## HOLLOWAY'S PILLS.

This Great HOUSEHOLD MEDICINE make much the most wonderful cures of all kinds.

These famous Pills purify the BLOOD, and act most powerfully, yet gentlemanly, on the LIVER, STOMACH, KIDNEYS, and BOWELS, giving them energy and vigour to do their proper duties in all complaints they are recommended to cure. Disorders of these organs are the cause of most of the miseries which the human frame is subject to, and they are the grand family medicine for all ages, and is a general family medicine of unfailing efficacy.

## Holloway's Ointment.

is acknowledged to be the best remedy ever discovered for wounds, bad legs, bad breasts, old sores, piles, and all skin diseases. It is also a most valuable remedy for Coughs, Colds, Sore Throats, Rheumatism, and every kind of Skin Disease, it has never been known to fail.

The Pills and Ointment are manufactured only at 533 Oxford Street, London, and are sold by all Vendors of Medicine throughout the civilized world, with directions for use in almost any language.

The Trade Mark of these Medicines is registered at Ottawa. Hence, any one throughout the Dominion who may keep for sale Counterfeit Medicines will be prosecuted.

Purchasers should look to the label on the pots and the name of the address is not 533 Oxford Street, London, they are spurious.

Hev. J. G. Stearns writes: "I consider Perry Davis' Pain Killer the best remedy I ever knew for Dyspepsia."

### Notes for the Farmer.

TRANSPLANTING EVERGREENS.

The best season for tuning the hardy evergreens from April to June. Spruces are very easy to transplant, and if the roots are kept from drying and are protected from the air, and well spread and surrounded with the fresh soil, they can be moved without any loss whatever.

A BROOM HINT.

It is not infrequent that a young cow, especially of the Jersey breed, may break off the shelf of the horn, leaving the inner core bare. If this is wrapped in an oiled cloth, or even in a bandage wetted with water, to protect the horn from the air, a new horny covering will grow over the core, and, although it will not ever again be wholly repaired, yet the horn will become hard and solid again.

PREMATURE MILKING.

The appearance of milk in a mare or a heifer before dropping the foal or the calf is an indication that something is wrong, unless there is some other additional cause for suspicion. Heifers have been known to give milk some months before they calved, and occasionally before they have been in calf. It is a freak of nature, that is all. In the case of a mare to foal in April, it would be well to dry up the milk as quickly as possible, taking a little away twice a day to relieve the udder; the milk will return when the foal is dropped.

A GRAPE VINE PEST.

A small insect known as tripe attacks grape vines, appearing first on the under side of the leaves in June, when they punctures the leaves and suck the sap. As they grow they change their skins frequently, and the cast-off skins accumulate as a white, downy substance. In course of time the insects become winged and fly about. They weaken the vines very much and prevent the growth and ripening of the wood. The remedy is to spray the under sides of the leaves with lime-water, in which a tablespoonful of carbolic acid to the pailful of lime is dissolved. A large syringe with a rose sprinkler is suitable for this work. As these insects hide on the ground under the fallen leaves during the winter it would be a measure of precaution to gather these leaves and burn them, and then drench the ground with the lime preparation.

### Crown Lands Statistics.

The report of Mr Pardee, Commissioner of Crown Lands, contains on page 10 the following:—The under-mentioned quantities of ore have been taken out at the different mines in the counties of Addington, Frontenac and Lanark, and shipped at Brockville and Kingston during the year 1881, that is to say:—

| | Tons. |
|---|---|
| Through the Brockville & Ottawa Railway and shipped at Brockville..... | 1,250 |
| Through the Rideau Canal and shipped at Kingston..... | 5,421 |
| From the Roberts mine via the K. & P. R. and shipped at Kingston..... | 10,194 |
| From the Bedford mines, via the K. & P. R., and shipped at Kingston..... | 1,410 |
| From the Levant mines, via the K. & P. R., and shipped at Kingston..... | 1,896 |
| Total..... | 20,171 |

