DISTRICT BRIEF.

Cut, Cribbed and Condensed.

Rowdyism is rampant in Napanee.

There are 25,000 bushels of barley unsold in Prince Edward Co.

Fifteen talks of a stave and barrel factory to supply the apple exporters.

The Christmas offertory in the English Church at Perth was $131.12.

Mr Willie Twigg, son of the worthy town clerk of Picton, leaves shortly for Winnipeg.

A steam heater has been put in Campbellfordburg and Fredericksburg is talked of.

The exports from Picton to the United States for the last quarter were $450,731.22.

A ball at Mrs Phalen's, Kingsville, realized $70, one hundred and twenty couples participating.

Picton has three thoroughly equipped hotels, and they are the means of much employment.

Mr John W. Kinney, of Frankford, has been appointed assistant teacher of the Picton High School.

It is still that the N. T. and Q. Company are contemplating extending the line, shortly, to the line of the Toronto and Ottawa railway.

The Secretary announces that the annual meeting of the Addington Agricultural Society, will be held at Walroth's hotel, Tarbert, on Wednesday, 15th January, 1883, at one o'clock p. m.

During the year 1881, the sum of $43,012 was deposited in the Post Office Savings Bank of Carleton Place. This is the largest sum ever placed there in one year, and is double that of 1880.

About two years ago H. W. Perry purchased four lots in the town of Hanover, Bruce, for $72; the other day he was offered $300 cash for them. This is but a small example of the great rise in real estate boom in the Northwest.

About the end of August last Dr. Lafferty, of Pembroke, invested $7,600 in town lots; the town of Portage-la-Prairie, Manitoba. A few days ago he sold the same for $22,000. This advance of nearly $16,000 in about three months is suggestive of the confidence of capitalists in the future of Portage-la-Prairie, and also of the shrewdness of the Doctor in making his investment.

Mr A. W. Ball, of Carleton Place, has issued a remarkable dividend sheet to the matter of the McDonald-Campbell estate. The creditors, whose claims amount to $50,000.83, are notified that their claims will be paid on the 15th of this month, on the basis of one hundred cents on the dollar.

Newburgh.

The High and Public Schools re-opened on Monday 9th inst.

Mr Allan Caton is now fully recovered and able to attend to his business.

Mr Andrew Nugent left on Saturday to assume his duties as mathematical teacher in Woodstock High School.

More pupils were successful in passing the entrance examination from the Newburgh Public School than from any other school in the county.

Enough snow fell on Friday to make fair sleighing and many persons were taking advantage of it while it lasted but it is all gone now.

Mr Edward Huyck has returned to Newburgh after an absence of fourteen years. He was a commercial traveler during that time and is supposed to be worth upwards of one hundred thousand dollars.

At the trustee elections which were held on Wednesday last, Messrs W. A. Ball and D. F. Clute were elected in opposition to Messrs T. Scott and D. Birdsiea, the retiring trustees. Mr Ball received 82 votes, Mr Clute 72, Mr Burdette 48, and Mr Scott 36.

Services were held in the different churches here consecutively on each evening last week. The ministers who officiated were the Revds. Dunham and Sanderson, of the M. E. Church, Connell and Young, of the C. M. Church, and Leishman, of the Presbyterian Church. Themeetings were well attended.

Elginburg Events.

Only one day's sleighing this winter; How many more are we going to have? Let's hear from Verona!

I see "Prestidigitator" is not satisfied with the way things are going. I think he is so fond of public historicity as any I know of, as he goes around giving his doleful music all the school concerts.

Mr. F. Burnside has lost a little boy, aged two years, with that fell, destroying disease called croup. I hear this is the third child they have lost in a couple of years. We sympathize with their loss in their loss.

The friends of the late Eli Meacham, of Elginburg, who met his death, through a defective bridge on the Sydenham Road, will sue the Company for damages. A strong case will probably be made out against the Company. The road belongs to three townships.

There was quite a time at the Union Hotel one night last week. A large crowd from Westbrook took the landlord by surprise. They had the violins and string band with them, and kept the light fantastic up till the "wee sma' hours." I hear the party had to take up a collection to get the night cap.

