SPORTING NOTES.

Items of News in the Sporting Fraternity Gleaned from Various Sources.

Dwyer Brothers' Runaymede is the favorite for the Kentucky Derby.

Madame Elaine Malvina, a French woman recently arrived at New Orleans, and attempts issued a pedestrian defy to any "lady" in America.

Clemens Smith, of Walkerton, a pedestrian, has been challenged to walk for $50 by James O'Hagen, of London. The match will come off at Walkerton.

Powers, of Brighton, Mass., wants to run any man in the world 200 yards for $1,000. If he waits until Hutchinson, the Englishman, comes over he may be accommodated with a match.

Plaisted is willing to row Wise a two mile race with a turn, for $1000 a side, any time within a month, the earlier the better. Peel will meet Wise anywhere he likes to draw up articles and post a forfeit.

Mr P. Lorillard has secured F. Webb to ride his racers in England this season. Webb won 42 races out of 153 mounts last year. He came in second 32 times, and third 26 times. He wins the Derby and Doncaster in 1872.

The Canadian Sportsman contains the following sweet notes: Mowbank, Kingston—Leasing stakes fall particulars by addressing Mr John Forbes, Woodstock, Ont. Yes, sir. He first trouble from that cause was at Dunbar Park, Montreal. 3. The race was won by Boatswain.

Andre Theuer, a wrestler, talked a great deal about being able to throw Muldoon, but the latter could never get him to come to terms for a match, and so offered to give Theuer $50 if he couldn't throw him ten times in an hour. Theuer has consented to be thrown around in the hope of getting the dollars.

The two English George, Hansel and Littlewood, now lead the world in sixty-yard go-as-you-please and heel-and-toe records, the former with 42½ miles 220 yards to his credit, and the latter 531 miles 264 yards. Littlewood gained the fastest on record from 174 miles upwards for his performance at Sheffield, his last mile being done in nine minutes seventeen seconds. The deceiver sells in the tournament.

A wager of $2,000 a side has been made upon the issue of Captain Stubbs' proposed race in rifle shooting, viz., to break with four successive shots, first the string suspending three glass balls eight inches apart, and eighteen feet from the ground or floor; then perforate each of the globes while falling with the three remaining shots. This is a seemingly incredible feat, and if performed will entitle the captain to the rank of champion rifle shot of the world.

The most auspicious trotter of last season, in the amount of money earned, was Maud S. Her races were of an exhibition character, and she had a mortgage on all the money in sight. Her net winnings appear to be $18,000, and this is exclusive of what she received when she trotted at Detroit, where no amount is stated. If the star of the year received $2,500 there, as was advertised on hand bills, her winnings in 1881 aggregated to $21,000, the pressure sum Mr Vanderbilt paid for her.—Spirit of the Times.

It is now definitely settled that the third team of Australian cricketers will visit England during the coming season. Thirteen players have been selected by the promoters of the tour, and well in all probability be as follows:—W. L. Murdoch, H. H. Massie, T. P. Spofforth, A. Bannerman, T. W. Garrett, and E. Evans, from New South Wales; J. W. O. Blackham, H. F. Boyle, T. H. Bates, J. Slight, J. M. McDonnell, and G. J. Bonner, from Victoria, and G. Griffen, from South Australia. In case Hans Stoddart could be able to undertake the trip, which is doubtful, his place would be filled by S. Jones, New South Wales.

The Governor General's New Poem.

The Princess Louise as an Artist—Her Royal Highness of Quebec.

London, March 8.—During the week I have interviewed the famous publishers of Good Words and other magazines, which, of their class, have a larger sale than any similar works. The Princess Louise is about to publish, under the auspices of this firm, six sketches of the scenery in and around Quebec, accompanying the views with a short letterpress description of the principal points of interest in each. These sketches will be followed by a poem from the pen of His Excellency the Governor-General the whole of the novel contribution to contemporary literature making between eight and nine magazine pages.

Each one of the six sketches is a gem in its way, and when in the course of the next month Good Words reaches you, your critics will agree with me that tenderer or more delicate transcripts from nature do not often appear in current literature.

The frontispiece to the series is "Wolfe's Cove," looking up a sunny perspective of river, and closed in by hills purpled with the shadowy distance. To the right the bluff slopes sharply and ruggedly down, flinging into fine contrast the soft, calm splendour of the water and the picturesque dots of shipping floating on its breast. Almost as good is the citadel sketch from "the platform" of that fort. Here the harbour, the roofs of the houses, and the forests of masts lie far down below the spectator, the drawing being charmingly arranged to fit into the page in the novel fashion much patronized by Harper's and the American magazines.

