MEETING OF SHAREHOLDERS

THE ORDER OF THE BATH.

We notice in the last *London Gazette* the following:—

The following article is to be substituted for the one which was published in the *London Gazette* of Tuesday, the 9th of July last

WAR OFFICE, JUNE 29, 1867.

The Queen has been graciously pleased to make and ordain a special statute of the Most Honourable Order of the Bath, for appointing John Alexander Macdonald, Esq., Chairman of the recent Conference of Delegates from British North America to the measure of Confederation, to be an extra member of the Civil Division of the Second Class, or Knights Commanders of the said Most Honourable Order; and Her Majesty has also been graciously pleased to give orders for the appointment of the undermentioned gentlemen, members of that Conference—viz., William P. Howland and William Mac Dougall, Esqs., of Canada West, Charles Tupper, Esq., of Nova Scotia, and Samuel Leonard Tilley, Esq., of New Brunswick—to be ordinary members of the Civil Division of the Third Class, or Companions of the said Most Honourable Order.

The object of this substitution is apparently, namely to leave out the names of Messrs. Cartier and Galt, who declined to accept the C.B. We believe this is the only way in which their names could be omitted in the articles of record in the War Office.

CURIOUS ECCLESIASTICAL LAWSUIT.

There is at present before the Supreme Court at Valparaiso a delicate question of civil and ecclesiastical jurisdiction, which threatens to create as much excitement as that raised last year between two cabinets of the Cathedral, the Supreme Court and the Civil Government on the one part and the Archbishop of Santiago on the other. It appears that about the year 1850, a woman named Teran, living in Molinos, in the Department of Victoria, possessed an image of Santa Rosa by which she was believed to work wonderful miracles.

Taking advantage of the superstition which prevailed in that quarter of the country, the woman Teran, by means of the image, in a short time accumulated a large fortune. The Archbishop, hearing of the circumstances, became aware of the opposition thus set up to what no doubt he considered the exclusive right of the church, and ordered the image together with all the property accumulated by the woman to be seized and handed over to the church, which was done. A daughter of the woman Teran has recently claimed the property confiscated from her mother. The demand has been refused by the ecclesiastical authorities, and has been brought before the Supreme Court.

The cattle disease which has prevailed in some parts of Pennsylvania, it appears to be milder, and the losses from it are far less than the most of Europe.

The Postmaster-General of the United States has decided that the advertising uncalled for letters shall be furnished the lists to papers, and publish them as a matter of news.

The setting out to wedding parties of silver plated ware and other knickknacks, to enable the bride to make a big show, is getting to be a nuisance in New York.

The Globe says that a large number of farmers from the district of Montreal have taken farms on the Metapedia Road, between Sayabec Lake and Lac Metapedia. Several Nova Scotians have also settled in Restigouche.

Several farmers in the township of Ancaster have suffered depredations in their sheep pens, attributed to a full grown bear from the appearance of tracks discovered in the snow. A hunting party turned out on Saturday and traced the monster to the tenement of a club-footed negro.

A man named Greenwood, arrested in Montreal for certain confidence operations in which he represented himself by letter to be a young lady in distress, was liberated the other day, proof of his guilt impossible, owing, we suppose, to the reluctance of his victims to acknowledge the extreme verdancy.

It is rumoured that tenders will be immediately invited for the new six per cent. Canada Dominion Stock, and that applications will be received at designated offices at Montreal, Toronto, Quebec, Ottawa, Halifax, and St. John, N.B. The loan will remain open, it is expected, for about three weeks.

The investigation into the cause of the death of Sullivan was resumed this morning before Coroner John P. Macdonell, R.M. Roy, Esq., acting as assistant Coroner. Several witnesses were examined, and important evidence was given, but we are debarred from publishing it, the jury having decided that the ends of justice would best be served by keeping the proceedings secret.—*Brockville Intelligencer.*

The Quebec News, speaking of the strength of the Ministerial party in the Quebec Assembly and its evident determination to be effectively Anti-British, says:—

The seeds of discord have already been sown, by the unwise utterance of some Ministerial supporters in the last debate, in regard to the question of immigration, and the disposition of the wild lands. If the Province of Quebec is to be ruled and governed exclusively for its own ends, so—if the motto should be to govern our representatives be Lower Canada for the Lower Canadians'—if we were to have a repetition of poll-taxes and exclusiveness, such as Lower Canada witnessed from 1831 to 1836, to drive British born emigrants from the Province, then the sooner we know it the better. No English-speaking member of either House, who values his reputation as worth a pin, will sit in the Legislature for 24 hours without entering his protest against the inception or inclination of any such principles.

