"PANKORITE."

Important to Thousands!!

Home Extract of Rock Rose:

A Discovery and Remedy for all Scrofulous Diseases, Dyspepsia, Salt Rheum, Sick Headache, Cancer, Nursing Sore Mouth, and General Debility; and as a Purifier of the Blood, is unrivalled.

To be convinced that it is the most valuable Medicine of the day, you have only to read the testimony of its efficacy. As a Family Medicine it is invaluable, and one which no person should be without.

The ROCK ROSE has gained a reputation, at home and abroad, which no other medicine has ever done in the same length of time.

According to the testimony of Eminent Physicians, the ROCK ROSE Plant is unequalled in curing Scrofula in its various forms! The Sick Headache, so distinct a Chronic Cause, may here find a Sovereign Remedy. The Canker and Nursing sore Mouth, in numerous cases, have been speedily cured.

BUT WHAT IS THE ROCK ROSE?

The following history of the Rock Rose Plant and it's medicinal properties, we take from the New Haven Palladium, March, 185—:

"The increased interest manifested in the Rock Rose Plant in consequence of the many wonderful cures effected by 'Meyers' Compound Extract of Rock Rose,' calls for a brief history of it, in order to correct any erroneous opinion that may have been entertained concerning it; and also to set in a true light the nature of a plant which promises to be universally beneficial.

We are indebted to the United States Dispensatory of 1847, for the following description of it:—

It is entirely different from the common Rose. It is a red-stemmed, clinging leaf plant, having a bitter taste. In addition to a remarkable peculiarity of the plant, of bearing two crops of flowers in one season, it also has another interesting and beautiful property.

Dr. Eaton says that in the months of November and December, he has seen hundreds of these plants sending out, near their roots, broad, thin, curved ice-crystals, about an inch in breadth, which melted during the day and were renewed in the morning. For a more minute and analytical description of it, the reader is referred to Torrey and Gray's Botanical Works.

Its Medical History and Properties are the most important, since upon these depends it's value to the community. Dr. London says that in 1799 it was so valuable in England that it was cultivated from the seeds. Ever since 1806, Professor of Yale College, has habitually used it with great success in scrofula and Chronic Disease, and through him its virtues were first made known, until as Dr. Tyler says, it is now in the government New Haven, a common article in domestic practice, for the cure of Scrofula and cutaneous diseases."

Dr. Isaac Parrish of Philadelphia, remarks that it has been successfully used in cases of Scrofula Diseases.

Dr. J. H. Thompson, of the same place, prescribed it in bad cases of scrofulous tubercles at Willis' Hospital. His success attracted the attention of senior physicians. He reports the following remarkable case of White swelling of the hip, in February, 1841.—The lad was seven years old, and had the disease for three years. The bone was dislocated upward and outward. There was a large opening on the hip leading to the bone, into which I could thrust my finger. I counted three ulcers. He had been under several physicians, who had given him up. I ordered a decoction of Rock Rose. In two days his night sweats ceased; I then ordered a teaspoonful of Rock Rose three times a day.—Thirty-nine days after he was entirely well.

Dr. Webb, of Madison Ct., Testifies to the value of Rock Rose, as evinced in the cure of numerous cases of Scrofula, especially in children.

Dr. Sparry, in his medical work published 1847, quotes the strong commendation of Dr. Eli Ives, Professor in Yale College, who, in his lectures to the medical students, recommended the use of the Rock Rose, even in cases where the disease is uncertain.

The value of the Rock Rose has also been set forth by Dr. Tyler, of New Haven, Ct., in a dissertation avowedly prepared for that purpose, which afterwards, at the request of several of his medical brethren, was published in a pamphlet.

We quote from the preface. He says that since the delivery of this address, to the last under consideration has been more fully tested its virtues developed, its character better established. This dissertation is published by the advice and approbation of several medical friends. The object of it is to lay before the profession, and the public, the virtues of a plant too much neglected. Look to this plant an important trust. I will conclude by asking only of the profession and the public, a more extended trial of the Rock Rose."

Manufactured by WM. FRANKLIN & CO., New Haven, Ct.

For Sale by E. W. Palmer, Kingston, and dealers in medicine everywhere, of whom pamphlets may be had gratis.

THOS. MAXWELL.

Tug Line Office,
Corner William and Ontario Streets, Kingston.

Ault's Railroad Horse-power Overshot Thresher and Separator.

For Two Horses: Threshing 150 to 175 baskets per day—Price $150 or £32 10s. currency.

For One Horse: Thresh from 60 to 100 baskets per day—Price $130 or £32 16s. currency.

THESE Machines have been arranged with the strictest regard to economy, and every exertion has been made so as to simplify the machinery that any person of common intelligence can work them and repair them, in case of accident. It is well known, that as a Railroad a Horse can move a much greater load than in any other manner. This principle has been adopted in these Machines. The horse power is, in fact, a moveable Railroad—the weight of the Horse goes nearly all the work, and so easily do they run, that when once in good working order, and well greased, it is always necessary to use the brake before they can be stopped. It will thus be seen that these Machines have the following advantages over those already in use:—They are Cheaper, and not liable to accident. They enable a farmer to do his own Threshing at leisure times and in wet weather, without being dependent on extra help. They take no room and can be easily moved from place to place.—From the simplicity of construction any part can be replaced, and duplicate parts had from the Agents, and the nearest mechanic can replace the broken portion. They enable a farmer to thresh his grain as he requires it—either for the grain or the straw.