Yon three gives a glance from "The Governor-General's Windows" at the citadel, and shows the same bold yet fine touch, the same discriminating love for the crumbling bastion on the one hand, and the fair, fresh, sweet scene of sky and river available in all the rest of the Princess' work.

With the fourth sketch the Princess turns a hot reaching and broad summary of miles of distance, takes a new departure. "Old points on the citadel" pamperis in the subject of her work, and she excels as much in the particular as she does in the general grasp of her subject. The Lewis great grandsons with their lofty bearskins, are beautifully touched to life.

No. 5 is a Fort Ditch, with moss-eaten ramparts on either side, an eery scene of solitude and a cobweb of the olden time, a long ago.

The sixth and last sketch is a glance at the interior of the Citadel looking across the St. Charles Valley. Long rank grass, an ancient moss-covered cannon, and an air of peaceful quiet characterizes this picture, which completes one of the most noticeable series of artistic views I have seen for a long time.—Mail Correspondence.

Don't be Alarmed

at Bright's Disease, Diabetes, or any disease of the kidneys, liver or urinary organs, as Hop Bitters will certainly and lastingly cure you, and, it is the only thing that will.

A Young Man writes: "I have used Mack's Magnetic Medicine and am much pleased with the result." It has cured me after doctors and other medicines had failed. See advertisement in another column.

Kerr's Cocoa.—Gratefull and Comforting.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack whenever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*—Made simply with boiling water or milk. Sold only in Packets and Tins (½lb and lb.), labelled—"James Epps & Co., Homœopathic Chemists, London, Eng." Also makers of Epps's Chocolate Essence for afternoon use.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and it is perfectly pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

The Saddest of Sad Sights

The saddest of sad sights—the grey hairs of age being brought with sorrow to the grave is now, we are glad to think, becoming rare every year as the use of Cingalese Hair Restorer becomes more general. By its use the scanty locks of age can either resume their former colour and the hair become thick and luxuriant as ever; with its aid we can now defy the change of years, resting assured that no grey hair at any rate will come back to us. Sold at Wade's Drug Store at 50 cents per bottle.

The Spirometer

Last year over two thousand people were cured of catarrh, bronchitis, asthma and lung diseases by Dr M Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of the disease. Instruments, with full directions sent by express to any address. Write for pamphlets to Dr. M Souvielle, ex Aide Surgeon of the French Army, 13 Phillips Square, Montreal. All letters must contain stamp for reply.

A Fine Hair Dressing

Cocaine dresses the hair perfectly, and is also a preparation unequalled for the eradication of dandruff. Sold everywhere. The popularity of Burnett's Flavoring Extracts consists in their purity and great strength.

Holloway's Ointment and Pills.—As spring approaches, a most favourable opportunity offers for rectifying irregularities, removing impurities, and erasing blemishes which have arisen from the presence of matters forbad by winter from being transpired through the pores. This searching Ointment, well rubbed upon the skin, penetrates to the deepest seated organs, upon which it exerts a most wholesome and beneficial influence. Well nigh all the indigestions give way to this simple treatment, aided by purifying and aperitive doses of Holloway's Pills, round each box of which plain "instructions" are folded. Bilious disorders, loss of appetite, fulness after eating, lassitude, gout and rheumatism may be effectively checked in their painful progress, and the seeds of long suffering eradicated by these remedies.

A Prolific Source of Disease.

A trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the malaise of which that is the direct consequence. Their original cause is, however, thoroughly eliminated from the system by Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in its use to cure dyspepsia and the many ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness, it never produces griping pains in the abdominal region, nor weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes, and is also a most efficient remedy for kidney complaints, scrofulous and all diseases of the blood, female weaknesses, &c., &c. Price, $1.00. Sample bottle, 10 cents. Ask for Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-simile of their signature. Sold by all medicine dealers.

Jalesh Sauer, Gunning Cove, N.S., writes "I was completely prostrated with the asthma, but hearing of Dr. Thomas' Eclectic Oil I procured a big bottle, and it done me so much good that I got another, and before it was used up I was well. My son was carried of a bad cold by the use of half a bottle. It goes like wild-fire, and makes cures wherever it is used."

The coughing and wheezing of persons troubled with bronchitis or the asthma is excessively harassing to themselves and annoying to others. Dr. Thomas' Eclectric Oil obviates all this, entirely, safely and speedily, and is a benign remedy for lameness, soreness, injuries, piles, kidney and spinal troubles.

MILLINERY OPENING