The following quantities of ore have been brought to the surface at the mines in the township of Levant and Bedford, and are awaiting shipment in the spring, that is to say:—

| | Tons. |
|---|---|
| At the Bethlehem Co.'s mine in Levant. | 6,000 |
| At Boyd, Caldwell & Son's mine in Levant..... | 4,000 |
| At W. H. Caldwell's mine in Levant.. | 1,000 |
| At the Glendower mine in Bedford... | 600 |
| Total..... | 11,600 |

The under-mentioned quantities of phosphate have been mined in the interior and shipped at the ports of Kingston and Brockville during the year 1881, that is to say:—

| | Tons. |
|---|---|
| From the Loughborough mines..... | 2,277 |
| " lots 14 and 15, 5th con., Oso..... | 91 |
| " Bob's Lake, in Bedford..... | 800 |
| " North Burgess..... | 1,611 |
| " Lake Opinicon..... | 340 |
| " Rideau Canal..... | 1,900 |
| Total..... | 6,919 |

The average prices obtained for iron ore at the ports of shipment are said to be $3 and for phosphate $13 50 per ton.

Mr Macpherson, who was appointed Crown Land Agent on July 19, 1871, is down for $500 per annum.

ROADS AND BRIDGES.

Four miles of the Perth road in the township of Loborough had $231 50 spent upon it for the building of culverts, grading, &c. $1,046 was spent on the Opinicon road about ten miles from Renfrew.

Two sections of the Mississippi road were repaired at a cost of $1,350; one being easterly from the Hastings road to the York road, 6 miles; the other from the Addington road, westerly, 10 miles. The repairs include several important deviations from the original line to avoid steep hills. Also the cleansing and grading of a mile and an eighth of a two mile road made by the settlers. Although 17½ miles of this were made or improved, it would seem that only were repaired two bridges destroyed by fire. Repairs were made from the east to the west of the township of Levant on the Levant road, 13 miles, $994.42.

The Bathurstburg road, from the Addington road to Glastonbury, and from thence to Kennebec, eight miles were repaired, expended $527.19.

Work on the Frontenac road was begun on lot 12 in the 4th concession of Oso.

Two deviations were made for the purpose of improving the road, amounting to 190 rods. Altogether 12 miles of repairs were made, and the road is thereby materially improved. Expenditure, $1,000.

The Frontenac Junction road leads from the Frontenac Road in Clarendon township to Clarendon station on the Kingston and Pembroke Railway. Two and a half miles of it were repaired; also, the road was professed from the railway station to connect with the Frontenac road leading to Perth. This production is in length 3 miles, which only chopped out as a winter road. Whole length of work is 5½ miles. Expenditure, $693.82.

The Barrie road connects the Frontenac and Addington roads. Three miles were graded and much improved, and other portions somewhat bettered. Expenditure, $415.62.

The Anglesea road had $424.76 expended at its intersection with the Addington road.

The Arden road commences at a point on the Tamworth and Arden Road, about a mile and a half south of Arden, in the township of Kennebec, and thence nasterly to Parham, in Hinchinbrooke. The overseer began work a mile and a half from the west end and wrought over the whole road except one mile or thereabout. Seven miles of repairs Cost, $606.37.

At the request and upon the representation of the Reeve and Council of the township of Abinger, together with the recommendation of their inspector, a deviation was made on the Addington road from Hammondsville to Lake, which when completed will be six and a half miles in length. The appropriation was, however, insufficient for the purpose, and therefore but three miles were accomplished. In addition to the above, three miles of repairs were made upon the same road. Expenditure, $1,301.05.