Jacob B. Clancey, Newburgh, has started one of his singing schools at the Head of the Lake. Mr Clancey had one there last winter, and made rapid improvement in the ladies' singing. There were two that graduated and become teachers. It is well worth the fee to add speed twelve nights with Mr Clancey. He has an inexhaustible supply of sandwiches and histories that keeps everybody happy. We wish Mr Clancey every success.

Lake Opinicon.

The last few days and nights of severe frost have held well for lumbermen, who were in doubts if they took out any stuff they could bring it to the boom. Expecting a few small shanties, there is nothing doing yet in the woods; but now that teams are on the hills, and with a little more snow, it is hoped that more active operations will commence. As it is, overdrawn bill cannot a higher price this win or than it has done for many years. However, if the season has disappointed the lumbermen, it has been especially favorable to the phosphite miners here, who are busy at work, and appear to have taken out considerable quantities, for which there is a ready demand, as the Ogdensburg phosphate is always occaldered to be of a superior quality. Mr John Clanton is the agent purchasing the phosphate.

Christmas at Oso.

Two young ladies of the Church of Highland at Oso, viz., Miss Sarah Book and Miss Sarah Ann Book, resolved to collect a purse for their clergyman the Rev. H. Farrow. The amount was $32.80, which they presented at a Christmas tree. This action is certainly due these young ladies for their kindness and energy in preparing so handsome a donation.

Make Your Poultry Pay.

Whether geese, turkeys, ducks or fowls, those that get Haywood's Condition Powders mixed with their food avoid immensurably in weight, health and profitiness those that do not. Mark this, and make your poultry pay. These fine-flavored specifics are for sale everywhere.

Midland Central Fair Annual Meeting.

TO THE EDITOR OF THE DAILY NEWS.

Sir,—As the annual meeting of the Frontenac Agricultural Association is to be held next Wednesday, I, as a retiring member of the Board of Directors, would beg leave to offer a few suggestions through your newspaper, if you will kindly permit me to do so.

The chief business of the annual meeting is the appointing of a new Board of Directors. It is a matter of public interest. The meeting is open to all. Any person may become a member by paying the small fee of one dollar, and every member has a right to vote.

There has been, as there generally is with all such associations, a good deal of fault heard with the management, and it is to be regretted that most of the fault finding is by those who seldom attend the annual meeting, or when they do attend, refuse to do anything to promote the interests of the Association. They are continually telling of the disease, but will do nothing towards a remedy. The same more large crowd once than necessary; if such men would take an active part in the management for a time they would think differently. There are some men always ready to accept an appointment as director, but never ready to attend the business meetings, and when called upon to do any work big to be excused, but feel much fault with the business transacted in their absence, thus not only rendering the business of the Association but making it unpleasant for those who are trying to do the business of the Association, and driving out the county, and in the city, who, when on the Board of Directors, have to work hard, fully done their duty, and doubtless always will when duty required them. Some of the directors have seen more business in other places to others; and I am certain every one of them would gladly retire if the people who are interested would appoint efficient managers in their stead. But in the interests of the Association and of all who wish to promote agriculture and arts, it is desirable that the men who are appointed to the office shall be those who are willing to work, and who, if appointed, they would do well as directors, they must regularly attend the business meetings, and be ever ready to take an active part in what is to be done. The Association needs more help from such men, who will really do something, than from men, who will really do nothing but make fault with the management will take the trouble to have themselves correctly informed, they will certainly find that they are very much mistaken. If the same money, the fruits and flowers was dedicated at the last fair, the dry season was the cause of it, not the directors. If the cattle and sheep, which were more numerous than at any previous exhibition, were rather thin in flesh, it was perhaps more on account of poor pasture, caused by the excessive drought, than by mismanagement of the directors. People who take a correct view of the circumstances do not grumble and find fault with that which is not within the power of man to control. Kingston is admirably situated for a Central Fair; the grounds and other accommodations are only excelled by some of the largest cities; and if the farming community to some what behind that of some more favored localities, it is the more in need of that stimulant which competition at such exhibitions is calculated to afford. Last year, I hear there will be a much larger attendance of persons interested than on former occasions, and that such may not be elected as will sustain the good reputation of our Midland Central Exhibition.

RETIRING DIRECTOR.

Verona News.

MUNICIPAL ELECTIONS.

