TELEGRAPH.

CABLE NEWS.

London, May 15, midnight.—In the House of Commons, this evening, Mr Bright presented the petition from the people of Nova Scotia praying Parliament to repeal the Act by which that Province was united to the Dominion of Canada. The petitioners complain that the Canadian Union Act was an outrage, a fraud and unjust, the result of intrigue and fraud practised upon the people, and of fraud practised on Parliament. After the reading of the document, the evening of the 26th was assigned for debate on the subject.

Paris, May 15, evening. An ultimatum has been dispatched by the French Government to the Bey of Tunis.

Rome, May 15.—An ecclesiastical deputation waited upon the Queen yesterday, and presented an address from the Hierarchy of the Irish Church, giving their views in regard to the great changes contemplated.

The Queen replied in vague terms, committing herself to the policy neither of the Church nor of the Liberal party.

Chester, May 15.—G. F. Train delivered his address in this city last night, to a small—proceedings undisturbed, and excited but little attention.

Halifax, May 15.—Rev. Dr. James McCosh, of Queen's College, recently elected President of Princeton College, New Jersey, has finally decided to accept the position.

Southampton, May 16.—The steamer Hansa, from New York, has arrived.

Liverpool, May 16.—The steamer Java, from New York, has arrived.

New York Press Despatches.

Washington, midnight, May 15.—The entire confidence of both sides is unshaken. In the judgment of your correspondent, the chances are about even. One hour decides the result.

The *Tribune's* special says.—A careful survey by some of the most sagacious members of Congress shows that the verdict of history will be, as the vote of Mr Wade of West Virginia, as the opinion in the galleries goes to-night. The Court will decide the vote to-morrow.

New York, May 16.—The *Commercial's* Washington special says.—The President's friends assert eighteen senators as positively committed on all the articles. This is sufficient to acquit without Wade's vote. If he intends to vote, it is claimed that at least seven of the border state senators will balance his vote. The Republicans are certain of the necessary thirty-six votes for conviction on any one article, though they have received assurance of the votes of that number of Senators.

A special to *Evening Telegram* says:—A portion of the Missouri delegation in the House called on Senator Henderson last night, who said that acquittal in his opinion would result disastrously to the country. The President had promised he would definitely and in those who would vote believed that a new cabinet all Republicans would execute the laws passed by congress and would no longer obstruct the execution of the Reconstruction Acts; and he would endeavour to bring his administration into harmony with Congress. Further promises to support those Republicans who vote for acquittal with the whole power of the administration before the people.

Washington, May 16.—Immediately on the Senate not guilty on the 11th article Mr Williams moved an adjournment until 12th inst. The motion was carried by yeas 21 and court adjourned.

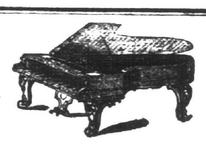
The *Nouveau Monde* states that a petition is being prepared to impeach another Montreal Judge on grounds of insolvency and partiality.

A VILLANOUS ACTION.—As the night express train on the Grand Trunk Railway was nearing Newtonville station, on Wednesday evening last, a large stone (thrown with great violence by some person on the side of the track,) entered through a pane of glass, scattering the fragments in all directions, and considerably alarming the passengers sitting in the vicinity. The stone struck a young lady on the forehead, inflicting a severe wound. We understand that on the same night a couple of panes of glass were smashed in the window of a sleeping car while in motion on the line near the above-mentioned station.—*Spectator.*

The Quebec *Chronicle* states that on Tuesday morning, about eight o'clock, a most distressing accident occurred to a little girl of four years of age, the child of a soldier stationed in Desbarats' building, corner of Ann and Garden streets. It seems the child was at play close to a tub of boiling water, filled for the purpose of washing clothes, when she suddenly tripped and fell head-foremost into the tub. The unfortunate little sufferer was rescued almost immediately, but not before she was very badly scalded. Medical attendance was promptly obtained, and strong hopes were entertained of her ultimate recovery.



IRON-CLAD

PIANO FORTES!!

John C. Fox's Patent.

F. C. CLINE respectfully informs the public of the Dominion that he is the purchaser of the Stock-in-Trade and the Patent Rights from the Assignee of the above eminent maker, and that he is carrying on the manufacture in the principal and original premises, on the corner of Princess and Ontario Streets, Kingston.

From the long established reputation of these splendid Instruments, it is unnecessary to say anything further in their commendation. He will only remind the public that THEY HAVE ALWAYS OBTAINED THE FIRST PRIZE WHEREVER THEY HAVE BEEN EXHIBITED, and that the continents of Europe and America for twelve months were challenged for $1,000 each side to produce a Piano to compete with the Patent Iron-Clad, WHICH CHALLENGE WAS NEVER ACCEPTED. Since then further improvements on the Patent Iron-Clad Sounding Board have been effected, whereby the sonorousness and the vibratory powers of the Instrument has been increased.

F. C. CLINE was the first purchaser of the Stock, and was thereby enabled to call the workmen employed by the late Mr John C. Fox, retaining only the most steady and proficient, which is an assurance to the public that in addition to the advantages of the Patent Right, they may depend that every Piano will be constructed in the most skilful and artistic manner, upon which the qualities and durability of the Instruments so much depend.

He wishes further to state that he has retained the services of Mr Wm. Cunningham as Tuner and General Superintendent of the Factory, and that every Instrument, in every stage of its manufacture, will pass under his immediate supervision, which, from Mr Cunningham's well known musical knowledge and ability, and his established reputation during 18 years as a first-class Tuner, will be a sufficient guarantee of the perfection of every Instrument. Mr Cunningham has lately made an alteration in the construction of the Sounding Board by which the treble notes obtain a brilliant and flute-like tone, far surpassing anything heretofore produced.

Mr Thos H. B. Purdy is still the Travelling Agent, and as he is personally interested in pleasing his customers, they may depend that any orders entrusted to him will be selected to their satisfaction, and on the same terms that they are to be obtained from the Factory.

F. C. CLINE further reminds the public that, being the purchaser of the Patent Right, he is the only person entitled to make and sell the Patent Iron-Clad Pianos, and that proceedings will commence forthwith against any party infringing the Patent.
