FRIDAY MORNING, NOV. 3, 1854.

Arson.

The prevalence of Incendiarism in Canada has made it imperatively necessary for the Insurance Companies to take immediate steps to counteract it. Either the rates of premiums will have to be fearfully increased, or some law must be enacted and enforced to discover and punish offenders. Every one is more or less interested in this object, and every one should lend his little aid towards the passage of some such law during the present Session of the Legislature. The Directors and Agents of the various Fire Insurance Companies in Quebec and Montreal have stirred in the matter, and copies of the annexed Petition have been sent to Sub Agents in Western Canada for concurrence:—

Draft of Memorial and Petitions to be presented respectively to His Excellency the Governor General, The Honorable The Legislative Council, and The Honorable The Legislative Assembly of the Province of Canada, in Parliament Assembled.

That your Petitioners* respectfully represent, and your Honorable House* must be aware, that Fires are of very frequent occurrence throughout the Province, whereby property to a large amount is annually destroyed, and serious loss and injury is thus inflicted on the interests of the community at large.

That while many of these Fires are attributable to gross negligence and want of proper care, others, it is to be feared, are too frequently caused by acts of evil disposed persons, actuated by motives of fraud, or of public or private malice.

That it is most desirable to check, by every proper means, the prevalence of Fires in the Province, and thus it seems to your Petitioners* a fit subject for the consideration of your Honorable House.*

That nothing, in the opinion of your Petitioners,* would tend more to the repression of Fires, than the establishment of a Tribunal, or the appointment of an Officer, vested with full powers to investigate the origin and circumstances of every Fire, and whose duty it shall be promptly to report to the Government, and all parties interested, the result of each investigation.

That with this view the necessary powers may be vested in the Coroner, or other Officer, to be appointed for each City, Town, and District.

That as the loss and destruction of property at Fires, arising from robbery, as well as from ill-judged attempts at salvage, is often great, your Petitioners respectfully represent that it would be very desirable to make it a part of the duty of a well-constituted body of Police, to attend and protect property at Fires.

As some doubts exist as to whether damage at Fires originating in the acts of tumultuous assemblies, can be levied on the Hundred, Municipality, or District, where such Fires may occur, your Petitioners respectfully suggest that any doubts on this subject should be set at rest with as little delay as possible, by enactment of your Honorable House.

Your Petitioners* further represent, that as it sometimes happens that it may become necessary for the public good, and in order to arrest the spread of a conflagration, for the authorities to blow up, or otherwise destroy, the property of individuals—it is most desirable that the Law, in such cases, should be clearly defined, so that no doubts may exist as to the liability of the Hundred, Municipality, or District, to be assessed for damage so caused or sustained.

And your Petitioners* will ever pray.

* Or Memorialists, or Excellency, as the case may be.

The Chatham Massacre.

The 'Reform Banner' speaks thus:—"We learn with reference to this accident that a warrant had been granted for the apprehension of the Directors, on an affidavit sworn to by some person that they had been guilty of *killing* his relatives, who were passengers, and the warrant had actually been served upon Mr. Brydges, who gave his assurance that they would be forthcoming when required so to do.—The verdict of the jury had not been delivered up to the time we went to press.

"The evidence before the jury distinctly showed, and to their satisfaction, that the rules and regulations framed for the guidance of Conductors of gravel trains, were perfect as they could be; knowledge of them was proved to exist by the engine driver and conductor, and had they been obeyed, no accident could possibly have happened. Independent of the private code of regulations, the managing director had enforced them still more by circular dated 18th March last, and the resident Engineer of that district, Mr. Thos. C. Gregory, by a singular coincidence, finding that the driver of that very gravel engine had on one occasion taken his train out of the siding into the main track, wrote to him on the 14th of October last, informing him that such proceeding being contrary to rules, he would be held responsible for any accident which might occur owing to his neglect. Moreover, the watchman stationed at the gravel siding ought likewise to have been employed in cleaning the locomotive which stood within 50 feet of the main track, hence he had plenty of occupation to keep him awake. This man it was (who has absconded) who informed the conductor of the gravel train that the mail express had gone past at 11 o'clock the previous night. It also came out in evidence that Mr. Nutter, the conductor of the Mail Express, had given specific directions to the engine driver that as his train was already so much after time as to preclude any possibility of making connections with the Michigan lines, and the morning being foggy, the train was to proceed at a very slow space, which was accordingly done.