The most remarkable event of the recent elections was the handsome majority by which the election of Reeve was carried Mr G. Denson over a strong opponent. The compliment is one of which any man might feel proud. Mr Dibnow, who has for the past three years been elected Reeve of this township, has had the position very agreeably to his satisfaction of the public, who show their satisfaction by their increased majority given him. Mr Denson, who will, in all probability, be a candidate for the Wardenship, will, we hope, be returned to the succeed of the county, and he has filled the position very appropriately in the past, and, by the combination of his good sense and views of matters in the township, we are satisfied Mr Denson would fill the position well.

OPEN TEMPLE.

The open temple announced to be held on the 7th inst., under the auspices of the I. O. O. F., came off on Friday night. The chair was occupied by the Rev. I. O. Mallory, who filled that capacity in an efficient manner, introducing the programme with a few very appropriate and highly remarks on temperance. The programme, which was delivered in excellent style, consisted of readings, recitations and speeches. We were also enlivened by the sweet strains of enchanting music by the Bellville Cornet Band, who kindly volunteered their assistance in the matter.

The New County Council.

COUNTY OF FRONTENAC.

Bedford—Benjamin Tett.
Ops—J. W. Barks.
Garden Island—D. D. Calvin.
Hinton—R. Flynn.
Howe Island—Joseph H. Quinn.
Wolfe Island—T. Hagan, Reeve; Daniel Grant, Deputy Reeve.
Portland—Jas. George Dunnion; Deputy, James Morton.

Loughborough—John Rutledge, Reeve; Jos Woodruff, Deputy Reeve.
Palmerston—J. McKenzie.
Portsmouth—Joseph Fisher.
Kingston—Reeve, M. Flynn; 1st Deputy, G. Brewer; 2nd Deputy, Jas. Haycock.
Barriefield—Thos. Cuppin, sr.
Clarendon and Miller—Geo. W. Dawson.
Hunchinbrooke—Joseph Watson.
Kennebec—James Williams.

Parham Correspondence.

A number of the patriotic sons of Parham invaded the town yesterday, on the day before Friday the 6th, armed with oysters and other provisions. Upwards of forty persons sat down to a luxurious repast and during the evening amused themselves with games and various other pastimes. Nor did they forget their pastor, Rev. H. Farrar, whom they presented with a handsome purse of thirty dollars. A very pleasant evening was spent. It must not be omitted that the children of the Sunday School also met early in the evening in the spacious dining room where a table was bountifully supplied with presents from the Christmas tree, which is generally provided. The little ones were jubilant over their gifts and ran for their homes with glad hearts as children usually do.

The excellent remarks of the persons seem to have won the esteem and respect of their parishioners, and they have the best wishes of the CHRONICLE AND NEWS.

Condolence.

At the last meeting of L. O. L. No. 210, it was moved by Bro. J. Hoskin, seconded by Bro. J. Tennant, and Resolved:

That it is with feelings of the deepest regret and the fullest sense of the great loss we have sustained, that we have this day paid the last tribute of respect to our late beloved brother, J. R. Dawson. We feel that to him we lose a brother whose place can never be filled. Be it also

Resolved,—That we tender our most heartfelt sympathy to his bereaved family and sorrowing friends.

Schools in Back Townships.

TO THE EDITOR OF THE CHRONICLE AND NEWS.

