HIGHLY IMPORTANT TO THE PUBLIC.
THERE is a great ado at this critical time, about cleaning many places from stench and filth in persons' premises and all that, but there is not a word said about still greater evils that exist within the human system, namely all the vital parts out of action. The stomach quite foul containing a quantity of bad bile or acids. The liver also, which has to filter the blood out of order, a quantity of bad slime contained about the heart and lungs, also the intestines all lined with mucous the whole of which cause the bowels to be sluggish and no regular action in them. The above evils cause the bowels often to be relaxed and bring on inflammation. Another source of evil is costiveness or constipation of the bowels, this being allowed to continue is like stopping up the drains or sewers of a city that were designed to take all noxious matter away. There is nothing so ruinous to the human system as this clogging up. Nature requires that there should be regular evacuations daily, otherwise the person will suffer by defiling its laws. The above evils are greatly induced by the use of raw and green vegetables which glut our markets at this season of the year. There is nothing so conducive to health at this time of the year (while we are threatened on all sides by sickness) as the use of coarse food where there are so many refrigerics and assortments forming a general amalgamation in the stomach, causing it to be like a druggists' shop, it will tell in the end. The Subscriber does not offer the above gratuitous hints to the public for the purpose of gaining custom, but for the public good.
The Subscriber would inform the public that he has in his store a quantity of imported herbs which he compounds with his botanic medicines, and has a quantity of strong cholera medicines on hand with all other kinds required, which proved to be of such use in the last calamity by cholera in this city.