THE RECIPROCITY TREATY.—We find the following "Public Notice" in the Canada Gazette of Saturday last:—

INSPECTOR GENERAL'S OFFICE,
CUSTOMS DEPARTMENT,
QUEBEC, 18th October, 1854.

His Excellency the Governor General in Council, has been pleased to order and direct, that, pending the action of the Lower Provinces, and the completion of any further measures required for giving entire effect to the Reciprocity Treaty recently concluded between Great Britain and the United States, the several articles mentioned in the Schedule to an Act passed in the present session of the Parliament of Canada, entitled "An Act for giving effect on the part of this Province to a certain Treaty between Her Majesty and the United States of America," and hereinafter enumerated, that is to say:

Grain, flour, and breadstuffs of all kinds; animals of all kinds; fresh, smoked and salted meats; cotton-wool, seeds and vegetables; undried fruits, dried fruits; fish of all kinds; products of fish and other creatures living in the water; poultry, eggs, hides, furs, skins or tails, undressed, stone or marble, in its crude or unwrought state; slate; butter, cheese, tallow; lard, horns, manures; ores of metals of all kinds; coal; pitch, tar, turpentine, ashes; timber and lumber of all kinds, round, hewn, sawed, unmanufactured in whole or in part, firewood; plants, shrubs and trees; pelts, wool; fish-oil; rice, broom, corn, and bark; gypsum, ground or unground, hewn or wrought or unwrought, burr or grindstones; dyestuffs; flax, hemp, and tow,—unmanufactured; unmanufactured tobacco; rags, shall be admitted to importation into this province from the United States, under special bonds to Her Majesty, conditioned for the due payment of the custom duties legally chargeable at the time of importation on the articles so imported in the event that the said Reciprocity Treaty and the Act hereinbefore mentioned in relation thereto, do not go into operation and take full effect within six months from the date thereof.

WM. CAYLEY, Inspector General.

Bishop Strachan's Letter on the Clergy Reserves.

The measure has been vehemently assailed in a remarkable letter from the veteran and venerable Bishop Strachan, of the Protestant Episcopal church, to the Hon A. N. Morin, leader of the Lower Canada section of the ministry. The object of the letter is to alarm the representatives and people of Lower Canada as to the fate of the Roman Catholic endowments of that part of the province. He says: "It may be well to recollect that your tithes and dues, the only portion of your church property that has any legal security, are already in jeopardy, and will not long survive the passing of your bill, for it will form a precedent for the pillage of all ecclesiastical endowments; and these will be the more easy, as you hold them only on sufferance; although equal to all your seigniories, for the 14th of George 3rd, still in force, declares that religious communities shall not hold estates." The measure itself the Bishop characterizes as "the most atrocious specimen of oppressive legislation that has appeared since the days of the French revolution." Bishop Strachan should, however, recollect that he sowed the wind and that he now reaps the whirlwind.

Secretary's Office

Quebec, 28th October, 1854

His Excellency the Governor General has been pleased to make the following appointments, viz:

The Honorable Sir Allan Napier McNab, Knight, the Hon'ble Etienne Paschal Taché, Major Thomas Edmund Campbell, C. B., of St. Hilaire, and Lieutenant-George de Rottenburgh, Assistant Quarter-Master General in Canada, to be Commissioners to investigate and report upon the best means of reorganizing the Militia of Canada, and providing an efficient and economical system of Public Defence, and to report upon and suggest an improved system of Police, for the better preservation of the public peace.

James G. Elwood, of Oxford, Esquire, to be an Associate Coroner, for the United Counties of Leeds and Grenville.

California News.

By telegraph from New York, we learn that the steamer George Law from Aspenwall has arrived: she brings California mails to the 2nd Oct. and 1,862,984 dollars in money. The steamer Yankee Blade left St. Francisco in company with the Senora, and had not been heard of at Panama up to the sailing of the George Law. Fears were entertained that some accident had befallen her.

