CHILSON'S PATENT
WORLD'S FAIR PRIZE MEDAL FURNACE.
WE are happy to announce that CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented, is declared by high and reliable authority, to be the *BEST FURNACE IN THE WORLD.* Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating Dwellings, Churches, School Houses, Academies, Court and State Houses, Hospitals, Stores, &c. in nearly all the cities and towns in the United States, but is meeting with equal favour in the Candas, England, Russia, and other Foreign Countries. It has been awarded at the recent Fairs in this country, Gold Silver Medals First Premiums, and lastly, the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best. (See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common flat hot air furnaces seven years since, under the settled conviction, that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy, scorching disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air; and then the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a Healthful, Economical, and durable Apparatus, for thoroughly warming and ventilating buildings, has been entirely successful. They possess the following advantages, purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals of wood, all equally well, flues easily cleared out—great durability of furnace, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars. Sizes for all classes of buildings. Also, 4 sizes of new and and superior.
Portable Furnaces,—Dr. Clark's Improved Boston School Stove.
Registers of all descriptions; Hot-air Grates; Room Ventilators, &c.
Emerson's celebrated Ventilators for Roofs of Buildings and Smoky Chimneys, &c. Cooking Ranges, with or without Bath Boilers, and Hot-air Fixtures. All sizes and styles of those beautiful
MIRROR MARBLE MANTELS,
PARLOR & CHAMBER FRAME GRATES, of rich European and American styles. Also a splendid article of Liverpool Soft coal Grates, for Parlors, &c.
Architects, Builders, and the public generally please examine our extensive assortment. Personal attention given to warming and ventilating buildings in any part of the country.

VALUABLE MUSICAL WORKS,
RECENTLY PUBLISHED BY
Mason & Law, New York.
The Theory of Musical Composition. By Dr. A.B. Marx. Translated from the German by H. S. Saroni.
AMONG the theorists and critics of Germany, Holland, Denmark, and France, there is but one opinion as to the superiority of this work over any upon the same subject that has ever issued from the press; either with regard to its perspicuity, completeness, or a masterly display of the most profound knowledge of Musical Science. There is scarcely a Music School of any note in Germany in which it is not referred to as a Text Book.
Price of the American edition, $2 50.
The Musical Vade Mecum. By H.S. Saroni
This is a compedium of information of Musical Subjects which it is difficult to find in any other shape. It is a sort of skeleton treatise; beginning at the begining, with the Scale or Tone-system; then Melody; Rhythm; Organology, or the various descriptions of Instruments; Harmony; Modulation; the Æsthetic forms; the Artistic Execution, and finally a condensed History of Music. Price $1 25.
The Academy Vocalist.
A collection of Vocal Music, designed as a Text Book for Academies, Seminaries, High Schools, &c. By George F. Root, with a complete course of Elementary Instructions, Solfeggios, &c. By Lowel Mason. Price 62 cts.
Cantica Laudis.
A very comprehensive and complete collection of Church Music, by the Authors of "Carmina Sacra," The Boston Academy's Collection," &c. This latest work of Lowell Mason and George James Webb, has elicited an amount of approbation from the intelligent musical public, vastly greater than was ever bestowed upon any similar work. It is now two years since its first publication, and those who have used it longest are most enthusiastic in its praise. A distinguished teacher writes of it as follows:
"For my own part, I must say I am more than gratified—I am delighted, I am charmed with it! It is, in my estimation, a most invaluable treasure; every leaf sparkles with gems, every page is radiant with beauty and grace! I find nothing in it which may be styled commonplace; nothing which appears to have been inserted merely for the sake of making up a new collection. Every piece, whether of complicated or more simple structure, whether adorned with artistic ornaments or clad in plainer habiliments, is in itself, according to its proper character and design, a finished specimen of the art. The entire work, indeed, not only bears indubitable testimony to, but is itself a gratifying as it will be an enduring monument of the extensive reading, mature judgment exquisite skill, classic taste, and untiring industry of its eminent compilers. The great variety of subjects and of styles which it embraces, the beauty and freshness of its melodies, the richness and glowing fervor of its harmonies, the logical precision and yet courtly ease of its modulations, the incomparible grace and exquisite finish, which are so apparent in every part, ought and surely must render it a universal favorite."
"Hundreds of teachers of music have expressed of the publishers the opinion that it is "the best collection of Church Music ever published in this country." Price 75 cents.