### County Post Offices.

The Postmaster-General's report has the following particulars concerning the finances of the post-office in this county:

| | Revenue. | Salaries. |
|---|---|---|
| Arden..... | $ 69 50 | $ 28 00 |
| Ballantyne's Station.... | 26 36 | 10 00 |
| Bath..... | 332 34 | 220 00 |
| Battersea..... | 21 00 | 42 00 |
| Bedford Mills..... | 66 92 | 36 00 |
| Bell Rock..... | 46 24 | 16 00 |

### The Late Joseph Watson.

The following short sketch of the late Joseph Watson will be interesting to his many friends in this vicinity:—He was born in Gainsborough, Lincolnshire, England, in 1815, and came to Kingston with his foster father in 1830. Almost immediately afterwards he moved to the township of Portland and settled on the farm where he died. In 1836 he was married to Miss Ellen Sigsworth, of Portland, and by her had eleven children, only five of whom are now living—two sons and three daughters. He served twenty years in the township councils of Portland and Hinchinbrooke, most of the time either as Reeve or Deputy Reeve, and was therefore a member of the County Council the greater part of that time. In the rebellion of 1837 and 1837 he joined the volunteers and did duty as Ensign in the Second Regiment of Frontenac Militia, being afterwards promoted to the rank of Major. He was a Free Mason, a member of Ancient St. John's Lodge, Kingston, and a charter member of Albion Lodge, Harrowsmith, of which he was for several years, Master. He was a member of the Church of England, in which he was born and brought up. He had charge of the expenditure of the Government money in building and repairing the Frontenac road, and took a great interest in everything tending to the welfare of the county.

### Sydenham.

The correspondent that gave you an account of the meteor some time since has been recited, for he mired things up badly. Barney Sheridan did not win the Alderman's concerts race, having been taken with inflammation of the lungs on the second day of the race. The horse, that called forth most admiration was Mr John Switzers Ned Hanlan, he being pronounced by all the "prettiest horse in Canada." He well deserves the title, for he is a perfect model of a horse and a credit to the celebrated carriage, his namesake.

Mr Jas. Lahey, jr., a highly respected Sydenhamer, has gone into a lawyer's office in Toronto. Young people here regretted his departure very much, as Jamie is a genial spirit, and as jolly as Christmas.

The Sydenham Glee Club went out to Moscow on Friday night last to sing at a concert, but through some misunderstanding there was no audience; so, after being very hospitably entertained by Mr Dunlop, the Episcopal minister of that place, the boys returned home with an exalted opinion of Moscow, notwithstanding their disappointment at not having an opportunity to air their voices.

Our correspondent was favoured with the following from C. H. Wood, Esq., of the G. T. Railway, Port Huron, Mich.: After suffering for nearly a year with rheumatism, receiving treatment from the best physicians of Michigan and the West, I happened to try a bottle of St. Jacobs Oil. Upon the first application I used half half a bottle, and its effect was almost instantaneous. I continued using it, and all other treatment, and confined myself to its use alone. After the use of three bottles, instead of being driven to my business on a hobbling about on crutches, I walked from one to three miles daily about business, and have been free from this horrible disease for over a year, only having the slightest twinge of it. Hence I say that all evidence known to me are useless when compared with the Old German Remedy. Use this statement when and where it suits.

### The Vital Forces

are specially renewed by Mack's Magnetic Medicine, the great iron tonic nerve food; it is the best and cheapest medicine ever discovered. See advertisement in another column.

### BURNETT'S COCOAINE

### Has Received Universal Endorsement

No other preparation possesses such remarkable properties for embellishing and lengthening the hair, and restoring it dark and glossy. It cures baldness and eradicates dandruff.

BURNETT'S FLAVORING EXTRACTS are the best.

### A Public Meeting

should be called of the citizens of every city, town and village in the Dominion, to consider what should be done to prevent the hair from turning grey—and falling out. If this important question received their earnest consideration they would unanimously decide that science had at last discovered something that would answer this purpose—and furthermore would recommend Chisquasee Hair Renewer as being this something for restoring the hair to its natural colour, and keeping it from falling out. For sale at WADE'S DRUG STORE, AT 50 cents per bottle.

