FROM MR RIDDELL.

MR REYNER has recently re-covered the Hammers of the Pianoforte used in my family with the new improved patent leather, and otherwise repaired it. He has also tuned it, and it is altogether much improved, the quality of the tone being greatly better than before the Instrument was put into his hands. I shall certainly continue to keep the piano under his charge for the future.

DR. PHILLIPS ON THE DR. J. ROLPH MALCOLM ON LATENT CONSUMPTION.

LETTER No. XIX

TO THE EDITOR OF DAILY NEWS.

SIR,—*Latent Consumption* is the name applied to certain cases of the disease not marked by any of the usual local symptoms which point to disease of the lungs—such as cough, expectoration, hemorrhage or spitting of blood, until the disease has nearly completed its course. Nevertheless it is making silent, stealthy and healthy progress and slowly but surely undermining the health of the patient. The subject is [illegible]

It may come at any age, and from its insidious advancement, requires the closest scrutiny of a well-experienced physician to detect its presence. It usually begins by a general debility [illegible] to escape the notice of the patient or bystanders. At the same time he feels [illegible] as well as he formerly did, and thinks that he is slowly decreasing in strength and vigor, has slight fever or perhaps occasional derangement of the bowels (sometimes even diarrhœa) or uneasy waste, but the sensations are generally so slight as not to be thought of, [illegible] with any perhaps for him to apply to a physician. If, by some accidental occurrence, he takes cold or suffers from pain in the chest, or other symptoms [illegible] to apply to a physician, he will probably be told that [illegible] that his loss of strength, etc., are from [illegible] The eye of a physician experienced in the disease will at once detect in the circumstances that what it would indicate but to a totally untrained [illegible] the lungs with the stethoscope, when the presence of the symptoms would be immediately disclosed. But the general practitioner, who is seldom so thoroughly equipped with attendance on acute diseases, and [illegible] the chronic affections of the lungs, or from habit takes so little notice of them, that he does not observe the changes nearly so soon as one who, by devoting his whole attention to those diseases, becomes more acquainted with them than he possibly can.

[illegible] suppose that latent consumption is rare during life in hospitals, and other institutions where it is customary to make post-mortem examinations of the bodies of those dying in the institutions, it is found on examination that a very large percentage of those who have died of other diseases have had tubercular deposits in the lungs, but during life no symptoms pointing to the lungs as the seat of the disease were present. Louis, the great authority on this disease, says:—"We may indeed say that the greater number of cases of consumption are latent, since nothing is more common than to find tubercles in the lungs of persons dying of what was supposed to be some other disease; they never have shown during life any symptom of consumption." It has frequently appeared to me from cases [illegible] that [illegible]

And Sir James Clark in speaking of the inability to mistake [illegible] says:—"I have known more than one example of every [illegible] disease of the lungs [illegible] and that those persons [illegible] was looked upon [illegible]

From the above facts it will be well understood [illegible] we may have a patient to come to us [illegible] and that those persons [illegible] had only pain [illegible] kingdoms, when taxed [illegible] attending [illegible] of my next letter.

PAIN KILLER!

THE GREAT FAMILY MEDICINE OF THE AGE.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS!

OUR FIRST PHYSICIANS USE AND RECOMMEND ITS USE.

IT ENJOYS THE LARGEST SALE OF ANY PROPRIETARY MEDICINE IN THE WORLD.

THE PAIN KILLER

Has been favourably known for more than thirty years, during which time we HAVE RECEIVED THOUSANDS OF TESTIMONIALS, showing this Medicine to be an almost NEVER FAILING REMEDY for diseases caused by or attendant upon—Sudden Colds, Coughs, Fever and Ague, Headache, Bilious Fever, Pains in the Side, Back and Loins, as well as in the Joints and Limbs; Neuralgic and Rheumatic Pains in any part of the System, Toothache and Pains in the Head and Face.

AS A BLOOD PURIFIER AND TONIC FOR THE STOMACH,

It seldom fails to cure Dyspepsia, Indigestion, Liver Complaint, Acid Stomach, Heartburn, Kidney Complaints, Sick Headache, Piles, Asthma or Phthisic, Ringworms, Boils, Felons, Whitlows, Old Sores, Swelled Joints, and General Debility of the System.

IT IS ALSO A PROMPT AND SURE REMEDY

For Cramp or Pain in the Stomach, Painters' Colic. Diarrhœa, Dysentery, Summer Complaint, Cholera Morbus, Cholera Infantum, Scalds, Burns, Sprains, Bruises, Frost Bites, Chilblains, as well as the Stings of Insects, and the Bites of Poisonous Insects and Venomous Reptiles.

☞ Directions accompany each bottle.

It has been tested in every variety of climate, and by almost *every nation known* to civilization. It is the almost constant companion and inestimable friend of the *Missionary*, and no *traveller* should be without it. Like every other good thing, the Pain Killer has been extensively counterfeited; which, (while it is an acknowledgment on the part of the counterfeiters of its real worth) is a serious hindrance to its usefulness as the deceived purchaser estimates the value of the *Pain Killer* by the base compound he has purchased for the genuine article.

Purchasers should be careful and not allow the dealer to sell them worthless imitations, on which they realize a larger profit, but take only the *Pain Killer* and see that it is the genuine, bearing the signature of Perry Davis and Son upon the label.

The Pain Killer is sold at wholesale by Druggists and Medicine Dealers, and Commission Merchants in the principal cities, and retailed by Apothecaries, Grocers, and at Variety Shops generally throughout the world.
