THE DAILY BRITISH WHIG,
PUBLISHED EVERY MORNING BY
EDWARD JOHN BARKER, M. D.,
At Six Dollars a year, or FIVE DOLLARS, paid in advance, at the Office of the *British Whig*, Kingston.

THE WEEKLY BRITISH WHIG
IS PUBLISHED EVERY FRIDAY MORNING.
TERMS.—To City Subscribers, twelve shillings and six pence per annum, if paid in advance, or fifteen shillings if paid at the end of the year. To Country Subscribers, ten shillings per annum if paid in advance, or remitted by mail within three months after subscription, and twelve shillings and six pence if collected at the end of the year.

Notice to Subscribers.

Subscribers to the *Weekly British Whig*, who do not receive their papers regularly, are required to send word to this office without delay, as a change of carriers may have occasioned some little irregularity.

The Daily British Whig.

"Oyster per Orbem Dicor."

WEDNESDAY MORNING, AUGUST 9, 1854.

News from Europe.

The advices brought by the 'Atlantic' add but little in the shape of positive facts to the intelligence previously received as regards the war. Late communications from Vienna, corroborated by the declarations of the English Ministers in Parliament on the 24th, would lead to the conclusion that the Czar had decided upon maintaining the occupancy of the Principalities by force of arms, and that Austria would, if necessary, expel him. A coloring of probability is given to this view of the intentions of the two powers by the statement that the Austrians were advancing into the Principalities, and that the Russian General, Gortschakoff, had announced his determination to hold possession of them with 20,000 men. It is even said that he had given orders that in all official documents in which the name of the Czar is used, the title of "Protector of the Principalities" shall be added.

Notwithstanding these statements, we are still inclined to think that the Russian Emperor will not commit so egregious a strategical mistake as to attempt to maintain possession of Wallachia, with the prospect of having his forces hemmed in on both sides by the armies of the coalition, and his chain of communication with his sources of supply through the Moldavian territory cut off. If he really contemplates such a step, it argues the consciousness of his being able to concentrate such an overwhelming force on the points immediately menaced as will enable him to defy the combined efforts of his enemies. This view of the case is however hardly consistent with the hesitation imparted to his operations on the Danube, by the doubts inspired by the vacillation of the Austrian Cabinet.

Canadian Post Office.

The annual report of the Postmaster General of Canada shows that the low rate of postage in that province, or the uniform system as it is termed, works as well as it was expected. The postage revenue for the year amounted to £84,866 6s. 4d, balance due to England for British packet postages collected, was £90,034., 10s. 2½d., leaving a balance of £5,168 8s. 3d, to be provided for out of the consolidated fund. As, however, £15,000 had been voted in aid of the postal revenue, for the year 1853, and a balance of £3,680 4s 10d of this sum remained unexpended, with £5,000 voted for 1853, the deficiency for the past year was amply provided for. "For the current year," we quote from the report, "though the expenditure of the Department in providing for the increasing demands made by the public both in the cities and county districts for additional facilities in various shapes more or less involving expense, and in meeting, as far as practicable, the just claims of Postmasters and other officers engaged in the service to augmented remuneration for their daily increasing labors, is, with every due regard to economy, considerably raised from quarter to quarter, it is almost certain that the corresponding extension of business, (which in fact mainly gives occasion for the enlarged expenditure) will fully supply the necessary funds; and the financial report of the year ending 31st March, 1854, may be confidently anticipated to shew a nearly balanced condition of the revenue and disbursement, if not a surplus, and no appropriation will therefore be needed to sustain the operations of the department for the current year."

City Council.

Monday Evening, Aug. 7, 1854.

The Mayor in the Chair, and nearly a full attendance of Members.

A Petition was read from Mr. E. W. Palmer, requesting an extension of lease of the ground on which his late house was built.

The Mayor said that a Special Committee Meeting should be called, to investigate and report.

Mr. Murdock said that Mr. Palmer obtained a lease of the property from the Council about fourteen years ago, and that owing to the present high value of property compared to what it was at that time, the rent should be raised at least six per cent.

Mr. Jackson said that the buildings intended to be erected by Mr. Palmer on the scite occupied by the old building, would be both an ornament and a credit to the city.

