ENGLISH AND AMERICAN

Garden, Field and Flower Seeds.

E. W. PALMER respectfully intimates to Farmers, Gardeners and others, that he has for sale at his Drug Store, Market Square, Kingston, an assortment of the *best, purest* and *freshest* variety of Field, Garden and Flower Seeds that could be procured in the English and American Markets.

The English Seeds were imported in December, direct from the most celebrated Seedsmen in London: and those from the United States were purchased from a Seedsman of twenty years' standing at Flushing, N. Y.

The importation of last year (though much larger than that of the previous one) having been found too limited to supply the greatly increased demand, last Fall's orders were much extended; several new and improved Kinds of Cabbage and Turnip Seeds, Peas, &c., added, so that this year it is hoped that all orders may be filled. To secure supplies, however, early application should be made.

The Advertiser, by his seed importations, has greatly contributed to the improvement of Garden Vegetables and Field Root Crops and he is determined that no exertions will be wanting on his part to extend that improvement.

Country Merchants supplied on the usual liberal terms.

Catalogue furnished on application.

PATENT

PREPARED FLOUR,

From which, with Cold Water only, and in one hour, a better, purer, and more nutritious Bread can be made than by any other process.

THIS valuable invention, which will be found to combine many advantages over the ordinary Flour, has been brought from London, and the Subscribers have secured the right of manufacturing the same through the process covered by an English patent. Several attempts have been made in the United States to imitate this discovery, but they have all fallen more or less short of the perfection reached in the original,—the ingredients of which we pledge our word are not only harmless but healthful.

The Subscribers are now enabled to offer the Patent Flour at a price that will make it cheaper to the consumer than ordinary Flour. They have had it under trial for nearly four months, and can with confidence recommend it to the notice of all who think it worth while to secure good, wholesome, and cheap bread.

The experience of a person who now uses the Patent Flour has been given to us as follows:—

4 bbls. Common Flour, at say 32s. 6d., lasted usually 100 days £6 10 0
3 " prepared " " 37s. 6d., lasted 100 days 5 12 6

Shewing a saving, exclusive of yeast, of £0 17 6 to say nothing of occasional waste from Bread soured or otherwise spoiled by changes of weather or other causes.

Some of the advantages of using the Prepared Flour are:

I. There can be no uncertainty; as the Flour is prepared with perfect exactness it is always the same.

II. A large saving of labour and time; as bread can be made in one hour instead of ten or twelve hours.

III. A saving in money; the yield of Bread being much greater than can be obtained from ordinary Flour; and it is considered by the best medical authorities to be more wholesome than the latter.

The directions necessary for making Bread are simple, and every difficulty vanishes when the consistance to which the dough should be brought, is once ascertained.—Mix quickly with the Flour a sufficient quantity of pure cold water, to form a thick batter; when smooth, and stiff enough, to be lifted with the hands into the pans; bake in a quick oven. It is best in small cottage loaves of one or two pounds each.

In addition to the making of Bread, this Flour may be made use of to advantage in cakes, pastry, or for almost any other purpose for which ordinary Flour has hitherto been taken. Full particulars may be known by application to the undersigned, who keep always a supply of the Patent Flour in barrels, half barrels, and bags.

PRACTICAL EXPERIENCE OF DR. GRITZNER, IN CONSUMPTION.

Magdeburg, 16 Sep., 1853.

My wife, having suffered for years from a pulmonary complaint, became so ill at the beginning of this year, that I looked daily for her dissolution. The remedies which hitherto had relieved her remained now without effect, and the ulcerations of the lungs and night sweats debilitated her fearfully. It was in this, evidently the last and hopeless stage of pulmonary consumption, when every Medicine remained powerless in even affording temporary relief—that I was induced by a medical brother from Hanover, who makes pulmonary consumption his special study, and treats it with Du Barry's Revalenta Arabica, to try this strengthening and restorative food, and I am happy to be able to express my astonishment at its effects. My poor wife is now in as perfect a state of health as ever she was, attending to her household affairs and quite happy. It is with pleasure and the most sincere gratitude to God for the restoration of my wife, that I fulfil my duty of making the extraordinary efficacy of Du Barry's Revalenta, in so fearful a complaint, known; and to recommend it to all other sufferers. GRITZNER, M. D.

CERTIFICATE FROM DR. GATTIKER.

Zurich, 3rd September, 1853.

I have tried Du Barry's Revalenta Arabica for a complaint which had hitherto resisted all other remedies—viz.: CANCER OF THE STOMACH; and I am happy to say, with the most successful result. This soothing remedy has the effect, not only of arresting the vomiting, which is so fearfully distressing a cancer of the stomach, but also of restoring perfect digestion and assimilation. The same satisfactory influence of this excellent remedy I have found in all complaints of the digestive organs; it has also proved effectual in a most of minute case of habitual flatulence and colic of many years standing. I look upon this delicious Food as the most excellent restorative gift of nature.

DR. GATTIKER.

Plymouth, May 9th, 1851.

For the last ten years I have been suffering from dyspepsia, headaches, nervousness, low spirits, sleeplessness, and delusions, and swallowed an incredible amount of medicine without relief. I am happy to say that your Food has cured me, and I am now enjoying better health than I have had for many years past.

J. B. NEWTON.

Devon Cottage, Bromley,
Middlesex, March 31, 1849.

GENTLEMEN,—The lady for whom I ordered your food is six months advanced in pregnancy, and was suffering severely from indigestion, constipation, throwing up her meals shortly after eating them, having a great deal of heartburn, and being constantly obliged to have recourse to physic or the enema, and sometimes to both.—I am happy to inform you that your food produced immediate relief. She has never been sick since, had no more heartburn, and the functions are more regular, &c.

DR. WURZER'S TESTIMONIAL.

Bonn, 19th July, 1853.

This light and pleasant Farina is one of the most excellent, nourishing, and restorative remedies, and supersedes, in many cases, all kinds of medicines. It is particularly useful in confined habit of body, as also in diarrhœa, bowel complaints, affections of the kidneys and bladder such as stone or gravel; inflammatory irritation and cramp of the urethra, cramp of the kidneys and bladder, strictures and hæmorrhoids. The really invaluable remedy is employed with the most satisfactory result, not only in bronchial and pulmonary complaints, where irritation and pain are to be removed, but also in pulmonary and bronchial consumption in which it counteracts effectually the troublesome cough; and I am enabled with perfect truth to express the conviction that Du Barry's Revalenta Arabica is adapted to the cure of incipient phthisic complaints and consumption. DR. RUD. WURZER.
