ever, when spoken to about the death of Strangeways he said that while they were both playing together in the afternoon they were alarmed by a noise as if thieves had entered the house. They both opened their pocket knives and went out into the passage to see what was the matter. The deceased by some awkwardness struck the handle of his knife against the wall, and drove the blade into his stomach. He went then took him into the parlour and placed him on the chair, and left him sitting there. Being asked if he had any other to apprehend, Young replied No. It appeared on Saturday, the medical examination showed that the injury was as stated, and the jury found a verdict to that effect.

THE DUKE OF EDINBURGH IN AUSTRALIA.

The Duke of Edinburgh arrived at Port Phillip from Adelaide, on Saturday, the 28th of November. As the Galatea steamed up the Bay his Royal Highness was gratified by seeing that the inhabitants of Victoria were about to greet him with a burst of intense loyalty. Every ship and boat in the harbour was decked out with flags, and the shores were lined by thousands of spectators. The air was cleared with a fine sea breeze, and the sun shone on the Duke as he stood on the Galatea's bridge. On the Melbourne side the way was poor at Sandridge, where he was received by a numerous guard of honour, and by the Governor, the Ministry, and the members of the reception committee. After he had received an address from the Mayor and Corporation of Sandridge, to which he responded, his Royal Highness proceeded to Melbourne, a distance of two miles. A long procession was formed, and while the approaches to the Lizard, in front of which there was assembled an immense crowd of people, the number being estimated at about 60,000. As his grace the Duke received addresses from the two Houses of Parliament, and afterwards he and his suite were accompanied by Sir Henry Manners Sutton to Government House. On the following day he held a levee at the New Exhibition building, which was crowded by the public, including representatives of the various religious denominations. The ceremonial which followed was of a most imposing character, and it is said that the enthusiasm displayed by the crowded assemblage was equal in intensity to that which greeted his Royal Highness on his first appearance in Melbourne. The evening was devoted to a grand banquet at the Exhibition building, at which the Duke was present. The next day was devoted to a review of the volunteers, and in the evening his Royal Highness was present at the Theatre Royal, when the National Anthem was sung, and the audience rose to a man. When the Duke was at the grand review by the Governor a number of children were getting up a row about an alleged transparency at the Protestant Hall. It commenced in an attempt to pull the transparency, and the assailants were first upon from the building. One man was shot—it is said mortally—and other others wounded.

The Saturday half-holiday has been abolished in the public departments at Ottawa.

An English paper says that the Scotch volunteers for the Highland Company in the Papal Zouave regiment at Rome have turned out to be chiefly Irish, and smacking of Fenianism. They have been dismissed by the Pope, and were sent away from Rome some days ago, to the number of nearly 50. Their conduct in barracks was extremely unsoldierlike. There are now 12 Irish and 2 English in the Zouave regiment.

The Scotsman says:—The cabinet of Berlin has recently sent to the Government when a European Powers are reforming their systems of armament to get arsenals, changed with a view to improve her muskets in order to raise them to the level of the rifles in other others. Prussia has offered to sell to Denmark, on moderate prices and with great facilities for payment, the guns she horse for no longer intends to use. Italy has the more readily accepted the offer that the arm manufactories in England, Belgium, and Germany are so encumbered with orders that she was not urged to renounce the possibility of procuring needle guns elsewhere. Among the rifles, which are of a kind not yet publicly known, Prussia will point her to procure improved weapons, she must content herself with the Prussian muskets.

PROTECTION OF THE ROYAL FAMILY.—The authorities have not yet abandoned any of the extraordinary precautions which have been taken to prevent a Fenian surprise at Osborne during the Queen's sojourn there. The guardship Irresistible is at anchor immediately opposite the Royal residence and in addition to that ship there are the Sprightly, steam vessels, the Fairy, gunboat, and Desmond, Governor, Pelican and Spy, revenue cutters, the last five been moored off the point in Osborne Bay down to the King's Quay, at the extremity of the Osborne grounds. After nightfall boats are manned and armed, and row guard at intervals during the night, to prevent any unauthorised communication with the shore; and the order to the officers in command of the guard boats is to take possession of any strange boat whose crew may be unable to give the password, and to hand it over to the commanding officer of the Irresistible. In addition to this force afloat there are two steam launches, each in charge of a sub-lieutenant, whose duty it is to steam up and down the line, as close in shore as they can go in safety, and they relieve each other every hour. The land force comprises a detachment of the Scots Fusilier Guards, consisting of about 2000 officers and men, a strong force of constabulary, and a considerable number of policemen and detectives, together with a detachment for night duty from the garrison at Parkhurst. The military seamen and police are so stationed in and around the grounds that it would be next to impossible, without collusion, for a stranger to approach the Royal residence, unless he had evidence at hand that he had a right to be there, and all orders given by the authorities are rigorously enforced. At Portsmouth, the metropolitan police on duty at the various Government establishments are being armed with revolvers as well as side arms, and the municipal authorities, following the example of precaution set by the higher power, have already sworn in upwards of 2000 special constables, who are to be armed with staves during the ensuing week, and who will be told off for duty in districts agreeing with the municipal ward boundaries. It has not, however, been ascertained what reasons exist for so large an augmentation of the civil force of a borough which has also the advantage of a military garrison that is in itself superior to any emergency that could arise in the shape of a Fenian outbreak.

