

# 2014 Chevrolet Malibu earns very impressive safety record

The 2014 Chevrolet Malibu mid-size sedan has received the highest possible Five-Star Overall Vehicle Score for safety as part of the National Highway Traffic Safety Administration's New Car Assessment Program.

Safety technologies featured on the Malibu include an ultra-high-strength steel safety cage, rollover protection and 10 standard airbags including knee airbags for both driver and front passenger.

In addition to these passive safety features, several other available active safety technologies, such as Forward Collision Alert and Lane Departure Warning, can assist in avoiding a collision.

Side Blind Zone Alert uses sensors to warn drivers of vehicles entering their blind spot on either side. The pairing of Rear Cross Traffic Alert, new to Malibu for 2014, and rear vision camera can make backing out onto busy streets a less-stressful affair.

Every Malibu comes with On-Star service standard for the first six months. In the event of a collision, OnStar Advisors can contact the vehicle even if occupants cannot respond.

A Five-Star Overall Vehicle Score from the National Highway Traffic Safety Administration's New Car Assessment Program has been awarded to the 2014 Chevrolet Malibu.
