MOTHERS, READ THIS!
Holloway's Worm Lozenges
ARE a certain and safe remedy for Children and Adults. As it is a sad and melancholy fact that one great cause of death among children is from Worms, it cannot be too deeply impressed upon the minds of parents the necessity of ridding their children. By so doing many of the symptoms and true cause of the thousands of children might be saved from graves.
SYMPTOMS OF WORMS.—The following few of the very numerous symptoms which are caused by Worms: Want of appetite, emaciated extremities, cough, frequent picking at the nose, grinding teeth during sleep, hardness of the belly, frequent slimy stools, and sometimes fits, pain in the head and stomach, faintings, tremblings, cough, disturbed spirits, frightful dreams, and a wasting away of flesh.
They are palatable and safe in all cases, and the child—drive out the worms, take out pain, and completely change the system, thereby doing away with the necessity of administering Castor Oil or other nauseous purgatives—as in the use of other Worm Lozenges.
☞ Each Box contains the full direction of NORTROP & LYMAN, Druggists, who are the sole proprietors.
N. B.—Ask for Holloway's Worm Lozenges and take no other. Sold by all Druggists in Kingston and all Medicine dealers.

WEDNESDAY EVENING, APRIL 15.

BOY'S LIFE PRESERVED BY A DOG.

On Wednesday two boys, named Lynch and Robinson, aged respectively nine and eleven, went to the woods west of the village to make a grain of hickory to make a whip out of. They ventured out so far that they got lost, and in their bewildered state they could not find their way home. While they were wandering about in the woods they espied a black lamb, and thinking to chase them, and Lynch told his companion he was going to catch it, and they gave chase. In a few minutes the lamb had both disappeared in a thick underbrush. Nicholson at the same time for Lynch to try to find the way back to the village, which he succeeded in doing, and arrived at home late in the evening. Young Lynch, however, was not so fortunate. He wandered about in the woods all that night, when he lost all hope of finding his way out of the forest, and lying down beside a log and slept till morning. Being refreshed by his sleep, he again went forth with more hope to find his way home. But after wandering through the wood all day (Thursday), was again compelled to lay down upon the cold ground, with no roof but the blue sky. He had but just become drowsy when an unexpected and welcome visitor arrived to share his lonely bed and keep him company. This strange visitor was a large Newfoundland dog, who stayed with the little fellow till Friday morning. A short time after daybreak he awoke, quite refreshed and cheerful, and started to leave young Lynch, but he had enough of foresight to follow the dog, and was conducted by the faithful animal to the road, where he saw a farmer's waggon. He hailed the man, and after telling his adventure, was put into the waggon and brought to his home. The joy of the parents upon his safe return can be better imagined than described. After searching for their boy in every possible place where it was thought he might be, without avail, they had about given up all hopes of finding him, and there is no doubt but if it had not been for that Newfoundland dog, the child would have starved to death, or died of fright in the noisome forest. During the several nights that he was lost, he had not a mouthful to eat, and his clothes showed plainly that he had cried extensively in tears.—*Keokuk Gazette.*

One of the most wonderful cities in the world is Bankok, the capital of Siam. On the side of the noble majestic stream, with its regular streets and alleys, extending as far as the eye can reach, are upwards of a thousand neat little houses, all floating on a compact raft of bamboo. The whole intermediate space of river is one dense mass of boats and boats of every conceivable form and size.

Crops grow marvellously in Victoria, and general prosperity. The town of Melbourne, the capital of the province, has a population of eight thousand. The population is now one hundred and twenty-eight thousand. The province of Otago, one of the provinces into which Victoria is divided, had a population of six hundred and twenty, and the population was sixty-one. Twenty-three years ago the province of South Australia was nineteen years old, and in 1866 it was one hundred and twenty thousand.