CAUTION.

THE perfection and cheapness of the American (Waltham) watch have given it such a world-wide celebrity that unscrupulous dealers were again imitated its style and private trade marks. Irresponsible dealers are occasionally found who furtively trade upon the popularity of the American watch by selling a base imitation under the name of the genuine article.

It is hardly necessary to state that such watches are worthless as time keepers, and whoever buys for the genuine article will be disappointed. The reputation which our watches have attained for the several grades of the American watch (except for the first grade marked Home Watch Co.) are guaranteed by special certificate bearing the signature of the Watch and the signature of the President of the Company, R. E. Robbins. The genuine should in all cases require one of these certificates, which is furnished to all dealers in the genuine watches.

The following are the trade marks on the several grades of our manufacture:—

AMERICAN WATCH CO.
APPLETON, TRACY & CO.
WALTHAM WATCH CO.
P. S. BARTLETT.
WM. ELLERY.
HOME WATCH CO.

PENNSYLVANIA RAILROAD CO.

Office of the General Superintendent,
Altoona, Pa., 15th Dec., 1866.

GENTLEMEN—The watches manufactured by you have been in use on this Railroad for several years by our engine men, to whom we furnish watches as part of our equipment. There are some THREE HUNDRED OF THEM CARRIED ON OUR LINE, and we consider them GOOD and RELIABLE TIME-KEEPERS. Indeed I have great satisfaction in saying YOUR WATCHES GIVE US LESS TROUBLE and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

NEW YORK CENTRAL RAILROAD.

Locomotive Dep't Western Division,
Rochester, Dec. 24, 1866.

GENTLEMEN—I have no hesitation in saying that I believe the great majority of locomotive engineers have found by experience that WALTHAM WATCHES ARE THE MOST SATISFACTORY of any for their uses. They RUN WITH THE GREATEST ACCURACY AND STEADINESS, notwithstanding the rough riding of an engine; and as I have NEVER KNOWN ONE TO WEAR OUT, they must be durable. I hope to see the time when railway companies will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,
CHARLES WILSON,
G. Chief Engineer,
Brotherhood of Locomotive Engineers.

(From Lyman & McNab, Wholesale Hardware Merchants.)

Toronto, Sept. 13, 1866.

Messrs MUSGROVE & WRIGHT,
B. A. Com. College, Toronto.

Dear Sirs,—We have much pleasure in testifying to the order of training for commercial pursuits obtained by the young men educated at your College.

We have now in our employment one of your graduates who, notwithstanding the fact that he never had any previous experience, has proved himself a most reliable, accurate, and efficient Book-keeper.

We may further state, that having had occasion to engage another office hand we gave a decided preference to one of your graduates. In short, we have no hesitation in saying, that as far as our experience goes, your course of training is eminently adapted to make a thoroughly efficient office man.

Yours truly,
LYMAN & MACNAB.

Messrs MUSGROVE & WRIGHT,
B. A. Com. College, Toronto.

Dear Sirs,—We can eminently recommend your establishment to the business public, from which to select their Book-keepers. The young man in our employ bears testimony to the efficient system taught in your College, and the accurate habits derived therefrom, and though different houses pursue different methods, yet the general principles, rules, and varieties of commerce are so thoroughly inculcated by your system of tuition as to render the knowledge applicable to each new feature in each peculiar system.

Your efforts are worthy of every appreciation in founding a sound Commercial Emporium of the intelligent youth of Canada, and though occasionally students fail to become proficient, it can only be attributed to lack of ability on the student's part, and not the incapacity of the tutor. We shall ever give and advise preference to your pupils for an office, and feel glad to thus attest our experience of the same.

We remain, Gentlemen, yours, &c.,
