SPECIAL TELEGRAM

FROM MONTREAL

MONTREAL, Jan. 10.—The officers of the [illegible] Regiment gave a grand ball on St. Lawrence [illegible] last night. There was a large and [illegible] party and the affair was very [illegible]

The weather continues very [illegible] Prestant Henry and Sorel was laid [illegible] strike at Lake Superior [illegible] assessments. Addresses were made by Mr. William Workman, Dorion and Hon. Messrs. Sullivan and [illegible] Rose [illegible]

The Herald takes an unfair [illegible] a misstatement published in another paper [illegible] was a deficit of $5,000 [illegible] City finances. It points out that under the present system a deficiency is impossible, as appropriations have a ways to be based on the expenditure of the previous year.

P. E. Jay, a mechanical engineer, has invented a machine to take the place of pumps in vessels, and save much labour.

NELSON ONE OF THE CONFERENCE MEN ARRESTED.—A telegram has been received from Mr Thomas Hanley addressed to Finger, Brothers, brokers of this city, to the effect that Nelson one of the bogus firm of Dyer & Co., of Clifton, had been arrested at Syracuse on account of the Beneville transaction. His examination was to have come off on Thursday, no particulars of which, however, have yet been received. Mr Hanley watched Conover and Hoopers progress here, on behalf of the brokers, and it was he who gave information which led to their arrest. Since then he has been on the look out for Nelson, and on Wednesday succeeded in having him arrested. The Belleville Intelligencer says in relation to the swindles in that place and Trenton: "One of these agents went through here the other day, and succeeded in getting a draft of $2,500 cashed in Trenton by Mr Christie, the telegraph operator there; one of $3,000 cashed by Mr J. W. Thompson, Belleville, and another of $2,000 by Smith & Co., of Belleville. As soon as it was discovered that the drafts were not honoured, parties went in search of the scamp, but up to the present no account has been received of him. This man was Nelson, and we will hear shortly what has been done with him, and also if any of the money has been refunded.

POLICE COURT, Friday.—The two boys, William Proctor and John Harris, who were charged with stealing wood from a yard in Bagotstreet, were brought up, one of them, Proctor, having been remanded yesterday. The boys were accused of having taken the wood from the Nunnery yard, but the case not being clear against them they were let off. Patrick Doyle and Henry Talbot were charged with having been drunk, and were fined two dollars each.

The Dickens speculators are in force in Philadelphia. They took their stand at the Concert Hall at 11 o'clock on Sunday night, and when the sale commenced on Monday morning the line extended half a mile.

The New York Express admits that Americans have to revert to the men of the mother country for those maxims in policy and free government which ought to be in practical operation in the States.

BOARD OF TRADE

REPORT OF THE COUNCIL FOR 1867.

The Executive Council have now to close the labours of the past year in presenting to the Board a Report of their proceedings, and in calling attention to several matters of considerable importance to the Mercantile community.

THE INTERCOLONIAL BOARD OF TRADE.

It was hoped that a meeting of the Intercolonial Board of Trade would have been held at Ottawa during the recent sitting of the Parliament of the Dominion, at which questions of vast importance to the Dominion, such as its Banking powers, the Currency, the Tariff and Weights and Measures, including the Decimal, could have been discussed. We hope that during the recess some means may be adopted which will insure a meeting of the Board at an early date.

THE TARIFF.

We regret that the Government at the recent Session of Parliament could not adjust the Tariff so as to redress the many grievances complained of by the various interests. We trust that at the opening of the March Session that it will be one of the first matters which will be brought under the notice of Parliament, and that it will be permanently and satisfactorily settled.

BANKING.

We regret that the Banks of the Colonies, which are in the main well managed, should be saddled with the penalties required to be paid by those institutions which have failed. We have [illegible] that the Banks [illegible] Government [illegible] Parliament [illegible] Banks [illegible] Government [illegible] Parliament [illegible] Banks [illegible] Government [illegible] Parliament [illegible]