MILITARY SCHOOL CADETS.—A contemporary says:

"A good many cadets of the Military School have after receiving military instruction at public expense, entered foreign service. To check this fraud, each cadet before receiving the compensation given by the Dominion to those who take certificates, ought to give a bond with security for its return should he enter the military service of a foreign power, or remove out of the country."

We know for a fact that instances have lately occurred of soldiers taking their discharges from Regiments of the Line, in Quebec and Montreal, and immediately after gaining admittance to the Military School, passing through in a fortnight or three weeks, and receiving their $50. There is nothing whatever to prevent these men going over to the States with the money so easily acquired. In one instance lately, a Sergeant of the 23rd Fusiliers took his discharge, immediately after passed through the Military School, and then enlisted in the 78th Highlanders, in which corps he is now serving.—*Montreal News.*

The following ludicrous incident is related in a Toronto news letter: A rather laughable scene occurred at one of the Skating Rinks the other evening. A well known young lady who belongs to one of our first families, was gaily disporting herself on the ice, the extreme brevity of her dress, and the swinging, gliding motion of the exercise affording her an excellent opportunity to display her elegant feet and finely formed ankles, and occasionally giving the spectator a momentary glimpse of a well-turned calf. She was surrounded by a crowd of eager admirers contending for the honour of her company, and, becoming too absorbed in receiving their compliments and attentions, forgot the treacherous nature of her footing, and suddenly fell heavily on the ice. To raise her on her feet was the work of an instant, and, apparently nothing the worse for the accident, she was soon again speeding on her course. To the surprise of the by standers, however, her track was marked by a sprinkling of bran on the ice, and one of her well-developed limbs suddenly assumed a flabby and wilted appearance, the stocking which enclosed it displaying a large aperture, through which the material used in filling it out to its original proportions had escaped. The chagrin of the damsel and the hilarity of the crowd on the discovery, may be imagined.

It is reported from Paris that the Emperor is, of late, extremely petulant. None of the ministers are exempt from receiving tokens of his ill-temper, and affairs have come to that pass that they goon with the public business independently as far as possible, and submit to the Emperor only so much as is absolutely necessary.

The experiments recently made at Guelph, with petroleum for fuel have been unsuccessful, the consumption of oil, even at the present low price in that locality made it more expensive than wood at $3 a cord. Its use is now abandoned in all but two establishments with small engines and a better arrangement of the fire box and boiler tubes. The most decided failure, that in Allen's mill with a forty horse engine, appears to be chiefly due to defective construction in these particulars.

Jamaica is about to have an influx of Scotch schoolmasters for the model schools and public charities of the island. The system of education is to undergo a radical change, and instead of negroes being taught classics, and the use of the globes, they are to be well grounded in all the branches of an education suited to the requirements of the country, combined with an industrial training for the full development of native talent, and Jamaica's resources. In order that the best possible men may be procured, the Rev. A. J. Milne, a licentiate of the Church of Scotland, is about being sent to Edinburgh to make the requisite selection, on behalf of the Government.

The Chicago papers contain elaborate tables of statistics showing the business of the past twelve months in that city. In the flour trade 1,814,000 barrels have been received, and 1,860,000 barrels shipped. Of wheat, 13,000,000 bu. have been received, and some three million less sent away. Twenty-three million bushels of corn have been received, and twenty-millions shipped. The variation in the prices of these articles is also interesting. While gold is quoted at almost the premium of one year ago, wheat has declined, in Chicago, some twenty cents, and corn has advanced nearly ten cents. Oats, of which nearly 11,000,000 bushels were received during the year, show a still greater advance. In the matter of hogs, Chicago has done an exceptional trade the past year receiving nearly two millions. Of these, 587,000 have been packed thus far in the season. In 1862-3 there were nearly a million packed, and, it is not unlikely that this season will see quite as large a business. Among other items, it is mentioned that 862,000,000 feet of lumber have been brought into the city, and 522,000,000 shipped, beside 402,000,000 shingles and 102,000,000 lath.

THE GREAT NEED SUPPLIED.