A Resolution was then passed to the effect that Mr. Palmer should, in the erection of a new building, expend £1,500.

A Resolution was passed on the motion of Mr. Jackson, and seconded by Mr. McDonell, that the rent of the premises leased to Mr. Palmer be £40.

Petitions from Messrs. Wm. Hunter, David Tutton, George Humphries, James Gall and Joseph Whitman, for the office of Policeman, were read.

William Hunter and David Tutton were duly appointed to the situation.

Mr. Murdock moved that the Widow and children of the late Constable Manning receive his salary till the expiration of the present year; but being inconsistent was thrown out, and an understanding entered into to make some provision for the family by means of private subscription.

The Grand Trunk Rail Road,

Some conception of the various stations between Montreal and Toronto can be formed from the following table, taken from the annual Report:

On referring to some statistics relating to Canada, between Montreal, and Toronto, I find that, having out these cities, as well as Kingston, the following districts in which we shall have stations, contain the subjoined populations:

STATIONS.	POPULATION	REMARKS
1 Lachine,	About 100	
2 St. Clair,		
3 St. Ann,		
4 Road to Cedars,	1300	Rising District.
5 New Longueuil,		
6 Lancaster,	5000	Nearly 15,000 acres under cultivation
7 Charlottenburgh,	6000	Quantities of hardwood, pine, &c.
8 Cornwall,	4000	Tanneries, and a large export of Potashes.
9 Osnabruck,	5000	25,000 acres cultivated, produce very large.
10 Williamsburgh,	4000	
11 Matilda,	4000	Tanneries, Ashes, Exports, &c.
12 Edwardsburgh,	4500	Maple Sugar, refineries,
13 Augusta and Prescott,	8000	Wool Factories.
14 Elizabethtown and Brockville	9000	Brockville contains 4000
15 Yonge,	4000	
16 Landsdown,	5000	
17 Leeds,		
18 Pittsburgh	3000	Agricultural Produce generally.
19 Ernestown,	5000	
20 Napanee,	1000	
21 Shannonville,		
22 Belleville,	4000	Thriving town,—trade Marmora Iron Works comes here.
23 Port Trent	1000	Lumber traffic.
24 Colborne,		
25 Crafton,	1000	Plenty of Grist Mills.
26 Cobourgh,	5000	Cloth Factory, employing 200 hands—consumption of Wool to nearly ¼ million.
27 Port Hope,	3500	Most rising place.
28 Bond Head,		
29 Bowmanville	1000	25,000 acres under cultivation.
30 Whitby,	2000	Brewery, Tannery, &c.
31 Pickering,	7000	Best settled district in the West.
32 Scarborough,	4000	
33 Scarboro' Height,		
Total,	107500	

Items of News.

TORONTO, August 7th, 1854.

The steamers *Magnet* and *Britannia* arrived at Brown's wharf nearly simultaneously on Saturday from Kingston. Both vessels brought up a large number of emigrants, the majority of whom came from Germany and many from the Highlands of Scotland. Two dead bodies were taken from the *Magnet* and three persons in advanced stages of the cholera from the *Britannia*. The Mayor and Mr. Platt, members of the Board of Health, despatched the sick to the Hospital in a van, and coffins were ordered for the dead. The scene on the wharf after the deck passengers were landed was of the most heartrending description. One German girl of sixteen was lying on some bags at the extremity of the wharf, and was breathing her last. Two fine little children were crying bitterly at the departure of their father and mother in the sick van to the Hospital and were calling, in unintelligible accents, for them to return. The deck of the *Britannia* was in a very crowded condition and the stench proceeding from it was horrible. The captain of the *Magnet* states that the *Brantford* had been thoroughly cleansed and purified at Kingston.