The London Times lays stress on the fact that Napier has promised nothing to the Prince of Tigre, and that we shall assuredly take no active part in Abyssinian affairs, even if the war is over. But a clever pamphlet whether Kassai or another, will make a good deal of British alliance. We have much of a kind that Abyssinia does not produce. Herds of cattle and flocks of sheep may be paid for, and Indian dollars may be converted into Remington rifles and Armstrong guns; the ornament of Tigre may obtain a splendid pre-eminence which it could never hope for in some future time under Theodore for the throne. Then, Napier leaves much behind it. Supplies of every kind he can and will may receive as presents, or be allowed to purchase at an enormous profit, which may be invaluable in any point, perhaps, in Abyssinia. It is impossible not to see that King Theodore persists in his course, and will not only be defeated by our army, but will have his rivals, who have hitherto shunned him, and have become his enemies during their absence, come to his assistance. The present campaign may, whatever may be our participation in the work, produce a change in the Abyssinian dynasty. In such a case it is to be hoped that we may obtain possession of the country, and be enabled to open it by our enterprise to the free intercourse of the world.

Intelligence from Saint Denis, Reunion, 19th of February, in the *Paris Journal* has the following: "A terrible hurricane has lately taken place on this island, which has left the recollection of the Island of Saint Paul, Captain Bouchet, of the Calcutta for Marseilles the 19th of last month, and was lost on the reef of Saint Brandon. Having left the ship, the crew took to the boats, to endeavor to reach Reunion. The latter contained 64 persons, and disappeared, while the ship continued its voyage towards Marseilles. Ten days after abandoning the ship, the boats had no more provisions, and were cruelly from hunger and thirst, and succumbed to fatigue. The mate proposed that they should throw themselves together: this was rejected, and the decision was made to draw lots as to which should be killed and served as food. The victim was designated by his fate with resignation. After this horrible sacrifice, on the 16th of January, the boat touched at Rodriguez, and there these poor people, dead and alive, were received by the inhabitants, who, after giving them food and clothing, sent them on to the French consul. They arrived on the 18th of February, in a very deplorable state, and were at once placed in hospital. An inquiry has been opened into this unhappy affair."

To protect his face from the whisking of his cows' tails, while milking, a Herkimer co., N. Y., dairyman stretched a stout wire across the stable, immediately back of the cows. In the brush of each cow's tail he fastened a small iron ring. A hook upon the wire secures the offensive member out of the way of the milker.

The New York *World* tells a story of a clever French writer, who, being unable to find a publisher, went to the country and commenced blacksmithing. But the greater part of his time was devoted to the composition of three large volumes of poetry and essays, which he published as the works of a journeyman blacksmith. The plan succeeded, and it is added that the people were delighted, and that the poems of this "child of nature," this "untutored genius," this "inspired son of Vulcan," were immensely praised by the critics, and were extensively purchased.

Operations on the new hotel at Niagara have commenced, and by the contract it is to be finished by the 1st of July. The building will have 120 feet frontage, will be four stories high, with an observatory. It will have a depth of 126 feet, not including the kitchen, with an entrance hall 40 by 40 feet, and a dining hall 40 by 70 feet, besides parlours and suites of rooms on each floor. A croquet ground, shooting gallery, bowling-alley, with other arrangements, are to be constructed, together with bathing houses running into the lake on rails. The building is to be of wood, and in the modern Swiss style.

Ling Look, a Chinese sword-swallower, was exhibited recently in Marseilles. Having swallowed the sword as far as the handle, Ling fastened to the guard a rifle, pulled the trigger, and discharged the piece. Having seized the sword between his teeth to guard against the recoil of the rifle, the latter kicked and forced the sword into the coat of his convenient stomach. He fell down a prey to dreadful internal sufferings, when the doctors who were present rushed upon the stage and drew the Celestial's sword from its lugubrious sheath. Ling is getting better, and will at present have no occasion to use his coffin, which always accompanies his baggage.

