CABLE NEWS.

Paris Jan. 29.—Prince Napoleon gave a reception to-day to Mr Burlingame.

London, Jan. 9—Lord Monck has been elected Chairman of the Franco-American Cable Company.

Details of news from Rio Janeiro show that the success of the allied powers in Paraguay has been most complete. All the Paraguayan forts are in their hands. They have captured the artillery and baggage of Lopez army and 2000 prisoners. The Dictator Lopez was a fugitive in the forests and was surrounded by the allied troops.

Madrid, Jan. 29.—A proclamation has been issued granting a general amnesty to the insurgents of Porto Rico. The Provisional Government yesterday issued an address to the nation tending to restore calmness to the public mind. They decline to take active steps against reaction, but declare that they are closely watching it, and, if necessary, will combat it. All religious questions they leave to be finally disposed of by the Constituent Cortes, which is soon to assemble. The abolitionists have presented a petition to the government, asking them to issue a decree setting free all children born in slavery since September, 1868. The petition was referred to the Constituent Cortes.

The diplomatic corps have addressed to the Government a protest against the treatment of the Papal Nuncio. It is said that all the members of the cabinet are now in favor of the Duke of Montpensier for king of Spain. The city of Madrid is quiet; but the volunteers are kept under arms. The archbishop of Burgos has been arrested, and is now in custody of the military.

United States Minister Tuckerman, in a speech delivered at a public dinner in Athens, yesterday, expressed the kindliest feelings of the American nation for Greece, and pledged the cordial sympathy of his Government for the Greeks in their anticipated trouble with the Turks.

Athens, Jan. 29.—It is reported that Bulgaris, Prime Minister, has resigned. The action of the King of Greece upon the terms proposed by the recent Conference is considered as uncertain. Nothing definite as to his intentions relative to the matter is as yet known.

Berlin, Jan. 29.—The House of Deputies has passed the bill confiscating the property of the King of Hanover. The proposition to indict the King for high treason was rejected.

Madrid, Jan. 29.—It is stated that the members of the Provisional Government are unanimously in favor of the Duke Montpensier for the Spanish throne.

London, Jan. 29.—An invitation has been extended to Reverdy Johnson to dine with the Corporation authorities at Glasgow in February. Mr. Johnson has accepted the invitation.

Liverpool, Jan. 30.—The steamship Cuba and Colorado, have arrived.

FINANCIAL AND COMMERCIAL.

London, January 30, p.m.—Consols 93¼; Erie 15½; Erie 26; Illinois Central 92¼.

Liverpool, January 30, p.m.—Cotton buoyant; Uplands 11¼d; sales 20,000 bales. Breadstuffs quiet; Lard 78s; Bacon 59s 6d; Refined Petroleum 18s 11½d.

Liverpool, January 30th, 12 a.m—Flour 26s 9d; Red wheat 9s 10d to 9s 11d; White wheat 11s 6d; Corn 34s to 34s 6d for old; New 33s 3d for new; Barley 5s; Oats 3s 8d; Peas 44s 6d; Pork 95s; Lard 77s. United States Bonds 75¼.

Later—3.35 p.m. — Breadstuffs closed unchanged; Provisions strong; Lard 78s.

New York Press Despatches.

New York, Jan. 30.—The *Herald's* Richmond specials say another outrage has occurred in Dauphin County, N. C. A white man, who fired upon a party of negroes attempting to violate the persons of some young ladies was murdered in his house the following night and his body cut in halves and hung up in the room where he slept. Lawlessness and anarchy exist in this section of the country to such a degree as to justify the calling out and arming of the Militia by the Governor.

The *Herald's* Havana special says two of the Commissioners appointed by the Revolutionists to treat with General Dulce arrived here to-day, but the negotiations make no headway and promise little results.

Havana, Jan. 29.—The *Prensa* advocates the military occupation of the island. The late disturbances have not been renewed. The city is perfectly quiet.

New York, Jan 29.—The steamer Austrasian, from Liverpool, has arrived.

Portland, Me., Jan. 29.— Steamship Nestorian arrived at 10:40 a. m. to-day.

Dominion Stock—Has been sold at 105; at which it continues in good demand, but none in market.

Montreal Corporation Bonds—Are much asked for and scarce; they would command 95 to 96 according to date of maturity.

Montreal Corporation Stock—There has been but little doing; the Stock is offered at 110; buyers offering 107½.

Montreal Harbour Bonds—None of any issue in market.

Exchange—Is in good demand. Bank and Bank endorsed is worth 9¼ to 9½. Private worth 108 to 109.

A terrible warning to bachelors is the experience of Henry Kincaid, of Stafford, who having lived single to his 58th year, married a girl of seventeen years, last fall, and last week was consigned to the insane asylum at Concord, N.H.