GALLANT ACTION.—On Tuesday last a man and two boys left Youngstown in a small sail boat or skiff, to come over to Niagara. When they had got about half way across, the thunder storm, which our readers will remember, suddenly came on, and a heavy squall of wind struck the boat, and in spite of all those in her could do, completely upset her. The three inmates clung to the side of the boat for a minute or two, but the river, shortly before so smooth and unruffled, had become so exceedingly rough that the poor fellows lost their hold, and were left to buffet about amid the fury of the wild white-capped waves, which threatened to engulf them every moment. Three persons named George Frazer, John Tone, and Edward Boulton, perceiving these unfortunates thus struggling between life and death, hastily procured a light boat, and in the middle of the storm, when the unloosed winds howled most furiously, and the waves were so tremendous that it seemed almost impossible for any craft to live or to be managed among them, at the imminent risk of their own lives, put off and hastened to the rescue. At this moment what anxiety to the few beholders who happened to be present, whose eyes almost turned away shudderingly, as they thought the boat would be too late to execute its mission of humanity. Well might they shudder, for difficult and perilous was the task, but after some time they succeeded in getting them into the boat. A few seconds longer and the whole three would have been consigned to a watery grave, one of them in fact, being seized by the feet as he was going down for the last time. Such a noble act should not be passed over. The parties should receive the honour and praise they deserve.

The following resolution was passed by the Town Council, which met the same evening.

Resolved,—That the heroism of George Frazer, Edward Boulton, Senior, and John Tone, in rescuing from drowning three persons—two boys by the name of Cook, and their uncle, King—when they were capsized in the Niagara River during a severe thunder storm, on the first of August instant, is entitled to the appreciation and gratitude of the community, and that the Mayor be requested to bring the aforesaid praiseworthy act under the notice of the Royal Humane Society, for such recognition as they may deem it advisable to recommend.

THE IRON MINES OF THE OTTAWA.—A gentleman from Pittsburgh, Mr. Forsyth, who is largely engaged in the manufacture of iron, has purchased the valuable bed of ore in the Township of Hull, about five miles from this town. It is his intention to take out the ore and convey it to Pittsburgh, in the State of Ohio, where it is to be mixed with other kinds and smelted. This bed is over sixty feet in width; and it is calculated that three millions of tons of pure iron can be obtained from it without any extraordinary mining works being constructed. The vast impetus given to the iron trade within the last few years by the large demand for Railway purposes, has brought into repute a great many deposits which previously had remained unnoticed or considered of little value. The sudden and great extension of the railway system into this Province, will, it is to be hoped, create a manufacturing business out of our own ores, in our own country, and by our own labour. The millions which we pay to the workmen of other countries will then be paid to those of Canada. It is said that iron cannot be made with profit in Canada, but with the present high prices, and the certainty of a great demand hereafter, we think the experiment might be made without much danger.

We understand that an arrangement is about to be effected between Mr. Forsyth and the Bytown and Prescott Railway, for the transport of the ore. This will add immensely to the profits of the road. In the mean time a large party of miners have arrived and commenced operations.

The Galt *Reporter* says—"We regret to state that the Railway station on the Great Western line at St. George in South Dumfries, was destroyed by fire on Thursday morning, the 27th ultimo, and that the new engine, the 'Jupiter,' one of the most powerful and efficient on the line, which was intended for the Galt Branch, was destroyed, together with a number of cars intended for the same branch. We have no accounts respecting the origin of the fire, but the 'Jupiter' thus destroyed, was expected in Galt yesterday with a load of iron to complete the laying of the track.

Mr. John Robertson, of Trenton, has telegraphed us to contradict the statement recently made in the *Globe* that he had been arrested at the instance of Mr. Cummings for appropriating £300,—as "no such defalcation" existed. The statement of the *Globe* was made upon information derived at the Police Office, and was strictly accurate. What amount of truth there was in the charge on which the arrest was made, we know not further than we have stated.

MELANCHOLY ACCIDENT.—We have just heard of the untimely fate of Mr. William McCardell, long known as one of the most active and energetic Lumbermen of the Madawaska. We are informed he fell overboard, on the upward trip of the Beaver, crossing over Rideau Lake, and before the boat could be backed up, sunk to rise no more. The deceased will be lamented by a numerous circle of friends, who appreciated his generous and manly qualities. May he rest in peace.

