AYER'S CHERRY PECTORAL

For the rapid cure of Coughs, Colds, Hoarseness, Croup, Bronchitis, Consumption, and for Consumptive persons in the early stages of the disease, it is the best medicine we can use. Scrofula is the field of its most fearful ravages, and here also are its cures most numerous and decisive. Many apparently healthy persons, in this and other cities, are daily receiving from its use the priceless boon of health, which they had long lost under the insidious encroachments of this, the most deceitful of all diseases. Its presence is not always known until the patient is beyond the reach of medicine, or else the symptoms are so slight and so much like those of other and common complaints that they are neglected. Hence the fatal results which have so often been attributed to other causes than the real one. Hence, also, the necessity of a remedy so powerful that it can be relied upon even in the last stage of the disease. Such a remedy we offer in the Cherry Pectoral. Its superiority over every other medicine in the cure of Pulmonary Complaints is due to the fact that it does contain the curative principle of all vegetable medicines, and that its peculiar adaptation to each case is unerring. Its ingredients are all of the most perfect and mild vegetable kind, and it may be taken by the most delicate without fear of harm, or of any other effect than a speedy cure. Its extraordinary power to cure the most dangerous and apparently hopeless cases of Pulmonary Disease, has been proved by the testimony of those who have been cured by it, and who are now living to bear their grateful testimony to its value. Its virtues are known to the people of this city and vicinity, and there is no need of our publishing the proofs of them in this place. Our agents here will furnish gratuitously our pamphlet containing the testimony of our own neighbors and friends, to the truth of the above statements, and to the unrivalled excellence of the Cherry Pectoral as a remedy for the diseases for which we recommend it. Its effects are so various and so different from those of other medicines, and its cures so numerous and so extraordinary, that it is necessary for its friends to make known its virtues, that the sick may avail themselves of the means of cure which are within their reach. We do not claim for it the power of curing all diseases, but we do claim for it a decided superiority over every other medicine in the cure of those diseases of the lungs and throat which are known, or suspected, to be incurable. We do not claim that it will cure, even when all else fails, but we do claim that it will do more cures of more dangerous and apparently hopeless cases than any other medicine. We do not claim that it will do more than we have proved it to do, but we do claim that it will do what we have never claimed any other medicine will do, viz: cure the worst cases of Consumption, Bronchitis, Asthma, and Incipient Consumption, in the most decided manner. We do not claim that it will do more than we have proved it to be, a safe and reliable remedy for Children, when suffering from Coughs, Colds, Croup, Bronchitis, or Incipient Consumption. We do not claim that it will do more than we know it to be, the most perfect and powerful remedy we can give our friends and patrons, when they are suffering from Pulmonary Complaints. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by all Druggists everywhere.

NORTHROP & LYMAN, Wholesale Agents for Canada.

A Down Town Business Man

Having passed several sleepless nights with the agonies and cries of his child, becoming convinced that the child was fast sinking into the grave, procured a supply for the child, and acquainting his wife with the fact, she refused to have it given, lest it should prove poison, as she was strongly prejudiced against it. That night the child passed the most comfortable night it had slept for many nights, and the parents without giving the medicine the next day following, the child was much worse and while contemplating a sleepless night, the mother proposed to attend to some business, and leave the child with the father, who administered a portion of the Syrup. The child slept well, and the father, on the morning being bright and happy, was delighted with the success of the change, and although at first strongly prejudiced against the Syrup, and sufficiently strong to have prevented its use, if his sleepless nights have disappointed him, the Syrup never yet failed to relieve pain and overcome the projection of teething babies. Sold by all druggists at 25 cents a bottle. Sold by all druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

All others are base and dangerous imitations.

For Throat Disorders and Pulmonary Complaints

HAGYARD'S PECTORAL THROAT AND LUNG BALSAM. Confidence in this preparation is fully merited. Many who have been thoroughly tested, and who have proved its value, have added their testimony to the reputation they have gained. These Lozenges are prepared from the celebrated recipe for alleviating Pulmonary Complaints, Asthma, Hoarseness, and all Irritation or Soreness of the Throat, by PUBLIC SPEAKERS AND SINGERS who find them beneficial in clearing the voice before speaking or singing, and relieving the throat after any unusual exertion of the organs, having a peculiar tendency to those which disturb the organs of Speech. Sold at 25 cents per box, by all druggists.

Holloway's Worm Lozenges

Are certain and safe remedy for worms. As it is a well known and fact that nine-tenths of all disease of death among children are caused by worms, it cannot be too deeply impressed upon the public the necessity of clearing the system of these destroyers. Many a child, apparently healthy, is suddenly cut down by convulsions, which are the last struggles of the disease, the symptoms of which are so slight as to be unknown to the parent, and the child is gone before the cause is suspected. The following are some of the symptoms and diseases which are produced by worms: Pain in the stomach, disordered appetite, fever, restless sleep, frequent picking at the nose, grinding of the teeth during sleep, hardness of the belly and bowels, swelling of the stomach, and uneasiness of the whole system, indigestion, wasting away of the flesh, dullness of the head and stomach, paleness of the face, convulsions, and many other symptoms which indicate the presence of worms. These Lozenges are palatable and easily taken by children, and contain no mercury or any other ingredient which will injure the most delicate constitution. They are a gentle but sure cure for worms, and will remove them from the system without injuring the health of the child. Each box contains 50 lozenges. Sold by all druggists. Prepared only by Thomas Holloway, 244 Strand, London, and sold by all Medicine Dealers everywhere.