Dear Sir,—As regards our country schools, it appears that just now there is an urgent demand, on the part of trustees, for teachers, which it is said, are so scarce that no less than fifty of our rural schools in Frontenac will be closed in consequence. It looks somewhat odd that we cannot obtain male or female teachers capable of instructing the children in the schools in the back townships. Surely parties holding, or can have held a Third Class Certificate or even a permit, are able enough to teach the few children who usually attend our country schools? Or is all this done to accomodate trustees engaging teachers of, no doubt higher attainments but who also look for very high wages, or higher than can reasonably be collected from a poor section? It is well known (with all due respect for our staff of school inspectors) that many of these teachers, who hold only a Third Class Certificate, give more satisfaction in teaching the children than many who hold higher certificates, but who we are forced the unfortunate to impart the knowledge required to the pupils. Any man of common sense will know, that the higher branches of study are not taught, not absolutely required, in our rural common schools, because the children in them are not sufficiently advanced. We look to obtain those higher studies in the High Schools of country, for such as desire to receive a better education than that obtained in our small country schools. I must say, and it is also the opinion of many old and experienced school trustees, that the inspectors of schools are continue to exist much longer for want of their obtaining the so called qualifications and the school children suffer in their education in consequence, they will feel obliged to relinquish the school system and get teachers as may be approved of by those and with the sanction of the ratepayers of the section. What is the amount of the grant annually received by the majority of our country school sections? But little or nothing thereabout. To get a school-master holding a second class certificate, he will want a salary of $375 or $400 a year, including pay for all the holidays. For such a good teacher, but remember the greater part of the schools in the back parts of the county, are not organized for that, for first, are far from being able to pay this large salary; whereas, if they are willing to hire a teacher who may have formerly held a third class certificate or a permit, but which has been withdrawn or expired, for a month, say for nine or ten months in the year, (something a month for each of the middle of winter and one month in summer) would amount to about $240. Add to this the Government grant which the section would forfeit would amount to $270 a year. This would effect a saving of at least $100 a year—not a trifling matter to many a poor section, and the work and attained in the education of the children. Besides, the county would be a gainer of $3 for the Inspector for such school working on the 3rd book.

Your most obedient servant,
A RATEPAYER.

Jan. 6, 1882.

Amherst Island.

The bay has not yet succumbed to the influence of Jack Frost.

There being a light shower of snow the day previous, there was quite a stir in the village on election day.

It seems to have got up to have a daily mail, Money Order and Savings' Bank branch at Stella. These are much needed.

A Pure and Effective Hair Dressing.

UNCOAINE, a compound of Cocoanut Oil, beautifies the hair and is sure to allay all itching and irritation. Price 50c.

The superiority of BURNETT'S FLAVORING EXTRACTS consists in their perfect purity and strength.

A COUGH, COLD OR SORE THROAT should be stopped. Neglect frequently results in a hopeless Lung Complaint. Consumption. BROWN'S BRONCHIAL TROCHES do not disturb the stomach like syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always have proved satisfactory. Having been tested by wide and constant use for nearly an entire generation, they have attained and maintain rank among the few staple remedies of the age. Sold at 25 cents a box everywhere.

BRILLIANT SCRIPTURE TEXTURE—Thousands cured of catarrh, bronchitis, asthma and lung diseases by Dr. M. Sauvielle's Spermolor, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all European hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and testimonials expressed to any address. It is only some Sauvielle's inventions that long diseases are no longer treated and cured at one stage. Write for particulars to M. Sauvielle, 41 Ann Surgeon of the Army, 13 Philips Square, Montreal. All letters must contain stamp for reply. J. Gwegen, Chemist and Druggist, Sold Agent for Kingston.

James Collen, Pool's Island, N.F., writes "I have been watching the progress of Dr. THOMAS' ECLECTRIC OIL since its introduction to this place, and with much pleasure state that my anticipations of its success have been fully realized, it having cured me of bronchitis and soreness of nose; while not a few of my rheumatic neighbors (one of 40 lady in particular) pronounce it to be the best article of its kind that has ever been brought before the public. Your medicine does not require any longer a sponsor, but if you wish me to act as such, I shall be only too happy to have my name connected with your prosperous shield.

From Every Point of the Compass

come the orders for SOZODONT. Never has such a demand arisen for any article of the toilet. It is the favorite everywhere, among the sex born to be admired. Good looks consistent, beauty fascinates. While both do more to augment personal consequence than any other fancy toilet characteristic. The ladies know this, and strive to make the charm lasting or to secure it when wanting, apply SOZODONT, the most delightful of tooth preparations. Use it systematically.

THE REASON WHY—Mr Fallows, in his "Medical Mirror" gives reasons for the popular belief in Hypophosphites as a cure of disease, which seem to be borne out by facts. From tone action of the Syrup thereof, most all the organic functions are strengthened and the patient overcomes his malady simply, pleasantly, and rapidly.

Honesty.

It is commonly said that you cannot make a man honest unless you know that white is black and vice versa, but those who have grey hair, by using the "Cingalese Hair Renewer," will find that this apparent difficulty is easily overcome. For sale at WADE'S DRUG STORE, at 50 cents per bottle.

☞ To be SOLD at Wm. David's broker shop, Princess street, Kingston, opposite Parkhill's, watch-crystals at ten cents each. Bring on your watches.