DISAPPEARANCE OF THE CHOLERA FROM NIAGARA.—BUFFALO, August 5th.—There has been no cholera at the Clifton House, Niagara Falls, during this year, nor any previous year, and the general health of the place has not been better for the past ten years than it is now. Advices from the Suspension Bridge report that the cholera has entirely disappeared.

ANOTHER VETO.—President Pierce has voted the River and Harbour Bill as was expected. The message is short, but it is said that it was not read to the House, and must lie on the Speaker's table until December next. In the meantime, the President promises to write out his constitutional objections for the instruction of Congress at the next session. The Courier remarks with just severity that:—"He can ask for ten million of dollars for the purpose of embroiling the country with Spain; he can commit an act of open war without even the advice and consent of the body which was the only constitutional power to declare war; he can give his consent to the enormous appropriation for the purchase of barren acres, fit for nothing but to fight Indians on; but to give the nation's money for the encouragement and increased facility of the commerce of the nation is alike against his inclinations and his constitutional views."

The Government have appointed a commission consisting of Drs. Rowand and Landry, and Mr. Gauthier, to inquire into the management of the Quarantine establishment below Quebec.

TORONTO, August 5th, 1854.

By a Resolution dated the 5th August, the Harbour Dues on Coals will be reduced to 6d. per ton, from and after this date.

WELLAND ELECTION.—The Polls in the County of Welland closed on Thursday evening, and resulted in the election of Dr. Frazer over T. C. Street, Esquire, by a majority of 165.

DARING BURGLARY AT PORT SARNIA.—During the night of Monday last, a daring act of burglary was committed in our Town, by some villians who effected an entrance into the building occupied as the Agency of the Bank of Upper Canada. The building is of brick, and is situated contiguous to the residence of Alexander Vidal, Esquire, the Agent, and the entrance was effected by a breach made in the wall, at the south-east corner, by means of a crow-bar and masons' chisel, which were found a short distance from the scene of action on the following morning. By these implements they succeeded in displacing so much of the brickwork as left an aperture sufficiently large to enable them to crawl into the interior. The amount of booty obtained, however, was not so much as they probably expected, being confined to the gold and silver change which remained in the till, amounting to about $130, as they failed in effecting an entrance into either of the Safes, in which the chief portion of the funds of the Bank were deposited. Along with the amount abstracted from the till, they also removed two small tin boxes,—one containing Mr. Vidal's private papers, Deeds, &c.,—the other, a Surveyor's Theodolite, the idea no doubt being that these contained paper money. On finding out their mistake, they left both boxes and contents, as not suiting their purpose. No trace of the villains has yet been discovered, although every available means of detection have been, and are still being employed.

REPORTED CAPTURE OF RUSSIAN FRIGATES.—The report of the capture of two Russian ships of war, the Aurora and Diana, in the Pacific, by Rear-admiral Price, our commander-in-chief in those seas, by her Magesty's ships President (flag) and Trincomalee, is not confirmed by actual despatches from the admiral, which had not time to arrive in due course. But the gratifying news is rendered more probable by the fact that her Majesty's minister at the court of Brazil has deemed the statement of the Swedish captain who brought the news to Rio Janeiro sufficiently reliable to communicate it to his government at home. It is considered probable, too, inasmuch as there has not been as yet time to have received news direct from Admiral Price, who is said by the Swedish captain to be anchored with his prizes, in the roads of Callao. The account is circumstantial, and is probable enough, from the fact of those two Russian ships being known to be in those seas, and of our commander-in-chief having orders to be on the look out for them.

General Campbell, formerly consul at Havana, and lately commissioner to run the Mexican boundry, has been appointed consul at London, *vice* George N. Sanders rejected; and the Senate has confirmed the appointment.

In London, with a population of two and a half millions, the total number of deaths for the week ending July 1st, was 1,299. In New York, with a population of 750,000, not one third that of London. The deaths last week were 1139, or within 160 of those of London.

PORT COLBORNE.—Last Saturday there were 20 vessels in harbor, and on Monday I counted 11. There is a lift from Lake Erie of 7 feet, and the Grand River is the feeder; but as there were 20 feet of water in the canal above the lock the canal would be navigable were it removed, if the piles of mud and sand so wantonly raised on the banks of the deep cut were taken away, and the bottom secured. Some say, however, that opposite winds would cause a rise and fall in the lake, at Port Colborne, of full four feet, and that 20 feet of water greatly accelerates a ship's course. A separate outlet from Thorold to Niagara village is desired by many, and seems to be warranted by the trade passing through.