By the arrival of the steamer Goliath, Jos. Agellos, papers to the 11th had been received at San Francisco, also the San Diego *Herald* of the 11th. A report was current that a company of 50 emigrants from Texas were murdered August 31st by the Indians.

Several woman and children were doomed, it is feared, to a more horible fate; 600 herd of cattle were also carried off.

The news was brought by a small train in the rear which happily escaped.

Other parties of Americans encountered the Indians, and one American was killed.

25 Americans perished from want of water.

The Star of the West connected with the steamer Cortes which left San Francisco on the 30th; she brings $800,000 in freight.

All accounts agree that Melo is on his last legs.

Amongst those killed by Indians were Alexander Ward, wife, and seven children.

A considerable force had been sent in pursuit of the savages.

Mr. Redfield of New York is to be publisher of Barnum's auto-biography, which was put up at auction on Thursday last. He offers 52 cents per copy or $75,000 for the copyright.

ITEMS OF NEWS.

HONOR TO A CANADIAN.—We are exceedingly glad in being able to notice a mark of distinction and merit conferred upon a young Canadian and Kingstonian, Augustus P. M. Corbett, eldest son of our worthy High Sheriff. This young gentleman entered Upper Canada College a few years ago, and completed his studies at M'Gill College, Montreal, where he received his diploma last May. Ambitious of more than a Canadian fame, he, a few months ago went to London, and on the 6th of October had the proud honor of passing, with eclat, his examination before the Board of the Royal College of Surgeons, London, and receiving his diploma, as member of that Institution. Subsequently he passed the Army Board, and received immediately an appointment as Assistant Staff Surgeon at Chatham. At the Army Board it was remarked after the examination, "we always expected good from Canada, and we are not disappointed," and Dr. Smith, Director General, on handing the appointment said, "Dr. Corbett, I have much pleasure in handing you your appointment; you have passed a highly credit able examination, and I hope you will continue to maintain the high opinion I have of you." Surely this is something for Canada and Canadians. Sheriff Corbett should feel proud of his son—we do, as he is a young gentleman of merit—a Kingstonian and a Canadian.

MR. DRISCOLL, Q. C. AND THE JUDGES OF THE QUEEN'S BENCH.—An end was put to the quarrel between these functionaries on the first day of the Term, now setting, in the following manner:—On Mr. D. being called, he pleaded "not guilty," and offered, (in the technical terms used on such occasion,) to "purge himself by oath," declaring that he could most conscientiously swear, 1stly.—That he intended on disrespect to Mr. Justice Rolland; 2ndly.—That he was ignorant of Judge R's presence in Court, on the occasion in question, as the latter had entered Court, during a suspension of business, while both Judge Aylwin and Mr. D. were engaged in conversation with other persons, and had taken his seat at the farther extremity of the Bench, instead of the centre, his ordinary place; and 3rdly.—That even if he had been aware of Judge R's presence, he would have been right in addressing Judge A. in resumption of a conversation originated by Judge A., before Judge R's entrance. Mr. D. was proceeding to enter into a statement of circumstances, when the Chief Justice interrupted him by declaring that the Court was perfectly satisfied, and by ordering the rule to be discharged; in which decision Judge A., by a courteous bow to Mr. D., signified his concurrence."

RELIGIOUS PROFESSIONS.—We learn from the *Toronto Mirror* that, on Tuesday the 17th instant, the following ladies embraced the religious life, and were received Sisters of the Convent of St. Joseph: Sister of St. John, Gertrude, Mary Theresa, Mary Philomena, Mary Stanislus. Three others at the same time, received the Holy Habit of Sisterhood. His Lordship the Bishop of Toronto presided at the ceremonies, assisted by several of the Clergy of his Diocese. It is but a few years, says the *Mirror*, since His Lordship Mgr. de Charbonnel, Bishop of Toronto, established in his Episcopal City, the first branch of these devoted women. "It has already thirty-six members, including the profesed and postulants; they have five schools in the city, besides a night school; houses of the same order have been established at Hamilton, Amherstburgh and Chatham; and a house for the Noviciate has just been completed near St. Paul's Church, where a day school is taught. Their asylum, in Nelson street, is crowded with orphans."

