A Paris correspondent writes:—While the ... have just ordered the dresses of the dan... ... at the theatres to be carried a little low... ... society has just been formed at Toulouse to ... ladies to leave their evening dresses carried ... a little higher. "Some of the articles of associa... ... in the following style, are rather amusing. ... Whereas, ladies are wearing their dresses more ... and more open, and as it is impossible to see to ... what point fashion will cause them to descend; ... and whereas, the habit of wearing dresses which ... expose the shoulders, the neck, and arms, in all ... their nakedness, is heathen, anti-Catholic, fatal ... morals, &c., we have resolved to form a socie... ... to emulate this fatal custom," &c. A book ... with stamps be open at the rooms of the society ... which all ladies are invited to sign, declaring as ... follows: "I hereby agree never again to wear a ... low-neck dress;" and a second for dressmakers ... to sign, declaring that "the undersigned dress... ... &c., hereby bands herself never again to ... assist in making a robe decollette." The pro... ... of the good work go on to say: "We ... have that many ladies and dressmakers will re... ... but, we shall know, then, how to class ... them. Two classes will then be in opposition ... in the fashion will be Christian, and in the ... world, younger Pagan ladies and dressmakers, ... as the case may be." It seems that fourteen la... ... in Toulouse have already signed. On ex... ... it appears that these fourteen ladies ... are all an less or less, and the rest of the ... town are smoking themselves at their ex... pense.

A Petrified Indian Foot.—John Reinhardt ... of this city, has a specimen of petrifaction, sup... posed to have been the foot of a Delaware In... dian. Upon a nearly square stony substance, 16 ... by 10 inches, and varying from 1 to 2 inches in ... thickness, resembling lava in formation, and ... slightly indented, is a smooth hard stone of a dif... ferent consistency, having the appearance of a ... human foot. The specimen was dug out of the ... ground in a swampy spot, three miles from New... burgh, Orange county, six years ago, by a Ger... man who kept a hotel near by. He thought it ... would be a good thing to scratch matches on, ... and accordingly took it home, where he used it ... for that purpose. Mr John Reinhardt, of this city, ... hearing of it, and made up his mind that it was ... a petrified object of some description. He stat... ... of his belief to the owner, and offered to buy it. ... At the latter, thinking it might be of some val... ue, seemed unwilling to part with it. However, ... Mr Reinhardt finally prevailed upon the owner ... to give it to him, for a consideration of a stone ... match safe. Mr R. brought it to Poughkeepsie, ... and kept it in his possession until the year 1861, ... when he sent it to Germany to be used in the ... construction of the Schiller monument. It ar... rived too late for that purpose, but it attracted ... the attention of several eminent German medi... cal professionals, who examined it and pronounc... ed it to be a human foot, formerly belonging to ... an Indian. The substance in which the foot is ... imbedded, they said, was originally blood. Sub... sequently it was returned to Mr Reinhardt.—*Poughkeepsie Express.*

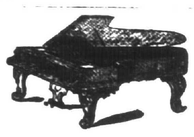
it is particularly adapted. For sale at an early hour, every morning, by

J. G. KING, Chemist & Druggist, Apothecaries Hall.

May 15.



IRON-CLAD

PIANO FORTES!!

John C. Fox's Patent.

F. C. CLINE respectfully informs the public of the Dominion that he is the purchaser of the Stock-in-Trade and the Patent Rights from the Assignee of the above eminent maker, and that he is carrying on the manufacture in the principal and original premises, on the corner of Princess and Ontario Streets, Kingston.

From the long established reputation of these splendid Instruments, it is unnecessary to say anything further in their commendation. He will only remind the public that THEY HAVE ALWAYS OBTAINED THE FIRST PRIZE WHEREVER THEY HAVE BEEN EXHIBITED and that the continents of Europe and America for twelve months were challenged for $1,000 each side to produce a Piano to compete with the Patent Iron-Clad, WHICH CHALLENGE WAS NEVER ACCEPTED. Since then further improvements on the Patent Iron-Clad Sounding Board have been effected, whereby the sonorousness and the vibratory powers of the Instrument has been increased.

F. C. CLINE was the first purchaser of the Stock, and was thereby enabled to cull the workmen employed by the late Mr John C. Fox, retaining only the most steady and proficient, which is an assurance to the public that in addition to the advantages of the Patent Right, they may depend that every Piano will be constructed in the most skilful and artistic manner, upon which the qualities and durability of the Instruments so much depend.

He wishes further to state that he has retained the services of Mr Wm. Cunningham as Tuner and General Superintendent of the Factory, and that every Instrument, in every stage of its manufacture, willl pass under his immediate supervision, which, from Mr Cunningham's well known musical knowledge and ability, and his established reputation during 18 years as a first-class Tuner, will be a sufficient guarantee of the perfection of every Instrument. Mr Cunningham has lately made an alteration in the construction of the Sounding Board by which the treble notes obtain a brilliant and flute-like tone, far surpassing anything heretofore produced.

Mr Thos. H. B. Purdy is still the Travelling Agent, and as he is personally interested in pleasing his customers, they may depend that any orders entrusted to him will be selected to their satisfaction, and on the same terms that they are to be obtained from the Factory.

F. C. CLINE further reminds the public that, being the purchaser of the Patent Right, he is the only person entitled to make and sell the Patent Iron-Clad Pianos, and that proceedings will commence forthwith against any party infringing the Patent.