GOING AHEAD.—Mr. Ruggles Wright has just concluded an arrangement with a company of gentlemen from the United States, for working the iron mines on his Hull property. A gang of miners has been sent for and operations will commence immediately

Kingston Fall Races.

The Races yesterday were not quite so good, or so well attended as heretofore, nevertheless there was a good sprinkling of people present, and all things went off pleasantly and happily. The Band of the 54th Regt. was on the Ground, and many of the Military took an active part in the arrangements.

1ST RACE—MAIDEN PLATE.

Mr. Walker's br. g. 'Young Emigrant,' 1st.
Mr. Gate's g. f. 'Real,' 2nd.
Mr. Carson's br. f. 'Lady Sykes,' 3rd.
Capt. Fowke's b. g. 'Uncertain,' dis.

This race was a two mile run for a Plate of £20, and was very prettily won by 'Young Emigrant.'

2ND RACE—CITY PURSE, £10.

Three horses started for this race—two mile heats—'Young Emigrant,' 'Little Mischief' and 'Tinker,' but it ended in a Walk Over by the Mare. A regular sell. The sport expected to-day is of a much better description than that of yesterday.

WESTMINSTER REVIEW FOR JULY.—L. Scott & Co., New York; E. W. Palmer, Kingston.

We have received the July number of the 'Westminster Review.' It presents an inviting table of contents. Among the articles is one on the "Beard"—a subject which has been a fruitful topic of discussion in England for the past year or two. The present number commences a new volume, and affords a favorable opportunity to subscribe. This, and the other Reviews are afforded very cheap, by Leonard Scott & Co.

ANGLO AMERICAN MAGAZINE FOR AUGUST.—T. McLear & Co., Toronto.

It is more racy and interesting than ever. A good lithographic portrait of Baron Metcalfe, late Governor of Canada, along with some other very good embellishments, adorn it. The articles both original and selected are, as usual, of the highest order, and are well calculated both to interest and instruct the reader. The Editor's Shanty is "some" and no mistake. We hope the proprietors, T. Maclear & Co., will meet with that continued success their enterprize deserves.

Board of Health.

Aug. 8, 1854.

The Board met—the Mayor in the Chair.

The report of the Health Officer very favorable. No medical man had reported any fresh cases. Five Interments on the 8th—4 strangers from Hospital, and 1 inhabitant.

Police Court.

Tuesday, 11 o'clock.

Charles Wilson was charged with drunkenness. Admitted and fined 5s.

Thomas Lucas, drunkenness, 30 days in Jail.

John Bagley, do., fined 5s.
Robert Brock, do., 30 days in Jail.

SPICY.—The editors of the Olive Branch, published at Boston, having received a communication from Nashville, Tennessee, enquiring whether some *female printers* could be obtained there to go to Nashville, replied as follows:

"Every girl in Boston, who is old enough to work in a printing-office, or in any other office, has a lover, whom she would be just as likely to trade off for a Tennessee article as she would be to swap him off for a grizzly bear. The idea of a Boston girl, who goes to operas, patronizes Jullien's concerts, waltzes once a week, eats ice-cream, rides in omnibusses, wears satin slippers, sometimes kiss the editor, going to Tennessee, except she goes there as the wife of one of your first class citizens, editors excepted, is truly ridiculous.

Wouldn't a girl in a nice silk dress, with lace-edged pantalets, and shiny gaiter boots, look well through the mud and mire of Nashville, going to a barn of a printing office, while in one corner of the room two old darkies are jerking away at a Ramage press, and in the other the editor is squirting tobacco juice over the floor? Wouldn't she be in a nice fix when the editor and some great brute of a fellow whom he had offended, got playing at the game of shooting with their revolvers across the office at each other's heads! Who would make the fire when the —— had run off, and the editor was drunk? Who would go home with her dark nights? Who would take her out to ride on Saturday afternoon, and go to church with her on Sunday? No, sir, a Boston girl would not go to Tennessee for love or money. She can get enough of both nearer home.