DEATH OF THE CATHOLIC PRIEST WHO WAS TARRED AND FEATHERED.—We have received information of the death of the Catholic priest Rev. John Babpst, an Italian, who was tarred and feathered and ridden on a rail in Ellsworth, Me., on Saturday night last, while on a vist to that place. The only excuse yet offered in palliation of the attrocious conduct of the mob, is that formerly when a pastor in Ellsworth, he engaged in a controversy on the School question. Admitting that the priest could have been guilty of any misconduct sufficiently vile to warrent popular violence, his participation in a discussion of an open question, was certainly not of such a character. The attack upon him for the cause given is a disgrace to the town, which can only be removed by earnest and energetic efforts on the part of the respectable citizens of Ellsworth to bring the prepetrators of the outrage to the severest punishment prescribed by law for the crime they have committed.

A NEW BANK.—We are glad to learn that the inhabitants of Belleville and County of Hastings are about to take into consideration the propriety of establishing a Bank for their own accommodation, with their own funds. This is a step that ought to have been taken long ago; the people of Hastings are abundantly able to carry this matter into effect, and the sooner they get to work the better. Let a meeting be called, arrangements made, and business immediately commenced. We shall return to this subject again.

We are deeply grieved to say that Mr. James Sykes, one of the principals of the firm of Sykes, DeBergue & Co., the Contractors for the construction of our Railway, was a passenger on board the ill fated *Arctic*, and there is too much reason to fear, perished with the rest of the passengers, who were so shamefully deserted by her crew.—[Brockville Monietor.

A person named Garrett Paterson was arrested in this town, on Saturday last, on suspicion of being the Paterson mentioned in the report of the murder of Mr. Nelles on the Grand River. He was examined yesterday, but no evidence was produced that would indicate that he was the same person, the magistrates remanded him until witnesses could be procured.—We understand that several persons in town are willing to make oath that they saw Patterson in the Methodist Chapel about the hour it is said that the murder was committed; if this is the case, a perfect alibi is established.—[Hamilton Journal.

Montreal Market.

November, 1st.

FLOUR.—The improvement manifested at the close of last week has been uninterruptedly sustained throughout the present, by a gradual increase in prices, to the extent of 1s per barrel. The advance in the New York Market, together with the last advices from Europe, as well as the difficulty experienced by the Millers—either buying Wheat, or grinding it without a better supply of water—has provoked a speculative spirit, resulting in one or two houses securing nearly the entire stock on the market, estimated about 15,000 barrels. On Wednesday 12,000 barrel changed hands at 29s 6d to 4s for No. 1 Superfine. On thursday 41s was paid. Friday 41s 6d; and to-day 42s to 42s 6d per barrel being offered and refused for 1,000 barrels Oshawa brand. The Rebourg Diamond brand bring held at 49s.

ASHES.—The demand since last Circular has not been maintained, and prices give way a little, 35s per cwt for Pots and 61s for Pearls being the quotations of to-day. The deficiency, compared with the corresponding month last season, being 1,000 barrels. The receipts for the week count 450 barrels.

CORN.—The Stock in Market is about 28,000 bushels. The demand is chiefly for home consumption, and 4s 6d is readily obtainable per 56 lbs.

PEASE.—In good demand, at 5s, for shipment to the Lower Ports.

FREIGHTS.—Prices of Flour in Europe will not warrant its shipments thence. Ashes have been engaged at 25s per ton weight for Pots, and 30s for Pearls, to Liverpool; and 5s and 5s 6d per quarter for Pease.

PROVISIONS.—The demand is limited and inactive. Sellers are as well as buyers, restricting their opperations entirely to immediate wants, during the suspension of the Reciprocity Act becoming law. There is no Prime Pork in Market. Tierces of Beef are worth £6.

