE ST. PAUL, with the LAND thereunto attached, will be leased by public Auction at the LACHINE CANAL OFFICE, at MONTREAL, on WEDNESDAY, the FIRST day of DECEMBER next, at the hour of ONE o'clock, P. M.

The land, about thirty-nine and five feet frontage, by an average of two hundred feet in depth, with the whole of the canal bed, not required for Canal purposes, will be disposed of in one lot, at a yearly rent, on the same terms as heretofore.

The privilege, which is on the Canal bank, and will be one mile and a half of Montreal, affords great facilities for the establishment of any description of extensive Iron, or other Manufactories, as power will be enabled to come alongside of the Foundries, Mills, &c., for the purpose of loading.

The conditions of the lease, and any further information, may be known either at this Office, or of Mr. P. G. Sims, intending Engineer, at the Lachine Canal Office, Montreal, who will point out the ground, &c.

Another Testimony for the Hydropathic and Lotanic Cures.

I SAW many persons testimonials in the papers who were cured by Dr. Lankton's medicines, I know others in my neighborhood, whose names were not made public, who were cured by him, but I find it to be my duty to state to all that I was so ill cured with Fits for many years and within the three years past lost over £60 by medical attendance, and not so free until I went to Dr. Lankton of Kingston, about two months since; and by his treatment, medicine and advice, thank God I have had no return of them since, and am now able to do my business.

THRESHER AND SEPERATOR

Also—Stoves, Ploughs, Mill and all kinds of Castings.

THE Subscriber begs leave to call the attention of his Friends and the Public, to his unequalled single and Double Horse Power Threshers and Seperators, which have now been in use for two seasons, giving time to prove that all he said of them is correct, having sold 270 to different persons, amongst whom he would mention Mr. H. Beachard, Forest town; Mr. Spencer, Camden East; D. Mr. H. Pultz, Milton; Mr. Fetterly, Esq., near Wilton; Mr. J. Wells, Frankford; Mr. John Gibson, Kingston (who took the first premium at the County Show last year, the subscriber taking the second premium himself;) Mr. McSourly, Wolfe Island; Mr. Parker Barrett, Loughborough; Mr. John Amey, Camden; Mr. Thomas Fraser, Township of Kingston; Mr. Charles Shibley, Portland; Jacob H. Powley, Esq., Township of Otonabee, Lake Simcoe; William Howard, Amherst Island. To all whom reference can be made that he machines have given the best satisfaction of any yet introduced into Canada.

The Subscriber has now on hand a number of Machines ready for sale, and is still making them, intending to complete 50 by the first of October next, or more if call for, so there will be no delay in furnishing them to his customers during the season. They are all made with the Non Wheel, and Converse, or Internal Seat and Pinion with Lever Hand Wheel than last season, as experience has shewn the power to be equal to a much greater speed. In all other respects they are built the same as in 1851.

The Over Shot Thresher and Seperator has been fully proved to be the best and safest ever introduced and the subscriber has made an improvement in the formation, making the Concave Bearers wider, thereby saving the wear of the covering of the Cylinder, and giving a larger throat. He has also adopted a new plan for raising the Concave, by means of two Thumb screws one on each side, enabling the Concave to be shifted, without stopping the Machine.

The subscriber from his long experience in the Manufacture of all kinds of Threshing Machines, feels confident that he can now offer to his friends and the public, an article which cannot be surpassed for Durability and Usefulness.

The Two Horse Power Thresher and Seperator is capable with 3 or 4 men, of threshing from 150 to 200 Bushels of Wheat or Rye. The ingle from 60 to 100—or double this quantity of Oats or Peas per day.