THE SPIRIT RAPPERS.—The leading people in the spirit rapping movement in the United States have been holding a convention at New York and have formed themselves into a "Society for the Diffusion of Spiritual Knowledge." Governor Tallmadge (Wisconsin) is president of the association. In an address which they have issued to the public they say—"We believe that spirituality is a Heaven-born truth. We profess to know that angels from Heaven—that the spirits of good men progressing toward perfection—have come here, upon the earth we stand on, and talked with us face to face, and uttered words to us bearing the impress of their divine origin. We sincerely believe this. We are respectable men; we do not believe ourselves to be insane. We ask you to come and meet us, and discuss the question with us; to examine those facts which we allege, and to prove, if you are able, either that these facts never did occur, or that their origin is other than that which it purports to be." The meeting to organize the association was opened with the following prayer, written by Judge Edmonds:—"O Thou Great First Cause, beneficent father and Creator of all, we bless Thee for Thy mercy and loving-kindness to us. We thank Thee for the privilege Thou has cast upon us in suffering Thy holy spirits to minister to us. Accept the grateful offering of our thanks and praise, and enable us to know that our Redeemer still liveth, that in every human heart slumbers the spirit of God as our Saviour; to feel that he orders all things well, and to say 'His will be done.'"

FEMALE PHYSICIANS.—There are several establishments in the United States where woman are educated as physicians, and the experiment, which was commenced about five years since, seems to have been comparatively successful. We have received the "Fifth Annual Announcement of the Female Medical College of Pennsylvania located in Philadelphia." The document sets forth the course of education, lectures, terms, &c. Last year there were thirty students, and at the commencement in February the degree of Doctor of Medicine was conferred upon four women. The course of study occupies three years, and the college seems to include all the material for a complete medical education. Realy the women seem to be going ahead.

SHOCKING MURDER.—Yesterday evening about 7 o'clock, a most attrocious attempt at Murder was committed with an axe, in the hands of a Negro man, on a woman named Horan, residing in Division Street. The Negro was immediately arrested and brought to the Station House.

Arrivals at the British American Hotel

AUGUST 8.—Edward Berry, Quebec; Wm. Kelly, Montreal; J. McGillies, Da Davis, Montreal; Thomas Worthington, Wellington; James Manning, Toronto; Geo. Packson, Streetsville; Robert S. Perry, Oswego; H. J. Platt, Oswego; R. S. Stevens, Syracuse; James Bum, Oswego; William A. Gellantry, N. York; John McLeod, Port Hope; John Michie, Kingston; J. S. Farrell, Toronto; W. T. Ramsay, Kingston; George Fraser, Perrey; J. B. Howell and lady, Cobourg; John McCoy, Boston; W. R. Munroe, Sr. Ottawa; S. K. Bourice, Montreal; Mr and Mrs Sinclair, Picton; John S. Vickus, Toronto.

CUSTOM HOUSE REPORTS.

IMPORTS.

AUGUST 8.—Steamer Northerner, Ogdensburgh—1 lot castings, M. Burrett; 1 box, 2 pckgs books, M. Kork. Str. St Lawrence, Montreal—6 hhds sugar, 39 pckgs groceries, J. Carruthers; 40 tons pig iron, J. Kirr; 6 cases, 148 bundles tubes, 22 kegs rivets, Gas Company. Str Cataract, Lewiston—1 box medicine, Mr Bailey; 12 bales broom-corn, J. Carruthers; 36 barrels fruit, J. Brock; 1 coop chickens, M. Picard. Str. Star, C. Vincent—15 hhds sugar, T. Heedey; 10 hhds sugar, 25 caddies and 6 chests tea, J. Hickey; 3 hhds rum, J. S. Smith & Co; 1 case, J. Fraser; 33 bags meal, T. McKever; 1 box, A. J. Glen; 1 centre, J. Bruce; 1 pckg books, J. R. Ward; 1 pckg books, E. W. Palmer; 1 pckg books, P. Hepburn; 1 box, R. Nesbitt; 1 package M. Priest.