STOCKS.—Bank of Montreal—a fair amount changed hands at 2½ per cent. premium. Holders looking for an improvement; a dividend of 3½ per cent. for the half year has just been declared payable 1st December next. City Bank has been transferred at 9½ per cent premium, closing in favour of seller. British North America Bank nominal at 25 per cent. premium. Commercial Bank offering at 15½ per cent. premium. Bank of Upper Canada no Sales to report—enquiring for. Banque du Peuple saleable at 1 per cent. Premium and in request. Champlain and St. Lawrence Railroad—a considerable amount of business done in this Stock the last few days at 70 per cent. discount, at which it is firm, closing in favour of the seller. Montreal Harbor Bonds bearing 7½ a 7¾ per cent. interest, redeemable in 10 years, have been sold to a fine extent at 1½ a 2 per cent. premium. Montreal Mining Consols enquired for at 1s 6d per share, being held 2s. Canadas offering at 5s per share. Grand Trunk Railway Stock enquired for, and held at 42½ per cent. discount, being a slight improvement. Merchant's Exchange Stock with 4 per cent. dividend for last, 6 months, payable 1st proximo, transferred at 2½ per cent. premium. Montreal Court House Debentures carrying 8 per cent. interest, brought 8½ per cent. premium. In Government Debentures there is little doing. EXCHANGE.—Little demand.

Hart's Copper and Erridium Pens.

Mr. M. E. Hart has left at this office a sample of the above pens. They are exceedingly flexible and equal to the best gold pens, and warranted not to corrode. Of this there can be no doubt, as they can be steeped in any kind of ink, or even pure vitriol, without being in the least effected thereby. Mr. E. W. Palmer, at the City Book Store, is the sole agent for Kingston, of whom they can be procured at a very reasonable price.

The attention of our readers is called to Professor Holloway's Advertisement in another part of our columns. The World wide renown of his Pills and Ointment is too well known to require much comment from us; but they are, without doubt, the most efficacious remedies for all the ills that flesh is heir to. Many of our readers have derived immense benefit from using the Pills in cases of bile, and general derangements of the stomach and bowels, and no cuntaneous disease can resist the curative powers of the Ointment, the effect it has on the human frame is certainly astonishing.

LYON'S KATHAIRON.

The Kathairon neutralizes the effects of disease, climate and old age, in Preserving and Restoring the human Hair even after a Baldness of many years; cleanses the scalp from Dandruff and its natural impurities; will cure the Nervous Head-ache and all Eruptive Diseases of the Skin, and is the most desirable article for Curling and imparting gloss to the hair in the world. It happily unites the effects of the choicest Pomades to the best French Extracts, and exhales the Perfume of the most delightful flowers. No person should be without it.—Price only 25 cents, in large bottles. No person should be without it.—Price only 25 cents, in large bottles. Sold by all dealers, everywhere.

We see by the Court Records, that the two counterfeiters, White, of Buffalo, and Lawrence, of Epping N. H., have been placed under ten thousand dollar bonds, each, for making and selling imitations of AYER'S CHERRY PECTORAL. This is right. If the Law should protect men from imposition at all, it should certainly protect them from being imposed upon by a worthless counterfeit of such a medicine as Ayer's Cherry Pectoral. We can only complain that the punishment is not half enough. The villain, who would for paltry gain, deliberately trifle with the health of his fellow man, by taking from their lips, the cup of hope, when they are sinking, and substituting a falsehood—an utter delusion, should be punished at least as severely as he who counterfeits the coin of the country.—[Green Co. Banner, Carrollton Ill. 259

THE GREAT AMERICAN HAIR TONIC

Bogle's Celebrated Hyperion Fluid,

For the Growth and Preservation of the Hair, is well known to be without a rival on this Continent.—Hundreds of imitations have started into an ephemeral existence since the introduction of this unrivalled Hair Restorative, and their doom been sealed, whilst Bogle's Hyperion Fluid, with a popularity never attained by any other article, goes on "conquering and to conquer." There is no malady that can effect the hair but can be cured by this incomparable preparation. To ladies it is invaluable, and on children's heads it lays the foundation of a good head of hair. It is now patronised by Her Majesty the Queen of Great Britain, and commands an extensive sale throughout Europe.

BOGLE'S AMERICAN ELECTRIC HAIR DYE, Converts Red or Grey Hair into a beautiful Black or Brown, the moment it is applied, literally dyeing the hair without staining the skin, and leaves the hair soft and glossy, without injuring its texture in the least—a decided superiority over all other Hair Dyes.
