The N. Y. Central Railroad Company have ordered all the brass to be stripped from their engines, and all the apparatus to be painted a plain brown colour. The reason for this order is not given, but we presume it has reference to the glittering brass on engines to frighten horses. There can be little doubt that this more frequently scares a horse than the size or noise or rapid motion of a locomotive.

The authorities have decided that the accumulation of profits of canteens in future be limited to £50, which is to be expended solely in meeting unavoidable canteen losses. The £50 is to be retained as a "nest egg," available for any emergency; and the daily accruing profits will, therefore, be devoted to their most legitimate object—namely, the reduction of the price of the articles sold for the benefit of the soldier.—*Army and Navy Gazette.*

The French colony of Guadaloupe is suffering greatly from the action of an association of incendiaries, who are called the *Secte du feu*, but whose agents have not yet been discovered.

Mr Dumas, in the Pall-Mall *Gazette*, says he is preparing a statement which will clearly show that the London underwriters have already borne the burden of a very large amount of the losses occasioned by the "Alabama."

The Chicago *Tribune* thinks the cause of hard times is that too many young men repudiate farming and take to manufacturing and trading, so that we have not enough to eat and have twice as many clothes as we can wear.

We regret to learn that the garrison of Fort Wellington lost two men by desertion the other night. One of them walked away while on sentry at the gate, carrying his arms along with him. Both deserters, we understand, were men of indifferent character. It is known that they crossed on the ice to Ogdensburg, where they have since been seen.—*Prescott Telegraph.*

A San Franciscan has invented a means of propelling vessels without steam or sails. He connects three boats together in a line, and expects the two on the ends, by the rise and fall of the waves, to move machinery in the central vessel which shall propel all three.

O. Pooley a prominent and old established produce merchant of Guelph, has absconded to the United States leaving large liabilities with assets of a most ethereal character. The Banks and numerous parties in town are sufferers by the collapse. Among the securities left by the fugitive are bogus warehouse receipts.

Father Hyacinthe, the great French preacher of the barefoot Carmelites, will preach this year during Lent at the French Church of St Louis, at Rome. The building is not so large as Notre Dame of Paris, but its interior is quite brilliant with marble and gold covering the mausoleums of Frenchmen who have died in the Eternal City, and especially of painters. Father Hayacinthe will have a chance of being heard not only by the Cardinals but by the Pope himself.

A resident of Hartford, Connecticut, recently caught a crow, beheaded and dressed him, so that he looked like a quail, sent him to a restaurant as a "partridge" and had him nicely broiled, invited in two friends, and all three sat down to a "partridge supper" and fixings. The unanimous verdict was, that that was the best partridge they had ever tasted. Great was their astonishment to learn that they had eaten a crow! And the originator of this proceeding is so well pleased with the flavour and juices of this hitherto unappreciated game bird, that he would give half a dollar for every crow that was brought him.

Stock speculations are the cause of nine cases out of ten of the defalcations of bank officers and clerks. When an *employe* of a bank is known to be a "bull" or a "bear," he should be dismissed. Of course he may remonstrate and say, "Why, Director A. borrows fifty thousand dollars in order to bull 'Water Power' or corner 'Erie,' and you don't turn him out." But then this criticism exposes another error of the banks, it doesn't excuse the irresponsible clerk for taking a flyer at gold or some fancy stock. If a bank clerk, with a salary of two thousand per year, is known to live at an expenditure of six thousand dollars, is not this a sufficient reason to ask for an explanation or to justify an investigation?—*Boston Watchman and Reflector.*

We take the following significant paragraph from the *Court Journal*:—"Already we hear muffled but constantly increasing sounds of Abyssinian occupation. Dr Beke has openly lectured on the openings the country will afford for commerce, and when Englishmen begin talking of salubrity, productiveness, suitableness for railways, and eligibility of the natives for civilization, we all know what follows. There is a dispute now in reference to the Viceroy of Egypt, whose precise place in the existing situation is not yet ascertained. His connection with the business will prove a source of many complications, especially as Theodore has resented his interference in a manner by which Ismail Pasha will be a good deal pojued. On the whole we are inclined to judge that a great deal more than the rescue of the captives."

PAIN KILLER!

THE GREAT FAMILY MEDICINE OF THE AGE.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS!

OUR FIRST PHYSICIANS USE AND RECOMMEND ITS USE.

IT ENJOYS THE LARGEST SALE OF ANY PROPRIETARY MEDICINE IN THE WORLD.

THE PAIN KILLER

Has been favourably known for more than thirty years, during which time we **HAVE RECEIVED THOUSANDS OF TESTIMONIALS**, showing this Medicine to be an almost **NEVER FAILING REMEDY** for diseases caused by or attendant upon—Sudden Colds, Coughs, Fever and Ague, Headache, Bilious Fever, Pains in the Side, Back and Loins, as well as in the Joints and Limbs; Neuralgic and Rheumatic Pains in any part of the System, Toothache and Pains in the Head and Face.

AS A BLOOD PURIFIER AND TONIC FOR THE STOMACH,

It seldom fails to cure Dyspepsia, Indigestion, Liver Complaint, Acid Stomach, Heartburn, Kidney Complaints, Sick Headache, Piles, Asthma or Phthisic, Ringworms, Boils, Felons, Whitlows, Old Sores, Swelled Joints, and General Debility of the System.

IT IS ALSO A PROMPT AND SURE REMEDY

For Cramp or Pain in the Stomach, Painters' Colic, Diarrhœa, Dysentery, Summer Complaint, Cholera Morbus, Cholera Infantum, Scalds, Burns, Sprains, Bruises, Frost Bites, Chilblains, as well as the Stings of Insects, and the Bites of Poisonous Insects and Venomous Reptiles.

☞ Directions accompany each bott'e.

It has been tested in every variety of climate, and by almost *every nation known* to civilization, and is the almost constant companion and inestimable friend of the *Missionary*, and no *traveller* should be without it. Like every other good thing, the Pain Killer has been extensively counterfeited; which, (while it is an acknowledgment on the part of the counterfeiters of its real worth) is a serious hindrance to its usefulness as the deceived purchaser estimates the value of the *Pain Killer* by the base compound he has purchased for the genuine article.

Purchasers should be careful and not allow the dealer to sell them worthless imitations, on which they realize a larger profit, but take only the *Pain Killer* and see that it is the genuine, bearing the signature of Perry Davis and Son upon the label.

The Pain Killer is sold at wholesale by Druggists and Medicine Dealers, and Commission Merchants in the principal cities, and retailed by Apothecaries, Grocers, and at Variety Shops generally throughout the world.