Pills have been supplied in millions. Salves have been rubbed in by the pound. Dr. Maggiel's two grand specifics are putting an end to this wholesale system of medication. One of his famous pills is a dose. A box of his healing salve is of value, as a remedy for ulcerous and eruptive diseases.

Dr. Maggiel's motto is CONCENTRATION. He has placed in the smallest compass the active principle of the most potent vegetable specifics. There is no mineral in his Pills—they do not gripe—they do not enfeeble—they create a vigorous appetite and correspondingly strengthen the digestion. They tone the liver, clear the head and steady the nerves.

No form of scrofulous disease can resist the disinfectant operation of the Salve. Tumor Abscesses, Salt Rheum, Boils, Pimples, Pustules etc., are thoroughly eradicated by this unrivaled medicine. In fact, Maggiel's Bilious, Dyspeptic and Diarrhœa Pills cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin, Maggiel's Salve is infallible. Sold by all druggists at 25 cents per box.

"COUNTERFEITS! Buy no Maggiel Pills or Salve with a little pamphlet inside the box.—They are bogus. The genuine have name of J. Haydock on box with name of J. Maggiel, M. D. The genuine have the Pill surrounded with white powder."

All orders for the United States should be addressed to J. Haydock, No. 11 [illegible] York.

Patients can write freely describing their complaints, and a reply will be returned by the following mail. Write for a "Manual of Disease."

If the medicine cannot be procured in your section, write and I will forward it, free, closed.

Dec 23, 1867.

AYER'S CHERRY PECTORAL

For the rapid cure of Coughs, Colds, Influenza, Croup, Bronchitis, Consumption, and for the Consumptive Stages of Pulmonary Complaints.

So wide is the field of its usefulness, so numerous are its cures, that in almost every section of country are persons publicly known to have been restored by it from alarming and apparently desperate diseases of the lungs. Its success and its superiority over every other medicine have become too apparent to escape observation. Its virtues are known, the public should know what antidote to employ for the dangerous affections of the throat and lungs incident to our climate.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by all Druggists everywhere. medicine everywhere.

NORTHROP & LYMAN, Toronto,
Wholesale Agents for Canada.

organs, having a peculiar adaptation to conditions which disturb the organs of Speech, at 25 cents per box, by all druggists.

A Down Town Story

Having passed several sleepless nights, and being worn down by the agonies and cries of a sick child, and becoming convinced that the celebrated MRS. WINSLOW'S SOOTHING SYRUP was just the article, I procured a supply for the child, and on my return home, and acquainting his wife with what I had done, she refused to have it given to the child, as she was strongly prejudiced against it on sympathy. That night the child suffered more, and the parents without sleep. The next day following, the child was still worse; and while contemplating a sleepless night, the mother came into my room to attend to some domestic duties, when the father with the child. Being now urged to be administered a portion of the Syrup to the baby, and said nothing. The parents slept well, and the little child awoke in the morning bright and happy. My wife was delighted with the astonishing change, and although at first opposed to the deception practised upon her, now [illegible] the Syrup, and suffering, crying and restless nights have disappeared. The merits of the Syrup never yet failed to win by, and overcome the prejudice of all. 25 cents a bottle. Sold by all druggists.

Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP."
All others are base and dangerous.

Holloway's Worm Lozenges

Are certain and safe remedy for worms in children or adults. As it is a well known and undeniable fact that our great cause of death among children is worms alone. It cannot be too deeply impressed upon the minds of parents the necessity of ridding their children of worms by so doing, and understanding the nature and cause of the disease, thousands of children have been saved from early graves. The following are some of the numerous symptoms and diseases produced by Worms:—Deranged appetite, nausea, vomiting, offensive breath, frequent picking of the nose, grinding of the teeth during sleep, restless disturbed sleep, frequent slimy stools, and sometimes diarrhœa, pain in the head and stomach, convulsions, trembrings, coughs, indigestion, and many other symptoms. Dreams, and a gradual wasting away of the body. Worm Lozenges are palatable and gentle in action, and should be given to every child—drive out the worms from the system, completely cleanse the stomach, and restore health. The necessity of administering Holloway's Worm Lozenges and Ant cathartic. Each box contains the full directions. Prepared by Northrop & Lyman, Newcastle, C.W., general agents for Canada, and sole proprietors. N.B.—Ask for Holloway's Worm Lozenges, and take no other. Price 25 cents per box. Sold by all Medicine Dealers everywhere.