PROCLAMATION.

Friends, countrymen and lovers:—hear me for my cause, and be silent that you may hear; discard prejudice that you may believe, and read facts that you may act intelligently. Who, that is young, but values the luxuriant locks of youth and beauty? Who, that is middle-aged, but shudders at Grey Hairs? Who, that is old, but would avert Baldness? If any speak,—for him have I offended. As none speak, then none have I offended in addressing twenty-four million people.

Not one of these many million who have attested the virtues of Lyon's Kathairon, for Preserving, Restoring and Beautifying the Hair, but will proclaim its beneficial effects far and near. One trial will convince the most incredulous. Sold uniform, for 25 cents, by every Druggist in America.

D. S. BARNES, Proprietor, 161 Broadway, N.Y.
E. W. PALMER,
Wholesale Agent, Kingston.

A Certificate from one of our Williamsburgh Friends.

New York, August 30, 1852.

I hope every one, whether adult or child, who may have reason to believe they are troubled with worms, will take Dr. M'Lane's Celebrated Vermifuge. I firmly believe it is one of the greatest worm destroyers of the age—certainly the most extraordinary I know of.

A child of mine, about five years old, has been troubled with worms about six months back; we could get nothing to relieve it until we came across Dr. M'Lane's Vermifuge, of which we gave but a small quantity. The result however, was extraordinary. The child passed over three hundred worms.

MR. LENT,
Williamsburgh, Long Island.

P. S. The above valuable remedy, also Dr. M'Lane's Celebrated Liver Pills, can now be had at all respectable Drug stores in this city.

☞ Purchasers will please be careful to ask for, and take none but Dr. M'Lane's Vermifuge. All others, in comparison are worthless.

176 E. W. PALMER, Kingston, Agent.

BALDNESS POSITIVELY CURED
C. S. EMERSON'S

AMERICAN HAIR RESTORATIVE is truly the wonder of the age. Perhaps no article ever offered to the public is received with greater favor than this, and persons Bald or becoming so, have only to test the article to be fully satisfied.

N. B.—Agents are authorized to give written guarantees if preferred; price to be agreed upon between the parties.

BOARD OF HEALTH.

KINGSTON, AUG. 8TH.

Daily Statement of Interments within the City of Kingston, Monday, August 7th.

INTERMENTS OF CHOLERA PATIENTS.

Inhabitants, 1
Strangers in Hospital 4
Total Number of Interments, 5

By Order of the Board,
C. HENTIG,
Health Officer.

DIED.

On Tuesday, at 5 o'clock, P. M., Mary, wife of Capt. Geo. Smith, Queen Street.

Friends and acquaintances are respectfully invited to attend the funeral at 5 o'clock P. M., this day.

At Goderich, on Wednesday 2nd August, ROBERT N. GARRATT, eldest son of the late WILLIAM GARRATT, Kingston, aged twenty-eight years.

At Toronto on the 1st inst., Mrs. Mary Lyon, aged 44 years.

At Toronto, on the 1st inst., The Hon. Robert S. Jameson, formerly Vice-Chancellor of Canada.

In Bowmanville on the 29th ult., Mr. James Milne, aged 34 years.

In Darlington, on the 31st ult., John H. Holmes, Esq., son of —— Holmes, Esq., of Brookfield, aged 33 years.

In Quebec, Charlotte Hughs, relict of the late Thomas Lloyd, Esq., Staff-Surgeon.

In Montreal, on the 4th inst., Samuel Hedge, aged 60.

At Cobourg, Mary Jones, aged 76 years, sister of the late Elias Jones, Esq., of the same place.

At Quebec, on the 2nd inst., Mr. Charles Cornell, senr., aged 68 years.

In Montreal, on the 4th inst., Lucius Dickinson, son of Captain L. Moody, aged 11 years and 4 months.

In Montreal, on the 27th ult. Mr. Charles H. Warren, aged 31 years.

In Montreal, on the 27th ultimo, Mr. G. Dummett, aged 26 years.

In Montreal, on the 27th ultimo, the wife of Patrick Murphy, aged 44 years.

FRESH ARRIVALS.
