Two Receipts.

Tea tea is now offered at supper and at lunch. If you wish to have it perfect, and without the least taste of bitter, put the tea in cold water before infusion is used; the delicate flavour of the tea and abundant strength will be extracted, and there will not be a trace—if one's taste is the judge—of the tannin and bitter which renders tea so often disagreeable and undrinkable. You need not use more than the usual quantity of tea if it is to be served at a 5 o'clock meal, put it in a water soon after breakfast, and in a few minutes before serving. The best way is to have one broken in a pitcher, and put one lump in each glass.

For an effective cure for sunstroke the following is especially commended: Remove the patient to a shaded spot at once. Place the body in a sitting posture, the back well with the feet and legs resting upon the ankles and extended in front of the body. Get ice water and a bottle of some strong essence of ginger. Pour the ice water over the head, copiously, never mind the clothes. Then pour two or three table spoonfuls of ginger in about half a tumbler of water and make the patient swallow it quickly. Keep the head cool by using a little of the ice water, and in case there is not much of a flow upon the body give more ginger. If the directions are followed there will be no cause for the nervous or an undertaker. Ginger is far the best to use, but where it cannot be had quickly, two or three good drinks of brandy will answer.

There's Where the Shoe Pinches.

Corns are a capital indicator. They tell to a hair's breadth whether your shoemaker has made allowance for their dimensions or not. Corns will require an accident policy at once, for PUTNAM'S PAIN-EXTRACTOR removes them in a few days. No pain, no discomfort and permanent benefit. Try it. Sold by druggists everywhere. Sold by N. C. Polson & Co.

Ayer's Sarsaparilla is a powerful tonic, composed wholly of vegetable ingredients, but is more potent, prompt and powerful, breaking up the chill, curing the fever and expelling the poison from the system, yet leaving no harmful or unpleasant effect upon the patient. Sufferers from chills and fever who have taken Ayer's Ague Cure need only apply to state the fact.

HOLLOWAY'S PILLS.—The Great Need. The blood is the life and on its purity depends our health, if not our existence. These Pills thoroughly cleanse this vital fluid from all contamination, and by that power strengthen and invigorate the whole system, healthily stimulate sluggish organs, repress over excited action, and establish order and regularity in the functions of digestion, circulation and secretion throughout every part of the body. The balsamic nature of Holloway's Pills commends them to the favour of debilitated and nervous constitutions, which they soon resuscitate. They disinfect the foul humours both in the bowels and elsewhere, and are, on that account, much sought after for promoting regularity of action in pregnant females and delicate persons who are naturally weak, or who from some cause have become so.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately depend upon it, there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the most eminent female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.