These Machines may be worked with three or four men, and if not found to do they work as represented may be returned within 60 days, and the payment refunded.

May be had at the factory of the inventor,

JOHN AULT,
Sydenham, Co. Frontenac.

July 22nd, 1853. 175

IMPORTANT TO HOUSE KEEPERS.

Something Lighter and Purer combined than Soda, Cream Tartar, or any other preparation, is now used by all Bakers.

DICKEE'S CHEMICAL YEAST or BAKING POWDER—For sweetening Bread, Pastry, Pudding and Johnny Cakes, Pancakes, Buckwheats, Corn Bread, Sweet Cakes, Apple Dumplings, Pastry, &c., &c. This article is now in use by all the principal Bakers in the Province.

Family Hotel, Boarding House,

Eating Saloons, Steamboat, Vessel, Canal Boat &c., will find it upon a cursory trial, the very thing needed, every single time of baking, also—

1. It saves the expense of milk, eggs, shortening, yeast, spoiled bread, and the trouble and expense of procuring good yeast,—yeast only being necessary.

2. No flour is required for the dough-tables or the kneaders, consequently bread may be made in large numbers.

3. Bread can always be supplied upon the shortest notice, tender and palatable bread and biscuit, whether it be of the best quality or not.

4. Bread made by this process is much more wholesome, more easy of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than that made with yeast.

5. The bread made by fermentation, does not extract the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently it only goes to nourish the body, while the acid tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and universally liked. When used according to directions, it is *warranted* to suit.

☞ Be careful to ask for Dickee's Baking Powder, and take no other, and you will not be deceived. Principal office, 140 Water Street, New York. Sold by the trade generally throughout the country.

New York, Feb. 1st, 1853.

Wharfage, Forwarding & Forage

G. M. KINGHORN,

BEING informed that the Subscriber has been appointed Agent for a term of years, the United States and Bay of Quinte Wharf, which is situated in Kingston, he begs to intimate that he has assumed the duties of the Agency.

Wharfinger, Forwarding Agent, Commission Merchant and Custom House Broker.

The Premises have a large Fire Proof Stone Store and Shed erected on them, and are the most commodious for Storing and Transhipping in this Port. These Wharves being the Stopping places for the Lake and River Mail Lines, the Proprietor is enabled to give despatch to Vessels loading or discharging.

Arrangements have been made with a Gang of Men, who are competent and ready to Load and Discharge Vessels, and every exertion will be used to give satisfaction to Owners and Masters.

Mr. Macpherson & Crane, Kingston; Montreal and Hamilton; John Carruthers, Esq., Kingston.

Kingston, Feb. 22, 1853.

Attachment.

United Counties of Frontenac, Lennox & Addington, To Wit:

BY virtue of a Writ of Attachment, issued out of Her Maj.sty's Court of Queen's Bench, and to me directed, against the estate real as well as personal of John Mills, an absconding or concealed debtor, at the suit of John Winter, for the sum of Seventy-two Pounds Seven Shillings and Fourpence Halfpenny, I have seized all the estate real and personal of the said John Mills, and unless the said John Mills return within the jurisdiction of the said Court, and put himself to the action, or cause the plaint of the said John Winter to be discharged within three calendar months, from the first day of the publication of this notice, the said estate real or personal of the said John Mills, or as much thereof as shall be necessary, will be held liable for the payment, to benefit and satisfaction of the claim of the said Plaintiff as well as for the payment, benefit and satisfaction of the claim or claims of such other Plaintiff or Plaintiffs as shall or may take proceedings against the property or effects of the said John Mills within six months from the issuing of the above mentioned Writ of Attachment.

THOMAS A. CORBETT,
Sheriff, U. C. F. L. & A.

Sheriff's Office,

TUG LINE! TUG LINE!!

THE Public are respectfully informed that the Proprietors of the TUG LINE between Kingston and Montreal, have completed all their Arrangements for Towing according to Contract entered into with the Commissioners of Public Works. The rates of Towing will be in accordance with the Schedule published by the Commissioners in the sufficient newspapers last Fall. The charge for towage will be according to Draught of Water and Breadth of Beam.—The Company will make a further Reduction from the established rates to vessels employing this Line from Kingston to Montreal on their upward trips. They will be towed from Prescott to Kingston at the same rates as downwards, viz: One-Third of upward rates.

☞ A Tug Line Company Steamer will leave Kingston and Lachine Daily.

THOS. MAXWELL & CO.

☞ The downward trip will be performed in three days to Lachine. The upward trip will be performed in four days from Lachine, weather permitting, and in both cases exceptional detention in the Canals.

May 4, 1853. 104
