MONDAY EVENING, FEB. 17.

BY TELEGRAPH.

CABLE NEWS.

London, Feb. 14.—Rumours are current Paris of a contemplated change in the ministry in deference to the wishes and sentiments of the Liberal party.

Florence, Feb. 14. Menabrea, the Prime Minister, has informed the Parliament, in reply to a question, that the Government dispatched seven ships to the River La Plata, South America, but gave no information as to the object of the expedition.

Florence, Feb. 14—Yesterday evening Admiral Farragut attended a State dinner at the Royal Palace. The Italian journals contain frequent reports in regard to Admiral Farragut, and seem to be persuaded that he is here on some mission of great importance. The last rumour which has appeared is to the effect that his object is to obtain a naval station in the Mediterranean for the United States, and that he has been invited to apply to the Italian Government for the use of the port of Spezzia for that purpose.

London, Feb. 14.—Lennon, who was convicted of treason and felony, was yesterday brought before the Court and sentenced to imprisonment at hard labour for a term of seven years. After receiving his sentence he made a bitter and defiant speech, in which he predicted that before he had served out the term of his imprisonment the Irish monarchy would be overthrown. He confessed in the act for which he was now convicted and hoped an opportunity would be given him to repeat it.

The auxiliary corps of Egyptians remains at Dynamia and are moving forward as exhibition advances, notwithstanding the request made by the English Government to the Pasha of Egypt that they be withdrawn. Reports from the interior state that King Theodore and the British captives were at Magdala.

It has been decided that the British and India Mail steamers shall cease calling at the Island of St. Thomas. Probably Vigo will be chosen as a mail station for the steamers.

Paris, Feb. 14, evening.—In the Corps Législatif, to-day, an amendment, which was proposed by M. Berryer, to the Bill for the regulation of the press, introducing certain reforms in the administration of the Court of Justice, was defeated after a stormy debate.

The Government is rapidly pushing forward the organization of the National Guard in the departments of France, in accordance with the provisions of the Army Bill recently adopted by the Senate and Legislative Body.

London, Feb. 14, midnight.—In the House of Lords this evening Earl Mayo, Chief Secretary of Ireland, asked leave to bring in a Bill to suspend the operation of the Writ of *Habeas Corpus* for a short time after the 1st of March. He said the Fenian leaders had shown an utter disregard of their oaths of allegiance to the crown, and stated that out of 268 Fenians who had been arrested 95 were Americans. He concluded by saying that although the Government had succeeded in repressing the rebellion, still an extension of its powers was necessary to enable it to complete the work. Leave to bring in the Bill was granted.

In the House of Commons Lord Stanley of Alderley, before the house additional papers on the subject of the *Alabama* claims; these documents have already been published.

Madrid, Feb. 16.—It is generally believed that Lord Stanley will soon succeed Lord Derby at the head of the Ministry.

Madrid, Feb. 16.—The semi-official journal of this city deny that there will be any immediate change in the Ministry, and publicly reject the reports that the Government contemplates important alterations in the Constitution of the Empire.

Liverpool, Feb. 16, evening.—A fire broke out here to-day which at first threatened to be very destructive. It broke out in one of vessels laden with petroleum, and burned some large warehouses stored with cotton articles. The flames were confined to the upper three lighters, on board of which there were three hundred barrels of petroleum destroyed.

Liverpool, February 17, 11.15 a.m.—Cotton opened and higher. Uplands 9 on the way of 9 to arrive. Orleans 9½. Breadstuffs Corn easier.

Liverpool, February 17, 1.20 p.m.—Cotton Wheat firm.

New York Press Despatches.

San Francisco, Feb. 16.—In consideration of the attempt of the English Government to unite British Columbia with the Dominion of Canada, resolutions were to-day passed in the Legislature stating that the Pacific Coast is of more importance to the Pacific States than the whole American Union that British Columbia be annexed to the United States, and that Senators and Representatives be requested to urge the Government at Washington to use all honourable means to annex the said territory; and that the Senators be instructed to telegraph there resolution to the President of the United States and the members of Congress from the Pacific States.

Chicopee, Mass., Feb. 16.—A fire at this place last evening destroyed property to the amount of $50,000.

San Francisco, Feb. 16.—The steamer Great Republic, from China and Japan, arrived this morning bringing advices from Hong Kong to January 7th, Shanghae to 17th, and Yokohoma 27th.

Hon. Anson Burlingame, the Chinese Ambassador to the treaty powers, leaves here for San Francisco on February the 10th. His suite consists of thirty persons. The Chinese officials of the highest rank accompanied with Mr Burlingame as noviciates, and by imperial decree Mr Burlingame has been placed at the head of the mission. He has letters of credence to each of the treaty powers, signed for the first time by the Emperor. The mission is to be permanent as soon as the Chinese officials fit themselves for foreign diplomatic duties. His mission is regarded by the residents of China as the greatest step in advance yet taken by the Empire.

Pekin advices say the rebels and mounted robbers have slaughtered great numbers of the people, but there is no danger whatever of the capture of the capital. In Shanting, thirty thousand rebels have been killed. The Imperial troops are everywhere victorious. Horrible barbarities were committed by Shanting Rebels. Extensive coal beds have been discovered seven miles from Kinghe, and there is a prospect that the coal mines at New Chinkaing can be worked. The value of imports from Shanghae is greater than from the entire Russian Empire. Shanghae is entering upon a career of extraordinary prosperity. The opening of the Yangtse Kiang River is an absolute commercial as well as political necessity to the United States, now the nearest neighbours of China. Everything is quiet at the Coast Ports. There has been a terrible earthquake in the Island of Formosa, by which thirty thousand lives were lost. The town of Mengo, Japan, was burned on Christmas day.
