## Enhanced Bulk Brush Collection Services

Due to the volume of debris to be collected following the December ice storm, Halton Region is extending its enhanced bulk brush collection services **through to the end of February** to assist residents with cleanup.

- Residents in areas of Halton where yard waste is regularly collected can set out **one pile of unbundled bulk brush** on their regular garbage collection day.
- Residents and contractors can also drop off brush debris at the Halton Waste Management Site in Milton free of charge.

Extreme weather conditions may impact storm cleanup. We ask for your patience as cleanup will take several weeks. To assist with the cleanup, residents are asked to pile branches with a maximum of 7.5 centimetres (3 inches) in diameter and 2 metres (6.5 feet) in length on their regular garbage day.

Residents are also encouraged to investigate other services being offered in their municipality to assist with storm cleanup, and brush and debris removal.

**Drop-off locations for larger brush are available in:**

Burlington	Halton Hills	Milton
Lowville Park 6207 Guelph Line Lowville	Robert C. Austin Operations Centre 11620 Trafalgar Rd Georgetown	Acton Public Works Yard 1 Commerce Cres Acton
		Mohawk Racetrack 9430 Guelph Line Campbellville

In addition to the enhanced brush collection, the three-bag garbage limit has also been lifted and will continue until January 31. Households can place up to six garbage bags without a tag for collection on their regularly scheduled day.

**Thank you to residents across the Region for their patience as we continue to work to clean up after the storm and to the countless volunteers, community agencies, and emergency response teams who gave up their holiday plans to lend a hand.**

Please contact us as soon as possible if you have any accessibility needs at Halton Region events or meetings.
