The Daily News.

WEDNESDAY EVENING, SEPTEMBER 6

The members of the Liberal Conservative Association of the City of Toronto met last Wednesday at Waggoner's Hotel, in the city, on Saturday, 9th inst., to choose delegates for the Toronto Convention.

Among the persons left on the Canadian Pacific was Hiram Sibley, who is said to be the largest farmer in the world. His estate comprises 40,000 acres, of which 1,000 are in under the cultivation of general direction, while the remainder is cut up into small farms, and leased out.

The noble Turk cannot understand Lord Dufferin's apparent eagerness and uneasiness, while everybody else is at ease. The Egyptian question is still the bugbear of the Dufferin in his leisure hours indulging in walking and other recreations, but all the cares of State need attention, he is always looking at the period of his retirement to see if it creeps up to him at of the highest order.

The annual meeting of the Canadian Press Association for the Northwest has been an enjoyable affair. Among the time the members have received few receptions, and the hospitality of the people has been quite unstinted. The people have been quite in the most better position of the Dominion with an opportunity of examining for themselves, and judging and to contrast a reality of Ontario and the West.

The Toronto Times says regarding the mission, that the people of Montreal, the Hon. Alexander Mackenzie, the Ashburton, and Mr. Cartwright, are now the same. Mr. Mackenzie, the same, is as ever. Mr. Cartwright is that the same, and Mr. Ashburton is good for going to the motion of Mr. Cartwright, that a committee of the members of the House be appointed to inquire into the matter, and that a committee of members be appointed to report to the House. That motion is certainly bringing the British Association in connection with that which already exists in America. It is also further contended that the proposal has an injurious effect upon the suggestion of Prof. Huxley, the organization of a great international scientific congress, because it would be a most unfortunate thing, because it would be a great and serious mistake.

THE EGYPTIAN WAR

Rumors of the despatches from Egypt are to be expected shortly. Sir Garnet Wolseley has received reinforcements both from Great Britain and India, bands having placed at his disposal. In the meantime troops in garrison at Alexandria. The news received from Suakim shows that Arabi is continuing the fortifications of that place, and preparations are made to attack them. For the present the Arabs are concentrating their forces at Tel-el-Kebir.