ATROPHY ARRESTED.—Fellows' Compound Syrup of Hypophosphites.—Wasting of the tissues of the body is arrested, the muscles made firm, and the nerves regain their power by using Fellows' Compound Syrup of Hypophosphites.

AT ALL SEASONS, but particularly during the winter, persons whose lungs and chests are weak should take every precaution against a cough or cold, as the breathing organs, if naturally feeble, speedily succumb to its ravages. In spite of sanitary precautions, however, coughs are very apt to fasten themselves upon weak lungs. In such a case ordinary prudence dictates the prompt use of a reliable specific. The ordinary cough remedies are too often ineffective. The best substitute for them is the highly sanctioned, long recognized remedy, Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. As is well known, the action of Cod Liver Oil is particularly marked in lung rheumatic and strumous diseases. In this preparation it is characterized by peculiar purity. The phosphorus in the hypophosphites furnishes a vital element of the blood, brain and nervous tissue, and the lime and soda supply their strengthening properties to the bones of which they are a material constituent. This emulsion promotes expectoration, enabling the bronchiae to throw off the irritating mucus which obstructs and distresses them; renders the vitiated secretions healthy and heals the lungs. This remedy has also been used with the most beneficent effects in cases of scrofula. As it is exceedingly dangerous to permit a cough to gain headway, the early use of the medicine is urged upon those whose throat or lungs are affected. Look for the facsimile of our signature on the packages and the firm's name blown on the bottles.

HOLLOWAY'S OINTMENT AND PILLS.—Few persons are so favoured by circumstances, or so fortified by nature, as to enable them to resist the effects of the cold trials of an inclement season. With catarrhs, coughs and influenzas every where abounding, it should be universally known that Holloway's Ointment, diligently rubbed upon the chest, checks the worst assaults of these maladies, and securely wards off more grave and dangerous diseases of the throat and lungs. The truth of this assertion must remain unquestioned in the face of thousands of unimpeachable living witnesses, who have personally derived the utmost possible benefit from this treatment when their present sufferings were agonizing, and their future prospects most disheartening. Both remedies act admirably together.

The most conclusive testimony, repeatedly laid before the public in the columns of the daily press, proves that Dr. Thomas Eclectric Oil—an absolutely pure combination of six of the finest medicinal oils in existence—remedies rheumatic pain, eradicates affections of the throat and lungs, and cures piles, wounds, sores, lameness, tumours, burns, and injuries of horses and cattle.

☞ To Be Sold at Wm. David's broker shop, Princess street, Kingston, opposite Ferguson's, watch crystals at ten cents each. Bring on your watches.

The Allan Line consists of twenty four first class steamships, forming a fortnightly line between Liverpool, Glasgow, Londonderry, Quebec, Montreal, Boston, Portland, Halifax, N.S., and Philadelphia.

The Mail Line Steamships sailing between Halifax and Liverpool, during the season of navigation, consist of the following full-powered, Clyde built Steamships, which are noteworthy for their strength, speed and comfort, and are fitted up with all the modern improvements that practical experience suggests:

| | | |
|---|---|---|
| PARISIAN | 5,000 tons | Captain Wylie |
| SARDINIAN | 4,000 tons | Captain Dutton |
| POLYNESIAN | 3,100 tons | Captain Brown |
| CIRCASSIAN | 4,000 tons | Capt. Graham |
| NESTORIAN | 3,000 tons | Lieut. Smith, R.N.R. |
| MORAVIAN | 3,000 tons | Lieut. Archer |

The Inland train connecting with Steamer at Port Inland leaves Kingston every Wednesday at 1 p.m. and via Hamilton on Thursday at 12 p.m. A through Pullman Car will run to Port Inland.

The steamers will be dispatched from Portland and Boston every Saturday at 12 p.m. A through Pullman Car will run to Boston.

For tickets and every information apply to

FOLGER & HANLEY, Agents,
Office—foot of Brock Street.

November 23.

## LEAVING THE CITY.