A CHILD ATTACKED BY RATS.—There is now under treatment in St. Mary's Hospital London, a child which has had a narrow escape of being eaten alive by rats. The child, Ellen Drummond, aged only six months was left in the cradle at Carlisle-mews, last Saturday, by the parents, who went out for the purpose of earning their livelihood. A short time after it had been left, the brother went home and heard it screaming violently. Upon pushing open the room door, a swarm of excessively large rats leaped from the cradle and retreated by holes in the flooring, wainscot and back of the fireplace. Upon approaching the child he found it had been bitten in a dreadful manner; pieces had been bitten out of the face, and the fingers were cut through to the bone, the number of wounds altogether being 18. The rats seem to have bitten more for the purpose of drawing and sucking blood, as many of the wounds were not completely torn open, but showed the incisions made by the teeth from which blood had flown freely. The child was taken to the medical man, who, after attending to it temporarily, ordered it to be conveyed to the hospital.

A FIERY DRAGON.—The most remarkable thing in the marine illuminations on the arrival of the Duke of Edinburgh in the harbour of Sydney was a huge representation of a fiery dragon. The Australian Steam Navigation Company's steamer *Yaamba* was enclosed on both sides by transparencies, which formed a very striking and minutely-accurate picture of the popular notion of a dragon—the eyes, scales, claws, teeth, and ears of the monster all being well-proportioned, and clearly discernible even at a considerable distance. The length of the figure was 102ft., and the height at the head (in the bows of the vessel) was 29ft. The jaws were about 19ft. long, and they were distended so as to leave an aperture for the mouth of from 6ft. to 7ft. The eyes of the monster were very admirably represented, the shading of the colours—green, black, and red—being exceedingly effective. The tail consisted of twenty-five ships' boats, over each of which, from stem to stern, rows of lantern were hung. A number of men inside the *Yaamba* were stationed at the bows, and as the monster moved along it was made to spit forth a shower of rockets and other descriptions of fireworks, while the boats astern made an immense display of a similar character. The vessel was towed by the *Atlanta*, but this was not perceivable at a distance. Three or four steamships and a large number of small boats crowded with excursionists escorted the serpent, and the people loudly cheered its progress, as did also the occupants of the ships by which the monster glided.—*Australian paper.*

NEGRO SAVINGS.—That the negro is not utterly thriftless is shown by the financial statement of the National Freedmen's Savings and Trust Company for the year ending March 1, 1868. About two years ago some philanthropic gentlemen undertook to teach habits of economy to the freedmen by the establishment at various points in the South of Savings Banks exclusively for their use. There are now twenty of these banks, all in the southern States, save one in New York City. The amount of deposits during the month of February was $181,566; of drafts, $164,655; net gain and deposits, about $17,000. The whole amount due to depositors on the 1st of March, 1867, was $373,539; the amount due on the 1st of March, 1868, was $638,299; increase for the year, $269,760. The amount deposited from the opening of the institutions was $3,582,278; the amount withdrawn, $2,944,079; the balance due depositors on the 1st inst., as above, 648,299. Considering the straitened circumstances of these people, not one-tenth of whom are anywhere near the banks, and in view of the thousand discouragements that beset them—the contumely of white enemies, the scarcity of employment where there is work, the sneer and the scoff, the direct insult that meet them everywhere—we look upon this actual saving of three and a half millions of dollars as most honourable. Had these men received fair encouragement, these three and a half millions would have been thirty millions. As it is, we are confident that they have put in bank a larger per-centage, according to their numbers, than have the whites who mock their efforts and trample upon their rights.—*Tribune.*

TESTIMONIAL
From Sig. Carlo Mora, Professor of Music, Kingston:
HAVING had ample opportunity of testing Mr Reyner & Son's Tuning and Repairing of Pianofortes, &c, since I have been in Kingston, I heartily recommend them to all those having Instruments to tune or repair, and would further advise those that have Instruments that are not in good order, to give them a call at once, as delay will only occasion more work and money when it is done.
SIG. CARLO MORA,
Professor of Music,
Kingston.