Another Testimony for the Hydropathic and Botanic Cures.
I Saw many persons' testimonials in the papers, who were cured by Dr. Lanktree's medicines, I know others in my neighborhood, whose names were not made public, who were cured by him, but I find it to be my duty to state to all that I was sorely afflicted with Fits for many years and within the three years past lost over £60 by medicine and treatment, and got no relief until I went to Dr. Lanktree, of Kingston, about two months since; and by his treatment, medicine and advice, I thank God I have had no return of them since, and am now able to do my business

SYDENHAM FOUNDRY
LONGBOROUGH, C.W.
JOHN AULT,
Manufacturer of the Celebrated Rap Road Horse Power and Over Shot
THRESHER AND SEPERATOR
Also—Stoves, Ploughs, Mill and all kinds of Castings.
THE Subscriber begs leave to call the attention of his friends and the Public, to unequalled Single and Double Horse Power Threshers and Separators, which have now been in use for two seasons, giving time to prove that all he said of them is correct, having sold 27 of them to different persons, amongst whom he would mention Mr. H Blanchard, Ernest-town; Mr. Smith Carrying place, P. F. D., Mr. H. Tulip, Wilton; Wilton Fisk, Esq., near Wilton; Mr. H. J. Wells, Fredericksburgh; Mr. John Gibson, Kingston (who took the first premium at the County Show last year, the subscriber taking the second premium himself,) Mr. McSourly, Wolfe Island; Mr. Parker Barrett, Loughborough; Mr. John Amey, Camden; Mr. Thomas Fraser, Township of Kingston; Mr. Charles Shibley, Portland; Jacob H. Powley, Esq. Township of Ops, Lake Simcoe; Mr. William Howard, Amherst Island. To all whom reference can be made that the Machines have given the best satisfaction of any yet introduced into Canada.
The Subscriber has now on hand a number of Machines ready for sale, and is still making them, intending to complete 50 by the first of October next, or more if called for, so there will be no delay in furnishing them to his customers during the season. They are all made with the Nut Wheel, and Converge, or Internal Gear and Pinnion, with Larger Band Wheel than last season, as Experience has shewn the power to be equal to a much greater speed. In all other respects they are built the same as last year.
The Over Shot Thresher and Separator has been fully proved to be the best and safest ever introduced, and the Subscriber has made an improvement in the formation making the Concave Bearers wider, thereby saving the wear of the covering of the Cylender, and giving a larger throat. He has also adopted a new plan for raising the Concave, by means of two Thumb Screws, one on each side, enabling the Concave to be shifted, without stopping the Machine.
The Subscriber, from his long experience in the Manufacture of all kinds of Threshing Machines, feels confident that he can now offer to his friends and the public, an article which cannot be surpassed for Durability and Usefulness.
The Two Horse Power Thresher and Separator is capable with 3 or 4 men, of Threshing from 150 to 200 Bushels of Wheat or Rye. The Single from 60 to 100, or double that quantity of Oats or Peas per day.

THE KINSEY SLATE COMPANY hereby give notice, that they have appointed Messrs. ANDERSON, EVANS & CO. their AGENTS, for the Sale of the ROOFING SLATES made at their Quarries in Kingsey, Canada East.
The quality of these Slates is very Superior, and in every respect suitable for roofing.—and the prices are such as to defy Competition, being much lower than they can be obtained from any other quarter.
Certificates from W. E. Logan, Esq. Provincial Geologist, and from a number of Builders of this City, (as well as the Premium and Diploma obtained at the last Provincial Exhibition, held in Toronto, which prove their adaption, to the purpose of roofing,) can be seen at the office of their Agents, where all information respecting prices may be obtained.
