DAY-DREAMS.

TABLE OF CONTENTS.

PART I.

A Butterfly, in the very joyousness of existence, dreams of prospective pleasures amongst the fields and flowers of nature. [Page 7—11.] The clear blue Heavens of the silent night awaken thoughts more serious. [11.] Mind and external nature are interrogated respecting God. What is he? What the mode of his being? [12—18.] Geology or the wonderful volume of mysterious pre-historic nature is opened, and some of her strangest facts unveiled. [18—23.] Did things observe a progress? Do new origins require new direct interference? Or are things naturally consequent, and the laws of being infallible in their execution? [25—30] Our solar system, how? [31.]

PART II.

The great dumb past. [33—34.] Man viewed as an organized being, in his individual, domestic, social relations, [34—35, &c.] Self-love, affection, kindness, reverence, hope, imagination, intellect, conscience. Their harmonious and inharmonious interaction [35—47] The merely plausible, evanescent: the true, permanent. [48]

PART III.

Our organization wonderful in its details and adaptations to particular ends, [49—52, and Appendix, 146, 147]; but failing as a whole to achieve any grand result. [52—58.] Has this [read by the light of hope and goodness] any prospective *paintings*; or is all to end in apparent failure? [47—148 & 54.]

PART IV.

Why God *may* throw a veil of obscurity over the future [55—56.] Love of the true and good, the pabulum of genuine nobility of soul. [56—60] Thoughts on worship. [60—64]

PART V.

How dark and fearful misgivings arise unbidden in the soul. [65—66.] Cold materialism. Is the present the first and last act of the drama of existence. [66—70] Can it, must it be? [70—71.] What we may know; what we know not. [71—72.] What is our goal? Has nature no fixed guiding star? [72—73]

PART VI.

We know that *mind* is: is it equally certain that matter* is? [74,75] Yet shall we conclude mind perishable, matter eternal? [75.] What, if matter be merely a product of mind during the dominion of the senses [76] —if from the central Sun of *Spirit* the universe is spun, a web of *immaterial* being—the far reaching lines of divine magnetism extending to the remotest outskirts of existence, embracing and controlling alike the atom and the mass—force communicating itself to the central ruling orbs of the star firmaments and to all particles of their volumes—the heart-force, through each ganglion, to the minutest portion of each nerve. [77—82.]

PART VII.

Events, in the external and internal worlds, the results of adequate causes. [83, 91.]

PART VIII.

Idealism. [92, 93.] Argument from dreams, hallucinations, illusions, &c., biology, the phenomena of reflection [93—102], the color and shape of the *media* of vision. [120] How mind creates her wonders—the azure heaven with her diadem of stars painted on the sensetina. [104, &c] Life *one* diversifying herself into lives many of myriad forms of beauty [110—120.] Knowledge whence? [121] Death frees the soul from the lordship of the senses.

PART IX.

No *Space*. [125, 126.] No *Time* Past, Present, Future, creatures of the senses—[126.] How conceived. [129, 132.] Conclusion of Idealism. [132, 134.]

* Idealism, as a system of philosophy, in its bearings on immortality and generally, poetized.

A BY-LAW

To authorize the taking of Stock in "the Kingston, Pittsburgh, and Gananoque Joint Stock Road Company," to the amount of Five Thousand Pounds, and the issuing of Debentures in payment of the said Stock.

WHEREAS the construction of roads through the Township of Pittsburgh leading into this City, and the purchase of the Catarraqui Bridge in connection therewith, will greatly promote the interests of the City of Kingston. And whereas "The Kingston, Pittsburgh, and Gananoque Joint Stock Road Company" has been duly formed for the purpose of constructing such Road and Purchasing said Bridge; and it is expedient for this Municipality to encourge these works, by taking Stock in the said Company to the extent of Five Thousand Pounds, and in order to pay the said Stock, to issue Debentures for the sum of Five Thousand Pounds, payable in twenty years from date, with interest in the meantime half yearly. And whereas the whole rateable property of the City of Kingston, for the year One Thousand Eight Hundred and Fifty Three, was Sixty-six Thousand Pounds yearly value. And whereas the annual rate in the £, required as a special rate for the payment of the interest, and for the creation of a fund for the payment of the principal of the said Debentures will be two pence in the £.

Be it therefore enacted by the Mayor, Aldermen and Commonalty of the City of Kingston—

I. That it shall and may be lawful for the Mayor of the City of Kingston, for the time being, to subscribe in the name and on behalf of the City of Kingston, for One Thousand Shares of Stock in the Capital of "The Kingston, Pittsburgh, and Gananoque Joint Stock Company," and to act and vote for—and on behalf of the City of Kingston, in all matters relative to such Stock, subject always to such rules and orders in relation to his authority, as shall be made by this Council, by By-Law or otherwise. Provided always that the Debentures hereinafter in the next clause mentioned, shall be taken by the said Company in payment of the said shares.

II. That it shall and may be lawful for the Mayor for the time being, to cause and direct any number of Debentures to be issued for such sum of money not exceeding in the whole the sum of £5,000. Such Debentures to be under the Common Seal of the City, to be signed by the Mayor and Chamberlain, to be dated on the actual days of issuing the same respectively, to be drawn with the principal, payable in Twenty Years, from the Tenth Day of November in the present year, and interest in the meantime half-yearly, at the rate of six per centum per annum, and to be otherwise made out in such manner and form, as the Mayor shall think fit; and that it shall and may be lawful for the Mayor to pay and deliver the said Debentures from time to time in payment of the calls upon the said Shares of Stock to be subscribed for as aforesaid.

III. That a special rate of Two Pence in the £ upon the assessed value of all rateable property in the City and liberties of Kingston, over and above all other rates and taxes shall be raised, levied and collected annually from the year 1854, to the year 1874, both years inclusive, and shall be applied in payment of the interest on the said debentures and in the creation of a Sinking Fund for the payment of the said principal.

IV. That this By-Law shall come into force, and take effect from the 9th day of December in the present year.

NOTICE.

THE above is a true Copy of the proposed By-Law, to be taken into consideration by the Municipality of the City of Kingston, at the City Hall in the said City, on the *4th day of December next*, at 7 o'clock in the evening, at which time and place the Members of the said Municipality are hereby required to attend for the purpose aforesaid.

Kingston, August 14th, 1854. 190

For Sale or to Rent.

THAT valuable property, the Picton Steam Mill, with Wharf and Storehouse, capable of storing 20,000 bushels of grain. The Mill has 3 run of stones, with belts and gearing in perfect order, capable of grinding 30 bushels of wheat per hour.—The boilers and engine are new, and in perfect running order. There is a supply of cord-wood on the premises, sufficient to grind 40 000 bushels of wheat. The property is advantageously situated at the mouth of the Picton Harbor, County of Prince Edward, and one of the finest wheat counties in the Province. There being no water power of any amount in the County for half the year, enhances the value of a Steam Mill very much.

The owner not being able to give his own attention, is desirous of selling or leasing it on fair terms. He would furnish a large quantity of wheat, to grind during the year. If more desirable, he would sell half of the concern to good a business man or miller—the latter preferred—who would take the whole charge of the management of the Mill.