The accumulation of freight for the Canadian Ocean steamers, at Portland, is represented as very great. The Moravian took an immense cargo on Saturday, and there was enough left for three other cargoes. The business of the line is now very great, and the Company are building additional steamers as rapidly as possible, in order to accommodate the increasing trade.

In connection with the difficulty between young LeMesurier and the officers of the 53rd Regiment, the subscribersof the Quebec Skating Rink met on Thursday, and on the question of receiving officers' subscriptions decided by the casting vote of the chairman in favor of the officers, the vote being 10 against 10. A process was entered against the decision by Mr Stuart, son of the late Sir James Stuart, Chief-Justice, and a great friend of LeMesurier. It was at Stuarts' house, it will be remembered, the difficulty commenced.

The Faculty of Cornell University have decided on conferring the following in addition to the usual degrees: For the combined course, Ph. B. (Batchelor of Philosophy); modern and scientific course, B.S. (Bachelor of Science); three years' study after graduating in either course, Ph. D. (Doctor of Philosophy); and a probable degree of licentiate for special studies. It is also under advisement to give a degree of B.L (Bachelor of Letters), comprising a course of languages, English literature, and the studies embraced in history and social and political science. There is also talk of a course of civil engineering of six years, with a degree of C.E.

The editor of the Paris journal, *Diable a Quatre*, M. Pfeifer, was summoned before the Tribunal of the Police Correctionnelle, on a charge of having published a libel against the person of the Emperor. M. Lockroy and the printer were charged as accomplices, the former for having writen the offending article, and the latter for having printed it. The Court having heard the Imperial advocate and the counsel for the defence, condemned the writer. M. Lockroy, to four months imprisonment, editor two months, the printer to one month, and all three to the payment of 3,000 francs fine. It seems as if the *Diable a Quatre* were determined to emulate its forerunner and model, the too famous *Lanterne*. A circular has been sent to the diplomatic agents abroad to the effect that no prosecution for libels published against the Emperor in foreign papers should be instituted without the previous consent of the French Government.

The style of buildings in Chicago is best described by the *Times* of that city: "There are not ten prominent buildings in Chicago that are not burlesques upon what should be, and the sight of which would not cause the architects of the Augustan era to turn in their coffins, could they be permitted to look upon them. We are as far from what we should be as hash is remote in quality from a perfect dinner. In fact, hash is a term which best describes eleven-twelfths of four buildings. They consist of the odds, ends, and remnants of what was served up by the artistic caterers of an earlier day."

The intercolonial railway commissioners have adopted an immigration scheme. It will be submitted to the approval of the Governor General, and afterwards to the provincial goverments. They have also had under consideraion a form of contract and amended the same by providing that in case of the changes mentioned in sec. 68 of the general specifications, contractors will be subject to diminution or be entitled to additional compensation as the commissioners may deem reasonable.

SEND IT TO YOUR FRIENDS.—The CHRONICLE AND NEWS is published every Friday morning, and contains all the news of the week. For Fifty Cents, paid in advance, you may send it to your friends for three months at the reduced rates of postage. For One Dollar it may be sent six months. Single copies, price Five Cents, may be had at the *Daily News* office, Princess Street.

THE CIRCULATION of the DAILY NEWS is fully one-half larger than that of any other daily journal published in Kingston. The circulation of the old established weekly CHRONICLE AND NEWS is also greater than any other weekly published in the county. Advertisers will perceive that these journals are the best media for attracting public attention in this locality.

HEALTH, COMFORT, AND ECONOMY.

THE Subscribers have much pleasure in introducing to the public of Kingston NORTH'S PATENT DRUM HEATER, by the use of which a saving of fully 25 per cent will be gained. Having thoroughly tested this valuable invention they can confidently recommend it as a great fuel saver. The cost of the Heater is small compared with the great saving it effects. In many places where two stoves were formerly required, sufficient heat can now be obtained from one with the Heater attached. Parties wishing to try them can do so, and if after a fair trial they are not satisfied that the saving claimed is effected, the Heater can be returned without any charge.

A most successful and wonderful Invention!

New Method of Washing Clothes without Labour!

THE DOMINION
Steam Washing Boiler.
R. J. REID, Inventor & Patentee.

THIS Machine operates upon purely scientific principles. It is self-acting and dispenses entirely with labour and the wear of clothes. The hot suds and steam, by the action of fire, are driven up through the chambers, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing it perfectly without rubbing. It has been thoroughly tested, and pronounced unequalled as a clothes washer by those who have used it. All fabrics, from the finest laces to the best blankets, can be washed perfectly and with ease, without the wash-board. For flannels it is invaluable, as the rubbing, rolling, and pressing process must necessarily full them more or less. It is truly a labour and clothes-saving invention. Washing will no longer be a hardship, and washing day a terror and dread to housewives. The invention can be used in any boiler, and the low price of the article, $4, places it within the reach of every family.

TESTIMONIAL.