FROM MR RIDDELL.
MR REYNER has recently re-covered the Hammers of the Pianoforte used in my family with the new improved patent leather, and otherwise repaired it. He has also tuned it, and it is altogether much improved, the quality of the tone being greatly better than before the Instrument was put into his hands. I shall certainly continue to keep the piano under his charge for the future.

HOOFLAND'S GERMAN BITTERS
AND
HOOFLAND'S GERMAN TONIC.
THE GREATEST REMEDIES FOR ALL DISEASES OF THE
Liver, Stomach, or Digestive Organs.
HOOFLAND'S GERMAN BITTERS
Is composed of the pure juice (or, as they are medicinally termed *Extracts*) of Roots, Herbs, and Barks, making a preparation, highly concentrated, and entirely *free from alcoholic admixture of any kind.*
HOOFLAND'S GERMAN TONIC,
Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c., making one of the most pleasant and agreeable remedies ever offered to the public.
Those preferring a Medicine free from Alcoholic admixture, will use
Hoofland's German Bitters
Those who have no objection to the combination of the Bitters, as stated, will use
Hoofland's German Tonic.
They are both equally good, and contain the same medicinal virtues, the choice between the two being a mere matter of taste, the Tonic being the most palatable.
The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to become deranged. The Liver, sympathizing as closely as it does with the Stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:
Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and the Great Depression of Spirits.
The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his disease, purchasing only that which he is assured from his investigations and inquiries possesses true merit, is skillfully compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of these diseases. In this connection we would submit these well-known remedies—
Hoofland's German Bitters,
AND
Hoofland's German Tonic
PREPARED BY Dr. C. M. JACKSON,
Philadelphia, Pa.
Twenty-two years since they were first introduced into this country from Germany during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.
These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhœa, Diseases of the Kidneys and all Diseases arising from a Disordered Liver, Stomach, or Intestines.
DEBILITY,
Resulting from any Cause whatever
PROSTRATION OF THE SYSTEM,
induced by Severe Labor, Hardships, Exposure, Fevers, &c.
There is no medicine extant equal to these remedies in such cases. A tone of vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eye, a bloom is given to the cheeks and the weak and nervous invalid becomes a strong and healthy being.
PERSONS ADVANCED IN LIFE,
And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS, or the TONIC an elixir that will instill new life into their veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.
NOTICE.
It is a well-established fact that fully one-half of the female portion of our population are seldom in the enjoyment of good health; or, to use their own expression "never well." They are languid, devoid of all energy, extremely nervous, and have no appetite.
To this class of persons the BITTERS, or the Tonic, is especially recommended.
WEAK AND DELICATE CHILDREN
Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.
Thousands of certificates have accumulate in the hands of the proprietor, but space will allow of the publication of but a few. Those will be observed, are men of note and of such standing that they must be believed.
Testimonials.
HON. GEO. W. WOODWARD,
Chief Justice of the Supreme Court of Pa. writes:
Philadelphia, March 16, 1867.
"I find, Hoofland's German Bitters is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility, and want of nervous action in the system. Yours truly,
GEO. W. WOODWARD."
HON. JAMES THOMPSON,
Judge of the Supreme Court of Pennsylvania
Philadelphia, April 28th, 1866.
"I consider "Hoofland's German Bitters" a *valuable medicine* in case of attacks of Indigestion for Dyspepsia. I can certify this from my experience in it. Yours, with respect,
JAMES JOHNSTON."
FROM REV. JOSEPH H. KENNARD, D. D.
Pastor of the Tenth Baptist Church, Philadelphia.
Dr Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of different kinds of medicines but regarding the practice as out of my appropriate sphere, I declined; but with these various instances in my own family, I have in all cases found a clear proof in the efficacy and particularly of the superiority of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.
Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates St.
FROM REV. E. D. FENDALL,
Assistant Editor *Christian Chronicle*, Philada.
I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.
Yours truly,
E. D. FENDALL.
